AIR FORCE
OFFICER CLASSIFICATION
DIRECTORY
(AFOCD)

The Official Guide to the
Air Force
Officer Classification Codes

A Specialty for Every Air Force Job
and
The Qualifications Necessary to Perform Each Job

OPR: HQ AFPC/DPSIC
Supersedes AFOCD 30 April 2015

Certified by: HQ AFPC/DPS
This Guide established the occupation structure of the Air Force officer force and implements Air Force Policy Directive (AFPD) 36-21, *Utilization and Classification of Air Force Military Personnel*. The occupational structure is flexible to permit officer personnel to broadly specialize as necessary to meet changing mission requirements. Refer to AFI 36-2101, *Classifying Military Personnel (Officer and Enlisted)*, for military classification tenets and base level procedures. Specialty descriptions and other identifiers outline essential Air Force managerial, technical, and professional duties. The job structure and specialties provide a planned pattern of officer abilities. Officers must work with commanders and supervisors to develop their capabilities within these specialties. Maintain and dispose of records created as a result of prescribed processes in accordance with the Records Disposition Schedule (RDS) accessed from the web-based Records Information Management System.

**SUMMARY OF REVISIONS**

This guide is the official directory for all military officer classification descriptions, codes, and identifiers. Updates to this directory are according to the Air Force Career Field Managers’ Guide available at the [myPers](https://myPers). This update contains all changes that have been approved subsequent to 31 October 2015 and provides Change Summary and Conversion Instruction Guides (CS&CIG) or Change Summary Guides (CSG). Each CS&CIG will include a summary of each change, conversions instructions for all AFSC changes, mergers, additions, realignments, and deletions of classification identifiers, and appropriate page changes to the directory. Subsequent Change Summary Guides along with the description changes will be identified by the effective date and its numeric sequence for that particular year. Additionally, minor changes and corrections throughout the publication include correcting spelling or editing errors. When a star (★) precedes the specialty description or title, it denotes a major or significant revision from the previous edition – the reader must read the particular section of the publication in its entirety to determine the extent of the changed material.

1. **Using This Directory**

1.1. This Directory contains the Change Summary and Conversion Guide, Officer Classification Structure Chart, Authorized Prefixes, Reporting Identifiers, Special Duty Identifiers, Air Force specialty descriptions, List of Officer AFSCs Authorized for Use Without Shredouts, and Officer Special Experience Identifiers. The descriptions and codes identify different types of jobs, and qualifications needed to fill them and succeed in an AFS. These standards help classify and assign officers, develop programs for training and professional development, and structure unit manpower documents.

1.2. AFI 36-2101, *Classifying Military Personnel (Officer and Enlisted)*, provides guidance to award and withdraw officer classification codes. Manpower procedures are in AFI 38-201, *Determining Manpower Requirements*, respectively.

**Prefix A** identifies positions on manning documents and officers serving in, or qualified to serve in, positions requiring knowledge of the characteristics, operation, integration, and effects of fighter, bomber, airlift, rescue, reconnaissance, information operations, space, and weapons on the operational level of warfare, and the ability to instruct in this discipline.

The operational warfare instructor plans, organizes, and instructs in all areas pertaining to the development and execution of an Air Campaign. This includes the integration and execution of all capabilities and forces on the operational level of warfare. Operational warfare instructors will normally be assigned as cell and team chiefs in operational Air Operations Centers. Cell and Team Chiefs of the following areas are authorized attendance to the C2WAC: Strategy, Plans, Ops, ISR, Air Mobility, JGAT, Ops Assessment, MAAP, ATO Production, C2 Plans, Off Ops, Def Ops, TMO, Tgt/BDA, ACF, ISR Ops, IW, Space, Comm, Rescue, Legal, Logistics, SOLE.

Affix to the Duty AFSC upon assignment of officers to these positions and retain only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which qualification is demonstrated. Retain so long as the officer remains qualified.

Officers must possess the following prerequisite for award of this prefix:

- Completion of the Command and Control Warrior Advanced Course (C2WAC) (PDS code CON).

Use prefix A only with the following awarded AFSCs:

11X 12X 13X 13CX 13DX 13L1/L2/L2A/L3/L3A 13MX 13NX 13SX 14NX 16G 17DXX 17SXX 18X 21AX 21MXX 21RX 51J

**Prefix B** identifies positions on manning documents and officers serving in, or qualified to serve in, positions as Squadron (Sq) Operations Officer or senior Sq Operations Support Officer in operational Sqs assigned to operations groups at the wing level.

*NOTE:* This prefix is not authorized for use in operations groups at any level, or in Squadrons that report directly to organizations above wing level (e.g. FOA, DRU, NAF, and MAJCOM). It is authorized for use in operations Squads or in operations support Squadons that report to an operations group aligned directly under a numbered Air Force ([NAF]). Also, it is authorized in Weather Squadrons that are assigned to an Air Operations Group aligned under a NAF, and in Intel Squadrons assigned to independent Intel Groups aligned directly under Air Intelligence Agency.

This prefix is restricted to Maj or Lt Col authorizations on manpower documents.

Affix to the Duty AFSC upon assignment of officers to these positions and retained only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) if the officer demonstrates qualification as a Squadron Operations Officer or Squadron Operations Support Officer.

Retain the prefix as long as the officer remains qualified.

Use prefix B only with the following awarded AFSCs:

11X 12X 13X 14N 15W 17D3 17S3 18X 62E3F

<table>
<thead>
<tr>
<th><strong>C</strong></th>
<th>Commander</th>
</tr>
</thead>
<tbody>
<tr>
<td>(Changed 31 October 2015)</td>
<td></td>
</tr>
</tbody>
</table>

**Prefix C** identifies positions on manning documents and officers serving in, or qualified to serve in, positions of command below group level, such as squadrons, headquarters squadron sections, support squadrons, and detachments.

**NOTE:** Persons serving in, or qualified to serve in, C prefix positions must be delegated authority, in writing, to administer actions under Article 15 Uniform Code of Military Justice.

Affix to the Duty AFSC upon assignment of officers to these positions and retain only so long as they are incumbents.

Award and affix to the awarded qualified (XXX3/X) AFSC (primary, second, or third) when qualification as a commander has been demonstrated. Normally, Prefix C will be affixed to the awarded AFSC in which duty as a commander is being performed. It will be retained as long as the officer remains qualified as a commander.

Officers must possess the following prerequisites for the award of this prefix:
1. Knowledge of military administration, military justice, and personnel management.
2. A minimum of 12 months of experience in a command position before award.
3. Have met the qualifications for and been awarded the qualified (XXX3/X) functional AFSC IAW AFI 36-2101 and the individual AFSC specialty description herein.
4. Certification by immediate supervisor that the officer possesses commander qualifications.

The following AFSCs **are not authorized** for use with Prefix C:
- 10C0
- 17C0
- 20C0
- 30C0
- 33C0
- 40C0A/B/C/D/E
- 44O3
- 52RX
- 60C0
- 80C0
- 81C0
- 81T0
- 82A0
- 84H0
- 86M0
- 86P0
- 88A0
- 9XXX

**Not authorized** with any 1, 2, or 4 qualification level AFSC.

<table>
<thead>
<tr>
<th><strong>D</strong></th>
<th>Advanced Logistics Officer Course Graduates</th>
</tr>

<tbody>
<tr>
<td></td>
<td><strong>Prefix D</strong> identifies positions on manning documents and officers serving in, or qualified to serve in, positions requiring functional area expertise and knowledge of the following:</td>
</tr>
</tbody>
</table>

1. AFSCs **21AX** and **21MX** – Aircraft sustainment and employment requirements of an Aerospace Expeditionary Force, all associated Agile Combat Support processes, and developing maintenance and munitions tactics, techniques, and procedures.

2. AFSCs **21RX** – Logistics readiness tactics, techniques, and procedures required to support an Aerospace Expeditionary Force, all associated Agile Combat Support process, and developing logistics readiness techniques and procedures.

Affix to the Duty AFSC upon assignment of officers to these positions and retain only so long as they are incumbents.

Award and affix to the Primary AFSC when qualification has been demonstrated.

Officer must satisfy the following criteria for award of this prefix:
1. AFSCs **21AX** and **21MX** – Successful completion of the Advanced Maintenance and Munitions Officers School (AMMOS).
2. AFSCs **21RX** – Successful completion of the Advanced Logistics Readiness Officer Course (ALROC).

Use prefix D only with the following awarded AFSCs:

- 21AX
- 21MXX
- 21RX

<thead>
<tr>
<th>E</th>
<th>Electronic Warfare (EW) Support Duty</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>(Changed 31 October 2014)</td>
</tr>
</tbody>
</table>

**Prefix E** identifies positions on manning documents and officers serving in, or qualified to serve in positions requiring functional area expertise to include:

1. The ability to plan, collect, analyze, and apply intelligence or technical support to Electronic Warfare (EW) operations, or
2. The ability to plan, program, and execute the research, development, and acquisition of EW forces, or
3. The ability to plan, program, and execute tasking of operational EW forces at a higher headquarters.

Officers in these positions require knowledge of US and foreign EW systems, capabilities, vulnerabilities, strategies, tactics, operations and related activities, and support Electronic Combat Coordinators and other EW operations positions.

Affix to the Duty AFSC on assignment of officers to these positions and retain only so long as they are incumbents.

Award and affix prefix to the awarded AFSC (primary, second, or third) in which qualification as an EW support officer is demonstrated. Retain as long as the officer remains qualified. Award by headquarters no lower than Numbered Air Force level.

Officers must satisfy one of the following criteria for award of this prefix:

1. Completion of one of the following courses plus 6 months EW duty:
   
   1.1. EW Coordinator’s Course (S-V8E-S) (PDS Code JWK);
   1.2. NATO Joint Service Course for Electronic Warfare Planning and Analysis in Exercises (PDS Code 474);
   1.3. Air Defense Command and Control Warfare Course (PDS Code 474);
   1.4. AWACS Electronic Combat Officer ECO Instructor Upgrade (PDS Code WIM);
   1.5. Fighter Electronic Combat Officer Course (PDS Code XSX),
   1.6. Non-Traditional Electronic Warfare Applications Course (NEWAC) (S-V9E-S) (PDS Code 9O1)
   1.7. Coalition/Joint Electronic Warfare Course (C/JEWC)
   1.8. Tactical Electronic Warfare Operation (TEWO) Course (3B-SI/Asl1K/230-ASI1K [CT])
   1.9. Joint Electronic Warfare Theater Operations Course (JEWTOC)

   OR

2. Twenty-four months of experience in an EW staff position.

Use prefix E only with the following awarded AFSCs:

|--------|--------|--------|----------|-------|----------|----------|

<tr>
<td><strong>J</strong></td>
<td>Parachutist</td>
</tr>
</tbody>
</table>

(Changed 31 October 2014)

**Prefix J** identifies positions on manning documents and officers serving in, or qualified to serve in, positions requiring parachutist qualifications.

Affix to the Duty AFSC upon assignment of officers to these positions and retained only as long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which qualification as a parachutist is demonstrated. Retain only so long as the officer remains qualified.

Officers must possess the following prerequisites for the award of this prefix:

1. Successful completion of parachutist training.
2. Physical qualification to perform parachute duty according to AFI 48-123, *Medical Examinations and Standards*.
3. Parachute rating.

| **K**  | Instructor |

(Changed 30 April 2015)

**Prefix K** identifies positions on manning documents and officers serving in, or qualified to serve in positions as an Instructor Pilot, Navigator, Air Battle Management Officer, Space, Nuclear and Missile Operations, Command and Control, Aerial Reconnaissance Weather Officer, or Airborne Intelligence Officer for the weapon system with which the AFSC is associated.

Affix to the Duty AFSC upon assignment of officers to these positions and retain only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which qualification has been demonstrated. Retain as long as the officer remains qualified.

Use prefix K only with the following awarded AFSCs:

| 11X3 | 12B2E | 12X3 | 13BXU | 13B3B/C/D/K/M/Y/Z |
| 13N3/2 | 13S3A/B/D/E | 13L3 | 13L3A | 13N1/2/3 |

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>L</strong></td>
<td><strong>Aircrew Flight Equipment</strong></td>
</tr>
</tbody>
</table>

Prefix **L** identifies positions on manning documents and officers serving in, or qualified to serve in, positions requiring functional area expertise with the ability to plan, organize, coordinate, and direct training of aircrews in ejection and emergency egress, parachute use, survival kits and components, protective clothing, refresher survival procedures, and rescue. Officers performing these duties determine unit aircrew flight equipment requirements; supervise use, care, storage, inspection, and fitting of aircrew flight equipment; review aircraft accident, safety, and operational hazard reports for aircrew flight related equipment; supervise training of survival training and protective equipment personnel; and supervise training of aircrews in use of aircrew flight equipment necessary to perform aircrew duties.

Affix to the Duty AFSC upon assignment of officers to these positions and retain only as long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which qualification has been demonstrated. Retain as long as the officer remains qualified.

Officers must possess the following prerequisites for award of this prefix:

1. Successful completion of a life sciences equipment investigation course and 1 year of experience as an aircrew flight officer.
2. Current aeronautical rating and current flying status orders as a pilot, Combat Systems Officer (CSO), or Air Battle Manager (ABM).

Use prefix **L** only with awarded AFSCs 11XX, 12XX, and 13BX.

| **M** | **Medical Service Specialist** |

Prefix **M** identifies officers certified by an appropriate American Specialty Board or other board acceptable to the Air Force Surgeon General. See AFI 41-104, *Professional Board and National Certification Examinations*, for a list of approved boards and certification procedures for award of prefix **M**.

Do not use this prefix on manning documents. Do not affix to the Duty AFSC of officers.

Award and affix to the awarded AFSC (primary, second, or third) in which the officer has received certification. Delete this prefix upon award of prefix **H**. In the medical career area, use only with qualified (4XX3X) awarded AFSCs.

Prefix **M** is also used to identify positions on manning documents and officers serving in, or qualified to serve in, positions as a qualified physiological training instructor in AFSCs 11XX and 12XX. Designation of these positions and certification of qualification for award of this prefix is by the office of the Chief, Flight Medicine, AFMOA.

For award with AFSCs 11XX and 12XX, completion of an approved formal physiological training instructor course is mandatory.

For physiological training, use prefix **M** only with AFSCs 11XX and 12XX.

<table>
<thead>
<tr>
<th>O</th>
<th>Support Squadron Operations Officer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prefix O</td>
<td>identifies positions on manning documents and officers serving in, or qualified to serve in, positions in non-operations squadrons assigned to non-operational groups at the wing level. This prefix is restricted to Maj or Lt Col authorizations on manpower documents. Officers must possess the following prerequisites for the award of this prefix: 1. Knowledge of the full range of functional specialty operations as well as associated support activities within the squadron to fully support the commander/director. 2. Demonstrated research, data/information synthesis, and problem solving skills addressing functional and organizational issues within and between tactical units to integrate flight/section operations to meet squadron objectives. 3. A minimum of 12 months of experience assigned against an Operations Officer unit manpower document position and performing the specified duties. 4. Certification by immediate supervisor that the officer possesses Operations Officer qualifications. Affix to the Duty AFSC (qualified only—XXX3) upon assignment of officers to these positions and retain only so long as they are incumbents. Permanently award prefix after having served 12 months in the position. Award and affix to the AFSC (primary, second, or third) if the officer demonstrates qualification as a Squadron Operations Officer (has already completed the prerequisites) and meets all other functional AFSC requirements. Prefix is NOT authorized with the following AFSCs: 11X3  12X3  13X3  14N3  15W3  17DXX  18X3  51JX  52RX  62E3F  62S0  63S0  X0C0  84H0  87G0  88A0  9XXX (except 94N0)</td>
</tr>
<tr>
<td>NOTE: This prefix is not authorized for use in groups at any level, or in squadrons that report directly to organizations above wing level (e.g. FOA, DRU, NAF, and MAJCOM).</td>
<td></td>
</tr>
</tbody>
</table>
### AUTHORIZED PREFIXES (continued)

<table>
<thead>
<tr>
<th>P</th>
<th>Pilot Required</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Prefix P</strong> identifies first lieutenant through colonel positions on manning documents and officers serving in, or qualified to serve in, positions requiring rated knowledge and background of a pilot as an integral part of position requirements. These positions are rated requirements identified with nonrated AFSCs. All nonrated AFSC positions requiring this prefix must be designated and authorized by Operational Training (HQ USAF/A3O-AT). Submit requests according to AFI 38-201, Management of Manpower Requirements and Authorizations. This prefix is not intended or authorized for use with rated AFSCs.</td>
<td></td>
</tr>
</tbody>
</table>

Affix to the duty AFSC upon assignment of officers to these positions, and retain only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, third) in which qualification is demonstrated. Retain as long as the officer remains qualified.

When prefix P is affixed to an AFSC (manpower document, duty, awarded), then one of the following suffixes must be affixed to the AFSC:

- M - RPA (11XX or 18XX)
- P - Fighter
- Q – Trainer
- R – Bomber
- S – Tanker
- T – Airlift
- V – Helicopter
- W – General
- Y - Spec Ops
- Z - C2ISREW

If an AFSC authorized for use with prefix P has authorized suffixes (e.g., 13S3A), then remove the existing suffix and use one of the suffixes listed above (e.g., P13S3W).

Officers assigned to prefix P positions must possess a current aeronautical rating and qualification for aviation service as a pilot.

Use prefix P only with the following AFSCs:

- 10C0
- 13AX
- 13MX
- 13S1A
- 13S1B
- 13S1D
- 13S1E
- 13S3A
- 13S3B
- 13S3D
- 13S3E
- 13S4
- 14NX
- 16FXJ/K
- 16PX
- 17DXX
- 20C0
- 21RX
- 30C0
- 32EX
- 38PX
- 48AX
- 48GX
- 48RX
- 48VX
- 61XX
- 62EX
- 63AX
- 62S0
- 63G0
- 63S0
- 64PX
- 80C0
- 81C0
- 81T0
- 82A0
- 83R0
- 87G0
- 8710
- 87Q0
- 91C0
- 97E0

<tr>
<th>★R</th>
<th>Contingency/War Planner</th>
</tr>
</thead>
<tbody>
<tr>
<td>(★Changed 31 October 2015)</td>
<td></td>
</tr>
</tbody>
</table>

**Prefix R** identifies positions on manpower documents and officers serving in or qualified to serve in positions requiring functional area expertise, and experience and training in contingency or war planning functions.

Affix to the Duty AFSC upon assignment of officers to these positions and retain only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) when officers demonstrate contingency or war planner qualifications. Retain until changed or revoked by the AFSC career field manager with the concurrence of HQ USAF/A3OD.

Officers must satisfy one of the following criteria for award of this prefix:

1. Successful completion of one or more of the following courses and have 6 months of experience in a prefix R position:
   1.1. MCADRE002 - Contingency/Wartime Planning Course, PDS Code 82U;
   1.2. MCADRE003 - Joint Doctrine Air Campaign Course, PDS Code W1B;
   1.3. E6A49131009 - Worldwide Military Command and Control System Intercomputer Network (H6000-CDT), PDS Code 11J;
   1.4. 4925 - Joint Operation Planning and Execution System User Course (Basic) - PDS Code W5J;
   1.5. J5OZ0900003 - Joint Medical Planners Course (JMPC) - PDS Code XH6;
   1.6. AMC TPC Tanker Planning Course - PDS Code TPI;
   1.7. Deliberate and Crisis Action Planning and Execution Segments End User Course (Basic).

OR

2. 12 months of experience in a prefix R position.

OR

3. For medical personnel (AFSCs 4XXX):
   3.1. (1) Completion of a medical planner fellowship and served 6 mos in an R prefix position and have completed (2) Contingency Wartime Planners Course (CWPC), (3) Joint Medical Operations Course (JMOC) or Air Force Medical Planners Course.
   OR
   3.2. (1) Served 12 months in an R prefix position and have completed (2) Contingency Wartime Planners Course (CWPC), (3) Joint Medical Operations Course (JMOC) or Air Force Medical Planners Course. Additional details regarding medical planner responsibilities can be found in AFI 41-106, *Medical Readiness Program Management*.

NOTE: Changes to this prefix must be approved by HQ USAF/A3OD.

<tbody>
<tr>
<td></td>
<td>(Changed 31 October 2014)</td>
</tr>
</tbody>
</table>

Prefix S identifies positions on manning documents and officers serving in or qualified to serve in positions requiring functional area expertise in Ground, Flight, Human Factors, Systems, Weapons (Missile, Explosives, or Nuclear) and Space Safety Programs. Officers awarded this prefix must be able to plan, organize, coordinate and direct safety programs, perform technical safety engineering functions, direct accident investigations, conduct safety surveys, analyze accident statistics by established standards, manage safety personnel and supervise safety education and training programs.

Affix to the Duty AFSC upon assignment of officers assigned to these positions and retain only as long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which qualification is demonstrated. Retain only as long as the officer remains qualified.

1. Weapons Safety

Officers performing duty or selected to perform duty in weapons safety functions (missile, explosives, or nuclear) must possess the following prerequisites for award of this prefix:

1.1. Successful completion of a Weapons Safety Manager course.
1.2. An entry or qualified AFSC.
1.3. Twelve months experience in a weapons safety assignment.

1.4 In the areas of weapons safety (missile, explosives, or nuclear), use only with the following awarded AFSCs:

11X4  12X4  13B  13NX  17DXX  17S3X  18X  21M3X/4X  62X  63X

2. Flight Safety

Officers performing duty or selected to perform duty in flight safety functions must possess the following prerequisites for award of this prefix:

2.1. Successful completion of a flight safety officer course, e.g., the Aviation Safety Program Management (ASPM) and Aircraft Mishap Investigation Course (AMIC), or the Air Combat Command Flight Safety Program Management Course and the AMIC, or the Air Reserve Component Chief of Safety Course (ARCCOS) and the AMIC; previous completion of the Flight Safety Officer Course (WCIP05C) or 12 months experience as a flight safety officer.
2.2. Current aeronautical rating and flying status orders as pilot, CSO, ABM, or remote pilot.
2.3. An entry or qualified AFSC.
2.4. Performance as a pilot, CSO, ABM, or remote pilot for a minimum of 4 years.
2.5. In the areas of flight safety, use only with the following awarded AFSCs:

11X  12X  13B  13L  18X

Prefix T identifies positions on manning documents and officers serving in, or qualified to serve in, positions as instructors in formal training courses. It applies to instruction in nonrated specialties, and in formal flying training courses.

Affix to the Duty AFSC upon assignment of officers to these positions and retain only so long as they are incumbents.

For award of this prefix, must successfully complete a formal instructor training course. Affix to the awarded AFSC (primary, second, or third) in which the officer demonstrates qualification. Retain only so long as the officer remains qualified.

The following instructions apply to the use of this prefix for optometrist in AFSC 42EX and for physicians in AFSCs 44XX, 45XX, and 48XX.

Do not award this prefix to officers if they possess prefix H. Otherwise, when approved by the major command, those who meet the following qualifications may be awarded this prefix to the specialty code in the medical field in which they are currently teaching:

1. Board certification in the specialty in which instruction is performed.
2. One year of teaching experience in the cited specialty.

For AFSCs 11XX, 12XX, 13BX, 13L3, 13L3A and 18XX, use prefix T to differentiate schoolhouse flying/training instructors and requirements from operational unit instructors and requirements identified with prefix K.

Officers in AFSCs 11XX, 12XX, 13BX, 13L3, 13L3A and 18XX, must successfully complete a formal instructor Training Course in the assigned specialty for award of this prefix.

For retention of the T-prefix (2AF personnel only): Must maintain Technical Training Instructor certification (not be permanently decertified) IAW 2AF Guidance Memorandum 36-01, Standards of Conduct and Training, 17 Sep 13 (expires 16 Sep 14), available on the AF Electronic Publications website and IAW AFI 33-360, Publications and Forms Management, Table 4.1. Directive Publications, item 7.

Effective 21 Nov 13.

<tr>
<th>V</th>
<th>Automated Functional Applications Analyst</th>
</tr>
</thead>
</table>

**Prefix V** identifies positions on manning documents and officers serving in, or qualified to serve in, positions requiring functional area expertise with the ability to analyze, design, and manage the computer application of an automated Air Force function. Do not use this prefix to identify positions and personnel with full qualification in the Communications-Computer Systems Career Area. The use of AFSCs 17DXX is more appropriate. The Automated Functional Applications Analyst functionally analyzes requirements, defines objectives, and determines how they can be met more effectively by automated methods. The analyst develops complete plans and constructs general and detailed flowcharts and block diagrams to depict graphically the systems logic and processing flow from initial inputs to final outputs.

Affix to the Duty AFSC on assignment of officers to these positions, and retain only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which qualification as an automated functional applications analyst is demonstrated. Retain the prefix only so long as the officer remains qualified.

This prefix is awarded and deleted by headquarters no lower than major command level.

Officers must possess the following prerequisites for the award of this prefix:

1. Extensive experience in the operational aspects of an Air Force functional area.
2. An entry or qualified AFSC.
3. A minimum of 2 years of experience in design and analysis of automated systems within that functional area (operational or technical) while serving in an authorized AFSC applicable to the particular function. Experience must include performing systems feasibility or application studies for that automated system. Full qualification in prefix G, Automated Systems Program Designer, may be substituted for 1 year of experience.
4. Knowledge of computer programming functions and techniques.
5. Certification by the unit commander or supervisor of capability to perform as a systems analyst associated with the automated functions.
6. Completion of a formal systems analyst course is desirable.

NOTE: Successful completion of the appropriate AETC course is mandatory for personnel in AFSCs 21S3/4. Only the major command may grant a waiver of the mandatory training requirement.

Use only with the following awarded AFSCs:

| 48VX | 61X3 | 62E3/4 | 62S0 | 63A3/4 | 63G0 | 63S0 | 64P3/4 | 65F4 | 71S3/4 |
| 86M0 | 86P0 |
Prefix **W** identifies positions on manning documents and officers serving in, or qualified to serve in, positions requiring knowledge of the characteristics, operation, use, tactics, and effects of strategic bomber, tactical fighter, airlift, rescue, reconnaissance, special operations, conventional and nuclear weapons, space operations or cyberspace operations, and the ability to instruct in these disciplines.

The weapons and tactics instructor plans, organizes, and instructs academic and flying training pertaining to the use of weapons; provides advice on the proper weapons and tactics for given target and adversaries with known weapons effects and kill probabilities; monitors squadron and higher level programs to satisfy unit training requirements; and maintains liaison with agencies to provide latest material available on weapons, tactics, and delivery systems and their use in fighter, bomber, special operations airlift, rescue units, space operations or cyberspace operations.

Affix to the Duty AFSC upon assignment of officers to these positions and retain only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which qualification is demonstrated. Retain so long as the officer remains qualified.

Officers must possess the following prerequisites for award of this prefix:

1. Completion of one of the USAF Weapons School Weapons Instructor courses, including SOF Division courses, the USAF/GAF Fighter Weapons Instructor course F4000FDIAA/WA, the USAF Mobility Weapons School (C-130, KC-135, C-17), Space Superiority Weapons Instructor Course (PDS 4W0), Network Warfare Operations Weapons Instructor Course, the Navy Electronic Combat Weapons School (ECWS), or the USAF Weapons Instructor Course, CCO, ACC13B3B/C/DIDOZN, (PDS Code 32N).
2. A qualified, authorized AFSC appropriate to one of the courses above.

Use only with the following awarded AFSCs:

|------|-----------|--------|-------------|--------|-----------|---------|-----------|
### Authorized Prefixes (continued)

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Description</th>
</tr>
</thead>
</table>
| X      | Nonrated Officer Aircrew Duty  
(Changed 31 October 2014) |

**Prefix X** identifies nonrated positions on manning documents and officers serving in, or qualified to serve in, nonrated positions that require participation in frequent and regular aerial flight as an integral part of assigned duties.

Affix prefix X to the Duty AFSC on assignment of officers to these nonrated positions and retain only so long as they are incumbents.

Do not affix the prefix to the Awarded AFSC (primary, second, or third).

Officers assigned to prefix X positions must meet appropriate physical standards for aircrew duty according to AFI 48-123, *Medical Examination and Medical Standards*.

| Y      | Analytical Studies Officer  
(Changed 31 October 2014) |

**Prefix Y** identifies positions on manning documents and officers serving in, or qualified to serve in, positions requiring the ability to conduct advanced analytical studies.

Analytical studies officers conduct studies and provide optimum solutions to programs for managing manpower, performance evaluation of management, operational, and conceptual systems; devise techniques for determining and portraying relative cost effectiveness information; use mathematical, statistical, and econometric models and techniques to collect, analyze, and develop solutions relating to economic utilization of Air Force resources; conduct studies to support management decisions by relating the specific and quantitative to the broad and qualitative in order to effectively communicate requirements.

Affix to the Duty AFSC upon assignment of officers to these positions and retained only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which qualification is demonstrated. Retain only so long as the officer remains qualified.

This prefix is awarded and deleted by headquarters no lower than major command level.

Officers must possess the following prerequisites for the award of this prefix:

1. At least 12 months of experience in prefix Y positions.
2. Ability to use mathematical and statistical techniques and models to compile, analyze, and evaluate data.
3. Ability to relate performance, cost, and effectiveness in studies of management, operational, and conceptual systems at all commands.

Use only with the following awarded AFSCs:

<table>
<thead>
<tr>
<th>Awarded AFSCs</th>
</tr>
</thead>
</table>
Prefix Z identifies positions on manning documents and officers serving in, or qualified to serve in, positions requiring cyberspace engineering or radio-frequency management qualifications.

Affix to the Duty AFSC upon assignment of officers to these positions, and retain only so long as they are incumbents.

Award and affix to the awarded AFSC (primary, second, or third) in which cyberspace engineering or radio frequency management training has been received. Retain the prefix so long as the officer remains qualified.

Officers must possess the following prerequisites for the award of this prefix:

1. An entry or qualified AFSC.

2. Successful completion of formal training in:
   2.1. cyberspace engineering, or
   2.2. radio frequency spectrum management.

Use only with the following awarded AFSCs:

17D3X/4X 17S3X/4X
Section II

AFSCs/Identifiers
The Operations Career Area encompasses utilization fields that directly employ weapon and supporting systems to accomplish the primary operational mission of the Air Force. Included are Operations Commander, Pilot, Combat Systems Officer (CSO), Astronaut, Special Tactics, Combat Rescue, Space, Nuclear and Missile Operations, Intelligence, Weather, Cyber Operations, Operations Support, and Remotely Piloted Aircraft (RPA) Pilot. Use AFSC 10C0 to identify Operations Group Commanders. Use prefix C with pilot, CSO, air battle manager (ABM), and RPA pilot AFSCs 11X3, 12X3, 13B3B, 13B3K, and 18X3 to identify commanders of squadrons with flying missions. Use prefix C with AFSCs 13A3, 13B3C, 13B3D, 13C3, 13D3, 13M3, 13N3, 13S3, 14N3, 16X3, 17D3X, and 17S3X to identify commanders of appropriate units.

Use the pilot, CSO, air battle manager, or RPA pilot AFSC appropriate to the type of mission and weapon system flown to identify commanders and operations officers of all squadrons with flying as their primary mission, and to identify primary duty instructor pilots, CSO, air battle managers and RPA pilots in operational units. Commensurate with grade and experience, duties as squadron commander, squadron operations officer, instructor pilot, instructor CSO, instructor ABM, or instructor RPA pilot are an inherent responsibility of rated officer specialties.

The Operations Commander coordinates and directs the efforts and resources of Operations units to meet mission goals and objectives.
OPERATIONS COMMANDER
(Changed 31 Oct 08)

2. Duties and Responsibilities:
2.1. Commands units. Formulates plans and establishes policies for unit administration, operations, training, employment, maintenance, supply, and safety. Implements directives and operations orders from higher headquarters.
2.2. Coordinates unit activities. Coordinates staff activities pertaining to administration, operations, intelligence, material, comptroller, planning, and programming to ensure accomplishment of unit mission.
2.3. Directs and monitors unit activities. Directs, observes, and evaluates effectiveness of training programs, availability and combat readiness of assigned crews, and operation and adequacy of support activities.

3. Specialty Qualifications:
3.1. Knowledge. For award and retention of this AFSC, working knowledge of leadership skills and operational employment concepts is mandatory.
3.2. Education. For entry into this specialty, a master's degree in management, or business administration with a major in management, is desirable.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For commanders of flying Groups, completion of Air Force pilot, navigator, or air battle manager training.
3.3.2. For commanders of space or missile operations Groups, completion of Air Force space or missile operations or maintenance training.
3.4. Experience. Not used.
3.5. Other.
3.5.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSC 10C0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.
PILOT UTILIZATION FIELD (11XX)

Introduction
(Changed 31 Oct 08)

The Pilot Utilization Field encompasses all functions performed by rated pilot officers to conduct or directly support flying operations, including combat, combat support, and training missions. Inherently included are supervisory and staff functions such as inspection, contingency planning, and policy formulation.

Specific instruction on use of certain AFSCs:

Identify pilots with 11XX specialties appropriate to the type of missions and weapon system involved. Use the following prefixes to identify additional rated qualifications and experience, and unit manpower document positions that require these capabilities:

   B - Squadron Operations/Maintenance Officer.
   C - Commander.
   F - Aircraft Systems Flight Evaluation.
   G - Automated Systems Program Designer.
   H - Military Consultant to the Surgeon General.
   K - Instructor for weapon system designated by AFSC.
   L - Life Support.
   M - Medical Service Specialist (Physiological Training Instructor).
   Q - Standardization or Flight Examiner for weapon system designated by AFSC.
   S - Safety.
   T - Formal Training Instructor.
   V - Automated Functional Applications Analyst.
   W - Weapons and Tactics Instructor.
   Y - Analytical Studies Officer.

Identify pilots serving as instructor pilots in undergraduate pilot training and formal training units (FTU) with a T prefix. Do not award a T prefix to instructor pilots in operational units. Prefix K identifies these instructors and authorizations.

Pilots assigned to duty as Aerospace Physiology Instructors, after completion of formal training, may be identified by prefix M. The Chief, Flight Medicine, Air Force Medical Operations Agency, validates positions and awards the AFSC.

Identify requirements for staff officers above wing level with a staff AFSC (11X4). Award individuals possessing a qualified AFSC (11X3) or a staff AFSC (11X4) upon assignment to a position so identified.

Qualification level 3 designates a pilot qualified as an aircraft commander in the assigned specialty or credit. Level 2 identifies qualification as a copilot, if appropriate, for a specific system. Level 1 identifies rated pilots at the entry level for their specialty.

Current aeronautical rating and qualification for aviation service according to AFI 11-402, Aviation and Parachutist Service, Aeronautical Ratings and Badges, are mandatory for award and retention of pilot AFSCs. See AFI 36-2101, Classifying Military Personnel (Officer and Enlisted), for policy on retention or withdrawal of rated AFSCs for personnel disqualified from aviation service or placed in an inactive status.
BOMBER PILOT
(Changed 31 Oct 12, Effective 27 Aug 12)

2. Duties and Responsibilities:
2.2. Pilots aircraft and commands crew. Operates aircraft controls and equipment. Performs, supervises, or directs navigation, in-flight refueling, and weapons delivery.
2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
3.2. Education. For entry into this specialty, undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Pilot Training (SUPT).
3.3.2. For award of AFSC 11B2X, completion of transition and operational training in the suffix specific aircraft.
3.4. Experience. For upgrade to AFSCs 11B2X/3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. The following are mandatory as indicated:
3.5.1. For award and retention of this AFSC, current aeronautical rating and qualification for aviation service as pilot.
3.5.2. For award of AFSC 11B3X, certification of aircraft commander qualification by appropriate operations authority.
3.5.3. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 11BXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

NOTE: Award of the entry level without a completed SSBI is authorized provided an interim SSBI has been granted according to AFI 31-501.

EXPERIMENTAL TEST PILOT
(Changed 31 Jan 11)

2. Duties and Responsibilities:
2.1. Plans and conducts flight test activities. Formulates test procedures and conducts tests to evaluate structural integrity, performance, handling characteristics, reliability, and suitability of aircraft and systems.
2.2. Manages research, test and evaluation projects, and programs. Integrates test objectives, organizes and directs test forces, and supervises flight operations.
2.3. Identifies design and operational deficiencies and recommends improvements. Prepares technical reports and recommendations for design improvements.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of aircraft performance and handling fundamentals, operational employment concepts, and flight test procedures.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, or engineering is mandatory.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Pilot Training (SUPT).
3.3.2. For award of AFSC 11E3X, completion of the Air Force Test Pilot School, Experimental Test Pilot Course, or equivalent US Navy or foreign test pilot school is mandatory.
3.4. Experience. For upgrade to AFSC 11E3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. The following are mandatory as indicated:
3.5.1. For award and retention of this AFSC, current aeronautical rating and qualification for aviation service as pilot.
3.5.2. For award of AFSC 11E3X, certification of aircraft commander qualification by appropriate operations authority.

FIGHTER PILOT
(Changed 31 Oct 12, Effective 27 Aug 12)

2. Duties and Responsibilities:
2.2. Pilots aircraft and commands crew. Operates aircraft controls and equipment. Performs, supervises, or directs navigation, in-flight refueling (except Q Suffix, IFF (AT-38/T-38C)), and weapons delivery.
2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Pilot Training (SUPT).
3.3.2. For award of AFSC 11F3X, completion of transition and operational training in the suffix specific aircraft.
3.4. Experience. For upgrade to AFSCs 11F3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. The following are mandatory as indicated:
3.5.1. For award and retention of this AFSC, current aeronautical rating and qualification for aviation service as pilot.
3.5.2. For award of AFSC 11F3X, certification of aircraft commander qualification by appropriate operations authority.
3.5.3. Specialty requires routine access to Top Secret material or similar environment (except Q Suffix). For award and retention of AFSCs 11FXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management. (Desirable for Q Suffix).

NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

GENERALIST PILOT
(Changed 30 Apr 14, Effective 25 Oct 13)

1. **Specialty Summary.** Develops plans and policies, monitors and evaluates operations, coordinates staff activities, and advises commanders. Related DOD Occupational Group: 220200.

2. **Duties and Responsibilities.** Monitors, evaluates, and directs flying operations and training programs. Develops requirements for equipment and training. Prepares and coordinates budgets. Analyzes rated manpower requirements and formulates personnel policies. Prepares, coordinates, and disseminates policy directives and implementing instructions. Develops contingency plans.

3. **Specialty Qualifications.** For entry into this specialty, prior qualification in any pilot AFSC (11X3) is mandatory.
   3.2. Education. Not used.
   3.3. Training. Not used.
   3.4. Experience. Not used.
   3.5. Other:
   3.5. Other: For award and retention of this AFSC, current aeronautical rating and no permanent disqualification for aviation service as Pilot.

**NOTE:** These AFSCs are normally only authorized to identify nonflying positions where designation of a specific pilot AFSC is not feasible. Use of shredouts with these AFSCs is not authorized.
RESOLVE PILOT
(Changed 31 Jan 12)

1. **Specialty Summary.** Pilots rescue aircraft and commands crews to accomplish combat, training, and other missions. Related DoD Occupational Group: 220300.

2. **Duties and Responsibilities:**
   2.2. Pilots aircraft and commands crew. Operates aircraft controls and equipment. Performs, supervises, or directs navigation, in-flight refueling, rescue operations and cargo and passenger delivery.
   2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.
   2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. **Specialty Qualifications:**
   3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
   3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
   3.3. Training. The following training is mandatory as indicated:
       3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Pilot Training (SUPT).
       3.3.2. For award of AFSC 11H2X, completion of transition and operational training in the suffix designated aircraft.
   3.4. Experience. For upgrade to AFSCs 11H2X/3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
   3.5. Other. The following are mandatory as indicated:
       3.5.1. For award and retention of this AFSC, current aeronautical rating and qualification for aviation service as pilot.
       3.5.2. For award of AFSC 11H3X, certification of aircraft commander qualification by appropriate operations authority.

TRAINER PILOT
(Changed 31 Jan 12)

1. **Specialty Summary.** Pilots trainer aircraft to accomplish the pilot training mission. Related DoD Occupational Group: 220200.

2. **Duties and Responsibilities:**
   2.1. Plans and prepares for mission. Reviews syllabus requirements, student progress, and weather information. Ensures aircraft is preflighted, inspected, loaded, equipped, and manned for mission.
   2.2. Pilots aircraft and commands crew. Operates aircraft controls and equipment. Performs, supervises, or directs navigation, transition training events, and instrument training.
   2.3. Conducts or supervises training of crewmembers. Ensures optimum training opportunities and progress by conducting or supervising student training.
   2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. **Specialty Qualifications:**
   3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
   3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
   3.3. Training. The following training is mandatory as indicated:
       3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Pilot Training (SUPT)/Helicopter.
       3.3.2. For award of AFSC 11K3X, completion of transition and operational training in the suffix designated aircraft.
   3.4. Experience. For upgrade to AFSCs 11K3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
   3.5. Other. The following are mandatory as indicated:
       3.5.1. For award and retention of this AFSC, current aeronautical rating and qualification for aviation service as pilot.
       3.5.2. For award of AFSC 11K3X, certification of aircraft commander qualification by appropriate operations authority.

RECONNAISSANCE/SURVEILLANCE/ELECTRONIC WARFARE PILOT  
(Changed 31 Jan 12)

2. Duties and Responsibilities:
2.2. Pilots aircraft and commands crew. Operates aircraft controls and equipment. Performs, supervises, or directs navigation, in-flight refueling, surveillance, reconnaissance and search and rescue operations.
2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Pilot Training (SUPT).
3.3.2. For award of AFSC 11R2X, completion of transition and operational training in the suffix specific aircraft.
3.4. Experience. For upgrade to AFSCs 11R2X/3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. The following are mandatory as indicated:
3.5.1. For award and retention of this AFSC, a current aeronautical rating and qualification for aviation service as a pilot.
3.5.2. For award of AFSC 11R3X, certification of aircraft commander qualification by appropriate operations authority.
3.5.3. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 11RXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

NOTE 1: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

NOTE 2: Security requirement specified in paragraph 3.5.3 does not apply to shredout E, WC-130.

COMBAT SYSTEMS OFFICER UTILIZATION FIELD (12XX)

Introduction
(Changed 31 Jan 10)

The Combat Systems Officer (CSO) Utilization Field encompasses all functions performed by rated CSOs to conduct or directly support flying operations, including combat, combat support, and training missions. Inherently included are supervisory and staff functions such as inspection, contingency planning, and policy formulation.

Specific instruction on use of certain AFSCs:

Identify CSOs by the 12XX specialties appropriate to the type of missions and weapon system involved. Use the following prefixes to identify additional rated qualifications and experience, and unit manpower document positions that require these capabilities:

- B - Squadron Operations/Maintenance Officer.
- C - Commander.
- G - Automated Systems Program Designer.
- K - Instructor for weapon system designated by AFSC.
- L - Life Support.
- M - Medical Service Specialist (Physiological Training Instructor).
- Q - Standardization or Flight Examiner for Weapon system designated by AFSC.
- S - Safety.
- T - Formal Training Instructor.
- V - Automated Functional Applications Analyst.
- W - Weapons and Tactics Instructor.
- Y - Analytical Studies Officer.

Identify CSOs serving as instructors in undergraduate training and formal training units (FTU) with a T prefix. Do not award the T prefix to instructor CSOs in operational units. Prefix K identifies these instructors and authorizations.

CSOs assigned to duty as Aerospace Physiology Instructors, after completion of formal training, may be identified by prefix M. The office of the Chief, Flight Medicine, Air Force Medical Operations Agency, validates positions and awards AFSCs.

Identify requirements for staff officers above wing level with a staff AFSC (12X4). Award individuals possessing a qualified AFSC (12X3) a staff AFSC (12X4) upon assignment to a position so identified.

Qualification level 3 designates a CSO qualified in the assigned specialty or shredout. Level 2 may be used to designate qualification at an intermediate level, if appropriate, for a specific shredout in AFSC 12BX. Level 1 identifies rated CSOs at the entry level for their specialty.

Current aeronautical rating and qualification for aviation service according to AFI 11-402, *Aviation and Parachutists Service*, are mandatory for award and retention of CSO AFSCs. See AFI 36-2101, *Classifying Military Personnel (Officer and Enlisted)*, for policy on retention or withdrawal of rated AFSCs for personnel disqualified from aviation service or placed in an inactive status.
BOMBER COMBAT SYSTEMS OFFICER  
(Changed 31 Oct 12, Effective 27 Aug 12)

2. Duties and Responsibilities:
2.2. Navigates aircraft to accomplish assigned mission. Operates available navigation systems.
2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Navigator Training (SUNT) or Undergraduate CSO Training.
3.3.2. For award of AFSC 12B2X/3X, completion of transition and operational training in the suffix specific aircraft.
3.3.3. For award of AFSC 12B3C/D/W, completion of an EWO course or Undergraduate CSO Training.
3.4. Experience. For upgrade to AFSCs 12B2X/3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. The following are mandatory as indicated:
3.5.1. For award and retention of these AFSCs, current aeronautical rating and qualification for aviation service as navigator.
3.5.2. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 12BXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

**NOTE:** Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

EXPERIMENTAL TEST COMBAT SYSTEMS OFFICER  
(Changed 31 Jan 11)

2. Duties and Responsibilities:
2.1. Plans and conducts flight test programs. Formulates test procedures and conducts tests to evaluate structural integrity, performance, handling characteristics, reliability, and suitability of aircraft and systems.
2.2. Manages research, test and evaluation projects, and programs. Integrates test objectives, organizes and directs test forces, supervises flight operations.
2.3. Identifies design and operational deficiencies and recommends improvements. Prepares technical reports and recommends design improvements.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of aircraft performance and handling fundamentals, operational employment concepts, and flight test procedures.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, or engineering is mandatory.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Navigator Training (SUNT) or Undergraduate CSO Training.
3.3.2. For award of AFSC 12E3X, completion of the Air Force Test Pilot School, Experimental Test Navigator Course/Experimental Test CSO Course, or equivalent US Navy or foreign test navigator course.
3.3.3. For award of AFSC 12E3S/W, completion of an electronic warfare officer (EWO) course or Undergraduate CSO Training.
3.4. Experience. For upgrade to AFSC 12E3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. For award and retention of these AFSCs, current aeronautical rating and qualification for aviation service as CSO are mandatory.

TRAINER COMBAT SYSTEMS OFFICER
(Changed 31 Jan 10)

2. Duties and Responsibilities:
2.2. Navigates aircraft to accomplish assigned mission. Operates available navigation systems.
2.3. Conducts or supervises training of students. Ensures optimum training opportunities and progress by conducting or supervising student training.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
3.3. Training. The following training is mandatory as indicated:
   3.3.1. For entry into this specialty, completion of Air Force Specialized Undergraduate Navigator Training (SUNT) or Undergraduate CSO Training.
   3.3.2. For award of AFSC 12K3X, completion of operational training applicable to the suffix designation.
   3.3.3. For award of AFSC 12K3B, completion of an electronic warfare officer (EWO) course.
   3.3.4. For award of AFSC 12K3D, completion of undergraduate CSO training, or graduate EWO/CSO training.
3.4. Experience. For award of AFSC 12K3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. For award and retention of these AFSCs, a current aeronautical rating and qualification for aviation service as navigator are mandatory.

REMOTELY PILOTED AIRCRAFT (RPA)
(Changed 31 Oct 12, Effective 27 Aug 12)

2. Duties and Responsibilities:
2.1. Plans and prepares for mission. Reviews mission tasking, intelligence, and weather information. Supervises mission planning, equipment configuration, and crew briefing. Ensures ground station and aircraft are preflighted, inspected, loaded, and equipped for mission.
2.2. Operates aircraft and commands the crew. Operates aircraft controls and equipment. Performs, supervises, or directs navigation, surveillance, reconnaissance, and weapons employment operations.
2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
3.3. Training. For award of AFSC 12U3X, completion of transition and operational training in the suffix specific aircraft is mandatory.
3.4. Experience. For upgrade to AFSC 12U3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. The following are mandatory as indicated:
3.5.1. For award and retention of this AFSC:
3.5.1.1. Qualification for air vehicle operator duty according to AFI 48-123, Medical Examinations and Standards.
3.5.1.2. Current aeronautical rating and no permanent disqualification for aviation service as CSO.
3.5.2. For award of AFSC 12U3X, certification of aircraft commander qualification by appropriate operations authority.

The Space, Nuclear and Missile Operations, and C2 Utilization Field encompasses the major areas of astronauts, space, nuclear and missile operations, air battle management, airfield operations, combat rescue, command posts, and airfield operations management.

The Astronaut specialty (AFSC 13AX) includes commanding space shuttle missions, piloting a space shuttle, mission specialists, accomplishing on-orbit duties, operating Department of Defense payloads, and providing manned space flight consultation.

The Command and Control Operations specialties (AFSCs 13BX, 13CX, 13DX, 13MX) include:

Air Battle Manager (13BX) specialty encompasses all functions performed by rated air battle manager officers to conduct or directly support flying operations, including combat, combat support, and training missions. Inherently included are supervisory and staff functions such as inspection, contingency planning, and policy formulation.

Current aeronautical rating and qualification for aviation service according to AFI 11-402., Aviation and Parachutist Service, Aeronautical Ratings and Badges, are mandatory for award and retention of air battle manager AFSCs. See AFI 36-2101, Classifying Military Personnel (Officers and Airmen), for policy on retention or withdrawal of rated AFSCs for personnel disqualified from aviation service or place in an inactive status.

Special Tactics (13CX) and Combat Rescue Officer (13DX) responsibilities include mission planning and managing day-to-day operations of personnel recovery (PR) activities and special tactics teams (STT) deploying to provide air traffic control support to airlift and transitory flight operations on assault zones within airhead areas. STTs initiate and issue clearances and instructions for air traffic separation, and ensure safe, orderly, and expeditious air traffic flow in and around assault zones.

Air Liaison Officer (13LX) functions include acting as the primary advisor to the ground commander on Airpower while also conducting strategic, operational and tactical level planning, and providing battle staff expertise, advocacy, liaison, and offensive air support C2 operations and employment in the conduct of combat operations.

Airfield Operations (13MX) functions encompassing policy planning, program formulation, direction, control evaluation, and coordination of airfield operations, including air traffic control, command, operation, administration, and inspection of these activities.

The Nuclear and Missile Operations specialty (13NX) encompasses operating and managing systems involved in nuclear and missile operations including launch operations.

The space operations specialty (13SX) encompasses operating and managing systems involved in space surveillance, spacelift, ballistic space warning, and satellite command and control.

Positions above wing level may qualify for the staff AFSC. The staff AFSC identifies an officer position above wing level specifically on the duty requirements of the role performed, not the fact that the authorization is on a staff above wing level. Use staff AFSCs (XXX4) to identify planning and policy-making positions above wing level. It requires the same skills as those for the qualified AFSC (XXX3), but applied to developing broad policies, plans, and procedures. Management responsibility increases without a corresponding increase in knowledge of the technical aspects of the function. Officers filling/have filled such positions are awarded the staff AFSC.
ASTRONAUT

2. Duties and Responsibilities:
   2.1. Commands space shuttle missions. Responsible for execution of missions, their rules and control directives. Assesses problems and implements deviations from flight plan, procedures, or personnel assignments in the interest of safety or mission accomplishment.
   2.2. Pilots space shuttle. Operates all shuttle vehicle systems through ascent, on-orbit, reentry, and landing phases of flight. Maneuvers shuttle vehicle to establish mission attitudes or orbital parameters.
   2.3. Operates shuttle systems. Serves as integral part of onboard flight operations during ascent, on-orbit, and entry flight phases. Operates and reconfigures orbiter systems during flight phases. Maintains detailed understanding of orbiter systems including nominal and malfunction procedures, and a complete understanding of the impact to mission accomplishment. Communicates with mission control center to exchange direction and information.
   2.4. Operates shuttle payloads. Operates payloads carried aboard shuttle vehicle. Operates remote manipulator system to deploy payloads. Monitors payload shuttle interface. Performs extra-vehicular activity to accomplish repair, refurbishment, or inspection of satellites on orbit in payload bay.
   2.5. Provides space flight consultation. Assists in formulating operational policies for space shuttle employment. Provides crew inputs for developmental engineering and mission planning. Participates in developing training equipment and simulating facilities.
   2.6. Maintains flight proficiency. Serves as a crew member aboard National Aeronautics and Space Administration aircraft to remain proficient in aspects of aircraft operations, including flight planning, communications, nominal and emergency checklist procedures, actual aircraft control, and flight crew coordination.

3. Specialty Qualifications:
   3.1. Knowledge. Knowledge is mandatory of space shuttle vehicle flight operation, space shuttle systems operation, lifting body aerodynamics, solid and liquid rocket performance, crew support systems, space navigation, orbital mechanics, computer programs, extra-vehicular activity, and electronic, infrared, and optical sensor operations.
   3.2. Education. For entry into this specialty, undergraduate academic specialization in an appropriate field of engineering, physical science, life science, or mathematics is mandatory.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 13A3X, the following experience is mandatory (individual's unit commander determines proficiency):
   3.4.1. Minimum of 1 year experience in space transport systems after completing astronaut candidate training. Six months of experience must be directly flight related.
   3.4.2. Proficiency in operating space shuttle vehicle.
   3.4.3. Proficiency with in-flight procedures, mission rules, space shuttle maneuvers, crew support systems, and communications.
   3.4.4. Proficiency as an aircrew member in high performance fixed-wing aircraft.
   3.5. Other. Not used.

52
1. **Specialty Summary.** Performs battle management and command and control (BMC2) on C2 aircraft and ground platforms and commands mission crews to accomplish combat, combat support, training, and other missions. Related DoD Occupational Group: 220700.

2. **Duties and Responsibilities:**
   2.2. Operates available sensors/BMC2 systems and commands crew. Provide tactical fluid control of assigned joint weapons systems (kinetic/non-kinetic, air/space/ground/cyber), forces, functions, and effects. Executes, supervises, coordinates, or directs dynamic battle management of joint fires, force accountability, package development, real-time targeting and airspace control. Conducts theater air, ground, and surface surveillance and detects and validates emerging targets, accomplishes, combat identification, applies rules of engagement, and integrates joint/coalition C2 and ISR capabilities. Performs dynamic information management of multiple tactical BMC2 sensors, data links and communications systems in order to prioritize tactical and operational tasks, information and communication flow for battle space situational awareness. Integrates air, space and cyber domains at the operational level for direct planning, coordination, allocation, tasking, execution, monitoring and assessment in a designated area of responsibility.
   2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.
   2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. **Specialty Qualifications:**
   3.1. Knowledge. Knowledge is mandatory of theory of flight, BMC2/weapons control fundamentals, meteorology, flying directives, aircraft/BMC2 system operating procedures, and joint mission tactics.
   3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration or management is desirable.
   3.3. Training. The following training is mandatory as indicated:
   3.3.1. Prior to entry into suffix specialized training courses, completion of Air Force Undergraduate ABM Training (UABMT).
   3.3.2. For award of AFSC 13B3X, completion of transition and/or operational training in the suffix specific weapon system.
   3.4. Experience. For upgrade to AFSCs 13B3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
   3.5. Other. The following are mandatory as indicated:
   3.5.1. For entry into this specialty, physical qualification for a Flying Class III physical according to AFI 48-123, Medical Examinations and Standards.
   3.5.2. For award and retention of these AFSCs, current aeronautical rating and qualification for aviation service as air battle manager are mandatory.
   3.5.3. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 13BXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

   **NOTE:** Award of the entry level without a completed SSBI is authorized provided an interim SSBI has been granted according to AFI 31-501.

   3.5.4. For award of 13B1U, prior qualification as a 13B3B/K.

SPECIAL TACTICS
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Provides assault zone assessment and control, fire support, personnel recovery (PR)/Combat Search and Rescue (CSAR), battlefield trauma care and tactical weather operations. Deploys as team member, team leader or mission commander as a direct combatant or to command and battle staffs to provide subject matter expertise to plan and manage the command and control of Special Tactics forces. Related DoD Occupational Group: 220500.

2. Duties and Responsibilities:
2.1. Coordinates, plans and conducts reconnaissance, surveillance and terminal control. Conducts reconnaissance, surveillance, survey or assessments of potential objective airfields and assault zones.
2.2. Provides air traffic control (ATC) services for expeditionary airfields and assault zones. Ensures safe, orderly, and expeditious air traffic flow in and around the terminal area. Provides terminal attack control (TAC) for Air Force, joint and coalition strike and bomber aircraft. Establishes command and control communications. Provides limited weather observations. Gathers and reports intelligence information. Removes obstacles or unexploded ordnance with demolitions, and provides and enables operational interface between aerospace assets and surface forces.
2.3. Ensures Special Tactics (ST) teams are organized, trained, and equipped to perform the core missions of assault zone assessment and control, fire support, personnel recovery (PR)/Combat Search and Rescue (CSAR), battlefield trauma care and tactical weather operations.

3. Specialty Qualifications:
3.1. Knowledge. The following knowledge is mandatory for award of AFSC 13C3:
3.1.1. Maps and charts; command and control principles and procedures; flight characteristics of aircraft; communications, signaling devices, and tactical communications procedures; personal protection and sustenance; rough terrain movement, survival techniques; small unit tactics and field leadership; and evasion. Employment methods to include fast rope, rope ladder, hoist, and rappelling; overland movement; amphibious operations to include scuba infiltration; and parachuting operations to include static-line and military free-fall parachuting procedures.
3.1.2. ATC principles, procedures, and regulations; navigational aids and systems; International Civil Aviation Organization and Federal Aviation Administration regulations, airfield management and base operations, AOF management and administration and AOF and AEF contingency operations; air, ground, and naval weapon systems; meteorology; demolition to clear obstructions and hazards; terminal attack control operations; Foreign Internal Defense operations; counterterrorism operations; and special reconnaissance missions.
3.2. Education. For entry education requirements see Appendix A, Paragraph 2, 13C CIP Education Matrix.
3.3. Training. Completion of the following training courses is mandatory for award of the AFSC 13C3:
3.3.1. STO/Combat Control Preparatory Course L30QR13D1B 0C0B (PDS Code OCS).
3.3.2. Airborne (Static-Line Parachutist) L9AQA1XXXX 0A1A (PDS Code AAO).
3.3.3. Combat Survival SERE Training, S-V80-A (PDS Code ERR).
3.3.4. USAF Underwater Egress Training (UET), S-V84-A (PDS Code 69V).
3.3.5. Combat Control School (L3ABP1C231-0C1B (PDS Code 319).
3.3.6. Airfield Operators Officer School E3OQR13D1B 00DB (PDS Code Q1O).
3.3.7. Special Tactics Advance Skills Training Program (includes Combat Diver Qualification, Military Free-fall Parachutist, and Personnel Recovery 101).
3.4. Experience. For award of AFSC 13C3, a minimum of 6 months of experience in special tactics assignments.
3.5. Other. The following are mandatory as indicated:
3.5.1. For entry into AFSC 13C1, physical qualification for marine diving, parachutist and ATC duty according to AFI 48-123, Medical Examinations and Standards.
3.5.2. For award and retention of 13C3, the following are mandatory:
3.5.2.1. Must maintain physical qualification for marine diving, parachutist and ATC duty IAW AFI 48-123.
3.5.2.2. Must maintain certification as a combat controller and combat ready status as prescribed in AFI 16-1202, Vol 2, Pararescue and Combat Rescue Officer Standardization and Evaluation.
3.5.2.3. Must maintain physical fitness and water confidence standards IAW AFI 13-219, Vol 2 Combat Control and Special Tactics Officer Standardization and Evaluation throughout the training pipeline.
3.5.3. This AFSC is closed to females due to the direct ground combat nature of the duties IAW SECDEF Memo 13 Jan 94, subject: Direct Ground Combat Definition and Assignment Rule.
3.5.4. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 13CX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

**NOTE:** Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.
1. Specialty Summary. The Combat Rescue Officer (CRO) specialty provides command and control of full spectrum Personnel Recovery (PR) operations. As direct combatants, CROs lead PR functions and execution tasks. They organize, train, and equip assigned personnel to conduct PR operations in support of combatant commander requirements, command direct combatants during PR operations, and provide PR expertise to battle staffs and theater command and control organizations. Related DoD Occupational Group: 220500.

2. Duties and Responsibilities:
2.1. Creates policy and doctrine; builds force apportionment plans for strategic planning; determines funding requirements for the Program Objective Memorandum (POM).
2.2. Creates full spectrum PR guidance and instructions in support of joint and coalition forces engaged in conventional and special operations air, ground, and/or maritime operations. Assesses readiness through force status reports, inspections, training exercise and evaluation results. Performs deliberate and crisis action planning for preparing and documenting Operations Plans (OPLANS), Concept Plans (CONPLANs), and Operations Orders (OPORDs). Conducts and evaluates policy and programs, provides battle staff expertise, manages theater PR operations and conducts PR coordination center operations.
2.3. Commands PR organizations; leads Pararescue, Survival, Evasion, Resistance, and Escape (SERE) operations; and directs other PR assets. Performs command and control of full spectrum recovery operations. Functions as aircrew and surface combatant; providing world-wide ready Guardian Angel (GA) capability for day/night, land/water rescue operations from vertical lift, fixed-wing, or as a stand-alone mounted/dismounted team. Ensures a rapid operational response in all environments across the range of military operations. Directs short and long term survival and evasion assistance; coordinates emergency and field trauma care and evacuation; controls terminal area operations during mission execution; prepares service personnel for situations where they may be forced to survive, evade hostile people, resist exploitation, or escape from captivity; and leads reintegration operations. Supports joint and combined forces engaged in conventional and special operations air, ground, and maritime military operations. Inspects and evaluates PR activities, functions, and personnel.

★3. Specialty Qualifications:
3.1. Knowledge. The following knowledge (and associated training and qualifications) is mandatory for award of the 13DX AFSC:
3.1.1. General: Possesses strategic, operational and tactical PR understanding to effectively report, locate, support, recover and reintegrate isolated personnel. Qualified in tactics, techniques, and procedures for rescue and recovery operations to include surface movement, fixed and rotary-wing insertion, SCUBA, and assisted recovery. Understands the application of PR subject matter expertise to joint and combined operational planning.
3.1.2. SERE-specific: Understands emergency parachuting, post egress procedures, and life support equipment. Trained in land navigation, evasion and assisted evasion, and global environments. Understands resistance to exploitation, prisoner of war communications, escape from captivity, and conduct after capture. Qualified to lead reintegration operations. Versed in the physiology and psychology of survival.
3.1.3. Recovery-specific: Understands command and control principles and procedures, combat search and rescue principles and procedures, and aircrew duties and the basic flight characteristics of aircraft. Trained in signaling devices and tactical communications procedures. Trained in personal protection, rough terrain movement, adverse terrain recoveries, and technical rescue. Qualified to lead small unit tactics, combat trauma response, and incident site management.
3.2. Education. For entry education requirements see Appendix A, Paragraph 3, 13D CIP Education Matrix.
3.3. Training. For award of AFSC 13D3, completion of the following training courses is mandatory:
3.3.1. Combat Rescue Officer (CRO) Development Course L3OQR13D1A-0P2A (PDS Code H4O).
3.3.2. CRO/Pararescue Indocitration Course L3OQR13D1A-0P1A (PDS Code OT0).
3.3.3. Air Force Combat Dive Course - Open Circuit LCAQP1XXXX-01OA (PDS Code OYF).
3.3.4. Army Airborne Parachutist Course L9AQAIXXXX-0A1A (PDS Code AAO).
3.3.5. Military Free-fall Parachutist L9AQAIXXXX-0F1A (PDS Code MFO), or (alternate) US Navy Military Free-fall Course, Course # A-431-0136.
3.3.6. Underwater Egress Training (UET), S-V84-A (PDS Code 69V).
3.3.7. SERE Training, S-V80-A (PDS Code ERR).
3.3.8. CRO Advanced SERE Training, S-V94-C (PDS Code SVO).
3.3.9. CRO Course, L3OBP13D1A-0R0C (PDS Code XVO).

3.4. Experience. Unit commander determines proficiency based on performance and experience.

3.5. Other. The following are mandatory as indicated:

3.5.1. For entry into this AFSC:

3.5.1.1. Physical qualification for marine diving and parachutist duty according to AFI 48-123, Medical Examinations and Standards.

3.5.2. 13DX candidacy requires successful completion of lead command Phase I/II selection program IAW AFGCM Sup 16-1202, Volume 2, Pararescue and Combat Rescue Officer Standardization and Evaluation.

3.5.3. For award and retention of 13D3:

3.5.3.1. Must maintain combat ready status as prescribed in AFI 10-3502, Volume 1, Pararescue & Combat Rescue Officer Training.

3.5.3.2. Must maintain certification IAW AFI 10-3502, Volumes 1 and 2.

3.5.4. This AFSC is currently closed to females due to the direct ground combat nature of the duties IAW SECDEF Memo 13 Jan 94, subject: Direct Ground Combat Definition and Assignment Rule.

3.5.5. This specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 13DX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

AFSC 13L1, Entry

AIR LIAISON OFFICER
(Changed 31 Oct 15, ★ Effective 26 Feb 15, ★ ★ Effective 26 May 15)

★ ★ 1. Specialty Summary. The Air Liaison Officer (ALO) specialty (13LX) is the senior Tactical Air Control Party member who functions as the primary advisor to the Ground Force Commander on airpower capabilities to include Close Air Support (CAS), Intelligence Surveillance and Reconnaissance (ISR), Electronic Warfare (EW) and Mobility. The ALO will engage enemy forces utilizing advanced technologies and weapons systems to direct lethal and non-lethal fires and effects as a Joint Terminal Attack Controller (JTAC). ALOs perform tactical level surveillance and reconnaissance functions fusing organic and remote controlled technologies and manned platforms in order to build the Common Operating Picture (COP) for the Ground Force Commander. This specialty provides Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (C3ISR) to assist, control and enable the application of manned and unmanned, lethal and non-lethal airpower in all geographic and environmental conditions across the full spectrum of military operations. The Air Liaison Officer (ALO) leads, plans, organizes, and supervises day-to-day Tactical Air Control Party (TACP) members, as well as, Air Support Operations Squadron (ASOS) and TACP Air Operations Crew functions both in garrison and while deployed. The ALO represents the Joint/Combined Forces Air Component Commander as a supporting member of the Army Commander’s staff. The ALO provides subject matter expertise to lead, plan, and execute airpower integration and terminal execution of Air, Space, and Cyber operations in direct support of land component forces from Battalion through Corps, or as required, as part of a coalition or joint force, or in coordination with an interagency operation. This specialty conducts tactical, strategic, and operational level planning and operations as a JTAC and Joint Fires expert; provides battle staff expertise, advocacy, liaison, and offensive air support command and control operations and employment in direct support of Special and Conventional Combat Operations.

2. Duties and Responsibilities:
2.1. Leads, plans, organizes, and supervises TACP and ASOC operations.
2.2. Advises and educates ground commanders on all aspects of air, space, and cyber power and integration of air, space, and cyber assets in support of ground combat elements.
2.3. Conducts infiltration, surface movement, and exfiltration with ground maneuver forces. Performs specified small unit tactics, mounted and dismounted navigation, and operates tactical combat vehicles in austere field conditions and environments.
2.4. Plans, coordinates, requests, and integrates joint fires to include close air support (CAS), air interdiction (AI), intelligence, surveillance and reconnaissance (ISR), electronic warfare (EW), suppression/destruction of enemy air defenses (SEAD/DEAD), and Cyber operations.
2.5. Integrates airspace for the employment of air and space assets directly supporting land component combat maneuver units.
2.6. Controls CAS missions as a JTAC.

★ ★ 3. Specialty Qualifications:
3.1. Knowledge. The following knowledge is required for award of the AFSC indicated:
3.1.1. 13L2/A. Joint Doctrine; Theater Air-Ground System; Theater Air Control System/Army Air-Ground System; utilization of Joint planning products (to include: Air Tasking Order [ATO], Airspace Control Order [ACO], Special Instructions [SPINS], Rules of Engagement [ROE]) to support air, space, and cyber operations; CAS and Joint Fires planning and employment tactics, techniques, and procedures (TTPs); military decision making process; joint fires integration; theater air, space, and cyber operations to include: weapons systems and munitions characteristics, capabilities and effects; aircraft employment; radio/digital communications systems and employment. Air and Space ISR, EW, and SEAD/DEAD capabilities; targeting systems; personnel recovery; cyberspace operations; combat field skills to include tactical communications; tactical data link systems; computer procedures and equipment; antenna theory; map reading, global positioning equipment, navigation techniques, military symbology; small unit tactics; close quarter combat; signaling and marking; individual and crew-served weapons employment; battlefield lifesaving procedures, field leadership and evasion; chemical warfare defense equipment. Applies knowledge of operational risk management; Joint, Air Force and Army manuals, instructions, technical orders, and regulations; physical readiness; ASOC and TACP vehicle and support equipment operations, management, and operator maintenance; Air Force and Army supply and mobility procedures; Air Force and Army organization, command and unit staff functions, and taskings.
3.1.2. 13L3. Analyze Air Force and Army organization and structure, Joint and Service doctrine, air, space, and cyberspace effects, joint targeting, combat airspace management, surface and air-to-surface weapons and effects, and aircraft employment tactics, techniques, and procedures.

★3.2. Education. For entry education requirements see Appendix A, Paragraph 4, 13L CIP Education Matrix.

3.3. Training. The following training is mandatory for award of the AFSC indicated:

3.3.1. 13LXX. Advanced Army training (Airborne, Pathfinder, Air Assault and Ranger School) based on unit tasked mission is desirable.

3.3.2. 13L2:

3.3.2.1 Air Liaison Officer Preparatory Course (ALOPREP) – not required for rated ALO’s (AFSC’s 11XX, 12XX, 13B).

3.3.2.2 Air Liaison Officer Basic Course (ALOBC) – not required for rated ALOs (AFSCs 11XX, 12XX, 13B).

3.3.2.3 Air Liaison Officer Qualification Course (ALOQC).

3.3.2.4 Combat Survival Training, S-V80-A (SERE).

3.3.3. 13L2A. Completion of the BDE ALO training requirements IAW AFI 13-113V1, Tactical Air Control Party (TACP) Training Program.

NOTE: Completion of ALOQC is mandatory for award of AFSC 13L3 for former 1C4X1 personnel. In order to attend this modified 13L training pipeline, these former 1C4X1 personnel must have performed TACP duty within the previous 5 years.

3.3.5. 13L3A. Air Support Operations Center Qualification Course (ASOCQC).

3.4. Experience. The following experience, excluding the training identified in paragraph 3.3, is mandatory for award of the AFSC indicated:

3.4.1. 13L3A. A minimum of one year in a position with operational experience in ASOC duties.

3.5. Other. The following are mandatory as indicated:

3.5.1. For entry into AFSC 13L1, successful completion of the ALO Aptitude Assessment (AAA) or possess an aeronautical rating of Pilot (11FXX or 11BXX only) or Navigator/Combat Systems Officer (CSO) (12FXX/12BXX only) or Air Battle Manager (13BXX).

3.5.2. Compliance with medical standards for Ground Based Controller (GBC) Duty IAW AFI 48-123, Medical Examinations and Standards, for 13LX ALO. GBC physical standards are the minimum required, rated ALOs will typically hold a flying class I physical which meets all requirements for GBC.

3.5.3. Specialty requires routine access to Top Secret or similar environment. For award and retention of AFSCs 13LX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

NOTE: Award of entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

AIRFIELD OPERATIONS
(Changed 31 Oct 15, ★Effective 26 Feb 15)

1. Specialty Summary. Performs and leads airfield operations (AO) functions of, air traffic control (ATC), airfield management (AM), and airspace management within the National Airspace System (NAS) and combat environments. Advises commanders on the effective use of AO assets. Provides AO staff leadership, supervision and technical assistance. Develops, formulates, and implements plans, policies and programs for executing Air Force (AF) AO responsibilities and activities. Supports civil aviation responsibilities in compliance with Public Law 85-726. Related DoD Occupational Group: 220700/Standard Occupational Series Code - 2152.

2. Duties and Responsibilities:
2.1. Performs technical functions and provides oversight of ATC services. Services include radar approach control, ground control approach, radar final control, and control tower operations. Develops operational procedures and monitors their implementation for improving operations and/or maintaining a safe flying environment. Develops agreements between facilities and with other local agencies to define standards of performance. Maintains close liaison with lateral Federal Aviation Administration (FAA) or host nation officials to negotiate and coordinate changes affecting ATC services and operations. Coordinates with FAA and military flight inspection agencies, ATC and airfield systems maintenance, flying units, and other affected agencies concerning flight inspection activities. Trains, establishes standards, and conducts operational evaluations in order to manage unit training and performance standards to ensure airfield operations personnel possess required job skills.

2.2. Performs technical functions and provides oversight of AM and airfield management operations (AMOPS). Makes recommendations and takes actions on matter that affect the content and character of policy statements and instructions involving airfield environment. Conducts analysis to determine optimum sitting of equipment and facilities within the airfield environment or those equipment and/or facilities that may present hazards to aviation safety. Performs airfield inspections and negotiates contracts to ensure optimal airfield and runway status. Ensures flight planning and airfield advisory services adequately support military and civil airfield users. Provides functional expertise and input for activating, employing or deactivating airfield systems including AO facilities and navigational aids.

2.3. Performs oversight of civil and military airspace utilization to review, redesign, and optimize airspace leveraging new technologies, equipage, infrastructure, and procedural development to maximize benefits and system efficiencies within the NAS and host country airspace structure. Works to ensure all supported airspace redesign, both enroute and terminal airspace, is conducted in a manner that reflects optimal benefits to the widest variety of aviation stakeholders, conforming with environmental and safety requirements. Authors airspace management agreements with sister services, allied forces, and civil authorities to ensure the safe and effective operation of civil and military air traffic. Provides technical expertise to increase combat effectiveness by promoting the safe, efficient, and flexible use of airspace in a combat environment to reduce the risk of friendly fire, enhance air defense operations, and permit greater flexibility of operations. Uses current US national military objectives and assigned missions to develop procedures supporting multinational operations ensuring compatibility and interoperability of support systems.

★3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: ATC procedures and techniques; AO planning and programming; aircraft accident and incident reporting and investigation procedures; hazardous air traffic report procedures (HATR); NAS management utilization and planning principles; federal rule-making actions; environmental requirements which apply to AO management; ATC management of mobile assets and unit type code taskings for AO; AMPOS functions; AM functions; principles of meteorology; USAF airfield and airspace criteria; radio interference reporting procedures; flight inspection of navigational aids and AO facilities procedures; theater air control system functions and operations and combat airspace management; International Civil Aviation Organization (ICAO), FAA, and notice-to-airman (NOTAM) procedures; and radar, navigational aids, and communications maintenance structure and responsibilities.

3.2. Education. For entry education requirements see Appendix A, Paragraph 5, 13M CIP Education Matrix.

3.3. Training. For award of AFSC 13M3, completion of the Airfield Operations Officer Initial Qualification Training (IQT) course (E30B1R13M1 00MD) is mandatory.

3.4. Experience. For award of AFSC 13M3, a minimum of 24 months experience performing and managing Airfield Operations activities is mandatory.
3.5. Other.
3.5.1. For entry and retention of this specialty, physical qualification for Ground Based Control (Air Traffic Control) duty according to AFI 48-123, *Medical Examinations and Standards*, is mandatory.
3.5.2. For award of AFSC 13M3, completion of Mission Qualification Training (MQT) IAW Airfield Operations Officer Training Program (AFI 13-204, Volume 1, *Airfield Operations Career Field Development*) is mandatory.
NUCLEAR AND MISSILE OPERATIONS
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Operates and manages nuclear and missile operations systems. Performs associated command, control, communications and launch activities to defend and support the United States and allied forces. Serves as nuclear and missile operations advisor. Related DoD Occupational Group: 220700.

2. Duties and Responsibilities:
2.1. Formulates nuclear and missile operations policies. Develops policies and procedures for current and future nuclear and missile operations systems. Builds future plans, requirements, concepts, directives, and exercises for operational employment of nuclear and missile operations and facilities. Establishes organizational structure and determines personnel required to support mission areas. Establishes training requirements and performance standards for all systems. Recommends priorities for personnel allocation.
2.2. Coordinates nuclear and missile operations activities. Coordinates with national and international nuclear agencies on nuclear and missile operations activities. Advises commanders and staff on capability of offensive and defensive units to meet operational requirements, and on matters for operational effectiveness, combat readiness, organization, and training. Coordinates operations activities, plans, and programs to ensure adequate resources in preparing operations orders and to accomplish assigned mission.
2.3. Plans, organizes, and directs nuclear and missile operations programs. Directs unit nuclear and missile operations activities. Reviews command mission for priorities and specific objectives. Directs preparation and management of budget estimates and financial plans based on operational requirements and resources. Observes, conducts, and evaluates effectiveness of nuclear and missile operations weapon systems training, standardization, and evaluation programs. Inspects nuclear and missile operations activities and units for compliance with directives and standardized procedures. Conducts nuclear and emergency war order training for combat crew members. Writes nuclear annexes to operation plans. Provides guidance on proper use and care of sensitive materials. Conducts nuclear and missile operations activities, including contingency operations and dissemination of nuclear and missile operations situation data to all users.
2.4. Operates and controls nuclear and missile operations. Performs nuclear and missile operations combat crew operations in Launch Control Centers (LCC) and onboard NAVY E-6B Take Charge and Move Out (TACAMO) aircraft. Maintains readiness to execute, then launch nuclear and missile operations, applies current directives for targeting, execution, and positive control of nuclear and missile operations. Initiates, advises, and controls nuclear and missile combat crew operations. Controls storage and issue of positive control, authentication materials, and code components. Inserts and verifies launch codes in nuclear and missile operations components. Serves as duty controller in nuclear and missile operations command posts. Oversees contractor personnel in all mission areas.

3. Specialty Qualifications:
3.1. Knowledge. The following knowledge is mandatory for award of the AFSC indicated:
3.1.1. 13N2/3. Nuclear and missile operations history, organization, mission, and C2 structure; combat crew procedures; targeting; emergency war orders (EWO) concepts and procedures; nuclear codes and code handling procedures; safety, security, and maintenance activities; nuclear and missile operations subsystems; technical order and Air Force policy directive familiarization.
3.2. Education. For entry education requirements see Appendix A, Paragraph 6, 13N CIP Education Matrix.
3.3. Training. The following training is mandatory for award of AFSC indicated:
3.3.1. 13N2. Completion of nuclear and missile combat crew operations Initial Skills Training and unit mission qualification training.
3.3.2. 13N3. Completion of all 13N2 prerequisites and unit nuclear and missile operations combat crew commander upgrade training.
3.4. Experience. The following experience is mandatory for award of AFSC indicated:
3.4.1. 13N2. Proficiency in organizing and directing nuclear and missile launch operations and emergency war order, weapons system and codes certification.
3.4.2. 13N3. Qualification in and possession of AFSC 13N2 and emergency war order and weapon system certification as a nuclear and missile operations combat crew commander.
3.5. Other. The following are mandatory for the AFSC indicated:
3.5.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 13NX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.
NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

3.5.2.  13NX. For entry and retention of this AFSC, physical qualification for Missile Operator Duty (MOD) according to AFI 48-123, Medical Examinations and Standards.

3.5.3. For entry into this specialty (ANG and AFRC officers exempt), accessions must be screened for eligibility into the Personnel Reliability Program (PRP) as outlined in HQ AETC Personnel Reliability Program (PRP) Prescreening Guidance and be deemed a suitable candidate for follow-on PRP duties. PRP standards are outlined in DoD 5210.42R, Nuclear Weapons Personnel Reliability Program (PRP) Regulation, and AFMAN 13-501, Nuclear Weapons Personnel Reliability Program.

3.5.4.  13N1/2/3. For retention of this AFSC, company grade officers (O-1 though O-3) who have not yet met the Nuclear and Missile Operations Officer Crossflow Program per AFI 36-2626 must meet eligibility requirements to fill critical PRP positions IAW DoD 5210.42-R and AFMAN 13-501.
SPACE OPERATIONS
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Operates and manages space operations systems. The systems include surveillance, spacelift, space warning, and satellite command and control (C2). Performs associated battle management, command, control, and communications activities to defend and support the United States and allied forces. Serves as space operations advisor. Related DoD Occupational Group: 220700.

2. Duties and Responsibilities:

2.1. Formulates space operations policies. Develops policies and procedures for current and future space systems. Builds future plans, requirements, concepts, directives, and exercises for operational employment of systems and facilities. Establishes organizational structure, and determines personnel required to support mission areas. Establishes training requirements and performance standards for all systems. Recommends priorities for personnel allocation.

2.2. Coordinates space operations activities. Coordinates with national and international space agencies on space and satellite launching; and space warning, tracking, control, and cataloging activities. Coordinates space systems network; launch and range control operations interfaces; and mathematical orbital analysis methodology activities with space system agencies. Correlates flow of information and interchange of techniques among sensors and C2 facilities. Advises commanders and staff on capability of offensive and defensive units to meet operational requirements, and on matters for operational effectiveness, combat readiness, organization, and training. Coordinates operations activities, plans, and programs to ensure adequate resources in preparing operations orders and to accomplish assigned mission.

2.3. Plans, organizes, and directs space operations programs. Directs unit space operations activities. Reviews command mission for priorities and specific objectives. Directs preparation and management of budget estimates and financial plans based on operational requirements and resources. Observes, conducts, and evaluates effectiveness of space systems training, standardization, and evaluation programs. Inspects space activities and units for compliance with directives and standardized procedures. Writes space annexes to operation plans. Provides guidance on proper use and care of sensitive materials. Conducts space operations activities, including satellite health and status; launch, early orbit, and on orbit testing; contingency operations; orbital analysis and surveillance; space warning; spacelift booster and payload processing; and dissemination of space situation data to all users.

2.4. Operates and controls space operations. Serves as duty controller in space command posts. Performs satellite position predictions, satellite maneuver planning, orbital analysis, and space based object position. Catalogs foreign and domestic space objects, detects continental United States impacting ballistic missile threats, and provides assessment to national military command authorities. Performs spacelift operations, including range control and safety, flight control, and launch processing activities. Performs satellite operations, including launch and early orbit activities, and satellite and payload telemetry analysis and commanding. Controls ground systems networks to support military satellite programs. Oversees contractor personnel in all missions areas.

3. Specialty Qualifications:

3.1. Knowledge. The following knowledge is mandatory for award of the AFSC indicated:

3.1.1. 13S3A/B/D/E. The following common knowledge is mandatory for award of the qualified AFSC with an A, B, D or E suffix: military space history; space organizations, missions, and command structures; space policy, doctrine, and law; requirements, acquisition, and logistics; communication systems and fundamentals; technical order and Air Force policy directive familiarization; space environment; orbital mechanics; launch trajectory and reentry concepts; satellite and launch vehicle subsystems; spacelift and rocket propulsion; satellite C2; missile warning; space control and surveillance; foreign missions, systems and threats; space systems applications and integration in a theater environment.

3.1.2. 13S3A. Satellite command and control systems, satellite vehicle and payload operations.

3.1.3. 13S3B. Spacecraft systems operation; booster and payload processing; range control and safety applications; and launch processing and solid or liquid rocket performance.

3.1.4. 13S3D/E. Electronic, infrared, optical sensor operations; orbital analysis; and characteristics, tracking, ballistic missile trajectories, space surveillance, and space warning systems.

3.2. Education. For entry education requirements see Appendix A, Paragraph 7, 13S CIP Education Matrix.

3.3. Training. The following training is mandatory for award of AFSC indicated:

3.3.1. 13S3A/B/D/E. Completion of the prerequisite Undergraduate Space Training (UST) prior to entry or in conjunction with suffix specialized space operations initial skills training (IST) course.

3.3.2. 13S3A. Completion of a satellite C2 operations IST course.

3.3.3. 13S3B. Completion of a spacelift operations IST course.
3.3.4. 13S3D. Completion of a space surveillance or space control IST course.
3.3.5. 13S3E. Completion of a space warning IST course.
3.3.6. If an IQT course does not exist for a specific unit or weapon system, an equivalent mission qualification training (MQT) will satisfy the training requirement for the award of a 13S3A/B/D/E AFSC specialty shredout until an IQT course is developed.

3.4. Experience. The following experience is mandatory for award of AFSC indicated:
3.4.1. 13S3A. A minimum of 12 months of experience in satellite C2 unit in a valid 13S billet.
3.4.2. 13S3B. A minimum of 12 months of experience in space lift/range operations unit in a valid 13S billet.
3.4.3. 13S3D. A minimum of 12 months of experience in space surveillance or space warning unit in a valid 13S billet.
3.4.4. 13S3E. A minimum of 12 months experience in a space warning unit in a valid 13S billet.

3.5. Other. The following are mandatory for the AFSC indicated:
3.5.1. 13S1X. For entry into this specialty, normal color vision as defined in AFI 48-123, Medical Examinations and Standards.
3.5.2. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 13SXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

INTELLIGENCE UTILIZATION FIELD (14NX)

Introduction
(Changed 31 Oct 13)

The Intelligence Utilization Field encompasses a wide range of intelligence, surveillance, and reconnaissance (ISR) activities conducted by intelligence staffs and organizations for the purpose of providing commanders and national-level decision makers with relevant, accurate, and timely intelligence. Intelligence officers direct, plan, manage, and conduct activities to assess industrial, technological, geographical, and sociological factors; use processed intelligence information to support military operations; prepare intelligence assessments; prevent strategic, tactical, or technological surprise; provide input to national, DoD, Joint and Air Force plans and programs; engage in and support air, space, and cyberspace operations; provide support to special missions and weapon system acquisition; provide support to force structure planning and international security assistance plans and programs; provide security guidance and functions for Sensitive Compartmented Information (SCI) programs and activities; use and manage intelligence data handling systems; and exchange information and intelligence with other services, agencies, and governments.

Excluded from this utilization field are primary responsibilities for the functions of information, personnel, and industrial security which are included in the Security Forces utilization field (31PX) functions dedicated to research of computer hardware and software, and communications and computer security which are included in the Cyber Operations Utilization Field (17XX); and counterintelligence functions which are included in the Special Investigations Career Area (71SX).

Full development as an intelligence officer requires eligibility for access to sensitive compartmented information (SCI) and Top Secret material. The following is a complete listing of AFSCs for the Intelligence Utilization Field.
INTELLIGENCE
(Changed 31 Oct 15, Effective 26 Feb 15)

1. Specialty Summary. Lead and performs intelligence activities across the full range of military operations supporting the Air Force’s Service Core Function (SCF) of Global Integrated Intelligence, Surveillance and Reconnaissance (ISR). The Air Force conducts global integrated ISR operations through a five-phase process commonly known by its acronym, PCPAD: planning and direction; collection; processing and exploitation; analysis and production; and dissemination. Additionally, ISR professionals conduct assessment, evaluation, and feedback throughout each phase. Air Force intelligence officers lead Airmen through the PCPAD process across four main areas, also known as functional competencies: Analysis, Collection, Integration, and Targeting. To execute these functional competencies intelligence officers utilize subject matter expertise in the six intelligence disciplines of geospatial intelligence (GEOINT), human intelligence (HUMINT), measurement and signature intelligence (MASINT), open source intelligence (OSINT), signals intelligence (SIGINT), and technical intelligence (TECHINT); utilize professional tradecraft to include assessment, counterdrug, counter proliferation, counterterrorism, current intelligence, general military intelligence, indications and warning, irregular warfare and target intelligence; and integrate thoroughly within cross functional capabilities, missions, and organizations to include airborne ISR, the Air Operations Center (AOC), the Air Support Operations Center (ASOC), cyberspace ISR, the Distributed Common Ground Station (DCGS), flying unit level support, force protection, information operations, space, and special operations forces (SOF). Finally, intelligence officers perform ISR enterprise management/staff functions to include acquisition, career broadening, doctrine, education and training, financial management, human capital/force management, information technology, modeling and simulation, policy, research and technology, security, and strategy. Related DoD Occupational Group: 230100.

2. Duties and Responsibilities:
2.1. Directs intelligence activities. Directs ISR activities and organizations, and establishes goals and objectives. Reviews requirements for objectives and relative priorities. Serves as the commander’s senior intelligence advisor. Directs preparation of intelligence budget estimates and financial plans. Implements standardization, evaluation, and training programs, and monitors compliance.
2.2. Develops intelligence plans and policies. Evaluates impact of legislative action, executive orders, regulations, directives, and management decisions. Integrates intelligence activities into plans and programs. Develops and implements intelligence operations and applications policies, plans, concepts, systems, and orders for the intelligence disciplines, professional tradecraft, and integration with cross functional capabilities. Conducts force development, management and structure planning.
2.3. Manages and coordinates intelligence activities. Confers with government, business, professional, scientific, and other nations' organizations to provide support, exchange ideas, participate in studies, and coordinate on proposals and findings. Manages intelligence responsibilities of the Department of Defense Planning, Programming, and Budgeting System. Coordinates with personnel, materiel, planning, programming, and operational functions on allocation of resources, availability of funds, and preparation and implementation of operational plans. Supports weapon system acquisition.
2.4. Produces timely and accurate fused intelligence analysis. Uses structured analytical techniques to convert processed information into finished intelligence through the integration, evaluation, analysis, and interpretation of all-source data and the preparation of intelligence products in support of known or anticipated user requirements. Produces intelligence from the information gathered by the collection capabilities assigned or attached to the joint force and from the refinement and compilation of intelligence received from subordinate units and external organizations. Integrates, evaluates, analyzes, and interprets all processed information to create products that will satisfy the commander’s priority intelligence requirements (PIRs) and requests for information (RFIs).
2.5. Conducts collection and ISR operations. Executes collection management by converting intelligence requirements into collection requirements, establishing priorities, tasking or coordinating with appropriate collection sources or agencies, monitoring results, and re-tasking, as required. Conducts collection operations by directing, scheduling, and controlling specific collection platforms, sensors and HUMINT sources to include the physical operation of airborne systems (both manned and remotely piloted), space-based systems, cyber, non-traditional ISR and HUMINT sources as well as near real time (NRT) coordination and control. Performs processing, exploitation, and dissemination by converting raw collection into forms that can be readily used by commanders, decision makers at all levels, intelligence analysts and other consumers.
2.6. Integrates intelligence with combat operations. Applies all-source intelligence information to sustain combat operations at the operational wing, group, and squadron levels. Contextualizes intelligence for the mission at hand, and then synthesizes it into the planning, training, and execution of tactical mission areas for achieving kinetic and non-kinetic effects across air, space, and cyberspace.

2.7. Performs targeting functions. Performs targeting functions to include kinetic and non-kinetic target development, weaponeering, precision point mensuration (PPM), force application, execution planning, and combat assessment. Selects and prioritizes targets and matches appropriate actions to those targets to create specific desired effects that achieve objectives, taking account of operational requirements and capabilities. Conducts analysis of enemy personnel, units, disposition, facilities, systems, and nodes relative to the mission, objectives, and the capabilities at the Joint Force Commander’s disposal, to identify and nominate specific centers of gravity (COG) and high-value targets (HVT) that, if exploited in a systematic manner, will create the desired effects and support accomplishment of the commander’s objectives.

★3. Specialty Qualifications:

3.1. Knowledge. Knowledge is mandatory of intelligence fundamentals, security, analysis, communications skills, the intelligence disciplines, the intelligence community, ISR information systems, research sources and methods, the presentation of friendly forces, friendly weapons systems, adversary capabilities, ISR operations, targeting, and integration. In addition, officers require depth of knowledge for their assigned functional competency, as identified in AFI 14-202 and AFI 14-2(MDS) series AFIs.

3.2. Education. For entry education requirements see Appendix A, Paragraph 8, 14N CIP Education Matrix.

3.3. Training. The following training is mandatory for award of the AFSC indicated:

3.3.1. 14N2. Completion of the Intelligence Officer Initial Skills Course; completion of initial qualification training (IQT) and unit mission qualification training (MQT) for an ISR functional competency; and completion of the ISR 200 Continuing Technical Training (CTT) course.

3.3.2. 14N3. Completion of an intelligence Advanced Skills Training (AST) course (or an IQT/MQT program within a second ISR functional competency); and completion of the ISR 300 CTT course either by distance learning or by attending the ISR Master Skills Course.

3.4. Experience. The following experience is mandatory for award of the AFSC indicated:

3.4.1. Complete a minimum of 12 months in commissioned service performing intelligence functions after completing the Intelligence Officer Initial Skills Course.

3.4.2. 14N3. Complete a minimum of 6 years commissioned service performing intelligence functions.

3.5. Other.

3.5.1. For entry and retention in this specialty:

3.5.2. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 14NX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management is mandatory. Access to SCI and Top Secret material is determined by favorable adjudication of the SSBI and periodic updates, according to applicable security and intelligence regulations. The Air Force Central Adjudication Facility (AFCAF) is solely responsible for determining and certifying eligibility for access to SCI material.

3.5.1.2. In accordance with AFI 36-2101, withdrawal of SCI certification requires a withdrawal of 14NX AFSCs, unless an exemption is granted by HQ AFPC/DPSIC on the recommendation of HQ USAF/A2. Revocation of an officer’s security clearance by AFCAF requires a withdrawal of 14NX AFSCs without exception. **NOTE:** Award of the entry level without a completed SSBI is authorized provided an interim Top Secret clearance has been granted according to AFI 31-501.
INTRODUCTION

The Weather Utilization Field encompasses policy planning, direction, control, evaluation, coordination of weather support, and services. Included in this field are command, operations, administration, and technical inspection of Air Force and Army support organizations providing airfield services (observing and resource protection), mission execution forecast services (forecasting) and staff support (such as weather studies and scientific research) services relating to the influence of atmospheric and space environmental factors on military operations. These functions include surface, aerial, visual, and instrumental meteorological, solar, and geophysical observations; analysis, description, and forecasting of atmospheric and associated phenomena of earth and space; and participation in the development, testing, and implementation of MAJCOM and Air Force Weather Systems. Air Force weather officers provide support to Air Force, Army, and Joint organizations.

Excluded from this field are the functions of site engineering, installation, and maintenance of electronic weather equipment. Refer to the Communications-Computer Systems Utilization Field for maintenance functions.
WEATHER
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Commands, manages, and performs weather operations for Air Force and Army support organizations activities. Integrates current and forecast atmospheric and space weather conditions into operations and operational planning. Develops, directs, and coordinates meteorological and space weather studies and research. Supports and executes weather operations through leadership and management of weather groups, squadrons, flights, detachments and operating locations. Supports Air Force core weather responsibility to provide meteorological and space weather information for DoD air, ground, and space operations. Related DoD Occupational Group: 250200.

2. Duties and Responsibilities:
2.1. Lead weather units and elements. Manage AF weather personnel and resources. Analyze and evaluate meteorological data and prepares forecast products. Integrate weather analyses and reports with radar and satellite imagery interpretations to support operations. Brief aircrew and staff personnel on current and forecast weather and its effects on air operations. Instruct personnel on interpretation and use of meteorological products and their application to DoD missions. Perform global analysis and forecast duties at centralized weather and space organizations. Provide weather warnings, watches, and advisories for mission-limiting weather for designated military installations worldwide. Provide mission tailored forecasts for special and joint operations. Direct taking, recording, reporting, and decoding of meteorological and space weather observations, analysis of data, preparation of forecasts and other prognostic products and use of meteorological equipment. Produce and direct studies to improve forecasting techniques and abilities. Advise commanders and their staffs on capabilities and limitations of weather operations.

2.2. Conduct and direct meteorological, space weather, and geophysical research efforts. Prepare and adapt specialized forecast, climatology, and other weather information for operational use. Identify weather sensitivities and shortfalls, conduct testing of meteorological systems and equipment. Recommend modifications of instruments, equipment, and products to improve weather service to weapon systems and technologies. Prepare publications on observing, analyzing, and forecasting meteorological, solar, astrophysical, and geophysical parameters. Recommend changes in weather operations dictated by advances in military weapons, tactics, and doctrine. Provide meteorological consultation for research activities, and direct gathering and preparing of data for specialized weather support activities. Coordinate atmospheric and space research activities with military and civilian agencies. Develop and leverage environmental sensing strategies and capabilities to characterize the four-dimensional operational environment. Incorporate weather effects based on critical weather thresholds across the spectrum of mission profiles and into intelligence and operational preparation of the environment, command and control, and military decision making processes.

2.3. Provide technical meteorological services. Prepare and direct weather resources to support operational objectives. Write directives on operational techniques and procedures to observe, analyze, and forecast atmospheric and space phenomena. Develop and document Special Operations Weather Team (SOWT) tactics, techniques and procedures to exploit special operations capabilities. Direct and prepare studies and reports to evaluate weather support requirements.

2.4. Lead weather units and elements in support of Air Force, Army, Special Ops, and Joint missions. Serve as staff weather officer to commanders and is the focal point for all weather sensitivities in and around designated military operating areas. Lead weather personnel in training exercises, and contingency operations.

★3. Specialty Qualifications:
3.1. Knowledge. The following knowledge is mandatory for award of the AFSC indicated:
3.1.2. 15W3A. Knowledge of Air Force advanced weather activities.

3.2. Education. The following education is mandatory for entry into the AFSC indicated:
3.2.1. 15W1. For entry education requirements see Appendix A, Paragraph 9, 15W CIP Education Matrix.
3.2.2. 15W3A. Completion of a Master or PhD program with an emphasis in meteorology and/or space weather science or completion of 30 semester hours of graduate work with an emphasis in meteorology and space weather science.

3.3. Training. The following training is mandatory for award of the AFSC indicated:
3.3.1. For award of 15W3, completion of the Weather Officer Course (WOC) (E3OBR15W1 0A1C) is required.
3.4. Experience. The following experience is mandatory for award of the AFSC indicated:
3.4.1. 15W3. A minimum of 12 months of experience in an Operational Weather Squadron (OWS), or other unit under supervision of a weather officer.
3.4.2. 15W3A. Qualification and possession of 15W3.
3.5. Other.
3.5.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 15WX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management, is mandatory (see note 1).

3.5.2. Must speak English distinctly.

**NOTES**

1: Award of the entry level without a completed SSBI is authorized provided initial SSBI paperwork has been submitted according to AFI 31-501.

2: USAFA/AFROTC/OTS cadets may volunteer to attend the BMP if they have met the minimum BMP entry requirements of 6 semester hours of college calculus and 6 semester hours of college calculus-based physics.

OPERATIONS SUPPORT UTILIZATION FIELD (16XX)

Introduction

The Operations Support Utilization Field encompasses planning, formulating, coordinating, implementing, and reporting Air Force aspects of military intelligence requirements; international politico-military policies, problems, negotiations, and conferences; and developing and writing Air Force, Joint services, and combined plans, programs, and policies. The following is a complete listing of AFSCs for the Operations Support Utilization Field.
REGIONAL AFFAIRS STRATEGIST (RAS)  
(Changed 31 Oct 09)

1. Specialty Summary. Provides regional expertise and professional foreign language competency to build effective relationships with our global partners. This international expertise is key to an ability to sustain coalitions, pursue regional stability and security cooperation, and contribute to multi-national operations. Related DoD Occupational Group: 230100.

2. Duties and Responsibilities:
2.1. Develops Air Force policy positions on regional affairs of national, combined, or joint service interest to include recommendations on treaties and international agreements. Receives, evaluates, and translates information from national and international agencies into tailored Air Force guidance. Assists in developing, coordinating, and implementing National Security Council policies. Determines requirements for military actions to implement national policy objectives.
2.2. Advises combined, joint, and Air Force operational commanders supporting Force Protection programs, establishing cooperative relationships with Host Nation partners, and supporting the full range of Global Engagement activities, from humanitarian relief operations to coalition building in support of contingency operations and major theater warfare.
2.3. Liaises with Departments of State and Defense and other governmental agencies involved with international affairs to present and interpret Air Force positions to interdepartmental and international committees and groups affecting negotiations on government-to-government and service-to-service levels.
2.4. Conducts analytical studies based on regional situations and trends, and prepares studies, reports, and surveys on political implications of proposed actions.
2.5. Regional Affairs Strategist positions include billets with an international focus at OSD, SAF, Air Staff, Joint Staff, Unified Commands, Combatant Commands, Defense Agencies, MAJCOMs, and NAFs.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of geopolitics, international relations, U.S. foreign policy, and U.S. military issues related to a specific region of qualification (see paragraph 4, Specialty Shredouts).
3.2. Education.
3.2.1. For entry into 16F1 (suffixes A-K), undergraduate academic specialization is desirable, focusing on, but not limited to, the political, cultural, sociological, economic, and geographic factors involving significant interaction with host nationals or host nation entities in the foreign countries in which they specialize.
3.2.2. For award of fully qualified AFSC 16F3A, there is no mandatory education requirement.
3.2.3. For award of fully qualified AFSCs 16F3 (suffixes B-K), mandatory master’s degree in regional affairs (history, government, political science of the same region in which the officer has language skills). According to DoDI 1315.20, Management of Department of Defense (DoD) Foreign Area Officer (FAO) Programs, an officer must possess graduate-level education focusing on, but not limited to, the political, cultural, sociological, economic, and geographic factors involving significant interaction with host nationals or host nation entities in the foreign countries in which they specialize.
3.3. Training.
3.3.1. 16F1X. Officers designated for deliberate RAS development by their development team (DT) will be awarded the entry level RAS AFSC (16F1X) upon completion of their applicable graduate education and foreign language training programs as outlined in AFI 16-109, International Affairs Specialist Program (IAS), para 3.3.
3.3.1.1. Appropriate training for AFSC 16F1A, Attaché and Assistant Attaché, will be determined and provided by SAF/IA and DIA on a case-by-case basis.
3.3.1.2. For AFSCs 16F1 (suffixes B-K); appropriate training is listed in AFI 16-109.
3.4. Experience.
3.4.1. 16F3X. Officers designated for deliberate RAS development by their DT will be awarded the qualified RAS AFSC (16F3X) after successfully completing applicable graduate education and foreign language training programs, a minimum of 12 months experience in a RAS billet, and receiving certification from the IAS Cross Functional Mission Area Manager.
3.4.1.1. For award of AFSC 16F3A, a minimum of 12 months experience is mandatory in an Attaché position.
3.5. Other. The following are mandatory, as indicated:
3.5.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 16FXX, member must be able to successfully obtain a Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management. (See Note 1.)
3.5.2. For award of AFSCs 16F1 (suffixes B-K) qualification for foreign area duty according to AFI 16-109.
3.5.3. Prior qualification in any AFSC is mandatory.
3.5.4. Award and retention of fully qualified AFSCs 16F3 (suffixes B-K), requires annual Defense Language Proficiency Test (DLPT) score of no less than a 2/2 (listening/reading) in a foreign language correlating with the appropriate shredout. (See Note 2.)

3.5.5. Officers must have at least 7 years of commissioned active duty service and less than 17 years of Total Active Federal Military Service (TAFMS) before being considered a candidate for selection to the RAS training and education program.

3.5.6. Award of the RAS AFSC (16FXX). Officers will be awarded the RAS AFSC upon completion of associated education, language training, and duty requirements as outlined in DoDI 1315.20. Those officers who are not vectored by their DT, but meet the requirements outlined in DoDI 1315.20, must contact the IAS Cross Functional Mission Area Manager for guidance.

NOTES:
1. Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501, Personnel Security Program Management.
2. AFSCs 16FX (suffixes A-K) can only be awarded as a 2nd or 3rd AFSC. Officers will retain their primary AFSC (PAFSC) throughout their career.

75
AIR FORCE OPERATIONS STAFF OFFICER
(Changed 30 Apr 10)

2. Duties and Responsibilities:
2.1. Develops and writes Air Force, joint services, or combined plans. Executes planning process based on defense guidance, and HQ USAF, major command, or joint services organization policies, directives, and procedures. Develops assumptions upon which the planning process is constrained. Develops plans that are responsive to Air Force doctrine and fully exploit the Air Force's unique war-fighting capabilities. Coordinates plans between staff agencies to ensure a coherent planning effort.

2.2. Programs resource allocation according to the Planning, Programming, and Budgeting System (PPBS). Executes programming actions based on guidance from major commands, joint activities, or DoD. Analyzes impact of programming decisions on war-fighting capabilities. Coordinates programming actions to facilitate issue resolution and ensure timely completion.

2.3. Develops and writes Air Force, joint services, or combined policies. Ensures policies are designed to maximize the effectiveness of Air Force operations in support of combat Commanders-In-Chief missions. Coordinates policy actions to facilitate issue resolution and ensure timely completion.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: Air Force, joint services, or combined plans development for the PPBS; planning or programming in multi-functional areas; and a strong operational background with in-depth understanding of all Air Force operational capabilities and doctrines.

3.2. Education. For entry into this specialty, advanced studies in military history, doctrine, or strategy, international affairs, or political science is desirable.

3.3. Training. Not used.

3.4. Experience. For award of AFSC 16G3, a minimum of 12 month's experience is mandatory in functions of this specialty.

3.5. Other.
3.5.1. For entry into this specialty, the following is mandatory:
3.5.1.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 16GX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

3.5.2. For entry into this specialty, one of the following is desirable:
3.5.2.1. Prior qualification (XXX3) in one of the following AFSCs: 11XX - Pilot; 12XX - Navigator; 13BX - Air Battle Management; 13DX - Combat Rescue Officer; or 13SX - Space and Missile Operations, 14NX - Intelligence, 21AX - Aircraft Maintenance, or 31PX - Security Forces.

3.5.2.2. Prior qualification (XXX3) in AFSC 17DXX Cyberspace Operations, with previous assignment to combat communications, ground theater air control system, airborne communications, air operations centers, or deployable numbered Air Force (NAF) staff.

3.5.2.3. Graduate of School for Advanced Airpower Studies (SAAS) or resident Air Command and Staff College.

NOTES:
1. Award of the entry level without a completed SSBI is authorized provided an interim SSBI has been granted according to AFI 31-501.
2. 16G4 authorizations are restricted to organizations at NAF or above. Centers, squadrons, or flights that report directly to NAFs or above may use 16G3/4.
1. Specialty Summary. Provides political-military expertise to build effective relationships with our global partners. This international expertise is key to an ability to sustain coalitions, pursue international stability and security cooperation, and contribute to multi-national operations. Related DoD Occupational Group: 230100.

2. Duties and Responsibilities:
2.1. Develops Air Force policy positions on international political-military affairs of national, combined, or joint service interest to include recommendations on treaties and international agreements. Receives, evaluates, and translates information from national and international agencies into tailored Air Force guidance. Assists in developing, coordinating, and implementing National Security Council policies. Determines requirements for military actions to implement national policy objectives.
2.2. Advises combined, joint, and Air Force operational commanders supporting Force Protection programs, establishing cooperative relationships with Host Nation partners, and supporting the full range of Global Engagement activities, from humanitarian relief operations to coalition building in support of contingency operations and major theater warfare.
2.3. Liaises with Departments of State and Defense and other governmental agencies involved with international affairs to present and interpret Air Force positions to interdepartmental and international committees and groups affecting negotiations on government-to-government and service-to-service levels.
2.4. Conducts analytical studies based on political-military situations and trends, and prepares studies, reports, and surveys on political implications of proposed actions.
2.5. Political-Military Affairs Strategist positions include billets with an international focus at OSD, SAF, Air Staff, Joint Staff, Unified Commands, Combatant Commands, Defense Agencies, MAJCOMs, and NAFs.

3. Specialty Qualifications:
3.2. Education. Appropriate education is listed in AFI 16-109, International Affairs Specialist (IAS) Program. Graduate-level education focusing on, but not limited to, the political, cultural, sociological, economic, and geographic features involving significant interaction with host nationals or host nation entities in the foreign countries of specialization. Advanced academic degree with international affairs focus from programs such as Air Command and Staff College (with completion of the block of studies on political-military/international affairs), the Naval Postgraduate School, or other applicable, in-residence degree granting international programs.
3.3. Training.
3.3.1. Appropriate training is listed in AFI 16-109.
3.3.2. 16P1. Officers, who complete an applicable Political-Military oriented Intermediate Developmental Education (IDE) program, will be awarded the entry level PAS AFSC (16P1).
3.4. Experience. For award of AFSC 16P3, mandatory minimum of 12 months experience in a PAS billet and successful completion of an applicable Political-Military oriented IDE program.
3.5. Other. The following are mandatory, as indicated:
3.5.1. Prior qualification in any AFSC is mandatory.
3.5.2. Officer must have at least 10 years of commissioned active duty service and less than 17 years Total Federal Military Service (TAFMS) before being considered a candidate for selection to the PAS training and education program.
PLANNING AND PROGRAMMING

1. Specialty Summary. Develops and writes Air Force, joint services, and combined plans, programs, and policies (numbered Air Force and above). Services multi-functional areas of responsibilities to satisfy mission objectives and does not include duties involving a single functional area such as logistics, operations, finance, and so forth. Related DoD Occupational Group: 220700.

2. Duties and Responsibilities:
2.1. Develops and writes Air Force, joint services, and combined plans. Executes planning process based on defense guidance, and HQ USAF, major command, or joint services organization policies, directives, and procedures. Develops assumptions upon which the planning process is constrained. Develops plans that are responsive to Air Force doctrine and war-fighting capability. Coordinates plans between staff agencies to ensure a coherent planning effort.
2.2. Programs resource allocation according to the Planning, Programming, and Budgeting System. Executes programming actions based on guidance provided from major commands, joint activities, or Department of Defense. Analyzes impact of programming decisions on war-fighting capabilities. Coordinates programming actions to facilitate issue resolution and ensure timely completion.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of Air Force, joint services, or combined plan development for the planning, programming, and budgeting system, and planning or programming in multi-functional areas.
3.2. Education. For entry into this specialty, an advanced degree is desirable in management, business administration, international affairs, or political science.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 16R3, a minimum of 12 months of experience is mandatory in functions of this specialty.
3.5. Other.
3.5.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 16RX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management is mandatory.

NOTE: Award of the entry level without a completed SSBI is authorized provided an interim SSBI has been granted according to AFI 31-501.
Introduction
(Changed 31 Oct 14)

The Cyber Operations Utilization Field encompasses all functions performed by cyber operations officers to conduct or
directly support cyberspace operations and cyberspace training. Inherently included are supervisory and staff functions such
as inspection, contingency planning, and policy formulation.

Specific instruction on use of certain AFSCs:

Identify cyberspace operations officers with 17XX specialties appropriate to the type of missions involved. Use the
following prefixes to identify additional rated qualifications and experience, and unit manpower document positions that
require these capabilities:

- A - Operational Warfare Instructor.
- B - Squadron Operations Officer.
- C - Commander.
- E - Electronic Warfare (EW) Duty.
- K - Instructor for weapon system designated by AFSC.
- N - Combat Systems Officer/Air Battle Manager (ABM) Required
- P - Pilot Required
- Q - Standardization Examiner for weapon system designated by AFSC.
- R - Contingency/War Planner.
- S - Safety
- T - Formal Training Instructor.
- U - Information Operations.
- W - Weapons and Tactics Instructor
- Y - Analytical Studies Officer
- Z - Cyberspace Engineering.

Identify Cyberspace Operations Officers serving as instructors in undergraduate cyberspace training and formal training units
(FTU) with a T prefix. Do not award a T prefix to instructors in operational units. Prefix K identifies these instructors and
authorizations.

2. **Duties and Responsibilities:**
   
   2.1. Commands groups. Directs operations subordinate base cyberspace operations including expeditionary communications, combat communications support, computer systems, engineering and installation, and related information operations. Implements directives from higher headquarters.
   
   2.2. Coordinates group’s activities. Coordinates staff activities pertaining to unit personnel and information management, financial and supply management, planning, and programming to ensure accomplishment of unit mission. Ensures cyberspace operations requirements are met, unique systems are accredited and operators are certified for secure and reliable operation.
   
   2.3. Monitors cyberspace operations activities. Monitors, and evaluates effectiveness of activities and functions, training programs, readiness of personnel and systems, and operation and adequacy of activities. Ensures necessary operations are conducted to provide command and control, secure and non-secure voice and data, and other battle space effects.

3. **Specialty Qualifications:**
   
   3.1. **Knowledge.** For award and retention of this AFSC, knowledge is mandatory of network systems operations, industrial control systems, information management, communications, command and control.
   
   3.2. **Education.** For entry into this specialty, a Master’s degree in computer systems or data processing; computer science; computer technology; electrical, computer, systems, or software engineering, telecommunications; information resources management; information systems management; or business administration is desired.
   
   3.3. **Training.** For award of AFSC 17C0, completion of the Cyber 200 and 300, Professional Continuing Education (PCE) courses is mandatory.
   
   3.4. **Experience.** For award of this AFSC, the following experience is mandatory:
   
   3.4.1. Experience in a staff-level position in one or more functional areas within cyberspace operations.
   
   3.4.2. Experience in base-level fixed or tactical cyber mission areas: establish, operate, defend, exploit, attack.
   
   3.5. **Other.** None.
1. **Specialty Summary.** Operates cyberspace weapons systems, employs cyberspace capabilities, and commands crews to accomplish cyberspace, training, and other missions.

2. **Duties and Responsibilities:**
   2.2. Operates weapons system(s) and commands crew. Performs, supervises, or directs weapons system employment and associated crew activities.  
   2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.  
   2.4. Translates operational requirements into architectural and technical solutions. Works with commanders to deliver complete capabilities that include technical and procedural components. Researches or oversees research of technologies and advises commanders on associated risks and mitigation factors in conjunction with meeting requirements.  
   2.5. Directs extension, employment, reconfiguration, adaptation and creation of portions of cyberspace to assure mission success for combatant commanders. This includes both deliberate and crisis action scenarios.  
   2.6. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. **Specialty Qualifications:**
   3.1. Knowledge. Knowledge is mandatory including electronics theory, information technology, telecommunications and supervisory and control systems including cryptography, vulnerability assessment and exploitation techniques. Additionally knowledge will include operational planning, governing cyberspace operations directives, procedures and tactics.  
   3.2. Education. For entry education requirements see Appendix A, Paragraph 10, 17D CIP Education Matrix.  
   3.3. Training. The following training is mandatory as indicated:  
   3.3.1. For award of AFSC 17D2X, completion of Undergraduate Cyberspace Training (UCT) and mission qualification training in suffix specific area.  
   3.4. Experience. For upgrade to AFSCs 17D2X/3X, unit commander determines proficiency based on performance, experience and completion of minimum training requirements.  
   3.5. For award and retention of 17DX, specialty requires routine access to Top Secret or similar environment and completion of a current Single Scoped Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

**NOTE:** Award of the entry level without a completed SSBI is authorized provided an interim Top Secret clearance has been granted according to AFI 31-501.

REMOTELY PILOTED AIRCRAFT PILOT UTILIZATION FIELD (18XX)

Introduction
(Established 30 Apr 10)

The Remotely Piloted Aircraft Pilot (RPA Pilot) Utilization Field encompasses all functions performed by rated RPA pilot officers to conduct or directly support RPA flying operations, including combat, combat support, and training missions. Inherently included are supervisory and staff functions such as inspection, contingency planning, and policy formulation.

Specific instruction on use of certain AFSCs:

Identify RPA pilots with 18XX specialties appropriate to the type of missions and weapon system involved. Use the following prefixes to identify additional rated qualifications and experience, and unit manpower document positions that require these capabilities:

- A - Operational Warfare Instructor.
- B - Squadron Operations/Maintenance Officer.
- C - Commander.
- E - Electronic Warfare (EW) Support Duty
- G - Automated Systems Program Designer.
- K - Instructor for weapon system designated by AFSC.
- Q - Standardization or Flight Examiner for weapon system designated by AFSC.
- S - Safety.
- T - Formal Training Instructor.
- U - Information Operations
- W - Weapons and Tactics Instructor.
- Y - Analytical Studies Officer.

Identify RPA pilots serving as instructor RPA pilots in undergraduate training and formal training units (FTU) with a T prefix. Do not award a T prefix to instructor remote pilots in operational units. Prefix K identifies these instructors and authorizations.

Identify requirements for staff officers above wing level with a staff AFSC (18X4). Award individuals possessing a qualified AFSC (18X3) or a staff AFSC (18X4) upon assignment to a position so identified.

Qualification level 3 designates an RPA pilot qualified as an aircraft commander in the assigned specialty or credit. Level 1 identifies rated remote pilots at the entry level for their specialty.

Current aeronautical rating and qualification for aviation service according to AFI 11-402, *Aviation and Parachutist Service, Aeronautical Ratings and Badges*, are mandatory for award and retention of RPA pilot AFSCs. See AFI 36-2101, *Classifying Military Personnel (Officer and Enlisted)*, for policy on retention or withdrawal of rated AFSCs for personnel disqualified from aviation service or placed in an inactive status.
ATTACK REMOTELY PILOTED AIRCRAFT PILOT
(Changed 31 Oct 12, Effective 27 Aug 12)

2. Duties and Responsibilities:
2.1. Plans and prepares for mission. Reviews mission tasking, intelligence, and weather information. Supervises mission planning, equipment configuration, and crew briefing. Ensures ground station and aircraft are preflighted, inspected, loaded, and equipped for mission.
2.2. Operates aircraft and commands crew. Operates aircraft controls and equipment. Performs, supervises, or directs navigation, surveillance, reconnaissance, and weapons employment operations.
2.3. Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of theory of flight, air navigation, meteorology, flying directives, aircraft operating procedures, and mission tactics.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, administration, or management is desirable.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For entry into this specialty, completion of Air Force Undergraduate Remotely Piloted Aircraft Training (URT), or possess an aeronautical rating of Pilot or Navigator/Combat Systems Officer (CSO).
3.3.2. For award of AFSC 18A3X, completion of transition and operational training in the suffix specific aircraft.
3.4. Experience. For upgrade to AFSC 18A3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. The following are mandatory as indicated:
3.5.1. For award and retention of this AFSC:
3.5.1.1. Qualification for air vehicle operator duty according to AFI 48-123, Medical Examinations and Standards.
3.5.1.2. Current aeronautical rating and no permanent disqualification for aviation service as RPA Pilot.
3.5.2. For award of AFSC 18A3X, certification of aircraft commander qualification by appropriate operations authority.
3.5.3. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs, 18AXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

EXPERIMENTAL TEST REMOTELY PILOTED AIRCRAFT PILOT
(Changed 30 Apr 12)

1. Specialty Summary. Plans, conducts, directs, and reports on flight test programs associated with the design, development, and modification of remotely piloted aircraft, aerospace vehicles, flight simulators, and related systems. Related DoD Occupational Group: 220200.

2. Duties and Responsibilities:
2.1. Plans and conducts flight test activities. Formulates test procedures and conducts tests to evaluate structural integrity, performance, handling characteristics, reliability, and suitability of aircraft and systems.
2.2. Manages research, test and evaluation projects, and programs. Integrates test objectives, organizes and directs test forces, and supervises flight operations.
2.3. Identifies design and operational deficiencies and recommends improvements. Prepares technical reports and recommendations for design improvements.
2.4. Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of aircraft performance and handling fundamentals, operational employment concepts, and flight test procedures.
3.2. Education. For entry into this specialty, an undergraduate degree specializing in physical sciences, mathematics, or engineering is mandatory.
3.3. Training. The following training is mandatory as indicated:
3.3.1. For entry into this specialty, completion of Air Force Undergraduate Remotely Piloted Aircraft Training (URT), or possess an aeronautical rating of Pilot or Navigator/Combat Systems Officer (CSO).
3.3.2. For award of AFSC 18E3X, completion of the Air Force Test Pilot School, Experimental Test Pilot Course, or equivalent US Navy or foreign test pilot school is mandatory.
3.4. Experience. For upgrade to AFSC 18E3X, unit commander determines proficiency based on performance, experience, and completion of minimum training requirements.
3.5. Other. The following are mandatory as indicated:
3.5.1. For award and retention of this AFSC:
3.5.1.1. Current aeronautical rating and qualification for aviation service as RPA pilot.
3.5.1.2. Current aeronautical rating and no permanent disqualification for aviation service as RPA Pilot.
3.5.2. For award of AFSC 18E3X, certification of aircraft commander qualification by appropriate operations authority.
3.5.3. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs, 18EXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.

NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

GENERALIST REMOTELY PILOTED AIRCRAFT PILOT
(Changed 30 Apr 12)

1. **Specialty Summary.** Develops plans and policies, monitors and evaluates operations, coordinates staff activities, and advises commanders. Related DoD Occupational Group: 220100.

2. **Duties and Responsibilities:**
   Monitors, evaluates, and directs flying operations and training programs. Develops requirements for equipment and training. Prepares and coordinates budgets. Analyzes rated manpower requirements and formulates personnel policies. Prepares, coordinates, and disseminates policy directives and implementing instructions. Develops contingency plans.

3. **Specialty Qualifications.** For entry into this specialty, prior qualification in any remote pilot AFSC (18X3) is mandatory.
   3.2. Education. Not used.
   3.3. Training. Not used.
   3.4. Experience. Not used.
   3.5. Other:
   3.5.1. For award and retention of this AFSC, current aeronautical rating and no permanent disqualification for aviation service as RPA Pilot.
   3.5.2. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 18GX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management, is mandatory.

**NOTE:** These AFSCs are only authorized to identify nonflying positions where designation of a specific remote pilot AFSC is not feasible.

LOGISTICS CAREER AREA (2XXX)

Introduction

The Logistics Career Area encompasses program formulation, policy planning, coordination, inspection, command and direction, and supervision and technical responsibilities pertaining to space and missile maintenance, aircraft maintenance and munitions, transportation, supply, and logistics plans and programs utilization fields.

The Logistics Commander directs and monitors logistics programs including supply, transportation, procurement, and maintenance activities; and serves as senior staff advisor to commanders. The following is a complete listing of AFSCs for the Logistics Career Area.
LOGISTICS COMMANDER

1. **Specialty Summary.** Directs and monitors logistics programs including supply, transportation, procurement, and maintenance activities; and serves as senior staff adviser to commanders. Related DoD Occupational Group: 280100.

2. **Duties and Responsibilities:**
   2.1. Directs and organizes logistics programs. Reviews logistics requirements for specific objectives and priorities of command mission. Directs preparation of plans for logistics support of tactical, strategic, and defense missions. Plans research projects to determine effectiveness of logistics support programs. Plans and establishes logistics policies and procedures; exercises staff supervision over logistics activities to assure logistics support of Air Force mission requirements. Provides for applied research in areas of technological development, recommending modification of existing equipment and outlining need for developing new equipment. Reviews operation operating budget requirements of logistics activities and directs consolidation of logistics budget. Reviews applicable stock fund operating programs, and where appropriate, directs their consolidation.
   2.2. Monitors logistics activities. Analyzes logistics requirements and estimates capabilities of organization to accomplish assigned missions. Approves fund expenditures for supplies and equipment. Inspects operating condition of facilities and effectiveness of logistics activities to support logistics programs and ensure coordination between such activities. Evaluates logistics programs, establishes responsibilities, estimates trends, and projects requirements and capabilities of activities such as supply, maintenance, transportation, and procurement. Prepares technical publications on logistics methods, procedures, and policies. Directs operation of maintenance and supply organizations.
   2.3. Coordinates logistics programs. Advises commanders on status of logistics programs and ability to meet current and projected requirements. Coordinates with civil engineering personnel, operations directors, and comptrollers in preparation of master command plan and in outlining areas of responsibility to avoid duplication of functions. Confers with commanders and staff on activities such as maintenance, supply, transportation, and procurement to establish and implement logistics programs, policies, and procedures. Coordinates with comptroller activities in projecting budget requirements and allocating funds to logistics programs. Maintains liaison with research and development activities, military services, and public and private agencies on logistics changes.

3. **Specialty Qualifications:**
   3.1. Knowledge. Knowledge is mandatory of: supply, procurement, maintenance control, production management, and logistics planning.
   3.2. Education. For entry into this specialty, undergraduate academic specialization in logistics management, engineering, or business is desirable.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 20C0, the following experience is mandatory:
   3.4.1. Qualification in a staff officer specialty in one or more utilization fields in the Logistics Career Area, or in a staff officer specialty in the Communications-Computer Systems Career Area.
   3.4.2. Also, experience formulating plans and policies for, and monitoring logistics programs, with emphasis on requirements determination; and operating procedures, systems, and policies requiring a factual understanding of all phases of logistics.
   3.5. Other.
   3.5.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSC 20C0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, *Personnel Security Program Management* is mandatory.
The Logistics utilization field encompasses all functions performed by logistics officers, including aircraft, missile, and spacelift maintenance; supply; transportation; and logistics plans. Inherently included are program formulation, policy planning, coordination, inspection, command and direction, and supervision.

The Logistics Readiness specialty (AFSC 21RX) encompasses integration of logistics disciplines at the senior level for transportation, supply, and logistics plans. Responsibilities include directing integrated logistics processes; accomplishing joint logistics planning for warfighting support and sustainment with the Joint Staff, Unified Commands, other military services and agencies of the Office of the Secretary of Defense; and directing acquisition and wholesale logistics activities.

The Aircraft Maintenance specialty (21AX) encompasses functions of production management, quality control, and direction of aircraft maintenance, avionics, and munitions activities. Responsibilities include immediate supervisory and technical responsibilities for removing, installing, modifying, calibrating, repairing, and storing of aircraft, avionics, and munitions equipment and components. Equipment and components include aircraft engines, airframes, accessories, instruments, and aerospace ground equipment; aircraft systems and equipment. Responsibilities may also include maintenance and management of nuclear, explosive, toxic, chemical-biological, and incendiary aerospace munitions.

The Munitions and Missile Maintenance specialty (AFSC 21MX) encompasses missile maintenance, production management, quality control, and direction of maintenance activities. Responsibilities include procedures for missile technicians; facility requirements; system hardware designs; technical responsibilities for assembly, installation, checkout, component replacement, modification, repair, testing, inspection, calibration, and systems analysis of equipment; and command, preset, and automatic guidance systems, missile test equipment, and systems components.
AIRCRAFT MAINTENANCE
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

2. Duties and Responsibilities:

2.1. Directs aircraft maintenance mission generation and repair network activities. Maintains workforce discipline and responds to personnel issues while balancing workforce availability and skill levels with operational requirements. Works with functional managers to develop, formulate, and manage fiscal resources. Installs maintenance discipline, security awareness and force protection concepts. Ensures accuracy of documentation, i.e. aircraft forms and automated systems. Ensures adherence to technical data, policy, procedures, and safe maintenance practices.

2.2. Develops, coordinates, and executes flying and maintenance schedules. Manages aircraft configuration; daily aircraft servicing, weapons loading, launch, recovery, and repair; periodic aircraft maintenance inspections; and flightline safety and foreign object damage (FOD) prevention and dropped object programs. Manages overall aircraft fleet health and ensures aircraft availability to execute mission requirements. Analyzes aircraft maintenance indicators to identify trends and initiates corrective actions.

2.3. Directs maintenance activities that may include aircraft propulsion, pneudraulics, egress, fuel systems, electro-environmental, Precision Measurement Equipment Laboratory (PMEL) and avionic systems. Also may include management of aerospace ground equipment, structural repair, low-observable repair, corrosion control, machine, welding, inspection, aero-repair, crash, damaged, disabled aircraft recovery, non-destructive inspection, and off-equipment munitions and armament suspension equipment.

2.4. Manages quality assurance, maintenance training, budget and resource management, analysis, facilities, shared resources to include end-of-runway and weapons load training. Manages plans and programs, modifications, and modernizations requirements.

2.5. Formulates maintenance plans and policies to meet unit tasking. Assesses unit maintenance capability in support of combat related operational plans and provides inputs for capability assessments for each plan. Defines aircraft maintenance procedures and requirements in response to emergency or contingency situations.

2.6. Coordinates key core logistics requirements supporting aircraft maintenance operations. Establishes support requirements for supply requisition, repair cycle, delivery, combat support, ground and aerial port transportation, base support plans, and munitions requirements.

2.7. Directs and manages wholesale logistics life cycle sustainment support. Coordinates production schedules to include induction and selling systems. Defines technical problems and economic factors related to research and development, and system operational data to evaluate programs, assess trends, and identify improvements and deficiencies. Manages weapons system programs, funding of depot maintenance workloads, and transportation distribution systems. Manages logistics tests and evaluation on new acquisition programs and aircraft modifications.

★ 3. Specialty Qualifications:

3.1. Knowledge. The following knowledge is mandatory for award of the AFSC: maintenance and personnel management procedures, and organizational and mission requirements; capabilities, limitations, and basic operating principles of aircraft systems and components; theory of flight and airframe construction; life cycle sustainment, quality assurance; supply, transportation, logistics plans, contracting, flying operations, munitions, and other unit operations related to aircraft maintenance units.

3.2. Education. For entry education requirements see Appendix A, Paragraph 11, 21A CIP Education Matrix.

3.3. Training. For award of the 21A3, completion of an AETC in-residence Aircraft Maintenance Officer Course (AMOC) is mandatory.

3.4. Experience. For award of AFSC 21A3, a minimum of 24 months of experience managing aircraft maintenance activities is mandatory.

3.5. Other. Not used.
MUNITIONS AND MISSILE MAINTENANCE
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Manages maintenance and modification of conventional munitions, nuclear weapons, Intercontinental Ballistic Missiles (ICBM), and associated equipment. Administers weapons programs and resources. Directs weapons maintenance production, staff activity, and related material programs. Manages missile maintenance activities at launch and missile alert facilities, including maintenance, repair, and inspection of missile flight systems, expendable launch vehicles (ELV), nuclear certified support vehicles and equipment, and associated ground support equipment (SE). Serves as munitions and missile maintenance staff advisor to commanders. Related DoD Occupational Groups: 240500.

2. Duties and Responsibilities:
2.1. Formulates maintenance procedures for all munitions and missile systems. Builds integrated logistics support plans and develops maintenance support structures to sustain maintenance and personnel. Manages storage and distribution of Air Force munitions. Establishes training requirements and support standards of operational systems. Identifies and upgrades system deficiencies to meet mission requirements and enhance safety.
2.2. Assesses operational requirements and environment. Advises commanders on risks associated with conventional munitions, nuclear weapons, and missile operations. Evaluates explosives and nuclear safety criteria and develops explosives site plans for storage, movement, and operations of conventional munitions, nuclear weapons, and missiles. Conducts conventional munitions, nuclear weapons, and missile safety training.
2.3. Manages conventional munitions, nuclear weapons, and missile maintenance production. Recommends procedural and technical improvements and modifications. Schedules resources to ensure required readiness. Enforces technical performance standards, and ensures assigned work force is properly trained and equipped. Assesses unit capability and advises commanders, supervisors, and staff. Budgets and allocates resources. Coordinates with operational and support units to ensure equipment readiness and efficiency of assigned forces.
2.4. Formulates maintenance plans. Plans and programs support requirements, modifications, and modernization. Defines technical problems and economic factors related to research and development, and system application. Reviews maintenance and operational data to evaluate programs, assess trends, and identify improvements and deficiencies.
2.5. Plans and directs munitions support for in-place and Air Expeditionary Force operations.
2.6. Plans and organizes munitions and missile maintenance activities. Performs engineering functions for maintenance and operations facilities; provides space, tools, test equipment, and spare parts; establishes workflow. Develops and improves methods and procedures for assembly, checkout, calibration, and analysis of aerospace systems. Establishes performance standards for system assembly, checkout, and component replacement. Plans and coordinates booster flight profiles. Manages qualifications and validation of ELVs, including engineering proposals, hardware, and software procurement. Certifies launch readiness of flight hardware, associated facilities, and supporting test range resources. Directs DoD and civilian agencies and aerospace contractors throughout launch preparation activities.
2.7. Manages and coordinates activities to support intercontinental ballistic missile (ICBM) launch readiness operations. Advises commander on operational status of ICBM assets. Maintains liaison with manufacturers' representatives to solve maintenance and performance problems. Coordinates lateral logistics activities to ensure supply, transport, and funding are integrated to support mission requirements. Develops flight plans and supports ground flight software and hardware configuration. Monitors operation and performance of vehicle activities and flight dynamics. Represents logistics in development of flight procedures, mission checklists, and mission flight rules.
2.8. Writes munitions, nuclear weapon, and missile maintenance annexes to logistics plans. Provides weapon system data for operational and logistics support analysis. Monitors and evaluates contracted logistics and maintenance support activities.
2.9. Develops procedures for storing, assembling, delivering, inventory management, and testing conventional munitions, nuclear weapons, and missiles.
2.10. Develops procedures for, and manages, routine disposal of common US munitions.
2.11. Develops munitions accountability programs. Understands and manages all aspects of the Air Force munitions accountability system.
3. **Specialty Qualifications:**

3.1. **Knowledge.** The following knowledge is mandatory for award of the AFSC indicated:

3.1.1. **21M3A.** Maintenance management procedures and organizational and mission requirements; capabilities, limitations, and basic weapons, weapons procedures, and quality assurance; supply, transportation, civil engineer, and other unit operations related to munitions, missile, or aircraft maintenance units; conventional air-to-air missiles; air-to-ground weapons including guided, rocket-boosted, and unguided munitions; dispensers and submunitions; suspension and release equipment; fuses; wiring harnesses; loading procedures; safety tests; munitions (ground) handling equipment; maintenance management; production control and maintenance data collection procedures; and lateral logistic functions related to munitions maintenance.

3.1.2. **21M3I.** Missile and re-entry systems; suspension and release equipment; weapon employment; nuclear surety; joint nuclear procedures; related test, handling, and SE; evolution of missiles; missile operations including booster and payload processing; solid and liquid rocket performance, maintenance capabilities, limitations, and employment of missile equipment; and ICBM life cycle logistics.

3.1.3. **21M3N.** Nuclear weapons and warheads; nuclear armament systems; suspension and release equipment; nuclear weapons employment; Munitions Accountable Systems Officer responsibilities; nuclear weapons maintenance, life cycle management, and inspections; nuclear surety; nuclear theory, effects, and components; nuclear weapons storage; nuclear weapons movement; nuclear weapons physical security; nuclear weapons transportation; nuclear weapons maintenance documentation, records and reports; and joint nuclear procedures.

3.2. **Education.** For entry education requirements see Appendix A, Paragraph 12, 21M CIP Education Matrix.

3.3. **Training.** The following training is mandatory for award of the AFSC indicated:

3.3.1. **21M1.** Completion of the Munitions and Missile Maintenance Officer Fundamentals Course and Nuclear Fundamentals Course is mandatory and a prerequisite for attending specialty shredout courses.

3.3.2. **21M1A.** Completion of Conventional Munitions Officer Course.

3.3.3. **21M1I.** Completion of Missile Maintenance Officer Course.

3.3.4. **21M1N.** Completion of Nuclear Maintenance Officer Course.

3.4. **Experience.** The following experience is mandatory for award of the AFSC specialty shredout indicated:

3.4.1. **21M3A.** A minimum of 24 months experience managing conventional munitions maintenance activities are mandatory.

3.4.2. **21M3I.** A minimum of 24 months experience managing ICBM maintenance activities are mandatory.

3.4.3. **21M3N.** A minimum of 24 months experience managing nuclear weapons maintenance activities and completion of Career Field Education and Training Plan requirements are mandatory. Completion of Nuclear Accountability Course is required within 24 months of assignment.

3.5. **Other.**

3.5.1. For entry into this specialty (ANG and AFRC officers exempt), accessions must be screened for eligibility and meet requirements of the Personnel Reliability Program (PRP) as outlined in the HQ AETC PRP prescreening guidance.

3.5.2. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 21MXX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management is mandatory.

**NOTE:** Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

4. **Specialty Shredouts:**

1. Specialty Summary. Integrates the spectrum of the logistics processes within the operational, acquisition, and wholesale environments. The major logistics processes include distribution management, materiel management and contingency operations. Directs and manages distribution management, materiel management, contingency operations, fuels management, aerial port operations, vehicle management, and acquisition/life cycle logistics management. Plans and programs logistics support for wartime requirements. Related DoD Occupational Group: 280100.

2. Duties and Responsibilities:

2.1. Directs distribution management operations to include managing cargo distribution functions such as receiving, inspecting, tracking, packaging, and shipping of supplies, equipment and war readiness spares. Responsible for logistics pipeline management and time-sensitive delivery of materiel in support of peace, contingency, and wartime operations. Maintains accountability for supplies and equipment. Responsible for the safe and efficient organic ground transportation of personnel and cargo within and between installations in support of daily and contingency operations. Resolves problems related to storage, safety, and fire hazards. Manages storage space utilization and develops and maintains a storage facility and mechanized material handling equipment modernization program to include maintenance, future upgrades, and working stock requirements. Determines readiness requirements, including emergency supply support plans, tactical and strategic movement of personnel, materiel, and units. Schedules and coordinates movement of cargo, personnel, and personal property by commercial or military modes using systems which interface with defense total asset visibility systems. Uses in-transit visibility systems. Maintains liaison with US Transportation Command (USTRANSCOM), other services and federal agencies to schedule and coordinate movements of cargo and personnel. Ensures proper allocation and effective use of transportation resources. Establishes and administers an effective packaging and preservation program. Evaluates movement forecasts and flow of personnel and cargo into the transportation system, movement capabilities, and efficiency of modes used.

2.2. Directs materiel management operations such as, direction and management of retail or wholesale supply activities. Included are environmental compliance and inventory management. Determines, computes, and analyzes current and projected materiel requirements; applies authorizations and allowances; establishes and maintains stock levels; manages asset positioning; inspects, reviews, and evaluates work methods and procedures. Ensures accountability is maintained for supplies, equipment, and War Reserve Materiel (WRM). Determines effectiveness of functional data systems. Manages assigned information systems and applies approved standards and criteria to ensure proper implementation, operation, and results. Develops plans, programs, policies and procedures to manage materiel management activities, including systems design and analysis, determination and computation of requirements, plans for activation and inactivation, facility requirements, equipment allowances, and materiel accounting. Develops working capital fund operating programs and determines operating budget. Provides guidance on handling of readiness materiel stocks, including location, type of storage, protection, security, and quality control.

2.3. Directs contingency operations such as logistics planning, deployment command and control, Logistics Readiness Centers, logistics command and control, Combat Support Center activities, deployment, bed-down, and redeployment activities. Integrates Agile Combat Support planning efforts, conducts readiness assessment of logistics activities, conducts war and contingency planning, base support and expeditionary site planning, WRM management, support agreement management, manages logistics time phased force deployment data and unit type codes. Enables international theater security cooperation and interoperability, operating in coalition or Joint environments often working with contractors, host-nations, etc.

2.4. Directs fuels management operations such as environmental compliance, inventory management of ground and aviation fuels. Determines provisions, computes and analyzes current and projected petroleum requirements; computes, establishes, and maintains stock levels, manages fuel receipt from pipelines, trucks, rail cars, and marine vessels. Manages fuel dispensing systems, bulk fuel storage facilities, cryogenics productions and storage, and test and evaluation of fuel samples. Develops, plans and establishes policies and procedures to manage fuels activities, including systems design, plans for activation and inactivation, facility requirements, equipment allowances, and accounting. Interprets fuels directives. Inspects, reviews, and evaluates work methods and procedures. Resolves problems related to storage, fire hazards, and truck fill stand and aircraft refueling areas. Coordinates with commander, staff, and operating units on wartime, contingency and peacetime fuels support. Coordinates with elements of DoD and other governmental organizations to assure support to Air Force units.
2.5. Directs aerial port operations such as management of fixed and mobile air terminals through various sub-processes to include: Fleet Services, Aerial Delivery, Passenger Terminals, Freight, and the Air Terminal Operations. Coordinates contingency transportation support requirements and capabilities with other agencies using DoD and USAF logistics, transportation and In-Transit Visibility (ITV) systems. Coordinates military and commercial aircraft schedules with appropriate control and operations centers and flight line agencies using current DoD and USAF logistics, transportation and ITV systems. Evaluates movement forecast and flow of personnel and cargo into the most efficient mode of the Defense Transportation System. Collects and analyzes data on air transportation.

2.6. Directs vehicle management operations such as coordination of vehicle and equipment requirements, assignments, priorities and warranty repairs. Evaluates quality of operator care and maintenance. Determines operational requirements and specifications including reliability, maintainability and standardization for facilities, vehicles and materiel handling equipment. Develops policies and procedures for the administration of vehicle abuse and misuse programs. Collects and analyzes data on vehicle operations and maintenance.

2.7. Directs acquisition/life cycle logistics activities. Plans for and manages systems, subsystems, and equipment throughout their life cycle, including integrated logistics support activities and modernization/obsolescence planning. Develops, initiates, integrates, and manages all logistics actions associated with life cycle management of weapon systems, subsystems, and equipment. Serves as logistics focal point throughout the system’s life cycle. Formulates logistics management and fiscal policy for weapon systems.

3. Specialty Qualifications:

3.1. Knowledge. Knowledge is mandatory of the following core competencies: Distribution Management, Materiel Management, and Contingency Operations. A Logistics Readiness Officer must have a well developed knowledge of all three core competencies and a well grounded understanding of the six proficiencies: distribution management, materiel management, fuels management, contingency operations, aerial port operations, and vehicle management.

3.2. Education. For entry education requirements see Appendix A, Paragraph 13, 21R CIP Education Matrix.

3.3. Training. For award of AFSC 21R3, completion of Logistics Readiness Officer basic course (L3OBR21R1) and at least one core competency is mandatory.

3.4. Experience. For award of AFSC 21R3, the officer must gain 24 months experience in any Logistics Readiness function, with no less than 12 continuous months in one of the following competencies: Materiel Management, Contingency Operations, or Distribution Management.

NOTE: For ARC officers, the MAJCOM A4 may extend the required completion date when the officer cannot gain experience due to the limitations in training availability or opportunities.
SUPPORT CAREER AREA (3XXX)

Introduction

The Support Career Area encompasses program formulation, policy planning, coordination, inspection, command and direction, and supervision and technical responsibilities pertaining to force protection; civil engineering and disaster preparedness; communications - information systems and visual information; morale, welfare, recreation, and services; public affairs and band; mission support, manpower-personnel, and information management.

The Support Commander coordinates and directs the efforts and resources of Support units to meet mission and installation needs and objectives. The Communications Commander commands and directs Communications Groups.
SUPPORT COMMANDER

1. Specialty Summary. Commands Support Group. Directs and monitors support activities and units. Ensures cohesive integration of functions and resources in force protection; civil engineering (CE); communications - computer; morale, welfare, recreation, and services (MWRS); public affairs; personnel; information management; and manpower to support installation, Wing, and mission needs. Related DoD Occupational Group: 270300.

2. Duties and Responsibilities:

2.1. Directs support units. Determines requirements of assigned units by analyzing mission and interpreting directives, orders, and regulations. Formulates plans and establishes policies and procedures for activities such as personnel, administration, training, facility use, recreational services, open mess operations, engineering and construction, food services, billeting supply, small arms firing, youth programs, force protection, and communications. Directs implementation of programs for activities such as flying safety, reserve training, disaster preparedness, force protection, sanitation, utility service, crash rescue, fire protection, proficiency flying, host-tenant agreement, labor negotiations, and equal employment opportunity. Directs studies and surveys to determine perceptions of personnel, and implements plans to resolve problems and eliminate conditions contributing to low morale. Ensures availability of religious, legal education, photo, graphics, and audiovisual services. Selects and assigns commanders of specialized squadrons such as security forces, combat support and civil engineering. Convenes summary courts and approves special courts-martial and discharge actions for all installation personnel.

2.2. Monitors support activities. Reviews inspection reports to determine status of activities such as military and civilian personnel, labor relations, and materiel. Inspects assigned units and organizations, including base exchange outlets and commissaries, to ensure compliance with directives and procedures. Inspects and evaluates program effectiveness for housing, welfare, education, force protection, weapons storage, and dormitories.

2.3. Coordinates support activities. Conduct staff meetings and converses and appoints boards, councils, and committees to assist in managing assigned activities. Ensures effective interface of assigned units with those of other functional areas to optimize support and accomplish primary mission. Coordinates with civic organizations to develop an effective community relations program.

3. Specialty Qualifications:

3.1. Knowledge. For award and retention of this AFSC, knowledge is mandatory of: Air Force management concepts and objectives, and their relationship to mission accomplishment; concepts and directives governing the administration of military justice; principles of military administration; personnel management; resource management; force protection; MWRS; communications - computers and visual information; public affairs; and manpower.

3.2. Education. For entry into this specialty, a Master's degree in management, or business administration with a major in management is desirable.

3.3. Training. Not used.

3.4. Experience. For award of this AFSC, experience is mandatory in overall direction and responsibility for activities within the area of personnel; CE; security forces; administration; logistics; MWRS; communications - computers; visual information; public affairs; or manpower.

3.5. Other. Not used.
SECURITY FORCES UTILIZATION FIELD (31PX)

Introduction

The Security Forces (SF) Officer Career Area leads, manages, and directs personnel executing the security forces missions. SF duties may require the use of force, including deadly force. SF leaders ensure combat capability through the functions of installation, nuclear and conventional weapon systems, and resources security; force protection; air base defense; military police services; information, personnel, and industrial security; military working dog activities; and combat arms. Security Forces participate in contingency operations. Personnel in this career area may be deployed and employed in sensitive or hostile environments created by terrorism, sabotage, nuclear, chemical, biological, and conventional warfare.

This career area does not have primary responsibility for operations, computer, or communications security; nor vehicle traffic engineering or safety. Responsibility for these functions is included in other career areas.
SECURITY FORCES
(Changed 31 Oct 15, ★Effective 26 Feb 15, ★★23 Mar 15)

1. Specialty Summary. Leads, manages, and directs security forces (SF) activities. Included are installation, weapon system, and resource security; antiterrorism; law enforcement and investigations; military working dog functions; integrated defense; armament and equipment; training pass and registration; information, personnel, industrial security; and combat arms. SF duties may require use of deadly force. Related DoD Occupational Group: 270800.

2. Duties and Responsibilities:

2.1. Leads, manages, and directs SF personnel. Protects nuclear and conventional weapons systems and other resources. Plans, leads, and directs SF deployments. Directs integrated defense functions including control and security of terrain inside and immediately adjacent to military installations, and defense of personnel, equipment and resources. Leads and directs individual and team patrol movements, tactical drills, battle procedures, convoys, military operations other than war, antiterrorism duties, and other special duties. Directs employment and operation of communications equipment, vehicles, intrusion detection equipment, crew served-weapons, and other special purpose equipment.

2.3. Develops SF plans, policies, procedures, and instructions. Assesses installation or deployed location vulnerabilities. Establishes programs, plans, and policies to protect Air Force combat capabilities. Formulates standards and policies to implement DoD, Air Force, and higher headquarters programs and policies. Programs and budgets actions for initial acquisition, modification, and replacement of SF facilities, vehicles, equipment, and other resources. Establishes security classification management programs. Develops orientation and education programs for information security. Develops and manages force protection and antiterrorism programs and training. Complies with all AF Incident Management System (AFIMS) requirements.

2.4. Leads and manages SF activities. Serves on boards and planning groups involving security, force protection, police services, and antiterrorism matters. Coordinates SF functions and matters with other unit, military services, and civilian agencies. Monitors and directs programs to ensure cost effective mix of security forces personnel and equipment. Initiates and monitors research and development programs to assist in design and acquisition of equipment.

3. Specialty Qualifications:

3.1. Knowledge. Knowledge is mandatory of: Air Force SF programs and management functions, such as installation security measures; security concepts for nuclear and conventional weapon systems and resources; integrated defense, vulnerability assessment and mitigation; police services including law enforcement, traffic management, confrontation management, investigations, and military working dog utilization; programming and budgeting procedures; information security concepts; principles of deployment, operational capabilities, limitations, and vulnerabilities; basic security equipment capabilities; combat arms training and maintenance; employment and operator maintenance of assigned weapons, and IDRMP.

3.2. Education. For entry education requirements see Appendix A, Paragraph 14, 31P CIP Education Matrix.

3.3. Training. For award of AFSC 31P3, completion of the SF Officer Course is mandatory.

3.4. Experience. For award of AFSC 31P3, a minimum of 36 months of experience is mandatory in SF officer assignments.

3.5. Other.

3.5.1. For entry into this specialty, accessions must meet be screened for eligibility and meet the following requirements:

3.5.1.1. Normal color vision as defined in AFI 48-123, Medical Examinations and Standards.

3.5.1.2. Must not have used/distributed/manufactured illicit narcotics as defined in schedule I/II or been arrested for narcotics in schedules I through V as listed in 21 USC §812. Exclude use of marijuana, hashish, or other cannabis-based products during this screening unless that use resulted in the documentation of a use disorder by a credentialed medical provider.

3.5.1.3. No history of excessive alcohol use or been arrested in the past two years for two or more alcohol related incidents regardless of disposition, except when found not guilty.

3.5.1.4. Must not have used a substance (snifffing/huffing) to obtain an altered conscious state from aerosol spray, lighter fluid, petro chemical, adhesives, Freon, or any other chemical for a purpose not intended for use.

3.5.1.5. No more than one active wage garnishment for delinquency.

3.5.1.6. No more than two delinquent charge off/collection (>= 30 days) payments within last two years.
3.5.1.7. Within three years prior to entry into military service, not have been terminated from civilian employment more than twice for reasons of misconduct, theft, or alcohol use.

3.5.1.8. No record of sleep disorders to include, but not limited to, sleep apnea, insomnia, hypersomnia, narcolepsy, or restless leg syndrome.

3.5.1.9. No current diagnosis of Attention Deficit Disorder/Attention Deficit Hyperactivity Disorder or Perceptual/Learning Disorder(s), with no use of medication(s) to treat same in the last 12 months.

3.5.1.10. No history of mood disorders including bipolar disorder, major depression, dysthymia, or depression not otherwise specified.

3.5.3. For entry, award and retention of this AFSC:

3.5.2.1. No recorded evidence of personality disorder, sustained or untreatable emotional instability to include depression, or suicidal behavior to include attempts, gestures, ideations, threats or history of self-mutilation.

3.5.2.2. Distance visual acuity correctable to 20/20 in one eye and 20/30 in the other.

3.5.2.3. Qualification for and suitability to bear firearms according to AFI 31-117, *Arming and Use of Force by Air Force Personnel*, is mandatory.

3.5.2.4. Never been convicted by a general, special, or summary courts-martial.

3.5.2.5. Never received nonjudicial punishment under the Uniform Code of Military Justice (UCMJ) which resulted in either reduction or suspended reduction in grade, or correctional custody for offenses involving substantiated drug abuse as defined in AFI 44-121, *Alcohol and Drug Abuse Prevention and Treatment (ADAPT) Program*, acts of larceny, wrongful appropriation, robbery, burglary, housebreaking, misconduct in combat defined in UCMJ articles 99-106, convictions of domestic violence in accordance with the Lautenberg Amendment, or any act that harms or has the potential to harm the physical safety or well-being of animals to include Military Working Dogs.

3.5.2.6. Never been convicted by a civilian court of a Category 1, 2, or 3 offense, nor exceeded the accepted number of Category 4 offenses. Category 3 and 4 traffic offenses alone are not disqualifying. NOTE: Categories of offenses are described and listed in AFI 36-2002, *Regular Air Force and Special Category Accessions*, Uniform Guide List of Typical Offenses.

3.5.2.7. No speech disorder or noticeable communication deficiency as defined in AFI 48-123.

3.5.2.8. Must possess a valid state driver’s license to operate government motor vehicles IAW AFI 24-301, *Vehicle Operations*.

3.5.2.9. No diagnosed fear of acrophobia (fear of heights) or confined spaces.

3.5.2.10. No documented record of gang affiliation.

3.5.2.11. No fear of working around nuclear weapons or nuclear components.

3.5.3. For award and retention of these AFSCs, must maintain local network access IAW AFMANs 33-152, *User Responsibilities and Guidance for Information Systems* and 33-282, *Computer Security*.

3.5.4. Specialty requires routine access to Secret material or similar environment. For award and retention of AFSCs 31PX, completion of a current National Agency Check, Local Agency Checks and Credit (NACLC) according to AFI 31-501, *Personnel Security Program Management*. 
The Civil Engineer (CE) Career Area provides combat engineering support for deployed Air Force and joint units and weapons systems, emergency repair of war damage to air bases, base denial activities, and other related combat support functions; develops, monitors, and briefs survivability actions and methods to recover capabilities after attack; and organizes, trains, and equips contingency forces for nuclear, biological, chemical, and conventional attack operations and other emergency situations. The career field also encompasses activities relating to acquisition, maintenance, asset management, operation, and disposal of real property facilities, and includes planning, program formulation and execution, policy development, inspection, command, and direction of CE activities. Included are supervisory, operational, and engineering responsibilities for construction, maintenance, and repair of Air Force real property; operation of utility systems; fire prevention, protection, and aircraft crash rescue; disaster preparedness; explosive ordnance disposal. Functions involving planning and programming for maintenance, repair, and construction requirements; design and preparing plans and specifications for contracts, contract inspection, budgetary development and planning; establishing standards, requirements, and funds management for personnel, supplies, and equipment; environmental protection and base procedures for construction and maintenance of environmental improvements; planning, budgeting, construction, maintenance, and management of military family housing; acquisition, utilization, and disposal of real estate under Air Force jurisdiction; and training and use of CE professional and technical personnel.

Officers performing civil engineering functions not requiring a specific engineering discipline are identified by AFSC 32E3G/1G. Readiness non-engineer positions and personnel are identified by AFSC 32E3D/1D; Readiness engineer positions and personnel are identified by AFSC 32E3B/1B. Non-engineer EOD positions and personnel are identified by AFSC 32E3K/1K. Engineer EOD positions and personnel are identified by AFSC 32E3H/1H. For award of a shredout other than B, D, H, K or G, the mandatory degree must be in the academic area specified by the shredout.

Civil engineer officers will be upgraded based on 2 years of duty in CE regardless of shredout, except suffixes D and K. Upgrading will be in the shredout relating to their academic discipline or suffix G - General Engineer, dependent upon duty position. Officers whose academic area is not compatible with suffixes A, C, E, F, I or J will be upgraded in suffix G only.

Officers of all shredouts may be assigned to positions requiring suffix G.
1. Specialty Summary. Develops and implements civil engineer (CE) force employment, and provides staff supervision and technical advice. Performs and manages CE functions and activities to provide facilities and infrastructure supporting the United States and allies. Activities include programming, budgeting, project management, drafting, surveying, planning, feasibility studies, construction management, utilities operations, energy and environmental programs, land management, real property accounting, fire protection, explosive ordnance disposal (EOD), disaster preparedness (DP) programs, family housing and dorm management, and mobilization programs at base level. Serves on response teams and related installation support services. Advises commanders and government officials on effective use of CE resources. Related DoD Occupational Group: 240100.

2. Duties and Responsibilities:
2.1. Supports combat operations and activities. Maintains trained and equipped forces capable of responding to worldwide contingencies and military operations other than war. Evaluates capabilities and develops contingency methodologies to accomplish mission objectives. Maintains emergency response force to cope with enemy attacks, major accidents, and natural disasters. Plans, develops, and executes procedures to mitigate the effects, render safe, and dispose of conventional, nuclear, chemical biological ordnance and improvised explosive devices. Provides on-scene advice to commander on control and integration of emergency response force. Develops, monitors, and briefs survivability actions and methods to recover capabilities after attack. Organizes, trains, and equips contingency forces for conventional and nuclear, biological, and chemical attack operations, and other emergency situations. Acts as weapons recovery cell director as a member of the response task force for nuclear accidents.

2.2. Determines requirements, establishes plans, provides designs, and directs operations, maintenance, repair, alteration, addition, and construction of facilities and utility systems. Determines personnel and material resource requirements. Plans and establishes land use, and provides environmental stewardship. Directs CE forces in support of customers' requirements, and coordinates activities with subordinate and lateral units and functions. Determines proper use of facilities and effective employment of utility systems. Acts as technical representative and engineering consultant for operations and maintenance activities. Coordinates activities with local, state, federal, and host country agencies.

2.3. Develops CE plans and policies. Evaluates impact of legislative action, executive orders, directives, and management decisions. Consults with manpower, organization, and personnel staffs to ensure appropriate use of CE personnel. Coordinates with staff agencies on fiscal and legal matters. Directs training, business practices, and professional development activities. Serves as CE advisor to commanders. Implements standardization and evaluation, and monitors compliance of programs and policies. Directs and conducts engineering research and feasibility studies and surveys.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: contingency engineering, contingency base operations, EOD, and survivability skills, including force bed-down, expedient damage repair, and recovery after attack: methods, sources, and techniques of engineering design, construction, maintenance, operation, and repair of facilities and utility systems; resource acquisition and management; asset management; military facilities programming and planning; environmental stewardship; housing management; management of real property; fire prevention, protection, and aircraft crash rescue procedures; engineering research and development; and formulation, coordination, and administration of plans and programs.

3.2. Education. The following education is required for entry into AFSCs 32E1X as indicated:
3.2.1. For entry education requirements see Appendix A, Paragraph 15, 32E CIP Education Matrix.
3.2.2. 32E1G. Prior qualification in AFSC 1916/32E4 or 1944/32E3D, 12 months of base level experience, and being in a DP or Air Base Operability (ABO) position on 31 Oct 93, or prior qualification in AFSC 4016/21A4 or 4024B/21A3K, 12 months of base level experience, and being in an EOD position on 30 Apr 94, may be substituted for an engineering degree.

NOTE: There is no intent to classify non-engineers into AFSC 32E1D or 32E1K. All classifications for Readiness after 31 October 1993 and for EOD after 30 April 1994 will be in AFSC 32E1B or 32E1H respectively, and will require an engineering degree.

3.3. Training. The following training is mandatory for award of the AFSC indicated:
3.3.1. 32E3A/B/C/E/F/G/H/I/J. Completion of Air Force Institute of Technology (AFIT) course WMGT 101, Air Force Civil Engineer Basic Course.
NOTE: For Air Reserve Component officers, AFIT courses WMGT 102, *Introduction to the Base Civil Engineer Organization for Reserve Forces Course*, and WMGT 484, *Reserve Forces Air Base Combat Engineering Course*, may be substituted for AFIT course WMGT 101.

3.3.2. 32E3H. Completion of the initial skills training course for EOD. (Navy School EOD [NAVSCOLEOD]).

3.4. Experience. The following experience is mandatory for award of the AFSC indicated:

3.4.1. 32E3A/B/C/E/F/G/H/I/J. A minimum of 12 months of experience in the specialty shredout.

3.4.2. 32E3D. Must have previously held AFSC 1944/1916, and have served at least 12 months at base level, and be filling a Disaster Preparedness/ABO position on 31 October 1993.

3.5. Other. The following are mandatory requirements of AFSCs 32E3H and 32EXK as indicated:

3.5.1. For entry into this specialty (prior to being given a class slot at NAVSCOLEOD):

3.5.1.1. Normal color vision as defined in AFI 48-123, *Medical Examinations and Standards*.

3.5.1.2. Minimum height of 5’2”. Maximum height 6’8”.

3.5.1.3. No record of Claustrophobia (fear of confined spaces).

3.5.1.4. Candidate must have a valid, passing Air Force Physical Fitness score dated no more than 6 months prior to Navy EOD School class start date.

3.5.2. For entry, award, and retention of AFSCs 32EXH and 32EXK:

3.5.2.1. No record of emotional instability.

3.5.2.2. Normal depth perception as defined in AFI 48-123.

3.5.3. Certification by EOD OIC that the applicant is recommended and approved for entry into training by the MAJCOM EOD Functional Manager and/or CFM.

3.5.4. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 32E3H, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, *Personnel Security Program Management*.

NOTE: Award of the 32E1H level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

PUBLIC AFFAIRS UTILIZATION FIELD (35XX)

Introduction

The Public Affairs Utilization Field encompasses functions of both the Public Affairs and Band specialties.

The Band specialty includes functions of program formulation, policy planning, inspection, command, and direction of band activities; supervisory and technical responsibilities for the procurement and training of personnel; band participation in military and quasi-military activities including parades, reviews, honor guards, and funerals; and training of and presentations by dance bands, radio and show bands, choral groups, and small instrumental ensembles made up of band personnel.

The Public Affairs specialty includes functions of policy planning, program formulating, operating, maintaining, monitoring, coordinating, and directing internal information, and media and community relations; supervisory and technical responsibility for collecting, organizing, and disseminating information to internal and public audiences; developing and preserving effective relations between the Air Force and the public; examining and appraising policies and programs of the Air Force; and advising commanders and staff officers on courses of action in terms of public interest. The following is a complete listing of AFSCs for the Public Affairs Utilization Field.
1. Specialty Summary. Leads, directs and manages Air Force band programs to render appropriate honor to our country and our Airmen; to enhance Airman morale; to advance international relationships by using music to bridge language and cultural differences; to strengthen public trust and support of the Air Force as a respected professional organization charged with responsibility for national security; to inspire patriotism and increase public understanding of the importance of the Air Force and the dedication of its Airmen; and to enhance Air Force recruiting efforts to sustain the all-volunteer force. Related DoD Occupational Group: 271400.

2. Duties and Responsibilities:
2.1. Leads Air Force bands. Organizes, trains and equips bands to communicate senior leader messages through participation in military and civilian events, to include ceremonies, parades, recruiting efforts, official social events, concerts and other public performances. Leads operations involving large performing groups by serving as a musical conductor.
2.3. Coordinates Air Force band activities. Advises senior leaders on capabilities, employment and limitations of bands and their use in achieving strategic effects based on senior leader objectives. Synergizes band plans and activities with Air Force public affairs offices in their area of responsibility.
2.4. Administers Air Force band operations. Directs scheduling of band units and personnel to meet senior leader objectives. Analyzes, monitors and conducts administrative programs ensuring operations and personnel adhere to public law, regulations, policies and directives. Liaises with personnel, manpower, comptroller, transportation and higher headquarters officials to facilitate the efficiency of band operations.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: organization, mission and capabilities of Air Force bands to meet senior leader requirements; publications and directives on training, administration, and operations of Air Force bands; personnel and administration management; knowledge of essential musical requirements for the performance of classical, jazz and popular music; musical conducting and rehearsal techniques; principles of music proficiency; music theory (written and aural); ranges, transpositions, and capabilities of all instruments authorized for Air Force bands; band music repertoire; both marching and concert band operations and performance; testing and evaluating procedures; copyright laws pertaining to live and recorded music performance; and joint expeditionary operating environments.
3.2. Education. For entry into this specialty, undergraduate academic specialization in music performance, music education, music industry, or related field is desirable.
3.3. Training. For award of AFSC 35B3, completion of the Defense Information School Public Affairs Qualification Course is mandatory for RegAF officers. N/A for Air National Guard band officers.
3.4. Experience. For award of AFSC 35B3, a minimum of 12 months of experience in the Air Force Band assignments is mandatory.
3.5. Other. The following are mandatory as indicated:
3.5.1. For entry into this specialty, certification by the Air Force Chief of Music.
3.5.2. Specialty requires routine access to Secret material or similar environment. For award and retention of this specialty, completion of a current National Agency Check, Local Agency Checks and Credit (NACLC) according to AFI 31-501, Personnel Security Program Management.
3.5.3. For retention of this specialty, no record of disciplinary action (Letter of Reprimand [LOR] or Article 15) for the following:
3.5.3.1. Failure to exercise sound leadership principles, especially with respect to morale or welfare of subordinates.
3.5.3.2. Engaging in an unprofessional or inappropriate relationship as defined in AFI 36-2909, Professional and Unprofessional Relationships; or documented failures (LOA, LOR or Article 15).
3.5.3.3. Exhibiting a lack of integrity by failing to lead or take appropriate actions as needed.
3.5.3.4. A violation of Article 107, false official statements, Uniform Code of Military Justice (UCMJ).
PUBLIC AFFAIRS

(Changed 31 Oct 15, ★Effective 26 Feb 15)

1. Specialty Summary. Provides public affairs advice, trusted counsel, and support to commanders, other senior leaders, and unit personnel. Leverages communication capabilities through an integrated approach to advance commanders’ mission priorities by researching, planning, resourcing, executing, and evaluating public affairs operations. Communicates timely, truthful, accurate, and credible information about Air Force activities to internal and external military and civilian domestic and international audiences, while maintaining due regard for security, accuracy, privacy, and propriety. Builds, maintains, and strengthens public trust and support for the Air Force. Provides leaders with communication tools to build, maintain, and strengthen Airman morale and readiness. Contributes to U.S. global influence and deterrence through information engagement. Related DoD Occupational Groups: 270700 and 270600.

2. Duties and Responsibilities:
2.1. Delivers candid and timely communication counsel and guidance to Air Force leaders on the communication and public perception implications of key decisions, policies, and operations and their potential impact on mission success. Participates in the development of plans and policies and monitors operations to assure consideration of such implications.
2.2. Researches, plans, executes, and assesses communication strategies and activities. Ensures all public affairs efforts adhere to applicable federal law, DOD principles governing the release of information, and Air Force policies. Advocates for and manages funds, manpower, training, and equipment to effectively execute public affairs operations to support the mission. Plans, directs, and leads public affairs deployments.
2.3. Ensures a free flow of releasable information to the news media. Establishes and maintains relationships with news media representatives, facilitates media access, prepares Air Force subject matter experts for media interviews, and evaluates media coverage. Supports DOD-approved entertainment industry, documentary, and publication requests.
2.4. Promotes public knowledge and understanding of Air Force missions, organizations, and capabilities. Fosters coordination, cooperation, and mutual appreciation between the Air Force, local communities, state and federal agencies, and DOD/interagency components. Evaluates requests for Air Force support to public events, and coordinates appropriate participation to achieve the commander’s communication objectives. Manages environmental public affairs issues and events and ensures legal mandates for community involvement are met. Assists Air Force recruiting efforts. Advises on capabilities, employment, and limitations of Air Force bands and their use in achieving strategic effects based on the commander’s priorities, initiatives, and intent.
2.5. Establishes the means to link Airmen and their leaders through a robust command information program. Advises about content, propriety, timing, and relative importance of information for internal release through all available means. Contributes to the morale, readiness, productivity, and retention typical of a well-informed force.
2.6. Plans for and manages visual information requirements and directs the centralized collection, management, and distribution of imagery for planning, operational, documentation, public affairs, and historical use. Plans for, directs, and leads Combat Camera Airmen in the visual documentation of exercises and combat, contingency, and peacetime operations.

★3. Specialty Qualifications:
3.1. Knowledge is mandatory of: missions, roles, functions, organizational structures, relationships, operational planning objectives, policies, customs and courtesies, and history of the Air Force; oral, written, and visual communication concepts and principles; traditional and emerging methods and techniques of disseminating information; basic communication theory; legal and ethical considerations surrounding the practice of communication; communication research and analysis; and joint expeditionary operating environments.
3.2. Education. For entry education requirements see Appendix A, Paragraph 16, 35P CIP Education Matrix.
3.3. Training. For award of AFSC 35P3, completion of the Defense Information School Public Affairs Course is mandatory for active-duty officers. Reserve Component officers may satisfy this requirement by completion of the DINFOS PAQC Advanced Distributed Learning course although completion by the full in-residence course is preferred.
3.4. Experience. For award of AFSC 35P3, a minimum of 18 months of commissioned experience in public affairs assignments is mandatory.
3.5. Other. For entry into this specialty, prior enlisted service in any 3N0XX AFSC is desirable.
3.5.1. For entry and retention of AFSC 35PX, the following are mandatory:
3.5.1.2. A valid state driver’s license to operate government motor vehicles in accordance with AFI 24-301, Vehicle Operations.
3.5.2. No record of disciplinary action (Letter of Reprimand [LOR] or Article 15) for:
3.5.2.1. Failure to exercise sound leadership principles, especially with respect to morale or welfare of subordinates; or
3.5.2.2. Engaging in an unprofessional or inappropriate relationship as defined in AFI 36-2909, *Professional and Unprofessional Relationships*; or documented failures (LOA, LOR or Article 15); or
3.5.2.3. Taking or failing to take action in situations, thereby exhibiting a lack of integrity; or
3.5.2.4. A violation of Article 107, false official statements, Uniform Code of Military Justice (UCMJ).
3.5.2.5. No convictions by a general, special or summary courts-martial.
3.5.2.6. No Unfavorable Information File.
3.5.2.7. Never been convicted by a civilian court of a Category 1, 2, or 3 offense, nor exceeded the accepted number of Category 4 offenses. Category 3 and 4 traffic offenses alone are not disqualifying. **NOTE:** Categories of offenses are described and listed in AFI 36-2002, *Regular Air Force and Special Category Accessions*, Uniform Guide List of Typical Offenses.

3.5.3. For retention of AFSC 35PX, the following are mandatory:
3.5.3.1. Specialty requires routine access to Secret material or similar environment. Completion of a current National Agency Check, Local Agency Checks and Credit (NACLC) in accordance with AFI 31-501, *Personnel Security Program Management*.
3.5.3.2. No recorded evidence of substance abuse, emotional instability, personality disorder, or other unresolved mental health problems.
INTRODUCTION

The Personnel Officer Utilization Field leads, manages and directs personnel executing combat support capabilities for the Air Force and joint mission in the core areas of Manpower, Personnel and Services Programs. Personnel leaders ensure combat support capability through the functions of Manpower and Organization, Force Development, Developing and Connecting Airman to the outside world, Feeding Operations, Lodgment of Forces, Fit to Fight, Regenerating Airman, Casualty and Mortuary, Infant to Teen Development, Building a Sense of Community, Airman and Family Reunification, Shaping and Balancing the Force, Alternative Resourcing, Personnel Readiness and Accountability, Adaptive Flexibility, Resiliency, Equal Opportunity and Hosting Official Functions.

Officers performing Personnel functions not requiring a specific discipline are identified by AFSC 38XX, AFSC 38P1A requires mandatory undergraduate degree requirements.

The Personnel Officer Utilization Field is an expeditionary career field. Personnel in this field establish, train, equip, and maintain ready status specialized mobility teams that deploy to support wartime or other contingencies that may be deployed and employed in sensitive or hostile environments created by terrorism, sabotage, nuclear, chemical, biological, and conventional warfare.

This field includes a variety of command opportunities.

Excluded from this field are functions of APF contracting for services such as mortuary and disposition of excess or surplus APF property. These functions are included in the Acquisition Contracting/Manufacturing Utilization Field. Feeding Operations functions do not include hospital food service activities.
PERSONNEL

(★Changed 31 Oct 15, ★★Effective 26 Feb 15)

2. Duties and Responsibilities:
2.1. Formulate personnel plans and programs and develop policy to guide their implementation and execution. Translates program policy into directives, publications, and training manuals.
2.2. Participate in total force adaptive planning and execution in support of combatant commanders from peacetime through mobilization, contingency operations and demobilization. Access manpower, personnel, and equipment availability for UTC posturing and management.
2.3. Develop, control, program and allocate manpower resources in support of the Air Force planning, programming, budgeting and execution process. Analyze and determine force composition.
2.4. Determine Total Force manpower requirements across the spectrum of Air Force capabilities. Employ industrial and management engineering methodologies to develop manpower determinants and standards. Manage allocation of military and civilian resources through execution and management of the UMD. Conduct management advisory studies.
2.5. Develop, test, evaluate, and maintain Air Force recognized organization structure. Analyze and process organization change actions to activate, inactivate, redesignate, and reorganize unit structures.
2.7. Oversee and conduct strategic sourcing studies.
2.8. Develop and execute the full spectrum of total force personnel programs to accomplish accession planning and processing, classification and utilization, promotion, recognition, evaluation, reenlistment, assignment action, retraining, retirement, disciplinary, force development and force shaping programs.
2.9. Establish Air Force education and training policy requirements. Manage programs to include developmental education, voluntary education, advanced academic education, promotion testing, and libraries.
2.10. Manages equal opportunity and sexual assault prevention and response programs. Assess and advise commanders at all levels on the human relations environment. Provide counseling, education, and complaint processing.
2.11. Leads and supervises contingency training and operations with an emphasis on specific capabilities and processes focused on expeditionary organizations and command relationships, feeding operations, lodging of forces, mortuary affairs, casualty reporting, force accountability, fitness, recreation, learning resource centers, protocol, and NAF resale operations for both peace and wartime operations.
2.12. Develop and administer fitness programs designed to keep the Total Force fit and regenerate Airman and families.
2.13. Develop recreational programs to include sports management, tournaments, and special entertainment designed to regenerate the Total Force.
2.14. Lead Quality of Service programs and business operations. Establish and maintain sound appropriated and nonappropriated fund financial and corporate standards with internal controls. Establish short- and long-range plans to include growth and facility/equipment improvement and/or replacement.
2.15. Develop, administer, and monitor Airman and Family Programs ensuring compliance with policies and standards.
2.16. Institute customer service practices designed to meet the needs of commanders, supervisors and the force at large in peacetime and wartime operations.

★★3. Specialty Qualifications:
3.2. Education. For entry education requirements see Appendix A, Paragraph 17, 38P CIP Education Matrix.
3.3. Training. For award of AFSC 38P3, completion of the Personnel Officer Initial Skills Training (IST) Course including Officer Field Education (OFE) is mandatory.

3.4. Experience. For award of AFSC 38P3, a minimum of 24 months of experience is mandatory.

3.5. Other. Not used.

MEDICAL CAREER AREA (4XXX)

Introduction

The Medical Career Area encompasses program formulation, policy planning, coordination, inspection, command and direction, and immediate supervisory and technical responsibilities pertinent to the Health Services Management, Biomedical Clinicians, Biomedical Specialists, Medicine, Surgery, Nurse, Dental, and Aerospace Medicine Utilization Fields.
MEDICAL COMMANDER

1. **Specialty Summary.** Commands Air Force medical centers, units, or activities whose primary mission is to provide medical care and other health services. Serves as chief staff advisor to line commanders. Related DoD Occupational Group: (See suffix explanation).

2. **Duties and Responsibilities:**
2.1. Commands medical units. Commands resources engaged in health care. Responsible for personnel required to carry out base health care services. Determines health care requirements by analyzing mission and interpreting directives, orders, and instructions. Formulates plans, and establishes policies and procedures for delivering health care services and assures health care support for mission accomplishment. Implements programs such as total force training and disaster preparedness. Directs studies and surveys to determine perceptions of personnel. Implements measures to resolve problems and eliminate conditions contributing to low morale.
2.2. Directs health care activities. Supervises and directs assigned resources to provide quality health care services. Arranges quality civilian health care services when more cost effective than those available through the military facility or other federal resources. Ensures medical support to meet requirements placed on medical units when personnel are under operational control of the medical commander. Develops medical portion of base plans to provide medical support to wing and installation. Trains health care personnel. Advises installation commander on scope of available health care services, health care and services required by host-tenant agreements, health of personnel, and health protection requirements and measures.
2.3. Coordinates health care service activities. Conducts staff meetings, convenes, and appoints boards, councils, and committees to assist in managing assigned activities. Coordinates training, support, and use of medical units and activities. Coordinates with local health care agencies. Participates in civilian community health planning process. Determines medical treatment facility role within health service area.

3. **Specialty Qualifications:**
3.1. Knowledge. Knowledge is mandatory of: management concepts and objectives and their relationship to mission accomplishment; relationship of military and health care doctrine, contingency, and medical readiness planning; strategic planning; Air Force flying mission and associated health care requirements; information management; Air Force policy directives and instructions; military justice; conflict resolution; managing quality; communication and interpersonal skills; principles of medical administration; financial management; personnel; and materiel and facilities management.
3.2. Education. For entry into this specialty, it is mandatory to possess a degree leading to award of a medical AFSC (4XXX).
3.3. Training. Not used.
3.4. Experience. For award of AFSC 40C0X, prior experience is mandatory in a medical command position, or experience in one or more senior health care management positions within preceding 5 years. Senior health care management positions include Chief, Hospital or Clinic Services; Chief Nurse; Base Dental Surgeon; Chief, Aerospace Medicine; Administrator; Chief of Pharmacy, Laboratory, or other biomedical sciences function; or other clinical or health care service or department-level management positions.
3.5. Other. Not used.

HEALTH SERVICES UTILIZATION FIELD (41AX)

Introduction

The Health Services Utilization Field encompasses command, administrative, logistics, and education functions supporting the provision of health care to authorized beneficiaries. This includes planning, programming, and operations related to the following activities: Medical facility command; medical facility administration; medical materiel and services management; medical resource management; patient affairs management; war and emergency planning; aeromedical evacuation; medical recruiting; medical facility repair, modification, and construction; biometrics; health systems design; data systems design; medical research administration; and health services training and education.
HEALTH SERVICES ADMINISTRATOR
(Changed 30 Apr 14, Effective 22 Nov 13)

1. Specialty Summary. Manages health services activities, including plans and operations, managed care, human resource management, logistics management, patient administration, budgetary and fiscal management, medical manpower, medical facility management, biometrics, medical recruiting, and aeromedical evacuation. Directs the hospital accreditation program and management improvement studies. Related DoD Occupational Group: 260900.

2. Duties and Responsibilities:
2.1. Formulates, interprets, and implements policy. Plans and organizes activities associated with peacetime and wartime health services administration, such as manpower, medical logistics, medical food service, hospitalization and aeromedical evacuation of patients, medical facilities repair, maintenance, construction, modification, and housekeeping, equipment maintenance and repair, information systems, clinical engineering, inpatient and outpatient records, and morale and welfare services for patients and medical personnel.
2.2. Coordinates health services programs. Coordinates with comptroller, civil engineering, civilian and federal agencies, and other Air Force functions and activities to execute health services programs. Advises the medical professional staff and other staff health services officers on administrative matters pertaining to health services programs. Maintains liaison with civilian, military, and other federal activities to keep current in areas of interest to health services administration.
2.3. Monitors and directs health services programs. Interprets and directs the implementation of policies governing health services programs. Directs the management of health services functions such as medical logistics, fiscal management, managed care, human resource management, patient administration, aeromedical evacuation, medical facility construction, modification, and design, and medical research administration. Develops financial plans and budget estimates for Air Force health services programs. Directs the preparation of biometric reports, directives, correspondence, and memoranda pertaining to health services administration. Controls utilization of health services program funds in collaboration with the medical commander and comptroller. Prepares and exercises emergency, disaster, and defense plans, and monitors readiness training. Integrates cost management, quality and access to care issues into health services programs.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: Air Force health services management; hospital administration and practice; contractual and accounting fundamentals; quality management; human resource management; and biometrics.
3.2. Education. For entry into this specialty, one of the following is mandatory:
   3.2.1. A graduate degree in Health Administration, Healthcare Administration (or equivalent), Healthcare Management, Health Management and Policy, Health Services Administration (or equivalent), Hospital Administration (or equivalent), Accounting, Business Administration, Business Management, Economics, Finance, Marketing, Statistics, Information Systems Management, or other business-related equivalent.
   3.2.2. An undergraduate in Health Administration, Healthcare Administration (or equivalent), Healthcare Management, Health Management and Policy, Health Services Administration (or equivalent), Hospital Administration (or equivalent), Accounting, Business Administration, Business Management, Economics, Finance, Marketing, Statistics, Information Systems Management, Biomedical Engineering, Clinical Engineering and Health Management/Health Systems Engineering, Architecture, Operations Research or other closely-related degree.
3.3. Training. For award of AFSC 41A3, completion of the basic health services administration course is mandatory.
3.4. Experience. For award of AFSC 41A3, officers must have at least 12 months experience in one of the MSC core functions, which are prescribed as health facilities, health plan management, medical resources, healthcare information management and information technology, medical logistics, and medical readiness (including aeromedical evacuation), and must have the approval of their unit’s senior ranking MSC.
3.5. Other. Not used.
INTRODUCTION

The Biomedical Clinician Utilization Field encompasses the functions of physical and occupational therapy, clinical psychology and social work, optometry, podiatry, physician assistants, audiology, and speech pathology in support of and serves as an integral part of the medical career area and medical services.

Duty titles used with biomedical shreadouts may include the shredout title, where appropriate; for example, Orthopedic Physician Assistant (42G3A) is a shredout of the Physician Assistant (42G) AFSC.
PHYSICAL THERAPIST
(Change Effective 23 Jul 09)

2. Duties and Responsibilities:
2.1. Plans, coordinates, controls, directs, and evaluates physical therapy activities. Determines and implements policies and procedures pertaining to physical therapy program and activities. Determines requirements for physical therapy services including personnel, equipment, supplies, and continuing education. Establishes professional care standards and establishes and appraises performance levels of subordinates. Coordinates the physical therapy program within the medical facility. Establishes and maintains liaison with civilian and governmental agencies regarding physical therapy. Develops and implements teaching programs and research activities related to physical therapy.
2.2. Plans and develops physical therapy treatments, procedures, and programs. Reviews clinical records and case histories. Interprets requests for physical therapy services. Evaluates patients and determines the type and frequency of physical therapy treatment necessary to assist in the habilitation or rehabilitation of patients. Consults and collaborates with medical personnel, patient, and active duty supervisor as required. Confers with referring medical officer. Makes recommendations regarding the use or adjustment of braces, prostheses, and other related appliances used to support and assist the mobility of the patient.
2.3. Administers physical therapy treatment programs. Supervises the professional phases of physical therapy. Administers physical therapy diagnostic tests and treatment programs. Observes patient's response to treatment and modifies the program to accelerate recovery. Records all pertinent data in the patient's medical records. Participates in quality assessment program.
2.4. Serves in an advisory and teaching capacity. Acts as a consultant to the medical staff on physical therapy matters. Makes recommendations on staffing, physical plant design, and distribution of physical therapy equipment. Establishes requirements and coordinates and conducts educational programs to meet department and facility needs. Evaluates effectiveness and efficiency of physical therapy programs and continuing educational activities.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of physical therapy programs and activities, and physical therapy treatments and diagnostic tests.
3.2. Education. For entry into this specialty, completion of a course in physical therapy acceptable to the Surgeon General, HQ USAF, is mandatory. Minimum educational entry is entry-level doctorate (DPT) or transitional (e.g. post-professional) DPT. Exceptions may be made on a case by case basis for exceptionally qualified candidates with a bachelor's or master's degree but who do not have a transitional DPT.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 42B3, a minimum of 6 months of experience is mandatory in physical therapy assignments, including planning, managing, and administering physical therapy treatments and activities for those with the entry-level doctorate (DPT) and transitional (e.g. post-professional) DPT. A minimum of 24 months of experience is mandatory in physical therapy assignments, including planning, managing, and administering physical therapy treatments and activities for those with a bachelor’s or master’s degree.
3.5. Other.
3.5.1. For entry into this specialty a state license to practice physical therapy is mandatory.
3.5.2. For award and retention of AFSC 42B3, a state license to practice physical therapy is mandatory.
**OPTOMETRIST**  
*(Change Effective 23 Jul 09)*

1. **Specialty Summary.** Examines, diagnoses, treats and manages diseases and disorders of the visual system, the eye and associated structures as well as diagnoses related systemic conditions. Serves as an integral part of the military health team and an entry point into the military health care system. The scope of optometric practice in the Air Force includes but is not limited to comprehensive primary eye care services, i.e., evaluations, diagnoses and treatment, for all eligible patient beneficiary categories; comprehensive specialty services, including contact lenses, low vision and vision training; co-management of ocular surgery and ocular complications of systemic illness in the inpatient and outpatient setting; primary eye care consultant for other health care professionals in the military health care system; promoting prevention and wellness, vision conservation, education and training activities, vision screenings, and positive health behaviors. Related DoD Occupation Group: 260804.

2. **Duties and Responsibilities:**

2.1. Examines eyes and vision. Examines, diagnoses, treats, and manages diseases and disorders of the visual system, the eye, and associated structures, as well as diagnosis of related systemic conditions utilizing refractive, pharmaceutical, and rehabilitative (low vision, contact lens, and binocular vision) procedures.

2.2. Prescribes treatment. Utilizes and prescribes pharmaceutical agents for the examination of the eye and adnexa as well as treatment and management of vision disorders, diseases, and conditions of the eye and adnexa. Utilizes and prescribes ophthalmic and other rehabilitative prosthetic devices (such as spectacles, contact lenses, low vision devices) and trains in their use.

2.3 Orders studies. Orders diagnostic laboratory studies (such as preparation of specimens for cultures, sensitivity testing, smear and histological analysis, chemistry, hematology, coagulation, serology and immunology, nuclear medicine, and urinalysis); orders diagnostic imaging studies (such as ultrasound of the eye, head, neck, heart; ocular fluorescein and indocyanine green angiography; and radiology of the eye, orbit, head, neck, chest including X-ray, computed tomography, magnetic resonance imaging, magnetic resonance angiography with and without contrast).

2.4. Consults with attending physicians and other health care providers. When requested, augments the care of patients and provides referral to appropriate health care providers of patients with medical, surgical, psychiatric, and rehabilitative conditions.

2.5. Performs clinical procedures. Provides refractive status determination; binocular vision status determination; ocular and adnexal health evaluation; external, anterior segment and fundus photography with interpretation; visual field measurement and interpretation, ocular electrodiagnostic measurement with interpretation; ocular diagnostic imaging (optical coherence tomography, scanning laser polarimetry, retinal thickness analyzer, ultrasonographic and laser) measurement with interpretation; ocular diagnostic imaging (fluorescein and indocyanine green) photography with interpretation; epilation of lashes; expression of adnexal glands; examination, testing, dilation and irrigation of the lacrimal apparatus; insertion of temporary and permanent punctal plugs; removal of non-perforating foreign bodies from the eye and adnexa.

2.6. Conducts research. Plans and conducts research in areas of clinical optometry and physiological optics, such as physical standards, protective and corrective eyewear, examining methods and techniques, and perceptual problems associated with aeronautics and space flight.

2.7. Manages optometry activities. Directs, supervises, and reviews performance of optometrists and ophthalmic technicians with emphasis on meeting the Air Force Medical Service (AFMS) business plan goals while providing quality care in alignment with the clinical guidelines of the American Optometric Association. Monitors day-to-day clinical and administrative activities to determine compliance with procedures governing optometric activities. Instructs ophthalmic technicians in local operational procedures, and in use and maintenance of ophthalmic instruments. Develops, implements, and conducts process improvement initiatives, collects and analyzes eye and vision treatment outcome data, and develops research program documents, evaluations, procedures, operating instructions, and policies. Reports optometric activities to appropriate squadron commander IAW AFI 48-101, Aerospace Medicine Operations. Leads clinical preparation for Health Services Inspection (HSI) and the Joint Commission on Accreditation of Health Care Organizations (JCAHO) inspections.

2.8. Manages and directs occupational vision programs. Plans, supervises, and participates in vision conservation and eye protection programs according to AFI 41-115, Authorized Health Care and Health Care Benefits in the Military Health Services System (MHSS) and AFI 44-117, Ophthalmic Services. Works with the base safety office, public health and flight medicine personnel to identify eye hazardous areas and occupations, and supervises visual screening of personnel in such areas. Arranges for professional services, procurement, and dispensing of gas mask inserts, ballistic protective eyewear inserts and safety eye wear for military personnel and civilian employees of the Department of Defense.

3. **Specialty Qualifications:**

3.1. Knowledge. Must maintain currency in the delivery of primary eye care services to include treatment and management of disease and disorders of the visual system utilizing pharmacology and state-of-the-art ophthalmic technology.

3.2. Education. For entry into this specialty, completion of a Doctor of Optometry degree from an accredited four-year college of optometry approved by the Surgeon General, HQ USAF, is mandatory.

3.3. Training. Residency training is recommended, but not mandatory.

3.4. Experience. For award of AFSC 42E3, a minimum of 12 months of experience in optometry assignments is mandatory. Experience must be in primary eye care services to include the examination, diagnosis, treatment and management of diseases and disorders of the visual system, the eye and associated structures as well as diagnosis of related systemic conditions. Perform specialty services including contact lenses, low vision and vision training, and co-management of surgical eye cases and ocular complications of systemic illness.

3.5. Other. For award and retention of AFSC 42E3, an unrestricted state license to practice optometry utilizing therapeutic pharmacologic agents is mandatory. Such licensure must be attained within 12 months of entering active duty.
PODIATRIST
(Changed 31 Oct 13, Effective 2 Jul 13)

2. Duties and Responsibilities:
2.1. Examines, diagnoses, and treats diseases and injuries of the foot, ankle, and related structures by surgical and conservative means and application of corrective mechanical devices. Interviews patient and records patient's case history to determine previous ailments and complaints. Performs examinations to determine physiological and physical abnormality of the foot, ankle, and related structures. Conducts tests and determines radiological and clinical laboratory tests required. Interprets laboratory and radiology results in evaluating examination findings. Determines appropriate preoperative and postoperative care. Applies surgical procedures and coordinates operation with anesthesiologist. Performs surgical procedures of the foot, ankle, and related structures as credentialed by facility. Performs pre-operative and inpatient admission history, physical examinations, and determines need for appropriate specialty consult/referral. Reduces and immobilizes fractures by open or closed methods, using such corrective devices as braces, casts, and splints. Administers and prescribes such conservative measures of treatment as antibiotics, drugs, and orthotics.

2.2. Manages podiatric services. Formulates plans and procedures for podiatric surgery services. Schedules operations and assigns podiatrists, nurses, and medical technicians. Directs nurses in procedures for preoperative and postoperative care and operating room techniques. Advises on kind and quantity of podiatric supplies and equipment. Coordinates podiatric services with other medical activities. Instructs residents and students in podiatric surgical techniques. Serves as consultant on podiatric medicine and surgery.

2.3. Conducts research in podiatry. Plans and conducts clinical research. Reviews and studies case histories, analyzes data, and participates with other scientists and physicians in programs to investigate new techniques and methods to improve foot health and human effectiveness of Air Force personnel.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education requirements satisfies this qualification requirement.

3.2. Education. For entry into this specialty, a Doctor of Podiatric Medicine (DPM) degree from an approved college of podiatric medicine is mandatory.

3.3. Training. Completion of a minimum 24 month podiatric surgical residency program is required for accession.

3.4. Experience. For award of AFSC 42F3, a minimum of 6 months of experience in podiatry assignments is mandatory.

3.5. Other. For entry, award and retention of AFSCs 42FX, a valid and current license to practice podiatric medicine from a state, U.S. territory, or the District of Columbia, is mandatory.
PHYSICIAN ASSISTANT
(Changed 31 Oct 13, Effective 2 Jul 13)

2. Duties and Responsibilities:
2.1. Privileged health care providers who use critical judgment to perform comprehensive health assessments, differential diagnosis, and prescribe pharmacologic and non-pharmacologic treatments in direct management of acute and chronic illness, injury or disease. Practice is governed by AFI 44-102, Medical Care Management, AFI-44-119, Clinical Performance Improvement and as approved by the facility Credentials Review Committee. Obtains and evaluates medical histories, performs physical examinations, performs therapeutic and diagnostic procedures, and orders laboratory studies and radiographic studies as well as other special examinations. Collects specimens for pathologic examination. Analyzes and interprets data, formulates problem lists, and establishes plans for solution of clinical problems. Counsels patients on medical conditions, expected outcomes, family planning, child care, diet, and other therapeutic preventative health maintenance matters. Makes entries in patient's permanent medical records.
2.2. Coordinates patient care. Coordinates patient care with other members of health care team. Initiates consultation requests to other health professionals to provide more comprehensive patient management when indicated.
2.3. Instructs other members of the health care team. Instructs other personnel assigned to health care team on preventive medicine programs and other appropriate medical activities and functions, or as directed by a physician.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: anatomy; physiology; emergency medical treatment; surgical techniques; sterilization and aseptic techniques; medical ethics; prescription and administration of drugs; operation of therapeutic and diagnostic equipment; medical terminology; and specialized medical treatments and procedures.
3.2. Education. For entry into this specialty, graduation from a Physician Assistant training program accredited by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) or its predecessors and acceptable to the Surgeon General, USAF, is mandatory. Certification by the National Commission on Certification of Physician Assistants is required.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 42G3, officers must be certified by the National Commission on Certification of Physician Assistants and completed a minimum of 6 months of experience in Physician Assistant assignments providing primary medical care.
3.5. Other. For entry into 42GXA/B/C/E, member must be a fully qualified 42G3. A qualified AFSC with a suffix is authorized upon completion of an additional residency or completion of a minimum 12 month fellowship graduate medical education program related to the suffix and approved by the Surgeon General, HQ USAF.

AUDIOLGY/SPEECH PATHOLOGIST
(Change Effective 23 Jul 09)

2. Duties and Responsibilities:
2.1. Conducts examinations to diagnose ailments and administer treatment. Interviews patient and reviews patient's case history and clinical records. Performs examinations to determine evidences of physiological or anatomical abnormality. Conducts appropriate diagnostic testing.
2.2. Executes responsibility for independent management of complex disorders within the scope of practice. Plans, administers, and records progress of prescribed courses of treatment with limits of area of practice. Accomplishes therapeutic procedures. Refers patient to and consults with physician for further case diagnosis and treatment planning. Provides instructions to patients regarding prescribed therapeutic exercises.
2.3. Instructs and supervises assistants. Prescribes and supervises instruction in use and maintenance of therapeutic devices, exercises, or procedures. Fits and adjusts appliances, and advises patient on care of therapeutic or corrective equipment.
2.4. Conducts research. Plans and conducts clinical research. Reviews and studies case histories, analyzes data, and participates in investigative programs on new techniques and methodology to improve health and effectiveness of Air Force personnel.
2.5. Participates in special programs. Plans, supervises, and participates in specialized Air Force health programs such as hearing conservation program, exceptional family members program, aerospace medical program, and occupational health program.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of one or more areas of specialization within the field of audiology and speech pathology.
3.2. Education. For entry into 42NXA (Audiologist), a Doctorate (Au.D.) is the minimum mandatory degree for entry. A valid state license and a valid Certificate of Clinical Competence in Audiology (CCC-A) are required for entry. For entry into 42NXB (Speech), a Master's degree is the minimum mandatory degree for the suffix identified subspecialty from an accredited institution.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 42N3X, a minimum of 24 months of experience in suffix identified subspecialty assignments is mandatory. Also, experience must include providing care and treatment for human ailments; or planning, directing, and conducting research in area of professional practice.
3.5. Other. For award and retention of AFSC 42N3X, a license to practice in pertinent specialty from a U.S. jurisdiction and certification by appropriate national accreditation body is mandatory.

CLINICAL PSYCHOLOGIST
(Changed 31 Oct 13, Effective 2 Jul 13)

2. Duties and Responsibilities:
2.1. Administers clinical psychology programs. Plans, organizes, and directs mental health service or department. Supervises mental health personnel, and recommends policies pertaining to their training and management. Implements mental health programs through consulting with other agencies on such problems as individual and group effectiveness, interpersonal relations, psychopathology, and maladaptive behavior.
2.2. Performs mental health evaluations and therapy. Applies and supervises application of psychological procedures and techniques in evaluating, diagnosing, and treating psychological and neuropsychological disorders. Provides individual and group therapy, behavior modification paradigms, and biofeedback procedures in treating psychological disorders, and in assisting individuals to achieve more effective personal and interpersonal adjustment.
2.3. Performs research and training. Plans and conducts clinical psychological research. Determines methods to be used in investigation, assessment, diagnosis, and treatment of mental health problems. Provides education and training in psychological theory, diagnostic techniques, treatment modalities, and related mental health programs to psychologists, allied disciplines, and personnel in medical, educational, managerial, social, and community programs.

3. Specialty Qualifications:
3.2. Education. The following are mandatory as indicated:
3.2.1. For entry into this specialty, completion of all requirements for award of a doctorate in clinical psychology or equivalent doctorate in psychology (except dissertation or clinical internship or both).
3.2.2. For award of AFSC 42P3, a doctorate in clinical psychology, or equivalent.
3.3. Training. Not used.
3.4. Experience. The following are mandatory as indicated:
3.4.1. For award of 42P3, a clinical internship acceptable to the Surgeon General, HQ USAF.
3.4.2. For award and retention of AFSC 42P3/42P3X, a valid and current unrestricted state issued license to practice clinical or counseling psychology in a state, U.S. territory, or the District of Columbia within 3 years from the date the clinical internship is completed.
3.4.3. See specialty shredouts for additional requirements.
3.5. Other. Not used.

<td>Clinical Neuropsychologist. Performs and supervises neuropsychological evaluations, conducts research, and provides education and training in the field of neuropsychology. For award of AFSC 42P3A, a doctorate plus 2 year post-doctoral training in a neuropsychology fellowship training program acceptable to the Air Force Surgeon General, or 3 years experience in a setting where primary duty was in neuropsychology.</td>
</tr>
</tbody>
</table>
B. Health Psychologist. Performs and supervises health psychology evaluations, conducts research, and provides education and training in the field of health psychology. For award of AFSC 42P3B, a doctorate plus 1 year post-doctoral training in a health psychology fellowship training program acceptable to the Air Force Surgeon General, or 3 years experience acceptable to the Air Force Surgeon General in a setting where the primary duty was in health psychology.

C. Child and Adolescent Psychologist. Performs and supervises child, adolescent, and pediatric psychology evaluations, conducts research, and provides education and training in the field of child, adolescent, and pediatric psychology. For award of AFSC 42P3C, a doctorate plus 1 year post-doctoral training in a child and adolescent psychology or a pediatric psychology fellowship training program acceptable to the Air Force Surgeon General, or 3 years experience acceptable to the Air Force Surgeon General in a setting where the primary duty was in child and adolescent and/or pediatric psychology.

D. Aviation Psychologist. Performs and supervises aviation psychology evaluations, conducts research, and provides education and training in the field of aviation psychology. For award of AFSC 42P3D, a doctorate plus 1 year post-doctoral training in an aviation psychology fellowship training program acceptable to the Air Force Surgeon General, or 3 years experience acceptable to the Air Force Surgeon General in a setting where the primary duty was in aviation psychology.
1. Specialty Summary. Applies principles, knowledge, and practice of professional social work to provide mental health diagnosis, treatment, research, consultation, and preventive programs for individuals, families, groups, and organizations in military community. Teaches, supervises, and directs clinical social work and related mental health programs. Related DoD Occupational Group: 260807.

2. Duties and Responsibilities:
2.1. Administers clinical social work programs. Plans, organizes, and directs mental health service or department. Provides social work services in mental health, substance abuse, Family Advocacy, medical, Exceptional Family Member Program, and other professional military settings. Supervises mental health personnel and recommends policies pertaining to their training and management. Assesses and plans for the social and psychological needs of individuals, families, groups, and organizations in the military community. Performs mental health evaluations and therapy. Applies and supervises application of social work procedures and techniques in evaluating, diagnosing, and treating psychological disorders. Provides individual and group therapy, behavior modification, and other evidence based treatment procedures in treating psychological disorders, and in assisting individuals to achieve more effective personal and interpersonal adjustment. During deployments, uses social work skills to prevent and treat psychological problems in order to support and enhance the Air Force mission.
2.2. Provides consultation and support to leadership and other agencies on such problems as individual and group effectiveness, interpersonal relations, psychopathology, and maladaptive behavior. Coordinates social work services and maintains liaison with military and civilian resources. Provides consultation on policies, procedures, and services to medical staff, commanders, base agencies, volunteers, major commands, and other installations of assignment.
2.3. Conducts and participates in research appropriate to professional training and expertise. Develops social work staff training programs to ensure uniformly high standards of social work personnel. Trains social work students in affiliation with a university graduate social work program, and engages in education and training of other professional medical personnel. Develops and conducts internship programs for newly accessed social work graduates and ensures understanding of Air Force social work functions prior to assignment to initial duty station.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge of social work theories, principles, techniques, and resources is mandatory.
3.2. Education. For entry into this specialty, a Master's in Social Work from a graduate school of social work accredited by the Council on Social Work Education (CSWE) is mandatory.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 42S3, a minimum of 24 months of experience in clinical social work assignments is mandatory. Completion of the Air Force Social Work Internship Program may be substituted for 12 months of the experience requirement.
3.5. Other.
3.5.1. For entry into this specialty, an entry level state license is mandatory.
3.5.2. For award and retention of AFSC 42S3, officers must possess a valid and current license issued by a U.S. jurisdiction at a level allowing independent clinical social work practice. Social Workers accessed without an independent clinical practice level license must obtain such license within 3 years of accession.
OCCUPATIONAL THERAPIST
(Changed 31 Oct 13, Effective 2 Jul 13)

2. Duties and Responsibilities:

2.1. Plans, coordinates, controls, directs, and evaluates occupational therapy activities. Determines and implements policies and procedures pertaining to occupational therapy programs and activities. Determines requirements for occupational therapy services including staffing, budget, equipment, physical plant design, supplies, and continuing education. Establishes professional care standards and appraises performance levels of subordinates. Coordinates medical facility occupational therapy programs.

2.2. Executes responsibility for independent management of complex neuromuscular, musculoskeletal, and psychosocial disorders, including mild traumatic brain injury (cognitive rehabilitation) and combat stress reactions, within the scope of practice. Fulfills all responsibilities and expectations of medical staff appointment as a highly experienced advanced clinician. Provides examination, evaluation, diagnosis, prognosis, intervention and outcome assessment for inpatients and outpatients. Develops, implements, monitors, modifies evidence based treatment/rehabilitation programs. Utilizes advanced practice privileges, orders referrals/consultations, diagnostic tests and studies when indicated to expedite care. Maintains caseload and case mix productivity standards as defined by local and Air Force policy and ensures access to care is within clinic standards. Provides clinical oversight and direction of staff occupational therapists and support staff. Interfaces effectively with members of the professional staff and off base providers ensuring coordinated care. Prescribes, fits, and fabricates orthoses and facilitates procurement and instruction in effective use of adaptive equipment and other therapeutic devices including computerized assistive technology. Prescribes limitations in work, sports, school, and activities of daily living; generates written restrictions IAW local standards. Employs electronic systems to document and maintain patient care documentation while ensuring timely coding is accomplished according to local policy. Directs patients into specific creative opportunities, challenging tasks, work related activities, or competitive outlets. Educates patients and families on therapeutic activities, adaptive/compensatory strategies, and use of equipment.

2.3. Acts as a consultant to the medical staff on occupational therapy matters. Evaluates effectiveness and efficiency of occupational therapy programs and continuing educational activities. Performs required clinical and non-clinical administrative duties. Manages priorities, schedules and deadlines to ensure temporal, quantity and quality demands of the workload are met. Manages occupational therapy interns; formulates training objectives and develops standards; provides clinical education, training and mentorship. Instructs occupational therapy support staff in current evidence-based theory and practice of occupational therapy. Provides and develops musculoskeletal injury prevention services and stress/psychosocial management skills (and/or cognitive rehabilitation) programs as needed. Develops, conducts and participates in clinical research IAW local policy. Plans, conducts, and participates in medical readiness training.

3. Specialty Qualifications:

3.1. Knowledge. Knowledge is mandatory of: occupational therapy standards of practice, applied therapeutic modalities, and program management.

3.2. Education. Completion of an accredited program in occupational therapy acceptable to the Surgeon General, HQ USAF, is mandatory. The minimum requirement is an entry-level (or post-professional) master’s degree (doctorate is preferred).

3.3. Training. Not used.

3.4. Experience. For award of AFSC 42T3 the following are mandatory:

3.4.1. A minimum of 6 months of experience in occupational therapy assignments including planning, managing, and administering occupational therapy treatments and activities for those with the entry-level Doctor of Occupational Therapy (DOT) and Transitional (e.g. post-professional) Doctor of Occupational Therapy (OTD).

3.4.2. A minimum of 24 months of supervised clinical experience in an occupational therapy assignment including planning, managing, and administering occupational therapy treatments and activities for those with a bachelor’s or master’s degree.

3.5. Other. The following are mandatory:

3.5.1. For entry into the specialty, a state license and registration to practice occupational therapy is mandatory.

3.5.2. For award and retention of AFSC 42T3, a state license and registration to practice occupational therapy.
The Biomedical Specialists Utilization Field includes the functions of scientists, engineers, architects, physicists, dietitians, entomologists, pharmacists, public health, and laboratory professionals in support of and to serve as an integral part of the Medical Service.

Duty titles used with biomedical shroudouts may include the shroudout title, where appropriate; for example, Industrial Hygienist or Environmental Engineer are shroudouts of the Bioenvironmental Engineer (43E) AFSC.

AEROSPACE AND OPERATIONAL PHYSIOLOGIST
(Changed 31 Oct 13, Effective 2 Jul 13)

1. Specialty Summary. Train selected Biomedical Science Corps (BSC) officers in a course of instruction leading to designation as an Air Force Aerospace and Operational Physiology Officer (APO). Trains in hypobaric (altitude) chamber operations, aeromedical aspects of flight, sensory physiology, aviation life support systems, acceleration physiology, emergency egress, aircraft mishap investigation concepts, and Airman performance enhancement, sustainment and optimization. Manage aerospace physiological training units and human performance flights. Specific duties include: instructs personnel in aerospace and operational physiology, human performance and human factors. Plans, conducts, and directs aerospace physiology acquisition, science and technology programs; manages specialized physiology support divisions for high altitude projects; manages life support equipment functions when required; and supervises aerospace and operational physiology programs at Air Staff, MAJCOM, or FOA staff level. Related DoD Occupational Group: 260808.

2. Duties and Responsibilities:
2.1. High-altitude reconnaissance mission support (HARMS):
2.1.1. Plans, executes, and supervises HARMS for manned systems (e.g. U-2) IAW Air Combat Command Instruction 11-459, High-Altitude Reconnaissance Mission Support Program.
2.1.2. Manages organization, training, and equipping of personnel supporting HARMS program.
2.1.3. Develops and manages specialized physiological and aircrew flight equipment (AFE) training programs to ensure the safety of aircrew assigned to these programs.
2.1.4. Supervises technicians conducting aircrew pre-flight and post-flight preparation, to include donning/doffing of specialized AFE, launching/recovering aircrew at the aircraft, and maintenance of specialized AFE.
2.2. High-altitude airdrop mission support (HAAMS):
2.2.2. Performs operational support flying duties in support of HAAMS operations; provides in-flight physiological support to aircrew and other on-board personnel performing duties in unpressurized operations.
2.2.3. Participates in parachuting activities when assigned to “J” prefix manning position IAW AFI 11-410, Personnel Parachute Operations.
2.3. Aircrew physiology and centrifuge training:
2.3.1. Plans, executes, and supervises aircrew aerospace physiology and centrifuge training IAW AFI 11-403, Aerospace Physiological Training Program, AFI 11-404, Centrifuge Training For High-G Aircrew, and associated MAJCOM supplements.
2.3.2. Manages all personnel, programs, and functions of USAF Aerospace And Operational Physiologist (AOP) training flights, units, or teams required to train aircrew and operational support personnel.
2.3.3. Instructs aircrew, operational support personnel, and passengers on physiological stresses and HF issues inherent to modern military aviation and prepares the trainee to meet these challenges.
2.3.4. Organizes and prepares instructional materials. Studies objectives and requirements for physiological training. Prepares assignments, demonstrations, group activities, training aids, references, and related material required to supplement course outline.
2.3.5. Coordinates with operations officers, flying safety officers, and staff officers on changes in texts, training project outlines, general class progress, student/trainee disciplinary problems, examination procedures and tests, school records and related subjects. Develops new training aids. Advises education and training staff officers on such matters as course curricula revision and preparing training manuals.
2.3.6. Supervises and ensures safe operation of physiological training devices – hypobaric chambers, reduced oxygen breathing devices (ROBD), hypoxia familiarization trainers, spatial disorientation trainers, barany chairs, swing landing trainers, lateral drift trainers, night vision device trainers, and centrifuge. Conducts health screening interviews with trainees before chamber flights/ROBD exposures/centrifuge runs to prevent medical complications due to trainee’s physical condition. Supervises and performs necessary measures in managing medical complications until relieved by flight surgeon and/or competent medical authority.
2.3.7. Performs hazardous duty as inside safety observer during hypobaric chamber flights to ensure student safety and training effectiveness.
2.3.8. Coordinates special evaluation and diagnostic hypobaric chamber flights and centrifuge runs with appropriate line and medical agencies.
2.3.9. Plans, conducts, and advises Air Staff and MAJCOM/A3 agencies on physiological training system requirements, policy, utilization, acquisition, and sustainment.
2.4. Human performance:

2.4.1. Participates in a comprehensive and dynamic preventive medicine program, educating aircrew, special operations, and support personnel on the HF/performance threats, hazards, and risks of AF operations, and provides strategies/techniques to mitigate these issues. Participates in flying safety and aircrew enhancement programs.

2.4.2. Advises supervisors, unit commanders and wing, command, and staff agencies on effective HF/performance strategies/techniques.

2.4.3. Serves as HF consultant on safety/accident investigations. Develops HF trend analyses in support of AF requirements, policy, and programs.

2.4.4. Advocates human system integration by advising Air Staff and MAJCOM Requirements, Plans & Programming, and Acquisition agencies on human performance considerations during operational capability development in support of system requirements, specifications, design and sustainment of new and fielded weapon systems.

2.5. Research, Development, Test and Evaluation (RDT&E):

2.5.1. Acts as technical advisor and manages hypobaric chamber/centrifuge support of aeromedical research conducted at USAF School of Aerospace Medicine.

2.5.2. Plans, coordinates, and directs aerospace biotechnology acquisition, science, and technology programs. Generates policies and procedures governing establishment and performance of acquisition, science, and technology development projects, including requirements for funds, facilities, material, equipment, and personnel. Resolves technical problems involved in reviewing and interpreting scientific data, formulating new concepts, and recommending new approaches. Directs preparation of technical reports on acquisition, science, and technology projects.

2.5.3. Facilitates human-centered technology transition to warfighters and drives human system integration efforts in System Program Offices.

2.5.4. Plans, develops, and directs aircraft life support system, aircrew flight equipment, and chemical defense ensemble test and evaluation and special projects.

2.6. Operational flying:

2.6.1. Regularly participates in flying mission as observer on a non-interference basis IAW AFI 11-401, Aviation Management.

2.6.2. In-flight duties include observation of aircrew, aircraft, mission, and environment to enhance operational knowledge and expertise in support of aircrew training/instruction, mishap investigation, HF/performance consultation, RDT&E activities, and other AOP-related responsibilities.

2.7. Staff functions: May function at HQ USAF, MAJCOM, or FOA staff (including but not limited to Surgeon General, Operations, Safety, Human Systems Integration, etc.) in variety of functions (e.g. AOP Consultant, AOP Program Manager, etc.). Coordinates and manages AOP program actions at Air Staff, MAJCOM, and FOA level.

3. Specialty Qualifications:

3.1. Knowledge. Thorough understanding of aerospace physiology and closely related subjects is mandatory.

3.2. Education. Bachelor’s or Post-Graduate Degree in Physiology, Human Factors, or related fields (e.g. engineering psychology, biomedical engineering, exercise physiology, kinesiology, human systems integration, or HF) is mandatory. In addition to a well-established background in physiology or HF, completion of courses in the areas of chemistry, physics, statistics, organic chemistry, biochemistry, comparative anatomy, and computer science is highly desirable. Post-graduate degree applicants are preferred; however, exceptionally qualified applicants (e.g. have significant military aviation experience) who have completed a bachelor’s degree in the areas of study listed above will be considered. Applicants must have a GPA of 3.0 or higher on a 4.0 scale.

3.3. Training. For award of AFSC 43A3, completion of Air Force Aerospace & Operational Physiology Officers Course (B3OBY43A1-001), is mandatory.

3.4. Experience.

3.4.1. For entry into AFSC 43A1, experience as an instructor or teacher is desirable.

3.4.2. For award of AFSC 43A3, completion of Air Force Human Performance Enhancement Course (B3OZY43A3-001) and a minimum of 30 months of experience in AOP assignments is mandatory.

3.5. Other.

3.5.1. For entry into this specialty, an interview with a designated senior aerospace physiologist is required. Strong personal endorsements in areas of initiative and team-work are highly desirable.

3.5.2. For entry, award, and retention of AFSCs 43AX, physical qualification IAW AFI 48-123 for Flying Class III requirements is mandatory.
BIOMEDICAL SCIENTIST
(Changed 31 Oct 13, Effective 2 Jul 13)

2. Duties and Responsibilities:
   2.1. Formulates biomedical sciences programs. Develops, evaluates, and interprets policies in the biomedical sciences, to include such activities as managing and directing professional programs for technical training, research, clinical practice, therapeutics, and operational support.
   2.2. Coordinates biomedical sciences activities. Advises on career development and utilization of Biomedical Sciences Corps officers; coordinates policies for procurement, assignment, classification, selection, and training. Maintains liaison with Biomedical Sciences Corps officers through staff visits, telephone, and written communication, and provides current information on policies and programs that affect their career development. Confers with medical facility commanders and staff members on biomedical information systems requirements and procedures. Advises medical facility commanders on establishing manning, equipping, and operating biomedical units and activities. Participates in meetings of professional societies and symposia and disseminates information obtained to biomedical clinicians and scientists. Provides technical consultant services in areas of professional competence.
   2.3. Monitors and directs biomedical sciences programs. Inspects biomedical sciences activities. Interprets, evaluates, and translates biomedical scientific data, knowledge, and techniques. Prepares and disseminates professional data on new concepts, procedures, and techniques. Maintains liaison with the Chief, Biomedical Sciences Corps, and the associate chief of each discipline, to coordinate career development programs to achieve maximum effectiveness among all health disciplines within the Biomedical Sciences Corps.

3. Specialty Qualifications:
   3.1. Knowledge. Knowledge of biomedical sciences programs, including an understanding of all specialties and disciplines within the Biomedical Sciences Corps, and Air Force personnel programs including manpower, personnel utilization, education, and training is mandatory.
   3.2. Education. For entry into this specialty, a degree in an appropriate scientific discipline.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 43B3, the following are mandatory:
   3.4.1. Full qualification in one or more of the biomedical science specialties in this utilization field is mandatory.
   3.4.2. Minimum of 24 months of experience is mandatory in planning and administering biomedical sciences programs.
   3.5. Other. For entry into this specialty, qualification in and possession of one or more qualified AFSCs in the Biomedical Clinicians or Specialists utilization fields (42X3 and 43X3).
1. Specialty Summary. Serves as the advisor to the Medical Treatment Facility Commander (MTF/CC) in matters pertaining to food service, nutrition and dietetics. Plans and manages nutritional medicine operations to include food production and the performance of clinical and preventive dietetic activities. Coordinates with and makes recommendations to commanders, staff agencies, and military base organizations concerning nutrition and dietetics issues. Related DoD Occupational Group: 260810.

2. Duties and Responsibilities:
2.1. Manages nutritional medicine activities. Formulates and implements policies and procedures for the organization and operation of nutritional medicine in peacetime and wartime environment. Sets and enforces standards and monitors administrative and technical activities. Determines requirements for food service facilities, personnel, equipment, and operations. Procures, manages, and safeguards all nutritional medicine flight resources and supervises food production and service operations. Inspects and evaluates food preparation and service for conformance with regulatory standards. Ensures the nutritional medicine activity operates within budget, sanitation, and safety standards. Plans and implements training programs for nutritional medicine personnel. Ensures appropriate contingency plans are developed. Coordinates nutritional medicine operations with professional and administrative services of the medical facility. Supports medical readiness operations, as needed.

2.2. Performs inpatient clinical dietetics activities. Plans nutritionally balanced regular and therapeutic menus, considering factors such as quality, palatability, attractiveness, availability of food supplies, and budget. Interprets and calculates therapeutic diets and enteral or parenteral nutrition prescribed by authorized providers. Conducts and coordinates nutrition screening to determine nutrition risk and assesses nutrition status of patients. Conducts nutrition rounds and interviews patients. Instructs patients on content and purpose of therapeutic diets. Consults with medical staff on population or patient nutrition requirements and intervention. Participates in the care of inpatients as part of multidisciplinary patient care team. Follows patients and documents progress routinely throughout hospitalization. Implements the Nutrition Care Process in accordance with the Academy of Nutrition and Dietetics (AND).

2.3. Performs outpatient, community, and preventive dietetics activities. Provides outpatient counseling in group and individual settings, as appropriate. Provides nutrition assessment, medical nutrition therapy and nutrition education to health care beneficiaries as part of collaborative disease management programs. Interprets and calculates therapeutic diets prescribed by authorized providers. Conducts follow-up counseling and collects and tracks outcomes of nutrition care. Provides nutrition briefings to participants of wellness programs as part of a multidisciplinary team. Provides environmental assessment and community-based education and intervention to encourage and support health and wellness. Implements the Nutrition Care Process in accordance with the AND guidelines.

2.4. Coordinates dietetics activities. Advises the MTF/CC on the status and effectiveness of nutritional medicine activities and community-based nutrition. Performs nutrition aspects of research and development studies. Assists in development of nutrition policies and programs for aviation personnel and special operations personnel. Educates patients, healthcare providers and staff, as needed. Confers with commanders and staff agencies on matters such as nutritional adequacy of meals, equipment requirements, commissary and subsistence matters, personnel, manpower, and other functions related to nutritional medicine activities. Acts as nutrition consultant for the base community, including schools and child development centers. Consults with other governmental or private agencies on nutrition and dietetics matters, as needed. Maintains specialty knowledge of emerging scientific research and advances in the field of nutrition and dietetics. Provides dietetic consultative services to medical treatment facilities without dietitians and as requested.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge of the principles of human nutrition, regular and therapeutic diets, cultural food habits, and food service management, is mandatory.
3.2. Education. The following education is mandatory:
3.2.1. For entry into this specialty, completion of a minimum of a bachelor’s degree from a U.S. regionally accredited college or university and coursework accredited or approved by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the AND is required. This must be followed by successful completion of one of the following AND-accredited supervised practice programs: dietetic internship with generalist (or military) emphasis or coordinated program in dietetics with generalist emphasis, and successful completion of the registration examination for dietitians, resulting in status as a Registered Dietitian. Entry into the US Military Dietetic Internship Consortium and Graduate Program in Nutrition requires completion of a minimum of a bachelor’s degree from a U.S. regionally accredited college or university and completion of a didactic program in dietetics approved by ACEND.

3.3. Training. Not used.

3.4. Experience. For award of 43D3 AFSC, a minimum of 24 months of experience in dietetics assignment and registration by the Commission on Dietetic Registration of the AND are mandatory. Completion of a ACEND-accredited supervised Dietetic Internship program may be substituted for duration of equal time (up to 12 months) of the experience requirement.

3.5. Other. Not used.
**BIOENVIRONMENTAL ENGINEER**  
*(Changed 31 Oct 13, Effective 2 Jul 13)*

1. **Specialty Summary.** Applies engineering and scientific principles in identifying and evaluating occupational and environmental health (OEH) hazards and recommending controls to support risk management decisions to ensure Force Health Protection. Related DoD Occupational Group: 260803.

2. **Duties and Responsibilities:**
   2.1. Executes and supervises bioenvironmental engineering programs. Applies knowledge of engineering and the sciences to assist commanders in meeting mission objectives at home station and deployed settings. Performs health risk assessments for chemical, biological, radiological, nuclear, and physical hazards, which may compromise Force Health Protection. Advises commanders on impact of unacceptable risk to mission and provides viable courses of action to reduce and eliminate risk. Identifies and assesses effectiveness of occupational and environmental health controls. Participates in installation contingency response activities, including exercises. Determines the appropriateness of personnel protective equipment and individual protective equipment. May participate in development of policy. Directs and supervises technicians conducting base bioenvironmental engineering activities. Maintains liaison with local, state, and federal agencies on matters involving occupational and environmental health standards and;
   2.2. Advises command and staff agencies on effective operational risk management (ORM) decisions and;
   2.3. Develops measures to control radiological hazards; monitors staff and medical facilities, to include unrestricted areas to ensure permissible limits of health risk hazards are not exceeded. Coordinates medical physics activities. Serves as Radiation Safety Officer where required; and
   2.4. AFSC 43EXG: Provides consultation regarding planning, designing, and constructing facilities for storage, use, and disposal of radioactive material or radiation producing devices; health risk assessment of exposure to ionizing and non-ionizing radiation; and ensures adherence to prescribed safety standards by evaluating activities involving the handling, shipment, storage, use, and disposal of radioactive materials, as well as use of lasers and other non-ionizing radiation sources.
   2.5. AFSC 43EXC/E: Applies knowledge of architecture and engineering to modernize and maintain health care, training, and laboratory facilities. Provides guidance on functional and technical criteria specific to medical design and construction. Programs and plans medical facilities projects, reviews plans, specifications, and other supporting data for their technical, medical, and functional sufficiency.
   2.6. AFSC 43EXM: Develops, institutes, and sustains medical physics programs for radiotherapy, nuclear medicine, and diagnostic imaging physics services to support patient care. Supports radiology resident training programs. Conducts medical physics activities, research and development on medical physics related topics.

3. **Specialty Qualifications (Mandatory):**
   3.1. Knowledge. (43EXA/B/D/G/M): Knowledge of all bioenvironmental engineering principles for force health protection spanning all operational environments. (43EXC/E): Knowledge of medical construction or architecture principles for medical facility planning, design, and construction. (43EXM): Knowledge of medical physics programs for radiotherapy, nuclear medicine, and diagnostic imaging physics services.
   3.2. Education. See specialty shredouts.
   3.3. Training. For award of AFSC 43E3A/B/D/G/M, completion of the Bioenvironmental Engineering course, B3OBY43E1000.
   3.4. Experience. The following experience for award of the AFSC indicated:
      3.4.1. For entry into 43E3B/D/G/M, qualification and possession of AFSC 43E3A.
      3.4.2. For award of AFSC 43E3A, a minimum of 24 months experience in bioenvironmental engineering assignments.
   3.5. Other. Not used.
4. *Specialty Shredouts:

**General.** Possess a baccalaureate degree or higher in engineering from an institution with that curricular program area accredited at the engineering level by the Accreditation Board for Engineering and Technology (ABET) or possess a baccalaureate in engineering, biology, chemistry, or physics from the United States Air Force Academy or,

Possess a Bachelor of Science (BS) degree in biology, chemistry, physics, health physics, industrial hygiene, or other degree approved by the 43E associate chief granted from an ABET or non-ABET accredited program, and satisfy one of the following options prior to being accessed into the Biomedical Sciences Corps:

Prior qualification in and possession of AFSC 4B071 Bioenvironmental Engineering (BEE) Craftsman and have a minimum of 7 years active duty in the BEE career field or

Hold a certification from the American Board of Health Physics (ABHP) or the American Board of Industrial Hygiene (ABIH), or pass the Fundamentals of Engineering (FE) examination, or

Possess a Master of Science (MS) degree in medical physics granted from a program accredited by the Commission on Accreditation of Medical Physics Education Programs (CAMPEP), or

Possess MS degree in medical physics granted from a non-CAMPEP accredited institution, and hold a certification from the American Board of Radiology (ABR) in one of the following three specialties: diagnostic radiologic physics, therapeutic radiologic physics, or medical nuclear physics.

**Industrial Hygiene.** Possess MS in industrial hygiene (industrial health), or certification by the American Board of Industrial Hygiene as an industrial hygienist.

**Medical Construction.** Possess baccalaureate degree or higher in architectural, civil, mechanical, electrical, or structural engineering, from an institution with that program area accredited by ABET at the engineering level, or a baccalaureate or higher in facility construction from an institution accredited by a national professional accreditation board or council.

**Environmental.** Possess MS in environmental engineering or, graduate from Air Force Institute of Technology with a graduate degree in Environmental Engineering and Management Science, or be a Professional Engineer qualified in environmental engineering or hold a certification by the American Academy of Environmental Engineers.

**Architecture.** Possess baccalaureate degree or higher in architecture from an institution accredited by the National Architectural Accreditation Board (NAAB).

**Health Physics.** Possess a MS in health /radiological physics, nuclear/radiological engineering, physics, or other health physics related fields acceptable to the Surgeon General, HQ USAF, or Certification by the American Board of Health Physics.
Medical Physics. Possess certification by the American Board of Radiology in one of the following specialties: diagnostic radiologic physics, therapeutic radiologic physics, or medical nuclear physics.
PUBLIC HEALTH OFFICER
(Changed 31 Oct 15, ★ Effective 25 Jun 15)

1. Specialty Summary. Applies public health and preventative medicine knowledge, techniques, and skills to promote health and reduce the incidence of communicable diseases, occupational illnesses, food borne diseases, and disease/non-battle injuries while at home base as well as in deployed and field conditions. Promotes public health and Airman medical readiness through epidemiological surveillance of health and disease trends in populations, monitoring of food safety practices, sanitation in public and food service facilities, administering/monitoring various aspects of occupational health, and ensuring Airmen are medically ready to deploy. Related DoD Occupational Group: 260803.

2. Duties and Responsibilities:
2.1. Develops, plans, and implements public health activities. Conducts preventive medicine communicable disease control, occupational health, food safety, force health management, and disaster response programs. Establishes and maintains liaison with other medical treatment facility personnel and local public health agencies to ensure an integrated public health program. Advises on public health issues, including manning, and training. Identifies required facilities, personnel, funding, and other resources. Prepares regulations and operating instructions, acquires technical bulletins, and presents training programs to support public health. Evaluates existing public health programs and recommends changes in policies and procedures. Supports Reserve and Guard component units assisting with the determination of program effectiveness and compliance with standards.

2.2. Initiates, directs, and conducts preventive medicine and communicable disease control programs. Applies epidemiological and statistical methods to identify and evaluate factors increasing disease morbidity and mortality. Collects and reviews beneficiary morbidity data to establish baseline data and identify trends. Compares data to local, state, and federal morbidity reports. Notifies the Chief of Aerospace Medicine about trends or outbreaks that may adversely affect the Air Force population. Directs and conducts epidemiological investigations of communicable diseases and food borne disease outbreaks, and makes recommendations to curb and prevent their recurrence. Conducts contact investigations of patients with sexually transmitted infections and active or latent tuberculosis. Monitors the medical facility employee health program and reports compliance to facility leaders. Plans and develops disease vector surveillance program, coordinating efforts with local community programs where possible. Provides communicable disease education to all beneficiaries.

2.3. Directs and conducts food safety and public facility sanitation programs. Evaluates food preparation and storage facilities, distributors, equipment, and sanitary practices to assess compliance with public health standards for construction, cleanliness, personal hygiene, and food safety. Conducts/oversees periodic vulnerability assessments of on-base facilities and food supplies, as well as off-base distributors delivering food to Air Force installations. Supervises inspection of government owned and retail sales food to determine origin and wholesomeness. Advises procurement, contracting, and accountable property officers on proper disposition of nonconforming and unwholesome food supplies. Collects food samples for laboratory analyses, ensures appropriate testing is completed, interprets test results, and recommends appropriate food disposition actions. Ensures hazardous or suspect foods identified through federal recall systems are removed from service and are appropriately processed for final disposition. Supervises or conducts courses in food safety for food service personnel and facility managers to prevent food borne diseases. Reviews and coordinates plans for renovation or construction of food serving facilities, commissaries, and warehouses. Inspects or supervises inspections of public facilities such as childcare centers, barber and beauty shops, and gymnasiums.

2.4. Participates in the base Occupational Health Program along with members of Flight Medicine, Bioenvironmental Engineering, Primary Care, Ground Safety, as well as workplace supervisors and individual workers. Establishes procedures to identify personnel requiring pre-placement, periodic, and termination medical examinations. Participates in formulating occupational health examination requirements for workers at risk for hazardous exposures. Maintains close liaison with other agencies to develop procedures for prompt identification, investigation, evaluation, mitigation, and reporting of occupational illnesses. Serves as technical advisor to shop supervisors for planning and presenting occupational health education programs. Manages administrative aspects of the Fetal Protection program for active duty and civilian workers.

2.5. Serves as the Installation Medical Intelligence Office and provides medical intelligence to members deploying to exercises and contingencies to reduce disease incidence and promote mission effectiveness. Ensures medical records of deploying members are reviewed and updated by their Primary Care Managers and all required medical tests and other preventive medicine measures are completed prior to deployment. Directs public health efforts in deployment settings and field conditions. Advises on issues relating to site selection, field sanitation, disease threats, physical threats such as heat and cold stress, vector and pest hazards, and contamination control procedures. Monitors disease trends and advises on interventions to mitigate endemic and epidemic morbidity. Monitors food procurement, storage and preparation, and training...
and hygiene of food handlers. Advises food service personnel on protection and disposition of food items subject to nuclear, biological, or chemical contamination, and effects of natural and other peacetime disasters.

2.6. Directs and conducts the force health management program to ensure preventive health assessments are current for all active duty members. Serves as oversight for PIMR administration to accurately document/track medical requirements.

★3. Specialty Qualifications:

3.1. Knowledge. Knowledge of basic epidemiology, microbiology, food technology and hygiene, communicable diseases, and occupational health is mandatory.

3.2. Education. All degrees must be from accredited institutions/programs, in accordance with AFI 36-2005. Appointment in Commissioned Grades and Designation and Assignment in Professional Categories (e.g. Veterinary colleges are accredited by the American Veterinary Medical Association, MPH programs are accredited by the Council on Education for Public Health (CEPH) (http://www.ceph.org/). Applicants must have/maintain a 3.0 GPA or higher on a 4.0 scale for all applicable degrees. For entry into this specialty, the following are mandatory:

3.2.1. Possess Doctorate of Veterinary Medicine (DVM/VMD), or Master’s Degree in Public Health (MPH/MSPH) plus a baccalaureate degree in either nursing (from a nationally accredited baccalaureate degree program in nursing), biology, entomology, microbiology, or zoology; or

3.2.2. A baccalaureate degree in a biology, entomology, microbiology, or zoology, plus a CCAF in Public Health/Environmental Medicine Technology or allied health sciences for Enlisted Public Health Technicians. Enlisted applicants must also meet the experience requirement listed in para 3.4.1.

3.3. Training. For award of AFSC 43H3, completion of both the Public Health Officer Basic course and the Contingency Preventive Medicine course are mandatory.

3.4. Experience. The following are mandatory:

3.4.1. For entry (43H1), Enlisted Public Health Technicians must have 7 years of experience in the Public Health career field with 3 years Active Duty or Active Duty equivalent (1095 Reserve points) of duty experience in awarded AFSC 4E071.

3.4.2. For award of AFSC 43H3, a minimum of 24 months on extended active duty filling a RegAF Public Health Officer position.

3.4.2.1. For non-prior service officers, experience count begins on the date of entry to extended active duty.

3.4.2.2. For inter service transfers and enlisted 4E071 commissionees, experience count begins on the date officer reports to their first permanent duty station.

3.4.3. For Air National Guard affiliation, a minimum of 48 months after assignment to their units.

3.5. Other.

3.5.1. For Air Force Reserve (AFR) affiliation, must be fully qualified (awarded AFSC 43H3) Public Health Officers.
1. Specialty Summary. Supports operational, research and training activities worldwide. Develops and administers disease vector surveillance, integrated vector and pest management, vector-borne and zoonotic disease research, and environmental programs to protect forces from vector-borne/zoonotic disease and injury, prevent damage to weapons systems and installations, and ensure the implementation of effective and environmentally sound integrated vector and pest management controls. Related DoD Occupational Group: 260803.

2. Duties and Responsibilities:
2.1. Ensures most-effective disease vector and pest control capabilities are implemented to prevent adverse effects on personnel, weapons systems, supplies, and equipment in combat deployment, disaster relief, or humanitarian operations, and on installations. Surveys for, identifies, and recommends control measures for disease vectors, arthropod pests, and hazardous plants and animals. Develops and consults on the entomological portion of operational and educational programs for preventive medicine activities.
2.2. Formulates policies, plans, and procedures for USAF pest management programs. Ensures vector and pest control operations do not present unacceptable risks to human health and the environment. Formulates integrated pest management plans and provides integrated pest management technology transfer to the field. Determines pest management certification and training requirements and assists in pest management education and training curriculum development.
2.3. Advises and consults on environmental matters including but not limited to: federal, state, and municipal laws; Presidential executive orders; Congressional inquiries; effects of toxic, noxious and invasive species; and statements from activist groups. Manages the environmental impact analysis process. Formulates policy and guidance to balance our nation’s national defense and environmental stewardship goals.
2.4. Instructs and conducts research in medical biology. Engages in laboratory and field studies of arthropods, vertebrates, hazardous plants, and other organisms of known medical or pest importance. Investigates relationships between environment and disease-associated animals and plants. Collects, compiles, analyzes, and disseminates data on medical biology and pest control measures. Prepares comprehensive interpretive research reports pertaining to medical biology.
2.5. Coordinates pest management and medical biological activities with military and civilian agencies. Maintains close coordination with DoD medical entomologists, pest managers, natural resource managers, agronomists and related professionals. Maintains liaison with public health organizations, municipal authorities, and other federal agencies concerning control of diseases or infections transmitted by animals prevalent in off-installation areas to which Air Force personnel are exposed. Represents the USAF in policy development and inter-service and inter-governmental agency cooperative positions.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: medical entomology and arthropod and other biological hazard control measures.
3.2. Education. For entry into this specialty, a Master's degree in entomology or Master's degree in zoology, biology, or public health with a qualifying thesis in entomology is mandatory as a minimum.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 43M3, a minimum of 24 months of experience is mandatory in a medical entomology assignment.
3.5. Other. Not used.
PHARMACIST
(Changed 31 Oct 13, Effective 2 Jul 13)

1. Specialty Summary. Directs and manages the pharmacy department. Develops and coordinates pharmaceutical care activities and ensures prescription dispensing, patient medication counseling, drug regimen reviews, and other related activities are carried out to professional standards. Supervises the preparation of medicines. Manages, supervises and trains pharmacy staff. Advises physicians and other health practitioners on the selection, dosages, interactions, and side effects of medications. Ensures compliance with state, federal and DoD regulations. Serves on various medical treatment facility committees. Supports the readiness mission. Related DoD Occupational Group: 260805.

2. Duties and Responsibilities:
2.1. Plans, organizes, staffs, controls, and directs the pharmacy department according to established policies and procedures. Maintains the facilities of the department. Implements Pharmacy and Therapeutic Committee decisions. Establishes a drug distribution system yielding maximum pharmacy control over requisitioning, storing, and dispensing drugs.
2.2. Screens prescriptions and provider’s orders for accuracy, overdoses, drug interactions and therapeutic appropriateness. Dispenses medicines & prescription items, checking regimen and ensuring that medicines are correctly and safely supplied and labeled. Counsels and advises patients on the treatment of disease states and any adverse side-effects of medicines or potential interactions with other medicines or treatments.
2.3. Resolves medication-related problems to ensure a safe and optimal patient outcome; and promote, through criteria based protocols, clinically rational drug therapy and sound pharmaceutical care. Coordinates patient care with other members of the health care team. Initiates consultation requests to other health professionals to provide more comprehensive medication therapy management.
2.4. Conducts and evaluates medication histories, assesses compliance and suggests modifications to achieve desired outcomes; instructs patients in the proper use of prescribed drugs; participates in patient care rounds with multidisciplinary teams to evaluate patient progress. Monitors the health and progress of patients in response to drug therapy.
2.5. Manages, supervises, and trains pharmacy support staff. Provides technical and professional oversight to pharmacy technicians and other subordinate staff. Assigns work to subordinates based on mission requirements.
2.6. Directs procurement, storage, manufacture, distribution, control, and evaluation of drugs. Inspects stock supplies of drugs; maintains an approved stock of antidotes and other emergency drugs. Oversees the manufacture of bulk compounded preparations if their procurement from commercial sources is not possible. Directs operation of the intravenous admixture program. Implants unit dose drug distribution systems. Maintains patient drug profiles.
2.7. Assists leadership with budgeting and financial management. Ensures fiscally sound practices are implemented and followed. Monitors program expenditures accounting for current and future trends. Integrates and defends fiscal and staffing requirements.
2.8. Serves as consultant on pharmaceutical matters for professional staff. Provides a repository of drug information. Communicates essential drug information to patients, physicians, nurses and personnel.
2.9. Participates in and promotes research programs. Supports research related to facility and study objectives.
2.10. Instructs and serves in a teaching capacity to other members of the health care team. Instructs other personnel assigned to health care team on pharmacotherapy programs and other appropriate medical activities and functions.
2.11. Supports the readiness mission. Develops and implements medication use procedures in support of readiness and homeland security/defense. Trains pharmacy and other medical staff in roles pertinent to medication use in garrison and contingency operations.

3. Specialty Qualifications:
3.1. Knowledge. Extensive knowledge of medications, biologics, drug products, medical therapeutics, pharmacokinetics, pathophysiology and interpretation of diagnostic criteria and disease states. Knowledge of customer service, inventory management, and business plans and budgeting is also required.
3.2. Education. For entry into this specialty, must be a graduate of an accredited school of pharmacy recognized by the American Council of Pharmaceutical Education or achieved foreign pharmacy graduate equivalency certification.
3.2.1. For 43P3A: Possess Doctor of Pharmacy (PharmD) degree; or Bachelors of Pharmacy degree and completion of an accredited residency or fellowship or other verifiable experience as determined acceptable to the Surgeon General, HQ USAF.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 43P3, a minimum of 24 months experience in pharmacy practice assignments is required.
3.5. Other.
3.5.1. Within 12 months of commissioning, a new graduate must obtain a license issued by a Board of Pharmacy to practice pharmacy in a state or territory of the U.S. or District of Columbia.
3.5.2. For award and retention of AFSC 43P3, must maintain a valid pharmacist license and be in good standing with the issuing authority.
3.5.3. Normal color vision as defined in AFI 48-123, Medical Examinations and Standards.

BIOMEDICAL LABORATORY
(Changed 31 Oct 13, Effective 2 Jul 13)

2. Duties and Responsibilities:
2.1. Directs and supervises laboratory services. Serves as Chief of Laboratory Services or as Chief of one or more areas of Laboratory Services. Maintains records and reports on laboratory operations necessary to provide workload accountability. Serves on professional, technical, consultant, and advisory committees to improve working relationships with other staff members and to communicate with biomedical laboratory officers and members of other specialties within the Air Force Medical Service. Participates in meetings of professional societies and symposia and disseminates information obtained to other biomedical science personnel.

2.2. Conducts scientific analyses. Performs and supervises analyses in one or more areas of biomedical laboratory disciplines including clinical chemistry, environmental and industrial hygiene, chemistry, toxicology, microbiology, molecular biology, hematology, coagulation, serology, immunology, blood banking, immunohematology, blood collection, and virology in both the managed care setting and deployed environment.

2.3. Performs specialized duties. Manages and performs the development, evaluation, and application of new, modified, and improved procedures, techniques, and equipment for updating the laboratory services, including data automation and reporting. Responsible for correcting any analytic technical problems within the laboratory. Maintains surveillance of scientific literature, and recognizes need for applying new or improved techniques and procedures. Consults with other medical staff members to determine their requirements for effective patient care. Stays abreast of current Air Force requirements and developments through consultations and meetings with Air Force biomedical laboratory officers and other members of the Air Force Medical Service.

2.4. Performs teaching duties. Teaches and instructs medical and related personnel in both technical and interpretive aspects for a variety of laboratory sciences.

2.5. Establishes and maintains a records management program and quality control commensurate with specified Air Force regulations and requirements set forth by select national accrediting/regulatory agencies. Establishes and maintains the proper use of calibration standards, reference samples, and quality control charts. Applies standard statistical methods to daily laboratory results, and ensures that results are reported only when they conform to predetermined statistical limits and criteria. Participates in recognized proficiency surveys.

2.6. Ensures equipment, apparatus, and other instruments are in correct operating condition. Ensures instruments requiring calibration or other standardization are calibrated and standardized. Ensures faulty equipment, instruments, and apparatus are repaired or replaced. Updates present equipment.

2.7. Supervises military and civilian personnel to include staff development. Develops strategic business plans and manages annual budget and capital resources.

2.8. Functions as a scientist in a research, development, and acquisition setting. Performs duties as principle investigator, research scientist, program manager and acquisition specialist in areas of laboratory science. Involved in the development, testing, and evaluation of new technologies with applications in the clinical laboratory and in all areas of force health protection.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of one or more areas of specialization within the field of biomedical laboratory science.

3.2. Education. The following education is required as indicated:

3.2.1. For entry in AFSC 43T1A, it is mandatory to possess a bachelor’s degree in medical technology or equivalent from an institution acceptable to the Surgeon General, HQ USAF.

3.2.2. For entry into AFSCs 43T1B/C/D/E/F/H, a master's degree or higher, or 24 months of supervised experience is mandatory in the area of specialization identified by the suffix.
3.2.3. For enlisted commissioning programs (when offered by AFPC/DPAN) the Airman must qualify under either of the following certification programs: 1) Meet one of the 4 criteria for American Society of Clinical Pathology (ASCP) certification eligibility requirements as described at the ASCP website: [http://www.ascp.org/Board-of-Certification/GetCertified#tabs-1](http://www.ascp.org/Board-of-Certification/GetCertified#tabs-1), or 2) Meet one of the 2 criteria for American Medical Technologists (AMT) certification eligibility requirements as described at the AMT website: [http://americanmedtech.org/Certification/MedicalTechnologist/Qualifications.aspx](http://americanmedtech.org/Certification/MedicalTechnologist/Qualifications.aspx).

3.2.3.1. Completed an accredited academic program in medical technology following the earning of the bachelor’s degree referenced on the AMT website at [http://americanmedtech.org/Certification/MedicalTechnologist/Qualifications.aspx](http://americanmedtech.org/Certification/MedicalTechnologist/Qualifications.aspx); or 3.2.3.2. Completed at least one year of approved laboratory experience within the last five years.

3.2.3.3. With respect to eligibility requirements 3.2.3.1. and 3.2.3.2., educational programs acceptable toward meeting MT certification requirements must include laboratory experience as part of the curricula. Applicants graduating from academic programs that do not include an experiential component must obtain and document evidence of current laboratory experience prior to being eligible for certification.

3.2.3.4. Applicants seeking certification under eligibility requirements 3.2.3.1. and 3.2.3.2., must have graduated from their degree program within the past five years. Applicants graduating longer than five years from date of application must provide evidence of current laboratory experience.

3.3. Training. For award of AFSC 43T1A, certification as a Medical Laboratory Scientist or Medical Technologist by the ASCP or AMT is mandatory.

3.4. Experience. For award of AFSC 43T3X, a minimum of 24 months of experience is mandatory in biomedical laboratory assignments.

3.5. Other. Not used.

PHYSICIAN UTILIZATION FIELD (44XX)

Introduction

The Physician Utilization Field covers the functions of program formulation, policy planning, direction, and professional participation pertinent to maintenance and improvement of health standards. Included in this field are immediate supervisory and technical responsibilities for the prevention, diagnosis, and treatment of physical and mental diseases, disorders, and injuries, involving clinical application of, and research in, such specialized fields of medicine as dermatology, aerospace medicine, psychiatry, radiology, pediatrics, gastroenterology, other phases of surgery, and preventive medicine. This field also includes responsibilities for the development of plans and procedures covering the medical aspects of defense against nuclear, biological, and chemical warfare. Officers in this field command medical installations, units, or activities as stated in AFI 51-604, Appointment to, and Assumption of, Command.

Excluded from this utilization field are those functions necessary to support or supplement professional medical care and treatment of patients and which do not require the degree of Doctor of Medicine. These are included in the Dental, Veterinary, Biomedical Sciences, Nurse and Health Services Management Utilization Fields.

Medical officers, immediately upon entering Air Force sponsored residencies, will be awarded the appropriate AFSC for the specialized field of medicine in which they are training.

All other medical officers who have had professional practice or have received intensive formal training in one of the specialized fields of medicine will be assigned the appropriate AFSC on attaining the standards established for that AFSC.

Special Experience Identifiers for the Physician Utilization Field will be designated only after approval of Headquarters Air Force Military Personnel Center, Surgeon. The following is a complete listing of AFSCs for the Physician Utilization Field.
1. **Specialty Summary.** Plans and administers medical services at base level medical treatment facilities (MTF), including maintenance of health standards, training, and use of personnel. Directs inpatient and outpatient care and services. Related DoD Occupational Group: 260105.

2. **Duties and Responsibilities:**
   2.1. Administers medical service policies. Provides guidance for implementing comprehensive programs to continuously improve prevention and treatment of medical disease to ensure maximum personnel wartime readiness and combat capability. Determines personnel, materiel, and facility requirements. Administers operational policies for medical service programs.
   2.2. Coordinates medical service programs. Coordinates health service and patient care with military and civilian medical treatment facilities. Participates in meetings of professional societies and clinics. Confers with commanders and staff members concerning establishing, manning, equipping, operating, and training for medical facilities, units, and personnel. Advises commanders on matters affecting health and welfare of personnel.
   2.3. Monitors and directs medical service programs. Directs establishment and operation of inpatient and outpatient medical services. Manages assignment of medical officers and enlisted personnel to support medical facility operations. Manages education and training programs for medical officers. Disseminates professional information on new medical concepts, procedures, and techniques. Approves disengagement of patients for Civilian Health and Medical Program of the Uniformed Services (CHAMPUS). Responsible for management and oversight of professional programs to support medical treatment facility accreditation and inspection, including quality assurance and risk management, utilization management, and medical readiness.

3. **Specialty Qualifications:**
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, it is mandatory to possess a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy and completion of 1 year of graduate medical education acceptable to the Surgeon General, HQ USAF.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 44A3, experience is mandatory in a position with significant responsibility for medical management, including clinical service or department level leadership; or an aggregate of related duties, including work in facility level quality assurance and risk management function or medical staff committees.
   3.5. Other. Not used.

2. Duties and Responsibilities:
2.1. Provides preventive medicine support. Implements policies and procedures and prepares directives governing preventive medicine, population health and health care optimization. Serves as liaison with federal, state, and local agencies in matters related to preventive medicine. Develops programs to ensure a healthy and fit force for worldwide developments.
2.2. Directs preventive medicine activities. Directs health, education, and control measures for preventable disease and injuries. Assesses living and work environments to ensure healthy communities. Identifies preventive medicine research projects to control communicable and preventable diseases. Directs population health, health care optimization, health promotion, and fitness programs. Provides nutrition guidance, food services sanitation, water supply safety, sewage and waste disposal, immunizations, and other community health issues. Conducts or provides consultation for disease outbreak investigations and health services research.
2.3. Advises medical staff. Provides medical advice and guidance to bioenvironmental engineering, public health, aerospace medicine, and other organizations. Provides epidemiological and health information management expertise for population-based health services and evidence-based medical practice.
2.4. Directs and provides occupational medicine support in the absence of an occupational medicine or aerospace medicine specialist. Determines frequency and scope of occupational medicine exams required by federal regulations and workplace exposures. Conducts and supervises placement and periodic health exams for employees. Establishes procedures to identify occupational hazards, to notify appropriate agencies of occupational diseases or injuries, and investigate job related injuries or illness.
2.5. Conducts medical examinations of personnel with special standards of medical care. Provides medical support to operational mission and serves as staff advisor as needed. Develops and manages an aggressive preventive medicine program, including education in healthy life styles.
2.6. Provides medical support during contingency operations. Conducts medical prevention, intervention and evacuation activities during contingency operations. Gathers and utilizes medical intelligence to provide optimal medical support to deployed forces.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education and experience requirements satisfies this requirement.
3.2. Education. For entry into this specialty, it is mandatory to possess a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy, a Master's degree or equivalent in public health, and complete 1 year of graduate medical education in a clinical specialty at a hospital acceptable to the Surgeon General, HQ USAF.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 44B3, completion of residency or fellowship in General Preventive Medicine acceptable to the Surgeon General, HQ USAF is mandatory.
3.5. Other. For entry into AFSC 44B1, current enrollment in a General Preventive Medicine residency program acceptable to the Surgeon General, HQ USAF, is mandatory.
PATHOLOGIST
(Changed 30 Apr 08)

2. Duties and Responsibilities:
2.2. Manages clinical laboratory services. Formulates plans and procedures for clinical laboratory services. Schedules and assigns medical technicians in clinical pathological procedures related to such subjects as hematology, bacteriology, serology, biochemistry, and parasitology. Directs medical officers and technicians in performing such anatomical pathological examinations as biopsies and necropsies involving preparation of tissue for microscopic analysis. Evaluates such laboratory functions as chemical analysis of body fluids and production of antigens and sera. Advises on kind and quantity of medical laboratory supplies and equipment. Coordinates clinical laboratory services with other medical activities. Instructs interns and residents in pathological and clinical pathological laboratory reports. Directs preparation of pathological diagnostic records. Serves as consultant on tissue and clinical pathology.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 44D3, completion of a residency or fellowship in pathology acceptable to the Surgeon General, HQ USAF, is mandatory.
3.5. Other. For award of AFSC 44D3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF is mandatory.

EMERGENCY SERVICES PHYSICIAN

2. Duties and Responsibilities:
2.1. Examines, diagnoses, and treats illnesses and injuries in the acute care setting. Provides immediate diagnosis and resuscitation care for life-threatening conditions, and directs the provision of such care in the prehospital setting. Provides diagnosis and care on the basis of medical history, physical examination, and diagnostic tests. Provides supportive care to patients with serious medical and surgical conditions until the care of that patient can be assumed by the appropriate specialist for that condition. Provides definitive or interim care for conditions that, while not life-threatening, cause discomfort or risk of worsening to the extent that such care cannot be reasonably delayed until the next available access into a more appropriate source for care.
2.2. Organizes and designs disaster management programs. Works with disaster planning and hospital command personnel to design effective prehospital and initial hospital care and triage activities for disaster and mass casualty situations. Functions as the prehospital care provider and supervisor in disaster and mass casualty situations, and provides triage expertise and immediate care skills at the hospital access level.
2.3. Provides training. Provides training and supervision of nonphysician health care personnel in aspects of prehospital and hospital life-saving care. Provides training to medical and nursing personnel in aspects of resuscitations, including identification and treatment of cardiac, traumatic, and infectious emergencies.
2.4. Directs the operation of hospital emergency care services. Plans and directs the operation of emergency care systems, including prehospital care. Supervises patient care activities of physicians, nurses, technicians, and other staff assigned to that area. Ensures that the emergency care system provides quality care and meets the needs of the patient population it serves. Works with Nursing Services to ensure optimal training and skill performance by all personnel assigned to the emergency services.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education and experience requirements partially satisfies the knowledge required. Additional knowledge is mandatory in aspects of injury and illness which are unique to the Air Force and its military mission (chemical, bacteriological, and nuclear injuries, and immediate care of casualties in combat situations); operation of USAF health care delivery system; and needs of population served by these systems.
3.2. Education. For entry into this specialty, a degree of doctor of medicine or doctor of osteopathy from an approved school of medicine and completion of 1 year of graduate medical education in a clinical specialty at a hospital acceptable to the Surgeon General, HQ USAF, are mandatory.
3.3. Training. For award of AFSC 44E3, completion of an emergency medicine physician course is mandatory.
3.4. Experience. For award of AFSC 44E3A, acceptance by the American Board of Emergency Medicine for examination by completion of either (1) a residency program in emergency medicine, or (2) completion of practical experience and continuing education activities is mandatory.

NOTE: This requirement must be verified by letter of eligibility for examination from the American Board of Emergency Medicine.
3.5. Other. Not used.

148
FAMILY PHYSICIAN

1. Specialty Summary. Provides continuing, comprehensive health maintenance and medical care to entire family regardless of sex, age, or type of problem. Directs outpatient and inpatient care and services. Instructs other health care providers and nonmedical personnel. Related DoD Occupational Group: 260105.

2. Duties and Responsibilities:

2.1. Maintains a program of comprehensive health for the family unit, to include preventive medicine, behavioral sciences, and community health. Prepares and reviews medical histories and obtains data through interviews. Assembles triages and evacuates sick and wounded personnel. Examines patients, formulates differential diagnostic plans, defines and orders required diagnostic testing. Interprets examination findings and test results, and implements treatment plans. Determines need for consultation and assists in medical care and treatment provided at the direction of other specialists. Manages family practice inpatients, conducts ward rounds, and prescribes inpatient therapy. Participates in surgical, obstetrical, gynecological and critical care procedures according to training and demonstrated ability. Provides supportive and definitive care to patients with serious medical and surgical conditions with appropriate consultation, based on documented and demonstrated proficiency.

2.2. Manages family practice services for the health care of families. Formulates plans and procedures for operating outpatient and inpatient services directed toward health maintenance and ongoing health care of families by a physician who serves as their personal physician. Supervises and certifies the impaneling process of families according to local needs and resources. Schedules activities for the Family Practice Clinic, and assigns medical officers, nurses, and medical technicians. Determines needs for, and advises on kind and quantity of, medical supplies and equipment. Coordinates outpatient and inpatient services with other medical activities. Participates in committee direction of outpatient and inpatient health care services, as well as resource, facility, and logistics management.

2.3. Instructs medical and non-medical personnel. Formulates medical training programs and instructs both medical and nonmedical personnel in a variety of health-related topics, including first-aid measures, basic and advanced cardiac life support, and health care maintenance. May teach family practice residents and medical students at military or affiliated civilian institutions.

3. Specialty Qualifications:

3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.

3.2. Education. For entry into this specialty, a doctor of medicine or a doctor of osteopathy degree from an approved school of medicine or osteopathy, acceptable to the Surgeon General, HQ USAF, is mandatory.

3.3. Training. Not used.

3.4. Experience. For award of AFSC 44F3, completion of a residency in family practice acceptable to the Surgeon General HQ USAF, or board certification by either the American Board of Family Practice or the Advisory Board of Osteopathic Specialties is mandatory.

3.5. Other. For entry into AFSC 44F1, current enrollment in a family practice residency program acceptable to the Surgeon General, HQ USAF, is mandatory.
GENERAL PRACTICE PHYSICIAN

1. **Specialty Summary.** Examines, diagnoses, and treats diseases and injuries; manages outpatient and ward services. Related DoD Occupational Group: 260109.

2. **Duties and Responsibilities:**
   2.1. Manages primary care services. Examines, diagnoses, and treats diseases and injuries. Prepares and reviews case histories and obtains data through interviews. Assembles and evacuates sick and wounded personnel. Examines patients and determines x-ray examinations and clinical laboratory tests required. Interprets test results and evaluates examination findings. Conducts ward rounds and prescribes therapy. Administers and prescribes such conservative measures of treatment as antibiotics, drugs, and compresses. Performs minor surgical procedures. Determines need for and assists in specialized medical care and treatment. May be granted additional privileges and responsibilities based on documented advanced proficiency.
   2.2. Coordinates medical service programs. Coordinates health service and patient care with military and civilian medical agencies. Participates in meetings of professional societies and clinics. Confers with commanders and staff members concerning manning, equipping, operating, and training of medical installations, facilities, and units. Advises commanders on matters affecting health and welfare of personnel.
   2.3. Directs outpatient and ward services. Formulates plans and procedures for outpatient and ward services. Schedules activities and assigns medical officers, interns, nurses, and medical technicians. Advises on kind and quantity of medical supplies and equipment. Coordinates outpatient and ward services with other medical activities. Instructs medical technicians in first-aid measures.

3. **Specialty Qualifications:**
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy, and completion of 1 year of graduate medical education in a clinical specialty at a hospital acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.3. Training. Not used.
   3.4. Experience. Not used.
   3.5. Other. Not used.
NUCLEAR MEDICINE PHYSICIAN

2. Duties and Responsibilities:
   2.1. Uses radionuclides in diagnostic imaging and in the treatment of disease. Reviews requests for nuclear imaging and therapeutic procedures, and determines applicability of requested procedures. Interviews and examines patients and records supplementary data. Instructs and directs nuclear medicine technologists regarding desired dosages, techniques, positions, and projections. Applies data processing techniques, as indicated. Interprets images and data, and confers with medical and dental officers regarding diagnoses of cases. Prepares comprehensive interpretive reports of findings.
   2.2. Uses radionuclides for a variety of laboratory procedures. Uses radionuclides to perform diagnostic studies of blood and urine, including radioimmunoassay, volume and dilution studies, hematological studies, and others. Prepares report of results.
   2.3. Manages Nuclear Medicine Services. Formulates plans and procedures for Nuclear Medicine Services. Coordinates nuclear medicine services with other medical activities. Determines capability of available resources, and advises regarding future needs. Ensures quality control of radionuclide preparation, administration, and disposition, and ensures that all activities comply with the standards of the Nuclear Regulatory Commission and the Air Force permit. Establishes and enforces protection standards for patients and personnel. Schedules examinations and assigns personnel. Advises on kind and quantity of nuclear medicine supplies and equipment. Participates in delivery of graduate medical education in nuclear medicine, diagnostic radiology, and other specialties. Serves as consultant in nuclear medicine.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. The following education is mandatory for entry into this specialty:
      3.2.1. A doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy.
      3.2.2. On a case-by-case basis, completion of an additional residency in diagnostic radiology, internal medicine, pathology, or other specialties, acceptable to the American Board of Nuclear Medicine is mandatory.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 44H3, completion of a residency in nuclear medicine acceptable to the Surgeon General, USAF, is mandatory.
   3.5. Other. Not used.
CLINICAL GENETICIST

2. Duties and Responsibilities:
   2.1. Evaluates, diagnoses, and treats genetic diseases. Prepares and reviews case histories and clinical records. Interviews patients or parents to obtain clinical and family histories and constructs pedigrees. Examines patients, determines need for laboratory or other testing, and interprets pedigrees, examination findings and test results. Counsels patients or parents on recurrence risks and availability of prenatal diagnosis.
   2.2. Manages medical genetics services. Formulates plans and procedures for medical genetics services. Schedules use of medical genetics clinics, facilities, and laboratories and assigns nurses, nurse practitioners, genetic counselors, medical technicians, and genetic laboratory personnel. Advises on type and quantity of supplies and equipment. Coordinates medical genetics services with other medical activities. Instructs interns and residents in methods and procedures for diagnosis and management of genetic disorders.
   2.3. Serves as consultant on genetic conditions and diseases.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
   3.3. Training. Not Used.
   3.4. Experience. For award of AFSC 44J3, completion of a residency or fellowship in medical genetics acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.5. Other. Not Used.
PEDIATRICIAN

2. Duties and Responsibilities:
2.1. Examines, diagnoses, and treats diseases and injuries of infants and children, extending into young adulthood. Prepares and reviews case histories and clinical records of infants and children. Examines patients, determines need for x-ray examinations and clinical laboratory tests, and interprets examination findings and test results. Prescribes pediatric treatment.
2.2. Manages pediatric services. Formulates procedures for pediatric services. Schedules use of diagnostic and treatment facilities and assigns nurses and medical technicians. Advises on types and quantity of pediatric supplies and equipment. Coordinates pediatric services with other medical activities. Instructs interns and residents in procedures for diagnosis and treatment of diseases and injuries of infants and children. Serves as consultant on pediatrics.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 44K3, completion of a residency or fellowship in pediatrics acceptable to the Surgeon General, HQ USAF, is mandatory.
3.5. Other. For award of AFSC 44K3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF is mandatory.

INTERNIST

1. Specialty Summary. Diagnoses diseases and renders nonsurgical care; provides consultation in complex cases. Manages internal medicine services. Related DoD Occupational Group: (see shredout explanation.)

2. Duties and Responsibilities:
2.1. Diagnoses and treats diseases. Prepares and reviews case histories and clinical records. Performs and directs diagnostic procedures, including x-ray examinations and clinical laboratory tests. Interprets test results and evaluates examination findings. Prescribes such treatment for internal diseases as drugs, physical therapy, and dietary regimens.
2.2. Manages internal medicine services. Formulates plans and procedures for internal medicine services. Schedules use of internal medicine clinics and diagnostic facilities and assigns nurses and medical technicians. Advises on type and quantity of supplies and equipment. Coordinates internal medicine services with other medical activities. Instructs interns and residents in procedures and methods of internal medicine. Serves as consultant on internal diseases.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 44M3, completion of a residency or fellowship in internal medicine acceptable to the Surgeon General, USAF, is mandatory.
3.5. Other. For award of AFSC 44M3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

NEUROLOGIST

2. Duties and Responsibilities:

2.1. Examines, diagnoses, and treats neurological diseases and disorders. Prepares and reviews case histories and obtains data through interviews. Examines patients, determines need for clinical laboratory tests, and interprets examination findings and test results. Prescribes neurological treatment.

2.2. Manages neurological services. Formulates plans and procedures for neurological services. Schedules use of diagnostic and treatment facilities and assigns nurses, physical therapists, occupational therapists, and medical technicians. Advises on kind and quantity of neurological supplies. Coordinates neurological services with other medical activities. Instructs interns and residents in neurological techniques. Supervises medical technicians in operation of, and serves as consultant on electroencephalographic apparatus and other neurological diagnostic and therapeutic equipment.

3. Specialty Qualifications:

3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.

3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.

3.3. Training. Not used.

3.4. Experience. For award of AFSC 44N3, completion of a residency or fellowship in neurology acceptable to the Surgeon General, HQ USAF, is mandatory.

3.5. Other. Not used.
1. **Specialty Summary.** Plans and administers medical services, policies or programs in leadership or staff positions requiring a physician, but not a specific physician specialty.

2. **Duties and Responsibilities:**
   2.1. Utilizes physician expertise in a variety of settings to develop and direct medical policies, programs and services.
   2.2. Plans and prepares for medical operations. Develops and administers medical policies. Determines the personnel, equipment, training, and facilities required to establish and sustain medical programs or operations.
   2.3. Oversees medical operations and leads medical personnel. Performs, supervises, and directs the delivery of clinical services in inpatient and outpatient settings. Coordinates, directs, and monitors process improvement initiatives and health promotion programs.
   2.4. Develops, manages, and conducts education and training programs for medical personnel.
   2.5. Advises commanders and other leaders on programs impacting the health and welfare of personnel.

3. **Specialty Qualifications:**
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, the following are mandatory as indicated:
      3.2.1. Possess a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy.
      3.2.2. Completion of 1 year of graduate medical education acceptable to the Surgeon General, HQ USAF.
   3.3. Training. Not used.
   3.4. Experience. Not used.
   3.5. Other. For award and retention of these AFSCs, possession of a qualified (3-qualification level) or staff (4-qualification level) in AFSCs 44XXX, 45XXX, or 48XXX is mandatory.
PSYCHIATRIST

2. Duties and Responsibilities:
2.1. Examines, evaluates, diagnoses, and treats psychiatric disorders. Prepares and reviews case histories and obtains and evaluates data through interview techniques. Diagnoses psychiatric disorders. Prescribes and evaluates effectiveness of a wide range of therapeutic measures. Recommends disposition of psychiatric cases.
2.2. Manages and directs psychiatric services. Formulates plans for psychiatric services. Directs mental health clinics. Advises on problems related to mental health and prevention of mental disorders. Serves as medical and psychiatric consultant to clinical psychologists and clinical social workers. Assigns psychiatric nurses and technicians to functions contributing to the diagnosis and treatment of patients. Advises on kind and quantity of psychiatric supplies and equipment. Coordinates psychiatric services with other medical activities. Instructs interns and residents in psychiatric principles and procedures. Serves as consultant on psychiatry.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 44P3, completion of residency or fellowship in psychiatry acceptable to the Surgeon General, HQ USAF, is mandatory.
3.5. Other. For award of AFSC 44P3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

DIAGNOSTIC RADIOLOGIST

2. Duties and Responsibilities:
   2.1. Makes and interprets diagnostic images. Reviews requests for x-ray, nuclear radiology, ultrasound, Magnetic Resonance Imaging (MRI), Magnetic Resonance Angiography (MRA) and other diagnostic imaging procedures, and determines applicability of requested procedures. Interview patients as necessary, and records supplementary data. Instructs radiologic personnel in desired techniques, positions, and projections. Interprets images and confers with medical and dental officers regarding diagnoses of cases. Prepares comprehensive interpretive reports of findings.
   2.2. Performs special procedures. Recommends and performs special imaging procedures, including fluoroscopy, tomography, angiography, nuclear imaging, ultrasound, and computed tomography, MRI and MRA, with limitations of available resources and expertise. Determines need for referral of cases that are not within local capability. Performs and interprets procedures, and prepares comprehensive interpretive report of findings.
   2.3. Manages radiological services. Formulates plans and procedures for radiological services. Coordinates radiological services with other medical activities. Determines capability of available resources, and advises regarding future needs. Assures adequate quality control of images. Establishes and enforces standards for protection of patients and personnel. Schedules examinations and assigns radiologic personnel. Advises on kind and quantity of radiological supplies and equipment. Participates in the delivery of graduate medical education in radiology. Serves as consultant in radiology.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 44R3, completion of a residency in radiology acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.5. Other. For award of AFSC 44R3X, completion of an additional residency or fellowship program related to the suffix or having been awarded a Certificate of Added Qualification (CAQ), Certificate of Special Competence for 44R3D, by the American Board of Radiology, and acceptable to the Surgeon General, HQ USAF, is mandatory.

DERMATOLOGIST

2. Duties and Responsibilities:
2.1. Examines, diagnoses, and treats diseases of the skin. Prepares and reviews case histories and clinical records. Examines patients, performs biopsies, and other diagnostic techniques of dermatology, and determines requirements for clinical laboratory tests. Interprets test results and evaluates examination findings. Prescribes treatment, including x-ray therapy, physical therapy, and medication.
2.2. Manages dermatological services. Formulates plans and procedures for dermatological services. Schedules operation of diagnostic and treatment facilities and assigns nurses, physical therapists, x-ray therapists, and other medical technicians. Advises on types and quantity of dermatological supplies and equipment. Coordinates dermatological services with other medical activities. Instructs interns and residents in methods and procedures for diagnosis and treatment of dermatological diseases. Serves as consultant on dermatology.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of the education requirement satisfies this requirement.
3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 44S3, completion of a residency or fellowship in dermatology acceptable to the Surgeon General, HQ USAF, is mandatory.
3.5. Other. For award of AFSC 44S3X, completion of the additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

RADIOTHERAPIST

2. Duties and Responsibilities:
2.1. Provides consultation regarding cancer management. Consults with other medical officers in the diagnosis, staging, treatment, and follow-up of patients with malignant diseases. Interview and examines patients. Reviews radiographic and other imaging studies, laboratory data, histopathological slides, and other diagnostic information. Determines and advises regarding suitability for radiation therapy.
2.2. Provides radiation therapy. Administers various types of radiation, or supervises its administration, to carefully determined areas of the body, with due consideration for the tolerance of various tissues and volumes. Selects the most appropriate technique or modality, including external beam therapy with photons or particles at various energies, surface applications, intracavitary applications, or interstitial applications. Determines daily and total radiation dose and maintains records of all therapy administered. Instructs radiologic personnel in proper patient positioning, beam alignment, field setup, and treatment areas. Monitors clinical response during therapy. Conducts and advises as to follow-up evaluations.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of requirement in 3.2 below satisfies this requirement.
3.2. Education. A doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory for entry into this AFSC.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 44T3, completion of a residency in radiotherapy acceptable to the Surgeon General, HQ USAF, is mandatory.
3.5. Other. Not used.
1. **Specialty Summary.** Administers occupational medicine program; provides urgent and non-urgent outpatient medical care to authorized DoD affiliated personnel and selected active duty personnel with special standards of medical qualification. Evaluates working environments to detect and control health hazards and prevent disease and injury within the work environment. Related DoD Occupational Group: 260100.

2. **Duties and Responsibilities:**
   2.1. Provides occupational medicine clinical and administrative support. Maintains a program dedicated to job related outpatient clinical services and workplace safety. Schedules activities for Occupational Medicine Clinic, and assigns medical technicians. Determines need for, and advises on kind and quality of, medical supplies and equipment. Coordinates patient referral to other medical providers and families. Manages return to work programs and surveillance examination requirements as determined by federal law. Establishes procedures to identify occupational hazards, to notify appropriate agencies of occupational disease or injuries, and to investigate job related injuries and illnesses. Serves as liaison with federal, state, and local agencies in matters related to occupational medicine.
   2.2. Directs preventive medicine activities. Directs health education and control measures for preventable diseases and injuries. Identifies occupational medicine research needs. Develops and implements research projects to control communicable and preventable diseases. Provides guidance on nutrition, food service sanitation, water supply safety, sewage and waste disposal, immunizations, and other community health issues.
   2.3. Advises medical staff on occupationally unique exposures, patient management and treatment. Provides medical advice and guidance to bioenvironmental engineering, public health, and other organizations.
   2.4. Directs and provides occupational medicine support. Determines frequency of and space for occupational medicine exams required by federal regulations and work place exposures. Develops and maintains professional standards for occupational illness and injury care using AHCPR, ACOEM, or other professional society guidelines as appropriate. Advises line management on workers’ fitness for duty according to 5 CFR, Part 339. Provides recommendations to Department of Labor on workers’ compensation claims, and to the Social Security Administration regarding disability retirement applications. Attends Federal Employee Compensation Act (FECA) working groups as required. Reviews occupational injury and illness data obtained from other facility care providers.

3. **Specialty Qualifications:**
   3.1. Knowledge. Fulfillment of education and experience requirements satisfies this requirement.
   3.2. Education. For entry into this specialty, it is mandatory to possess a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy, a Master's degree or equivalent in public health, and complete 1 year of graduate medical education in a clinical specialty at a hospital acceptable to the Surgeon General, HQ USAF.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 44U3, completion of a residency in occupational medicine acceptable to the Surgeon General HQ USAF, or board certification in Occupational Medicine by the American Board of Preventive Medicine is mandatory.
   3.5. Other. For entry into AFSC 44U1, current enrollment in an occupational medicine residency program acceptable to the Surgeon General, HQ USAF, is mandatory.
CRITICAL CARE MEDICINE

2. Duties and Responsibilities:
2.1. Examines, diagnoses, and treats diseases and injuries by surgical and nonsurgical means. Prepares and reviews case histories and obtains data through interviews. Examines patients and determines x-ray examinations and clinical laboratory tests required. Interprets test results and evaluates examination findings. Prescribes treatment, such as drugs, physical therapy, dietary regimens, and surgical procedures for diseases and injuries. Coordinates treatment with other specialists. Treats patients suffering from surgical shock, postoperative hemorrhages, respiratory failure, and other complications.
2.2. Manages critical care activities. Formulates plans and procedures for critical care activities. Schedules use of critical care facilities and assigns nurses and medical technicians. Advises on type and quantity of supplies and equipment. Coordinates critical care with other medical activities. Instructs residents in critical care. Serves as consultant on critical care.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education requirements satisfies this requirement.
3.2. Education. The following education is mandatory for entry into this specialty:
3.2.1. A doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy.
3.2.2. Board eligibility in a basic specialty (surgery, anesthesiology, pediatrics, or internal medicine).
3.3. Training. Not used.
3.4. Experience. For award of AFSC 44Y3, completion of a fellowship in critical care medicine, or equivalent, acceptable to the Surgeon General, HQ USAF, is mandatory.
3.5. Other. For award of AFSC 44Y3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

ALLERGIST

2. Duties and Responsibilities:
   2.1. Examines, diagnoses, and treats allergic diseases. Prepares and reviews case histories and obtains data through interviews. Examines patients and determines required x-ray examinations, clinical laboratory tests, and diagnostic challenge tests (dermal on inhalation or ingestion). Interprets tests results and evaluates findings. Prescribes specific medications, diets, and immunotherapy and overseas nursing personnel in injection therapy. In emergencies, treats patients suffering from anaphylactic shock, angioedema, urticaria, bronchospasm, and other severe allergic diseases.
   2.2. Manages allergy services. Formulates plans and procedures for allergy services, schedules clinic and allergic testing, and assigns nurses and medical technicians. Advises on kind and quantity of allergy supplies and equipment. Coordinates allergy services with other medical activities. Instructs interns, residents, and fellows in allergy procedures. Serves as consultant on allergy.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, a doctor of medicine or a doctor of osteopathy degree from a recognized school of medicine or osteopathy is mandatory.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 44Z3, completion of a fellowship in allergy acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.5. Other. Not used.
Surgery Utilization Field (45XX)

Introduction

The Surgery Utilization Field covers the functions of program formulation, policy planning, direction, and professional participation pertinent to maintenance and improvement of health standards and aerospace medicine. Included in this field are the areas of anesthesiology, orthopedic, ophthalmology, obstetrics and gynecology, otorhinolaryngology, physical medicine, surgery, and urology. Officers in this field command medical installations, units, or activities as stated in AFR 51-604, Appointments to, and Assumption of, Command. The following is a complete listing of AFSCs for the Surgery Utilization Field.
ANESTHESIOLOGIST

2. Duties and Responsibilities:
2.1. Administers general and local anesthetics. Determines anesthetics to be used, considering such factors as patient's condition and operation to be performed. Records observations while administering such anesthetics as ether, sodium pentathol, and nitrous oxide. Coordinates administration of anesthetics with surgeons during operation. Maintains life support.
2.2. Manages anesthesiological services. Formulates plans and procedures for anesthesiological services. Assigns nurses and medical technicians. Advises on kinds and quantity of anesthesiological supplies and equipment. Schedules use and provides for maintenance of surgical suite, including operating, wash-up, and waiting rooms and anesthetic and sterilizing equipment. Coordinates anesthesiological services with other medical activities. Instructs personnel in methods and procedures for administering anesthetics. Serves as consultant on anesthesiology. Also serves as consultant for respiratory physiology problems and ventilator management for intensive care facilities.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
3.3. Training. Not used.
3.4. Experience. For award of AFSC 45A3, completion of a residency or fellowship in anesthesiology acceptable to the Surgeon General, HQ USAF, is mandatory.
3.5. Other. Not used.
ORTHOPEDIC SURGEON
(Changed 30 Apr 08)

2. Duties and Responsibilities:
2.1. Examines, diagnoses, and treats diseases and injuries of musculoskeletal system by surgical and conservative means and application of corrective mechanical devices. Prepares and reviews case histories and obtains data through interviews. Examines patients and determines x-ray examinations and clinical laboratory tests required. Interprets test results and evaluates examination findings. Determines procedures for preoperative and postoperative care such as administering sedatives, prescribing diets, and preparing operative area of patients. Applies surgical procedures and coordinates operation with anesthesiologist. Reduces and immobilizes fractures by open or closed methods, using such corrective devices as braces, casts, and splints. Administers and prescribes such conservative measures of treatment as antibiotics, drugs, and compresses. Treats patients suffering from surgical shock, postoperative hemorrhage, and other complications.

2.2. Manages orthopedic surgery services. Formulates plans and procedures for orthopedic surgery services. Schedules operations and assigns surgeons, nurses, and medical technicians. Directs nurses in procedures for preoperative and postoperative care and operating room techniques. Advises on kind and quantity of orthopedic supplies and equipment. Coordinates orthopedic surgery services with other medical activities. Instructs interns and residents in orthopedic surgery procedures. Serves as consultant on orthopedics.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.

3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.

3.3. Training. Not Used.

3.4. Experience. For award of AFSC 45B3, completion of a residency or fellowship in orthopedic surgery acceptable to the Surgeon General, HQ USAF, is mandatory.

3.5. Other. For award of AFSC 45B3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

OBSTETRICIAN AND GYNECOLOGIST

2. Duties and Responsibilities:
   2.1. Prescribes prenatal and postnatal care, performs deliveries in maternity cases, and treats diseases and injuries of female reproductive system. Prepares and reviews case histories and obtains data through interviews. Examines patients and determines x-ray examinations and clinical laboratory tests required. Interprets test results and evaluates examination findings. Prescribes prenatal and postnatal care, including diets and medication. Directs nurses in procedures for preoperative and postoperative care such as administering sedatives, prescribing diets, and preparing operative area of patients. Applies surgical procedures and coordinates gynecological and obstetrical operations with anesthesiologist. Administers and prescribes such conservative measures of treatment as antibiotics, drugs, and compresses. Treats patients suffering from surgical shock, postoperative hemorrhages, and other complications.
   2.2. Manages obstetrical and gynecological services. Formulates plans and procedures for obstetrical and gynecological services. Schedules operation of obstetrical and gynecological services with other medical activities. Instructs interns and student residents in obstetrical and gynecological procedures. Serves as consultant on obstetrics and gynecology.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
   3.3. Training. Not Used.
   3.4. Experience. For award of AFSC 45G3, completion of a residency or fellowship in obstetrics and gynecology acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.5. Other. For award of AFSC 45G3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

OTORHINOLARYNGOLOGIST

2. Duties and Responsibilities:
   2.1. Examines, diagnoses, and treats, by surgical and other means, injuries and disorders of head and neck. Prepares and reviews case histories and obtains data through interviews. Examines patients and determines x-ray examinations and clinical laboratory tests required. Interprets test results and evaluates examination findings. Determines procedures for preoperative and postoperative care such as administering sedatives, prescribing diets, and preparing operative area of patients. Applies surgical procedures and coordinates operations with anesthesiologist. Administers and prescribes such measures of treatment as antibiotics, drugs, and compresses. Treats patients suffering from surgical shock, postoperative hemorrhages, and other complications.
   2.2. Manages otorhinolaryngological services. Formulates plans and procedures for otorhinolaryngological services. Schedules operations and assigns surgeons, nurses, and medical technicians. Directs nurses in procedures for preoperative and postoperative care and operating room techniques. Advises on types and quantity of otorhinolaryngological supplies and equipment. Coordinates otorhinolaryngological services with other professional medical activities. Instructs interns and residents in techniques of head and neck surgery. Serves as consultant on head and neck surgery.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
   3.3. Training. Not used.
   3.4. Experience.
      3.4.1. For award of AFSC 45N3, completion of a residency or fellowship in otorhinolaryngology acceptable to the Surgeon General, HQ USAF, is mandatory.
      3.4.2. For entry into AFSC 45N1A/B/C/D, qualification in and possession of AFSC 45N3 is mandatory.
      3.4.3. For award of AFSC 45N3A/B/C/D completion of a fellowship in a suffix specific course acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.5. Other. Not used.

4. *Specialty Shredouts:

   Suffix
   Portion of AFS to Which Related

   A……………………………………………………...Otology/Neurotology. Provide advanced education diagnosis, and treatment of disorders of the petrous apex, infratemporal fossa, internal auditory canal and cranial nerves. This subspecialty is part of a Skull base team that requires Neurosurgical and advanced audiological support. Successful completion of an Otology/Neurotology program acceptable to the Surgeon General, HQ USAF, is mandatory.
B. Head & Neck Surgical Oncology. Provide advanced education, diagnosis, and treatment of traumatic injury and neoplastic disease of the head & neck to include advanced surgical removal, repair and reconstruction (i.e. with vascularized, sensate free flaps). Also included are advanced rigid bronchoesophagoscopy and surgery. Successful completion of a Head & Neck Surgical Oncology program acceptable to the Surgeon General, HQ USAF.

C. Pediatric Otolaryngology. Provide advanced education, diagnosis and treatment of infants and children with complex problems. Specifically congenital and acquired conditions involving the aerodigestive tract, the nose and paranasal sinuses, the ear, disease and disorders of the laryngotracheal complex and the head and neck. Additional expertise in management of childhood disorders of voice, speech, language, and hearing as well as genetics is also provided. These individuals are often part of the cleft-palate or craniofacial disorder team. Successful completion of a fellowship in a Pediatric Otolaryngology program acceptable to the Surgeon General, HQ USAF.

D. Facial Plastic Surgery. Provide advanced education, diagnosis, and treatment in the reconstructive and cosmetic repair of traumatic, neoplastic, congenital and acquired deformities of the head and neck. Individuals are often part of a reconstruction team for head and neck cancer. Completion of a fellowship in a Facial Plastic Surgery program acceptable to the Surgeon General, HQ USAF.
PHYSICAL MEDICINE PHYSICIAN

2. Duties and Responsibilities:
   2.1. Examines, diagnoses, and treats disabilities. Prepares and reviews case histories and clinical records. Examines patients and provides medical management for musculoskeletal trauma, disabling pain, deformity or amputation, peruses, contractures, deconditioning, spasticity, dysphagia, decubiti, bowel incontinence, and other disabling conditions. Prescribes electrotherapy, ultrasonography, heat and cold therapy, hydrotherapy, debridement, short-wave and microwave diathermy, infrared and ultraviolet radiation, and orthotic and prosthetic applications. Performs electrodiagnosis, including electromyography, nerve conduction studies, and somatosensory evoked potentials. Consults and coordinates with physical and occupational therapists, speech pathologists, neuropsychologists, behavioral psychologists, social workers, and medical technicians.
   2.2. Instructs interns and residents in the diagnosis and treatment of physically disabling temporary and permanent conditions. Serves as a consultant on physical medicine and rehabilitation.
   2.3. Formulates plans and procedures for physical medicine services. Schedules diagnostic and treatment facilities. Prescribes for and directs rehabilitation nurses. Advises on types and quantity of physical medicine and rehabilitation equipment and supplies. Coordinates physical medicine and rehabilitation services with other medical activities.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 45P3, completion of a residency or fellowship in physical medicine and rehabilitation acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.5. Other. Not used.

2. **Duties and Responsibilities:**
   2.1. Examines, diagnoses, and treats by surgical means, diseases, and injuries. Prepares and reviews case histories and obtains data through interviews. Examines patient and determines x-ray examinations and clinical laboratory tests required. Interprets test results and evaluates examination findings. Determines procedures for preoperative and postoperative care, such as administering sedatives, prescribing diets, and preparing operative area of patient. Coordinates surgical operation with anesthesiologist. Applies surgical procedures and assists specialists in performing surgery including thoracic, plastic, brain, and orthopedic. Administers and prescribes such conservative measures of treatment as antibiotics, drugs, and compresses. Treats patients suffering from surgical shock, postoperative hemorrhages, and other complications.
   2.2. Manages surgery services. Formulates plans and procedures for surgery services. Schedules operations and assigns surgeons, nurses, and medical technicians. Directs nurses in procedures for preoperative and postoperative care of patients and operating room techniques. Advises on kind and quantity of supplies and equipment. Coordinates surgery services with other medical activities. Instructs interns and residents in surgical procedures. Serves as consultant on surgery.

3. **Specialty Qualifications:**
   3.1. Knowledge. Fulfillment of education requirement satisfies this requirement.
   3.2. Education. For entry into this specialty, a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy is mandatory.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 45S3, successful completion of a residency or fellowship in surgery acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.5. Other. For award of AFSC 45S3X, successful completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

NURSE UTILIZATION FIELD (46XX)

Introduction
(Changed 31 Oct 14, Effective 18 Aug 14)

The Nurse Utilization Field encompasses the functions of planning, organizing, controlling, coordinating, executing, and evaluating nursing activities. This includes Registered Nurses (RN) providing direct patient care; supervising ancillary nursing service personnel; participating in education and training activities; and in research for the improvement of patient care. The field also includes Advanced Practice Registered Nurses (APRN) functioning in expanded roles and as privileged health care providers to provide care in ambulatory and inpatient settings. In non-direct patient care roles reviews, recommends changes, and develops policy and operational guidance pertaining to nursing or related areas such as case/disease management, health care integration, population health, disease/injury, or clinical informatics. Participates in developing and implementing command programs and technical inspections. Participates in studies, consultative visits, and evaluative surveys within the range of Air Force Medical Service activities. Represents nursing interests, concerns, and support in health care planning, training, and research. May serve as advisor to the command surgeon or the Surgeon General, HQ USAF, on nursing-related issues.
NURSING ADMINISTRATOR
(Changed 31 Oct 15, ★ Effective 27 May 15)

2. Duties and Responsibilities:
2.1. Performs Chief Nurse duties. Directs nursing service activities within area of responsibility. Evaluates qualifications and maintains functional control of Air Force Nurse Corps officers, enlisted nursing personnel, civilian nurses, and ancillary nursing personnel providing nursing care according to established scope of practice and applicable federal/state laws. Advises MTF commander on nursing issues. Establishes, interprets and directs implementation of nursing policy. Plans and directs assignment and training of professional and paraprofessional nursing personnel. Provides staff development programs for all levels of nursing personnel. Evaluates performance of nursing service personnel, nursing activities, standards of nursing care and nursing practice. Facilitates and participates in nursing research. Makes recommendations to commanders on administrative matters concerning Nurse Corps officers and other nursing service personnel.

★ 3. Specialty Qualifications:
3.2. Education. The following education requirements are mandatory for entry into this specialty.
3.2.1. Meet entry level requirements as defined in AFI 36-2005, Appointment in Commissioned Grades and Designation and Assignment in Professional Categories, para 6.3.1.2. Master’s degree in nursing or related specialty from an accredited educational program approved by the AF/SG is preferred.
3.3. Training. For award of these AFSCs, Air Force Medical Service Intermediate Executive Skills (IES) course for Regular Air Force officers; IES or equivalent for Guard and Reserve is mandatory.
3.4. Experience. The following experience is mandatory for award of the AFSC indicated:
3.4.1. 46A1. A minimum of 10 years nursing experience which has provided opportunities to refine competencies in nursing practice and to apply leadership principles.
3.4.2. 46A3. A minimum of 12 months as a Chief Nurse, Squadron Commander or Group Commander.
3.5. Other. For entry, award and retention of these AFSCs, the following are mandatory.
3.5.1. Unrestricted practice (excludes temporary restrictions) IAW AFI 44-119, Medical Quality Operations.
3.5.2. Approval by the Chief Nurse.
3.5.3. Minimum grade of Major.
FLIGHT NURSE
(Changed 31 Oct 14, Effective 18 Aug 14)

2. Duties and Responsibilities:
2.1. Member of the AE crew. Functions as the senior medical member of the AE team during CONUS, intra-theater, and inter-theater flights. Collaborates with appropriate agencies and personnel concerned with conduct of the mission.
2.2. Plans and prepares for AE missions. Coordinates with the operational aircrew and mission pre-planning. Prepares patient positioning plan to facilitate patient enplaning, nursing care, comfort, and safety. Evaluates individual patient's in-flight needs and requests appropriate medications, supplies, and equipment. Supervises enplaning and securing of patients. Prepares and maintains plan for patient evacuation from aircraft in case of an aircraft emergency.
2.3. Plans and provides in-flight patient care. Provides continuing nursing care from originating to destination facilities. Monitors and evaluates patient condition and reactions to stresses of flight and initiates appropriate interventions as needed. Maintains and annotates in-flight patient records. Acts as liaison between medical and operational aircrews and support personnel in order to promote patient safety and comfort and to accomplish the mission. Maintains and completes data on forms relative to the mission. Supervises deplaning of patients and off-loading of patient baggage, supplies, and equipment. Briefs medical personnel at receiving medical facility on continuing nursing care and requirements. Accompanies patient to receiving medical facility when appropriate.
2.4. Provides emergency care. Initiates emergency interventions for in-flight medical emergencies. Provides emergency care to patients in the event of an aircraft emergency, wheels-up landing, ditching, rapid decompression, or fuselage fire.
2.5. Participates in nursing service administration activities. Participates in the instruction and evaluation of in-flight nursing care routines and practices.

3. Specialty Qualifications:
3.2. Education. For entry into this specialty, meet the entry level requirements as defined in AFI 36-2005, Appointment in Commissioned Grades and Designation and Assignment in Professional Categories, para 6.3.1.2.
3.3. Training. For award of AFSC 46F1, completion of an AF/SG1N-approved course is mandatory.
3.4. Experience. For award of AFSC 46F3, completion of qualification training IAW applicable AFI 11-series instruction requirements
3.5. Other. For entry, award and retention of these AFSCs, the following are mandatory.
3.5.1. Unrestricted practice (excludes temporary restrictions)IAW AFI 44-119, Medical Quality Operations.
3.5.2. Physical qualification for flying duty according to AFI 48-123, Medical Examinations and Standards and Medical Standard Directory for Flying Class III medical standards.
3.5.3. Approval by the Chief Nurse.
CLINICAL NURSE
(Changed 31 Oct 14, Effective 18 Aug 14)

2. Duties and Responsibilities:

2.1.1. Provides comprehensive and specialty nursing care. Assesses health and health care needs of individuals and populations. Collects, records, and analyzes patient or population health data from preventive health assessments, nursing history, physical examinations and other sources. Uses data to determine nursing needs of patients/populations. Identifies expected health outcomes. Involves the patient, family, and community in setting realistic goals to achieve desired outcomes. Plans comprehensive care attains expected outcomes. Collaborates with other disciplines. Implements and evaluates nursing interventions. Conducts group and individual health teaching for patients, families, and community. Monitors and records patient and population health status. Uses ongoing assessment data to evaluate progress toward expected outcomes and revise plan of care as needed. Documents nursing actions and activities.
2.1.2. Supervises and manages nursing activities. Supervises nursing staff and evaluates clinical practice. Provides adequate staffing and supervision. Participates in and contributes to staff development programs.

2.2. Clinical Nurse Specialists. Expert clinician with advanced academic degree in selected nursing specialties. Renders direct patient care, including assessing, diagnosing, planning, and prescribing treatment of health problems, health promotion, and preventive care within the specialized area of practice. Sub-roles include patient and staff education, research, and consultation.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge of principles and practices of nursing is mandatory.
3.2. Education. For entry into AFSC 46N1D/E/F/G/J, meet the entry level education requirements as defined in AFI 36-2005, Appointment in Commissioned Grades and Designation and Assignment in Professional Categories—Reserve of the Air Force and United States Air Force, para 6.3.1.2., is mandatory.
3.3. Training. The following is mandatory for award of the AFSC indicated:
3.3.1. For award of a 46NX AFSC specialty shredout (D, E, F, G, J), completion of an AF/SG1N-approved formal training program or fellowship in a respective clinical specialty (excludes direct accessions for the E, F, G, and J specialties)
3.4. Experience. The following experience is mandatory:
3.4.1. Award of AFSC 46N3 (Qualified) requires a minimum of 12 months AF or civilian experience as a registered nurse.
3.4.2. For award of an AFSC 46N3 specialty shredout (E, F, G, or J), a minimum of 6 months in the respective clinical specialty. The 6 months experience in the specialty may be included in the total experience required as part of or in addition to the 12 months experience as a registered nurse. Civilian clinical nursing experience, time spent in the Air Force Nurse Transition Program or the applicable specialty training/fellowship program is creditable.
3.4.3. For award of AFSC 46N3D, a minimum of 6 months as an education and training officer in a 46N3D education and training authorization is required as part of or in addition to the 12 months experience as a registered nurse.
3.5. Other. For entry, award and retention of these AFSCs, the following are mandatory.
3.5.1. Unrestricted practice (excludes temporary restrictions) IAW AFI 44-119, Medical Quality Operations.
3.5.2. Award of a specialty suffixed AFSC (excluding direct accessions for these specialties) requires approval by the Chief Nurse.

MENTAL HEALTH NURSE
(Changed 31 Oct 14, Effective 18 Aug 14)

1. Specialty Summary. Provides professional nursing care within scope of practice, established standards of care and federal and state laws. Provides mental health (MH) services to promote and maintain optimal MH, prevent mental illness, manage mental and physical disorders, and to diagnose and treat human responses to actual or potential MH problems. Coordinates with and makes recommendations to staff agencies concerning applicable policies, plans and programs. Participates in cross-functional collaboration to improve patient care delivery. Supports research activities. Related DoD Occupational Group: 260507.

2. Duties and Responsibilities:
2.1. Provides MH nursing care. Assesses individuals, families, groups and communities for MH needs. Develops diagnoses and plans, implements and evaluates nursing care within scope of practice. Designs and implements programs that foster MH, assess dysfunction, assist individuals to regain or improve coping abilities, and prevent further disability. Monitors patients undergoing detoxification from alcohol and drugs. Assists in planning, providing, and evaluating comprehensive MH services. Identifies community resources and guides individuals and families in their use. Supports, conducts, and uses nursing research to improve health care delivery.
2.2. Provides leadership and clinical assistance to other nursing personnel. Manages inpatient care unit and clinic activities. Coordinates staff assignments. Encourages staff participation in community programs promoting population MH. Assists MH care team members in identifying teaching and learning needs related to clinical care, role, and professional development.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge of MH nursing process, individual/family dynamics in health and during illness; individual/group therapy, theories of personality development, human behavior, psychopathology, diagnoses, chemotherapy, psychotherapies; and physiological response to alcohol and drug abuse withdrawal is mandatory.
3.2. Education. The following education is mandatory as indicated: For entry into this specialty, meet entry level education requirements as defined by AFI 36-2005, Appointment in Commissioned Grades and Designation and Assignment in Professional Categories, para 6.3.1.2.
3.3. Training. For award of AFSC 46P1, completion of an AF/SG1N approved formal training program is required.
3.4. Experience. For award of 46P3, a minimum of 6 months in MH nursing including individual and group therapy. The 6 months experience in the specialty may be included in the total 12 months of experience required for the award of the 46N3 AFSC. Civilian MH nursing experience is creditable.
3.5. Other. For entry, award and retention of these AFSCs, the following are mandatory.
3.5.1. Unrestricted practice (excludes temporary restrictions) IAW AFI 44-119, Medical Quality Operations.
3.5.2. Approval by the Chief Nurse.
OPERATING ROOM NURSE
(Changed 31 Oct 14, Effective 18 Aug 14)

2. Duties and Responsibilities:
2.1. Provides professional perioperative nursing care to patients undergoing surgery. Prepares and maintains operating room (OR) for surgical procedures. Ensures OR physical plan and equipment conform to national standards for patient and staff safety. Prepares operating suite with the type and quantity of material and special equipment needed for daily procedures and potential emergencies. Circulates and scrubs for surgical procedures. Responds to surgical emergencies such as cardiac, pulmonary, or respiratory failure and hemorrhage.
2.2. Maintains open intra- and inter-department communication to improve patient care delivery. Conducts preoperative and postoperative visits. Discusses operative procedures with patients. Consults with the operating surgeon and establishes priorities of care for each patient entering the operating suite. Coordinates with recovery room, intensive care, obstetrics, and nursing units, as needed for postoperative care of the patient.
2.3. Manages OR activities. Directs personnel in preparing, sterilizing, and maintaining operating room equipment and supplies. Supervises central sterile supply activities. Prepares concise and complete records and reports. Coordinates ongoing, in-service education program for OR nursing personnel.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge of the perioperative process to include OR techniques and management is mandatory.
3.2. Education. For entry into this specialty, meet entry level education requirements as defined in AFI 36-2005, Appointment in Commissioned Grades and Designation and Assignment in Professional Categories, para 6.3.1.2.
3.3. Training. For award of AFSC 46S1, completion of an AF/SG1N approved formal training program is required.
3.4. Experience. For award of 46S3, a minimum of 6 months in OR nursing required. Time spent in OR Nursing Course and civilian OR nursing experience is creditable. The 6 months experience in the specialty may be included in the total 12 months of experience required for the award of the 46N3 AFSC.
3.5. Other. For entry, award and retention of these AFSCs, the following are mandatory.
3.5.1. Unrestricted practice (excludes temporary restrictions) IAW AFI 44-119, Medical Quality Operations.
3.5.2. Approval by the Chief Nurse.
ADVANCED PRACTICE REGISTERED NURSE (APRN)
(Changed 30 Apr 15)

2. Duties and Responsibilities:
2.1. Advanced Practice Registered Nurse. Possess an advanced academic degree in selected nursing specialties for entry into practice. Independent privileged health care provider who uses clinical judgment to render direct patient care, including comprehensive health assessment, differential diagnoses, plans and prescribes pharmacologic and non-pharmacologic treatment in management of acute and chronic conditions, promotes health, and delivers preventive care within the specialized area of practice. Sub-roles include patient and staff education, research, and consultation to promote wellness and prevent illness and injury.

2.2. Clinical expert may serve as consultant or instructor. Collaborates with other disciplines and health care team members to improve patient care delivery. Formulates training programs and instructs both medical and non-medical personnel in a variety of health-related topics. Evaluates professional practice parameters through peer review.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge of principles and practices within scope of advanced practice is Mandatory.
3.2. Education. The following formal education is mandatory as indicated:
3.2.1. A master’s or doctoral degree in the suffixed specialty from an accredited program with specialty board certification; or
3.2.2. For award of AFSC 46Y1A/B/C/G/H/M/P, full time enrollment in an AFIT-funded or Health Profession’s Scholarship Program graduate level accredited program; or
3.2.2.1. For non-AFIT and non-HPSP trained APRNs, award of AFSCs 46YXX, must be approved by the Nurse Corps Development Team. (ANG: Approval will be accomplished at the ANG Command Nurse Equivalent level.)
3.3. Training. Not used.
3.4. Experience. The following is mandatory for the award of AFSC 46Y3A/B/C/G/H/M/P:
3.4.1. Minimum of 6 months full-time nursing practice in the APRN specialty is required. Member must have at least 12 months experience as a registered nurse which MAY INCLUDE the 6 months as a privileged practitioner.
3.4.2. Must be assigned to or pending immediate assignment to a position requiring the corresponding 46YX identifier.
3.5. Other. For entry, award and retention of these AFSCs, the following apply.
3.5.1. Must not have permanent revocation of all privileges IAW AFI 44-119, Medical Quality Operations.
3.5.2. Approval by the Chief Nurse.

4. *Specialty Shredouts:

Acute Care Nurse Practitioner. Privileged health care provider. Provides intensive/critical care for patients in inpatient setting.

Certified Nurse Midwife. Provides prenatal, perinatal, and postpartum nursing care. Manages newborn care immediately following delivery until discharge.

Certified Registered Nurse Anesthetist. Privileged health care provider. Administers anesthetic agents to patients, performs other specialized nursing duties, and manages anesthesia department.

DENTAL UTILIZATION FIELD (47XX)

Introduction

The Dental Utilization Field encompasses functions of program formulation, policy planning, and direction of professional dental services to ensure comprehensive programs to continuously improve prevention and treatment of dental disease to ensure maximum personnel wartime readiness and combat capability. This field includes general dentistry, oral surgery, clinics and laboratories, conducting dental investigations, providing professional aspects of postgraduate courses and graduate training, and supervisory responsibilities.
ORTHODONTIST

2. Duties and Responsibilities:
2.1. Examines, diagnoses, and treats irregularities, and malocclusion of teeth and malrelation of jaws. Examines patients and interprets and evaluates radiographs, models, and clinical photographs to determine nature and extent of deficiencies caused by irregularly positioned teeth and malrelations of the jaws. Evaluates findings and determines types of appliances to move and guide teeth and jaws into proper positions and relationships. Provides consultation services.
2.2. Directs orthodontic service. Formulates and implements procedures for operation of orthodontic service. Determines equipment, material, and personnel required for performance of treatment and construction of corrective appliances. Coordinates orthodontic service with other dental and medical services. Prepares diagnostic and treatment records. Instructs dental officers and technical assistants in orthodontic procedures and techniques.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of education and training requirement satisfy this requirement.
3.2. Education. For entry into this specialty, a doctor of dental surgery or a doctor of dental medicine degree from an American Dental Association accredited college or university is mandatory.
3.3. Training. For award of AFSC 47B3, completion of a residency in orthodontics, acceptable to the Surgeon General, HQ USAF, is mandatory.
3.4. Experience. Not used.
3.5. Other. Not used.
ORAL AND MAXILLOFACIAL PATHOLOGIST

2. Duties and Responsibilities:
   2.1. Determines nature and extent of oral diseases and abnormal growths. Conducts gross and microscopic examinations of oral, maxillofacial and paraoral tissues and structures. Determines types of tests or examinations and evaluates results to diagnose the nature and progress of diseases. Provides consultation services. Serves as member of local hospital boards and committees appropriate to specialty.
   2.2. Directs oral and maxillofacial pathology service. Formulates and implements procedures for operation of oral and maxillofacial pathology service. Determines equipment, material, and personnel required to accomplish diagnostic tests and examination. Plans work schedules for laboratory personnel. Coordinates oral and maxillofacial pathology service with other dental and medical services. Instructs dental officers and laboratory personnel in oral and maxillofacial pathology procedures and techniques.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education and training requirement satisfy this requirement.
   3.2. Education. For entry into this specialty, a doctor of dental surgery or a doctor of dental medicine degree from an American Dental Association accredited college or university is mandatory.
   3.3. Training. For award of AFSC 47D3, completion of a residency in oral and maxillofacial pathology, acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.4. Experience. Not used.
   3.5. Other. Not used.
ENDODONTIST

2. Duties and Responsibilities:
   2.1. Examines, diagnoses, and treats diseases of dental pulps and periapical tissues of teeth. Examines patients and interprets radiographs and pulp tests to determine pulp vitality and periapical tissue condition. Evaluates findings and prescribes method of treatment to prevent loss of teeth and to restore teeth to function. Performs pulpal therapy, surgical treatment of radicular areas, and removal of pathologic periapical tissue. Provides consultation services.
   2.2. Directs endodontic service. Formulates and implements procedures governing administration of endodontic service. Plans and schedules endodontists and technical assistants to perform endodontic treatment. Coordinates endodontic services with other dental and medical services. Instructs dental officers and technical assistants in endodontic procedures and techniques.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education and training requirement satisfy this requirement.
   3.2. Education. For entry into this specialty, a doctor of dental surgery or a doctor of dental medicine degree from an American Dental Association accredited college or university is mandatory.
   3.3. Training. For award of AFSC 47E3, completion of a residency in endodontics, acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.4. Experience. Not used.
   3.5. Other. Not used.
DENTIST

2. Duties and Responsibilities:
   2.1. Examines, diagnoses and treats disease, abnormalities, injuries and dysfunctional disorders of the oral cavity and its associated structures. Examines patients and interprets radiographs and diagnostic tests to determine type and extent of dental diseases and disabilities or dysfunctions. Evaluates findings and prescribes type, extent, and order of treatment. Refers nondental problems to appropriate medical specialty. Restores health and function of carious, fractured, otherwise defective teeth. Performs routine preventive, periodontal, oral surgery, endodontic, and prosthodontic treatment. Provides consultation services.
   2.2. Directs dental activities. Formulates and implements procedures for operation of base dental service. Determines requirements for material, equipment, facilities, and personnel to accomplish mission of unit. Coordinates dental activities with medical service. Instructs dental officers and technical assistant in professional and administrative functions of dental service.
   2.3. Performs comprehensive dental functions. Performs complex dental treatment procedures in the absence of specialist. May serve as training director or instructor for general dentistry residency programs.
   2.4. Manages and administers dental service policies and programs. Drafts policies covering dental health standards. Provides guidance for the implementation of comprehensive programs to continuously improve prevention and treatment of dental disease to ensure maximum personnel wartime readiness and combat capability. Determines resource requirements for dental clinics and laboratories.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education and training requirement satisfy this requirement.
   3.2. Education. For entry into this specialty, a doctor of dental surgery or a doctor of dental medicine degree from an American Dental Association accredited college or university is mandatory.
   3.3. Training. The following training is mandatory as indicated:
   3.3.1. For award of AFSC 47G3, fulfillment of the education requirement satisfies this requirement.
   3.3.2. For award of AFSC 47G3A, completion of a minimum of a 2 year residency in general dentistry, acceptable to the Surgeon General, HQ USAF.
   3.3.3. For award of AFSC 47G3B, completion of the USAF Advanced Clinical Dentistry Program.
   3.3.4. For award of AFSC 47G3C, completion of the USAF Advanced Education in General Dentistry (AEGD) residency program or equivalent acceptable to the Surgeon General, HQ USAF.
   3.3.5. For award of AFSC 47G3D, completion of a 2 year residency in dental public health.
   3.3.6. For award of AFSC 47G3E, completion of a dental materials residency or fellowship, acceptable to the Surgeon General, HQ USAF.
   3.3.7. For award of AFSC 47G3F, completion of an oral and maxillofacial radiology residency or fellowship, acceptable to the Surgeon General, HQ USAF.
   3.3.8. For award of AFSC 47G3G, completion of a temporomandibular disorders residency or fellowship, acceptable to the Surgeon General, HQ USAF.
   3.3.9. For award of AFSC 47G3H, completion of a hospital dentistry residency or fellowship, acceptable to the Surgeon General, HQ USAF.
   3.4. Experience. Not used.
   3.5. Other. Not used.

   3.4. Experience. Not used.
   3.5. Other. Not used.
PEDIATRIC DENTIST

2. Duties and Responsibilities:
   2.1. Examines, diagnoses, and treats diseases, abnormalities, injuries, and dysfunctional disorders of the oral cavity and its associated structures in children. Examines child patients and interprets radiographs and diagnostic tests to determine type and extent of dental diseases and disabilities or dysfunctions. Evaluates findings and prescribes type, extent, and order of treatment required. Restores health and function of carious, fractured, or otherwise defective teeth. Provides behavior management techniques. Performs oral surgery, endodontic, prosthodontic, and interceptive orthodontic treatment on children. Provides consultation services.
   2.2. Directs the pediatric dentistry service. Formulates and implements procedures governing operation of the pediatric dentistry service. Determines equipment, material, and personnel required to accomplish treatment of children. Coordinates with other dental and medical services. Instructs dental officers and technical assistants in pediatric dentistry procedures and techniques.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of the education and training requirements satisfy this requirement.
   3.2. Education. For entry into this specialty, a doctor of dental surgery or a doctor of dental medicine degree from an American Dental Association accredited college or university is mandatory.
   3.3. Training. For award of AFSC 47K3, completion of a residency in pediatric dentistry, acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.4. Experience. Not used.
   3.5. Other. Not used.
PROSTHODONTIST

1. **Specialty Summary.** Examines and diagnoses disabilities incident to loss of teeth and supporting structures; formulates and executes treatment plans for the construction of corrective prostheses to restore proper mastication, phonetics and facial contour. Directs prosthodontic service. Related DoD Occupational Group: 260308.

2. **Duties and Responsibilities:**
   2.1. Examines and diagnoses disabilities caused by loss of teeth and supporting structures; formulates and executes treatment plan for construction of corrective prostheses. Examines patients to determine requirement and type of dental prosthesis. Analyzes jaw relationships and movement and formulates required treatment plan. Constructs removable, fixed, and maxillofacial prosthodontic restorations. Provides consultation services.
   2.2. Directs the prosthodontic service. Formulates and implements procedures governing the operation of the prosthodontic service including dental laboratory. Determines personnel, equipment, material, and facility requirements for the operation of the prosthodontic service. Plans work assignments for prosthodontists, technical assistants, and laboratory technicians for treating patients and constructing prosthodontic restorations. Coordinates prosthodontic service with other dental and medical services. Instructs dental officers, technical assistants, and laboratory technicians in prosthodontic procedures and techniques.

3. **Specialty Qualification:**
   3.1. Knowledge. Fulfillment of the education and training requirements satisfy this requirement.
   3.2. Education. For entry into this specialty, a doctor of dental surgery or a doctor of dental medicine degree from an American Dental Association accredited college or university is mandatory.
   3.3. Training. For award of AFSC 47P3, completion of a residency in prosthodontics, acceptable to the Surgeon General, HQ USAF, is mandatory.
   3.4. Experience. Not used.
   3.5. Other. For award of AFSC 47P3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

ORAL AND MAXILLOFACIAL SURGEON

2. Duties and Responsibilities:
2.1. Examines, diagnoses, and treats by surgical means abnormalities and injuries of oral and maxillofacial structures. Examines patients and interprets and evaluates radiographs of facial structures to determine nature and extent of abnormalities and injuries of jaws and adjacent bones and tissues. Prescribes and performs type of surgery and fixation required in treatment. Administers or supervises the administration of general anesthetics. Performs oral surgical operations to remove infected, impacted, or malposed teeth, to prepare jaws for prosthodontic appliances, and to remove abnormal growths, cysts, and foreign bodies from jaws and oral structures. Applies fixation apparatus for fractures of jaws and adjacent bones. Prescribes preoperative and postoperative care. Prepares diagnostic and treatment records. Provides consultation services.
2.2. Directs oral surgical service. Formulates and implements procedures governing administration of oral surgical service. Plans and schedules cases and assigns oral surgeons and technical assistants required to perform surgical treatment. Determines material and equipment requirements for operation of oral surgery service. Coordinates with other dental and medical services. Instructs dental officers and technical assistants in oral surgical procedures and techniques.

3. Specialty Qualifications:
3.1. Knowledge. Fulfillment of the education and training requirements satisfy this requirement.
3.2. Education. For entry into this specialty, a doctor of dental surgery or a doctor of dental medicine degree from an American Dental Association accredited college or university is mandatory.
3.3. Training. For award of AFSC 47S3, completion of a residency in oral and maxillofacial surgery, acceptable to the Surgeon General, HQ USAF, is mandatory.
3.4. Experience. Not used.
3.5. Other. For award of AFSC 47S3X, completion of an additional residency or fellowship program related to the suffix and acceptable to the Surgeon General, HQ USAF, is mandatory.

AEROSPACE MEDICINE UTILIZATION FIELD (48XX)

Introduction

The Aerospace Medicine Utilization Field covers the functions of program formulation, policy planning, direction, and professional participation pertinent to maintenance and improvement of health standards and aerospace medicine. Included in this field are aerospace medicine specialists, occupational medicine specialists, family practice specialists (flight surgeon), aerospace medicine physician, and preventive medicine specialist. Included in this field are the responsibilities for determination of physical and mental fitness of personnel for flying and for prevention, diagnosis, and treatment of diseases, disorders, and injuries peculiar to flight. This field also includes responsibilities for the development of plans and procedures covering the medical aspects of defense against nuclear, biological, and chemical warfare. Officers in this field command medical installations, units, or activities as stated in AFI 51-604, *Appointments to, and Assumption of, Command*. 
AEROSPACE MEDICINE SPECIALIST

2. Duties and Responsibilities:
2.1. Supervises aerospace medicine program. Develops policies and procedures and prepares directives governing flight medicine, physical exams and standards, preventive medicine, and occupational medicine. Serves as the principal liaison with federal, state, and local agencies in matters related to aerospace medicine, preventive medicine, and occupational medicine. Establishes medical standards for flying and special operational personnel. Makes determinations on waivers of medical standards. Develops and directs training programs for aeromedical personnel.

2.2. Directs preventive medicine activities. Directs health education and control measures for preventable diseases and injuries. Assesses living and work environments to ensure healthy communities. Develops and implements research projects to control communicable and preventable diseases. Directs health promotion and fitness programs. Provides guidance on nutrition, food service sanitation, water supply safety, sewage and waste disposal, immunizations, and other community health issues. Conducts or provides consultation for disease outbreak investigations and health services research.

2.3. Advises medical staff. Advises and educates medical and dental staff on treatment of flying and special operational personnel and preparation of patients for aeromedical evacuation. Provides medical oversight and guidance to bioenvironmental engineering, military public health, physiological training, and organizations. Provides epidemiological expertise for population-based services and evidence-based medical practice.

2.4. Directs occupational medicine support. Evaluate, assess, and fully characterize aerospace worker health in relation to aerospace operations, including selection and retention standards to maximize the ability to perform safely and efficiently. Determines frequency and scope of occupational medicine exams required by federal regulations and workplace exposures. Conducts and supervises placement and periodic health exams for employees. Establishes procedures to identify occupational hazards, to notify appropriate agencies of occupational diseases or injuries, and to investigate job related injuries or illness.

2.5. Directs flight medicine or physical examination section program. Examines personnel to determine fitness for flying and special duty, or to recommend continuance, removal, or return to flying status and aviation service.

2.6. Provides primary medical care for flyers and their families, to include preventive medicine, counseling, and family support unit. Manages disorders and injuries unique to flight. Serves as liaison between flying squadrons and other medical services. Provides aeromedical consultation to commanders at all levels.

2.7. Directs medical support to operational mission. Regularly participates in the flying mission. In-flight duties include evaluation of aircrew, aircraft, environment, and mission to provide feedback and guidance to line and medical staff. Develops and manages a mission-oriented preventive medicine program. Fully characterizes the operational environment as it relates to health and performance, providing recommendations to decrease risk, prevent mishaps, increase health, and enhance performance. Integrates medical and aviation knowledge to identify aeromedical research needs. Establishes policies and procedures for aircraft mishap and disaster response and managing casualties in aviation accidents and other disasters. Provides advice on air rescue and aeromedical evacuation. Serves on aircraft mishap investigation boards. Develops the aeromedical component of flying safety performance enhancement programs.

2.8. Directs medical support of contingency operations. Directs the planning and implementation of medical prevention, intervention and evacuation during contingency operations. Applies medical intelligence and uses available intelligence to optimize the effectiveness of deploying forces.

2.9. Functions as the advocate for the human operator in aerospace weapon systems. Fosters the identification of science, technology, and engineering needs and solutions. Directs the insertion of these needs and solution concepts into mission area and mission support plans to improve operator performance and mission capability.

**3. Specialty Qualifications:**

3.1. Knowledge. Fulfillment of education and experience requirements satisfies this requirement.

3.2. Education. For entry into this specialty, it is mandatory to possess a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy, a Master's degree or equivalent in public health, and completion of a residency in a clinical specialty at a hospital acceptable to the Surgeon General, HQ USAF.

3.3. Training. For award of AFSC 48A1, completion of a primary course in aerospace medicine and an approved residency in aerospace medicine is mandatory.

3.4. Experience. For award of AFSC 48A3, a minimum of 12 months of experience as a flight surgeon is mandatory.

3.5. Other. The following is mandatory as indicated:

3.5.1. For award of AFSC 48A3, it is mandatory to possess an aeronautical rating of Flight Surgeon, Senior Flight Surgeon, or Chief Flight Surgeon.

3.5.2. For award of AFSC 48A3, it is mandatory to be board eligible in Aerospace Medicine.
1. **Specialty Summary.** Administers the Aerospace Medicine Program; conducts medical examinations and provides medical care for flyers, missile crews, and others with special standards of medical qualification. Evaluates living and working environments to detect and control health hazards and prevent disease and injury within the Air Force community. Related DoD Occupational Group: 260101.

2. **Duties and Responsibilities:**
   2.1. Provides aerospace medicine support. Implements policies and procedures and prepares directives governing flight medicine, preventive medicine, and occupational medicine. Serves as liaison with federal, state, and local agencies in matters related to aerospace medicine, preventive medicine, and occupational medicine. Follows medical standards for flying and special operational personnel and submits recommendations on waivers of medical standards. Develops programs to ensure a fit force for worldwide deployments. Participates in training programs for aeromedical personnel.
   2.2. Provides preventive medicine support. Directs health education and control measures for preventable diseases and injuries. Determines adequacy of living and work environments. Conducts health promotion and fitness programs. Provides advice on nutrition, food service, sanitation, water supply, safety, sewage and waste disposal, immunizations, and health education.
   2.3. Advises medical staff. Advises medical and dental staff on treatment of flying and special operational personnel and preparation of patients for aeromedical evacuation. Provides medical advice and guidance to bioenvironmental engineering, military public health, physiological training, and organizations.
   2.4. Provides occupational medicine support. Participates in the process of determining frequency and scope of occupational medicine exams required by federal regulations and workplace exposures. Conducts and supervises placement and periodic health exams for employees. Identifies occupational hazards and notifies appropriate agencies of occupational diseases and job related injuries or illness.
   2.5. Conducts medical examinations of personnel with special standards of medical care. Examines personnel to determine fitness for flying and special duties, or to recommend continuance, removal, or return to flying status and aviation service.
   2.6. Provides and organizes medical care for flyers and special operational personnel and their families, to include preventive medicine, counseling, and family unit support. Manages disorders and injuries unique to flying operations. Serves as liaison between flying squadrons and medical services.
   2.7. Provides medical support to operational mission and serves as staff advisor to flying squadron commander. Regularly participates in flying mission. Inflight duties include evaluation of aircrew, aircraft, environment, and mission to provide feedback and guidance to line and medical staff. Develops and manages an aggressive preventive medicine program, including education of flying and special operational personnel in healthy lifestyles. Establishes procedures for aircraft mishap and disaster response, and managing casualties in aviation accidents and other disasters. Provides advice on air rescue and aeromedical evacuation. Serves on aircraft mishap investigation boards. Participates in flying safety and aircrew enhancement programs.
   2.8. Provides medical support during contingency operations. Conducts medical prevention, intervention, and evacuation activities during contingency operations. Gathers and utilizes medical intelligence to provide optimal medical support to deployed forces.

3. **Specialty Qualifications:**
   3.1. Knowledge. Fulfillment of education and experience requirements satisfies this requirement.
   3.2. Education. For entry into this specialty, it is mandatory to possess a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy, and complete 1 year of graduate medical education in a training program fully accredited by a recognized national accrediting agency acceptable to the Surgeon General, HQ USAF.
   3.3. Training. For award of AFSC 48G1, completion of a primary course in aerospace medicine is mandatory IAW AFI 48-149, *Flight and Operational Medicine Program (FOMP)* as outlined in Initial Qualification Training (IQT).
   3.4. Experience. For award of AFSC 48G3, designated Fully Mission Capable (FMC) IAW AFI 48-149 as outlined in Mission Qualification Training (MQT).
   3.5. Other. For award of AFSC 48G3, the following are mandatory as indicated:
      3.5.2. MTF/SGP certification and MAJCOM/SGP approval.
1. **Specialty Summary.** Administers the aerospace medicine program; conducts medical examinations and provides medical care for flyers, missile crews, and others with special standards of medical qualification. Evaluates living and working environments to detect and control health hazards and prevent disease and injury within the Air Force community. Related DoD Occupational Group: 260101.

2. **Duties and Responsibilities:**
   2.1. Provides aerospace medicine support. Implements policies and procedures and prepares directives governing flight medicine, preventive medicine, and occupational medicine. Serves as liaison with federal, state, and local agencies in matters related to aerospace medicine, preventive medicine, and occupational medicine. Follows medical standards for flying and special operational personnel and submits recommendations on waivers of medical standards. Develops programs to ensure a fit force for worldwide deployments. Participates in training programs for aeromedical personnel.
   2.2. Provides preventive medicine support. Directs health education and control measures for preventable diseases and injuries. Determines adequacy of living and work environments. Conducts health promotion and fitness programs. Provides advice on nutrition, food service sanitation, water supply safety, sewage and waste disposal, immunizations, and health education. Conducts or provides consultation for disease outbreak investigations and health services research.
   2.3. Advises medical staff. Advises medical and dental staff on treatment of flying and special operational personnel and preparation of patients for aeromedical evacuation. Provides medical advice and guidance to bioenvironmental engineering, public health, physiological training, and other organizations. Provides epidemiological expertise for population-based health services and evidence-based medical practice.
   2.4. Provides occupational medicine support. Participates in the process of determining frequency and scope of occupational medicine exams required by federal regulations and workplace exposures. Conducts and supervises placement and periodic health exams for employees. Identifies occupational hazards, notifies appropriate agencies of occupational diseases, and job related injuries or illnesses.
   2.5. Conducts medical examinations of personnel with special standards of medical care. Examines personnel to determine fitness for flying and special duties, or to recommend continuance, removal, or return to flying status and aviation service.
   2.6. Provides and organizes medical care for flyers and special operational personnel and their families, to include preventive medicine, counseling, and family unit support. Manages disorders and injuries unique to flying operations. Provides specialty consultation to aeromedical staff. Serves as liaison between flying squadrons and medical services. Provides continuing comprehensive health maintenance and medical care to entire family regardless of sex, age, or type of problem. Directs outpatient and inpatient care and service.
   2.7. Provides medical support to operational mission and serves as staff advisor to flying squadron commander. Regularly participates in the flying mission. Inflight duties include evaluation of aircrew, aircraft, environment, and mission to provide feedback and guidance to line and medical staff. Develops and manages an aggressive preventive medicine program, including education of flying and special operational personnel in healthy life styles. Establishes procedures for aircraft mishap and disaster response, and managing casualties in aviation accidents and other disasters. Provides advice on air rescue and aeromedical evacuation. Serves on aircraft mishap investigation boards. Participates in flying safety and aircrew performance enhancement programs.
   2.8. Provides medical support during contingency operations. Conducts medical prevention, intervention and evacuation activities during contingency operations. Gathers and utilizes medical intelligence to provide optimal medical support to deployed forces. Develops support mechanisms for family members of deployed personnel. Integrates their primary medical specialty with an understanding of aviation and contingency medicine to identify research needs in support of Air Force operations.

3. **Specialty Qualifications:**
   3.1. Knowledge. Fulfillment of education and experience requirements satisfies this requirement.
   3.2. Education. For entry into this specialty, it is mandatory to possess a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy.
   3.3. Training. The following are mandatory as indicated:
   3.3.1. For award of AFSC 48R1, completion of a primary course in aerospace medicine IAW AFI 48-149, Flight and Operational Medicine Program (FOMP) as outlined in Initial Qualification Training (IQT).
   3.3.2. Completion of a residency (other than the USAFSAM Residency in Aerospace Medicine) at a residency training program fully accredited by a recognized national accrediting agency acceptable to the Surgeon General, HQ USAF.
3.4. Experience. For award of AFSC 48R3, designated Fully Mission Capable (FMC) IAW AFI 48-149 as outlined in Mission Qualification Training (MQT).

3.5. Other. For award of AFSC 48R3 the following are mandatory as indicated:

3.5.2. MTF/SGP certification and MAJCOM/SGP approval.
PILOT-PHYSICIAN

1. Specialty Summary. Performs functions of the aerospace medicine physician as well as integrated functions of a dual-rated pilot-physician in the aerospace system. Residency trained pilot-physicians may also function as specialists. Provides expert guidance from operational and medical experiences and training as a pilot. Conducts research on aerospace systems, missions, and crews. Provides operational relevance to researchers. Serves as a full time consultant during the design, testing, manufacture, and operational implementation of new aerospace systems and subsystems. Recommends deployment and employment strategies of aerospace resources to line and medical commanders to optimize deployment and employment of aerospace resources. Conducts aeromedical and aviation training for line and medical personnel. Administers aerospace medicine program. Related DoD Occupational Group: 260101.

2. Duties and Responsibilities:
   2.2. Conducts research on aerospace systems and subsystems to optimize their function and safety. Publishes findings. Consultant to other researchers. Provides operational insight and relevance to research.
   2.3. Serves as a consultant to line and medical commanders on aerospace medicine support, integrated limits of the man-machine system, and human performance factors and medical aspects of the operational employment of aerospace systems.
   2.4. Serves as a member of the design team for items related to human performance optimization and limits during the development of new aerospace systems, including cockpit layout, anthropometrics, aircraft and human performance capabilities, chemical-biological warfare considerations, systems design and automation, and stores design and delivery tactics.
   2.5. Provides operational issues training to medical service personnel. Provides medical issues training to operators, including spatial disorientation, nutrition, fatigue, illusions, and other limits of human performance. Provides advice to optimize crew members' abilities to accomplish USAF missions. Actively mentors aerospace medicine personnel at all levels.
   2.6. Provides critical inputs to Air Force science and technology needs to enhance war fighter performance. Supports the human weapon system concept through advancement of operator performance enhancement and sustainment.
   2.7. Provides aerospace, occupational, and preventive medicine support. Advises medical staff. Conducts medical examinations of personnel with special standards of medical care. Provides primary medical care for flyers and their families, and obtains medical consultations. Provides medical support to operational mission and serves as staff advisor to flying squadron commanders. Provides medical support during contingency operations.

3. Specialty Qualifications:
   3.1. Knowledge. Fulfillment of education, training, and other requirements satisfies this requirement.
   3.2. Education. For entry into this specialty, it is mandatory to possess a doctor of medicine degree or a doctor of osteopathy degree from an approved school of medicine or osteopathy and successfully complete 1 year of graduate medical education in a clinical specialty at a hospital acceptable to the Surgeon General, HQ USAF.
   3.3. Training. Not used.
   3.4. Experience. For award of AFSC 48V3, the following are mandatory:
      3.4.1. Successfully pass a check ride in a USAF aircraft system as a pilot.
      3.4.2. Upgrade to qualified must be approved by the pilot-physician program manager.
   3.5. Other. For entry into this specialty and award of AFSC 48V1, the following are mandatory:
      3.5.1. Possess USAF aeronautical ratings of Flight Surgeon, Senior Flight Surgeon, or Chief Flight Surgeon and Pilot, Senior Pilot, or Command Pilot.
      3.5.2. Minimum of 3 years and 500 hours of operational flying experience.
      3.5.3. Must be selected by the pilot-physician selection board according to the provisions of AFI 11-405, Pilot Physician Program.
PROFESSIONAL CAREER AREA (5XXX)

Introduction

The Professional Career Area encompasses program formulation, policy planning, coordination, inspection, command and direction, and immediate supervisory and technical responsibilities pertinent to the Law and Chaplain Utilization Fields.
LAW UTILIZATION FIELD (51JX)

Introduction

The Law Utilization Field encompasses the functions of planning, developing, supervising, coordinating, inspecting, and executing the duties prescribed by the Uniform Code of Military Justice pursuant to the Manual for Courts-Martial, United States, 1995 (Rev.), and the preparation, rendition, and review of opinions and decisions relating to civil law matters affecting Air Force personnel. The area also includes the administration of military justice including pretrial advice, preparation of trial, actual trial, and appellate review, and rendering legal advice to commanders on all phases of law including patents, contracts, claims, military affairs, taxes, legal assistance, legislative drafting, and allied legal matters.
JUDGE ADVOCATE

2. Duties and Responsibilities:

2.1. Formulates legal policies. Plans and studies methods and procedures used to process military justice and civil law actions. Advises and develops plans for operation and implementation of federal statutes, executive orders, and DoD and Air Force directives. Manages legal information systems. Manages acquisition, designation, certification, and assignment of judge advocate personnel according to Article 6, UCMJ.

2.2. Monitors, coordinates, and directs legal activities. Inspects administration and function of military justice at subordinate echelons to ensure uniformity in administration of laws, directives, and instructions. Administers claims program. Maintains liaison with agencies of DoD, Department of Justice, and other federal, state, and local jurisdictions to ensure accurate and correct administration of Air Force policies and operations. Maintains liaison with local, state, and national bar associations to keep informed of current legal trends.

2.3. Prepares and renders legal advice and opinions. Advises commanders and senior staff. Prepares and renders legal advice and opinions on matters relating to interpreting laws, directives, status, rights, liabilities, and duties of personnel. Prepares and renders legal advice on disciplinary matters, including admonitions, reprimands, nonjudicial punishment, and statutory pretrial advice in prospective court-martial cases. Prepares statutory post-trial advice and actions of convening authority. Prepares and renders legal advice on issues of international and operations law, environmental law, fiscal law, and military and civilian personnel law. Renders legal assistance to military personnel and dependents on personal civil matters such as wills and estates, powers of attorney, consumer affairs, taxes, domestic relations, insurance, and execution of legal documents. Reviews and renders legal opinions on claims and incidents which may result in claims in favor of, or against the United States. Renders legal opinions regarding drafting, negotiating, and administrating government contracts. Reviews and renders opinions on courts-martial records of trial and board proceedings. Conducts inspections relating to administration and function of military justice and recommends improvements.

2.4. Represents United States in civil proceedings. Represents United States before judicial and administrative tribunals. Assists Department of Justice in preparation and litigation of cases in which the Air Force has an interest.

2.5. Acts as trial counsel on general and special courts-martial and counsel for United States on appeal. Upon certification by Judge Advocate General as trial and defense counsel, prepares and presents case for United States. Directs preparation of record of trial and forwards to convening authority. Prepares and presents briefs and oral arguments on behalf of United States before Air Force Court of Criminal Appeals, United States Court of Appeals for the Armed Forces and United States Supreme Court.

2.6. Acts as defense counsel. Upon certification by Judge Advocate General as trial and defense counsel, acts as counsel for accused in special and general courts-martial. Upon designation by Judge Advocate General, serves as area defense counsel with responsibility for provision of defense services. Prepares and presents briefs and oral arguments on behalf of accused before Air Force Court of Criminal Appeals, United States Court of Appeals for the Armed Forces, and United States Supreme Court.

2.7. Acts as military judge. Upon certification by Judge Advocate General, performs primary duty as military judge on general and special courts-martial or appellate judge of Air Force Court of Criminal Appeals.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of military and civilian law.
3.2. Education. For entry into this specialty, a Bachelor of Laws or Juris Doctor degree in law issued by an accredited law school is mandatory.
3.3. Training. For award of AFSC 51J3, completion of Judge Advocate Staff Officer Course or equivalent as prescribed by The Judge Advocate General is mandatory.
3.4. Experience. For award of AFSC 51J3, a minimum of 3 months experience in legal assignments, after designation as a judge advocate by Judge Advocate General, is mandatory. Experience must include serving as trial or defense counsel in courts-martial; preparing legal briefs or rendering advice relating to interpreting laws, regulations, directives, status, rights, liabilities, and duties of military personnel and dependents.
3.5. Other. The following are mandatory for entry, award, and retention of these AFSCs:
3.5.1. Current admission to the bar of a Federal Court or the highest court of a state.
3.5.2. Designation by The Judge Advocate General as a judge advocate.
The Chaplain Utilization Field encompasses Chaplain Corps programs, staff management, readiness, plans, advisement, administration, budgetary and fiscal management, and education functions supporting the free exercise of religion provision of the first amendment of the US Constitution. This includes planning, programming, and operations related to the following activities: staff supervision; war and contingency planning; deployment execution, chaplain materiel and facility management; chaplain resource management; chaplain recruiting; and Chaplain Corps training and education.

Only officers originally commissioned to serve as chaplains and possessing ecclesiastical endorsements from a faith group recognized by the DoD Armed Forces Chaplains Board and acceptable to the Chief of Air Force Chaplains are classified in AFSCs 52R1, 52R3, and 52R4. Chaplains have rank without command authority, serve only in noncombatant status, and are not assigned duties outside the chaplain specialty.
1. Specialty Summary. The Chaplains Corps provides spiritual care and ensures all Airmen and their families have opportunities to exercise their constitutional entitlement to the free exercise of religion. In accordance with Title 10, United States Code, Section 8067 (h), chaplains provide religious services, religious accommodation, pastoral care, unit engagement, and counseling opportunities to meet the diverse needs of Airmen. As experts in the principles of religious diversity, religious accommodation, major faith group requisites, privileged communication and religious program management, chaplains advise leaders at all levels on spiritual, religious, ethical, moral, morale, and quality of life matters. Chaplains develop and administer Chaplain Corps guidance for managing chapel operations, religious programs, and resources. Chaplains must integrate religious support within the context of the organizational structure and doctrine of the Air Force. Chaplains will not perform duties incompatible with their endorsing organizations, professional role, or noncombatant status. Related DoD Occupational Group: 250700.

2. Duties and Responsibilities:
2.1. Supervises and manages chapel operations, religious programs and resources in support of the Air Force mission. Chaplains develop and execute religious support plans and evaluate outcomes to ensure their effectiveness.
2.2. Conducts worship services, liturgies, and rites. Provides counseling, pastoral care, unit engagement, religious education, morale programs, spiritual renewal, lay leadership programs, and humanitarian outreach opportunities. Represents faith and military communities in religious, patriotic, and civic events. Maintains liaison with civilian clergy and organizations to remain current in their specialty and areas of interest to Chaplain Corps programs.
2.3. Advises leadership at all levels on spiritual, religious, ethical, moral, morale, and quality of life matters. Chaplains partner with chaplain assistants to integrate into units and advise leaders on issues and the welfare of Airmen within their scope of responsibility. Chaplains also advise commanders of their responsibility to provide appropriate facilities or sites for worship, rites, and counseling.
2.4. Maintains regular communication with endorsing officials and submits professional reports and records as required. Attends endorser-sponsored training and conference events as required by endorsing officials.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge of Air Force vision, values, organization, policy, and mission is mandatory, in addition to Chaplain Corps mission, vision, organization, guidance, programs, and readiness requirements.
3.2. Education. The following education is mandatory for entry into this specialty.
3.2.1. A baccalaureate degree with not less than 120 semester hours (180 quarter hours) of undergraduate credit from a qualifying educational institution as defined in DoDI 1304.28.
3.2.2. Master of Divinity or equivalent theological degree from an accredited educational institution; or 3 years of equivalent resident graduate study according to DoD Directive 1304.28.
3.3. Training. For award of AFSC 52R3, successful completion of the Air Force Basic Chaplain Course is mandatory.
3.4. Experience. For award of AFSC 52R3, experience in planning, organizing, coordinating, and leading chaplain related, or equivalent program is mandatory.
3.5. Other. For entry, award, and retention of these AFSCs, the following are mandatory as indicated:
3.5.1. An ecclesiastical endorsement from a faith group recognized by the DoD Armed Forces Chaplains Board.
3.5.2. No violations of privileged communication and/or confidentiality.
3.5.3. No violations or compromises of non-combatant status.
3.5.4. No convictions by courts-martial or by civilian courts except for minor traffic violations and similar infractions listed in AFI 36-2002, Regular Air Force and Special Category Accessions.
3.5.5. No record of disciplinary action (LOR or Article 15) for failure to exercise sound judgment with respect to morale or welfare of subordinates.
3.5.6. No disciplinary action (Article 15 or court-martial) for engaging in an unprofessional or inappropriate relationship as defined in AFI 36-2909, Professional and Unprofessional Relationships.
3.5.7. No record of disciplinary action (Article 15) for financial irresponsibility, domestic violence, or child abuse.
ACQUISITION AND FINANCIAL MANAGEMENT CAREER AREA (6XXX)

Introduction

The Acquisition and Financial Management Career Area encompasses weather operations and research, basic and applied research in support of Air Force requirements, research and development command and staff functions, and engineering responsibility for the design, development, installation, modification, testing, and analysis of materiel, systems, methods, processes, and techniques. Also included is teaching college-level courses in subjects encompassed by the academic disciplines related to the specialty.

Excluded from this area are functions pertaining to the operation and maintenance of standard items of materiel, including their logistical and administrative support, and medical and dental research included in the Medical Career Area.
PROGRAM DIRECTOR

1. Specialty Summary. Directs major defense system acquisition programs typically identified by one or more of the following: Air Force Executive Program; Defense Enterprise Program; DoD 5000.1 Major System Acquisition; Secretary of the Air Force Program Assessment Review Program; a highly sensitive or highly visible program of significance to the Air Force; or Congressional Selected Acquisition Reporting Program. Related DoD Occupational Group: 251200.

2. Duties and Responsibilities:
2.1. Directs high precedence acquisition programs critical to fulfilling a priority DoD mission. Provides executive leadership and management expertise through all phases of the acquisition life cycle for a major program because of its urgency of need, developmental risk, joint funding, congressional interest, and other similar factors. Delegates responsibility for preparing development, production, deployment, and system support plans. Responsible for personnel and financial resources allocated to program. Supervises program managers. Directs program activities pertaining to acquisition logistics, configuration and data management, contracting, engineering, manufacturing, program control, system safety, and test and evaluation. Assures development and delivery of program systems. Develops and motivates trained and experienced personnel for acquisition careers. Maintains relations with industry, educational institutions, professional organizations, and the civilian community.
2.2. Delivers operational systems to commands. Responsive to user environment, concerns, and requirements. Coordinates program requirements and actions with commands. Promotes technology, base enhancement, and technology transition into systems. Establishes and supervises boards, working groups, and panels to assure smooth transition of systems and equipment to commands. Trains operations and maintenance personnel in conjunction with the system contractors, training agencies, and testing and using activities.
2.3. Translates operational requirements into acquisition programs, evaluates contractor proposals, and recommends implementing actions. Establishes plans for system acquisition, including testing and evaluating programs progress. Ensures availability of operable and supportable systems and equipment on established schedules. Formulates policies and procedures for developing, procuring, and producing activities. Makes changes to the acquisition program to achieve desired outcomes.
2.4. Organizes and directs Systems Program Office. Develops organization and manning requirements. Schedules formal training, develops acquisition skills of Systems Program Office members, and implements lessons learned. Initiates plans, policies, and programs for managing engineering and other personnel. Interprets and directs execution of policies, procedures, regulations, and directives. Manages and directs collective actions of participating organizations. Ensures proposals and changes are sound in terms of operational, development, procurement, production, and support requirements. Ensures the Systems Program Office functions as the Air Force focal point for contractors supporting a program, and acts as the official source of information. Establishes a program baseline, and manages within it. Maintains an assessment of program progress and performance versus requirements, threat, schedule, and cost. Informs headquarters of recommended changes and potential and actual breaches of program thresholds. Ensures accomplishment of program budgeting, funding, and accounting functions. Manages program costs by forcing identification of life cycle costs, developing "design to" cost parameters, and weighing all program decisions and program cost thresholds.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: DoD and Air Force program management procedures pertinent to development, procurement, production, and logistics support; operational environment; and techniques of employment for the system being acquired.
3.2. Education:
3.2.1. Undergraduate academic specialization in a technical, scientific, or management field appropriate to program management is mandatory for award of this AFSC.
3.2.2. A master's degree in a technical, scientific, or management field appropriate to program management is desirable.
3.3. Training. The following training requirements are mandatory for award of this AFSC:
3.3.1. Completion of intermediate level professional military education is mandatory for award of this AFSC.
3.3.2. Completion of the Defense Systems Management College Program Management Course or a comparable program management course at another institution is mandatory for award of this AFSC.
3.4. Experience. The following are mandatory for award of this AFSC:
3.4.1. At least 8 years' experience in acquisition, support, or maintenance of weapons systems, 2 years of which were performed while assigned to Air Force Material Command (previously Air Force Systems Command and Air Force Logistics Command). Time spent pursuing postgraduate education in a technical or management field or attending the Defense Systems Management College Program Management Course, or comparable course, may be substituted toward the 8-year requirement. Forty months is the maximum amount of time that may be substituted.
3.4.2. A minimum of 24 months of experience in a program office as a project manager, or in the direct supervisory chain of a program manager or director, responsible for the technical performance, schedule, cost, and supportability of a system, subsystem, or equipment item.

3.5. Other.

3.5.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 60C0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management is mandatory.
The Scientific Utilization Field encompasses the scientific function associated with analysis, research, and exploratory development in support of Air Force requirements; management in support of highly technical operations and intelligence; the operational assessment of current operations, weapons systems, force structure, doctrine and resources, and lessons learned. In general, it requires very specific and extensive educational preparation. Each specialty includes responsibilities for conducting or managing programs, projects, and activities established to perform research and development pertinent to that specialty, or to support highly technical operations and intelligence. Research includes the functions of defining a problem, selecting methods of approach, performing experiments, accumulating and interpreting data, and briefing and publishing the results. Research management includes such functions as formulating, planning, fiscal programming, monitoring, evaluating, coordinating and administering programs, projects, and activities. These specialties are used when research management requires technical specialization and an appropriate academic degree in a particular specialty and academic field. Assessments include such functions as conducting studies, performing analysis, measurement, testing, evaluation, and lessons learned.

Functions requiring only a general knowledge of science, research and development, or developmental engineering operations are described in the Developmental Engineer (62E) and Acquisition Manager (63A) Utilization Fields.
1. **Specialty Summary.** Conducts operational analysis/assessments or manages programs, projects, and activities to perform operational analyses/assessments supporting organizations throughout the Air Force. Performs a wide variety of duties including but not limited to operations research, general research, testing and evaluation analysis, mission support analysis, operations analysis, and logistics analysis, and lessons learned; both in garrison and at deployed locations. Tasks include defining a problem; selecting methods of approach; performing analysis, assessments, and experiments; accumulating and interpreting data; and presenting and publishing results. Management tasks include formulating, planning, fiscal programming, monitoring, evaluating, coordinating, and administering programs, projects, and activities. Related DoD Occupational Index: 250100.

2. **Duties and Responsibilities:**

2.1. Applies analyses to current operations and to operational scenarios. Designs and conducts scheduled and ad hoc analyses. Identifies data needs and sources, researches and collects data, consults with subject matter experts, and conducts planning meetings. Builds models and data tool applications for analyses, analyzes data and test results, and performs statistical and optimization analyses. Assesses compliance with operational requirements documents and prepares and applies measures of effectiveness and performance. Advises users on applications of scientific analyses.

2.2. Conducts and manages experiments and tests. Plans projects, determines theoretical aspects of problem, and selects methods of approach. Constructs experimental/test models, devises methods and techniques to record and collect results, correlates data compiled in research and analysis, and briefs results. Is cognizant of and applies interdisciplinary scientific knowledge to plan and conduct programs.

2.3. Develops new concepts, methods, and techniques to solve scientific and operational problems. Analyzes theories and research findings to determine applications. Engages in continuous evaluation, development, and modification to improve performance and suitability of products and production processes. Employs mathematical techniques including probability and statistics, simulation, optimization theories, and computer systems to analyze, depict, and display data and analysis results. Develops design studies and monitors contracts.

2.4. Recommends research and development projects, and acceptance or non-acceptance of research products. Prepares technical reports, including recommendations for additional research and development projects. Maintains research records and development project records. Serves as technical consultant or representative on scientific and technical boards and committees. Maintains liaison and coordinates projects with private sector research organizations, contractors, Air Force research and operational organizations, other Services and other government agencies, and universities.

2.5. Manages scientific programs, projects, and activities. Plans, organizes, and directs laboratories, field units, and staff agencies. Provides staff supervision over activities and programs. Performs as staff officer and manager in positions requiring technical specialization.

3. **Specialty Qualifications:**

3.1. Knowledge. Knowledge of Air Force operations, doctrine, requirements, acquisition and research policies, procedures, and management practices as they apply to the specialty overall is mandatory.

3.2. Education. For entry education requirements see Appendix A, Paragraph 18, 61A CIP Education Matrix.

3.3. Training. For award of AFSC 61A3, the following training is mandatory as indicated:

3.3.1. Completion of the Operations Research Systems Analysis Military Applications Course (ORSA MAC) is mandatory. Officers completing, or who have completed, an appropriate technical master's degree, listed in Appendix A, Paragraph 18, 61A CIP Education Matrix, are waived from attending ORSA MAC. Officers who do not meet this criteria must attend ORSA MAC within the first two years of active duty.

3.3.2. Prior to 31 Oct 2009, officers are required to have completed the Acquisition Fundamentals Course (WFAM 103), or L30QR63A1, or Defense Acquisition University Fundamentals of Systems Acquisition Management (ACQ 101).

3.4. Experience. For award of AFSC 61A3, a minimum of 24 months of experience in a 61A3/4 position is mandatory. It is mandatory that experience includes assignments in such activities as analysis, research, development, design, and technical writing. A master's degree in one of the specified disciplines in Appendix A, Paragraph 18, 61A CIP Education Matrix may be substituted for 12 of the required 24 months experience. A Doctor of Philosophy degree in one of the specified disciplines in Appendix A, Paragraph 18, 61A CIP Education Matrix fulfills the 24-month requirement.

3.5. Other. Not used.
BEHAVIORAL SCIENCES/HUMAN FACTORS SCIENTIST
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Conducts or manages programs, projects, and activities to perform research management and assessments focused on human dynamics of Service and Joint activities, actions, and operations at tactical, operational, and strategic levels. Research includes defining a problem, selecting methods of approach, performing experiments, accumulating and interpreting data, and publishing results. Research management includes formulating, planning, fiscal programming, monitoring, evaluating, coordinating, and administering programs, projects, and activities. Officers with the “F” suffix perform behavioral influence planning, analysis and assessment as it relates to operations security (OPSEC), military information support operations (MISO), or military deception (MILDEC). These 61BXF officers, once fully trained, are world-wide deployable and may include special duties with Joint Service and Interagency counterparts. Related DoD Occupational Index: 250500.

2. Duties and Responsibilities:
2.1. Conducts and manages research. Plans research projects, determines theoretical aspects of problem, and selects methods of approach. Constructs experimental models, conducts experiments, devises instrumentation and techniques to record and collect test results, correlates data compiled in research, analyzes and briefs results. Is cognizant of and applies interdisciplinary scientific knowledge to plan and conduct research programs.
2.2. Develops new concepts, methods, and techniques to solve scientific and operational problems. Analyzes theories and research findings to determine applications. Engages in continuous development and modification to improve performance and suitability of products and production processes. Employs mathematical techniques including probability and statistics, simulation, optimization theories, and computer systems to analyze, depict, and display data and analysis results. Develops design studies and monitors contracts.
2.3. Recommends research and development projects, and acceptance or non-acceptance of research products. Prepares technical reports, including recommendations for additional research and development projects. Maintains research records and development project records. Serves as technical consultant or representative on scientific and technical boards and committees. Maintains liaison with private sector research organizations, Air Force research and operational organizations, Sister Services, and the Interagency.
2.4. Plans, coordinates, and integrates information related capabilities (IRCs) such as MISO, OPSEC, and MILDEC, with Service, Joint, and Interagency organizations. Advises leadership regarding behavioral sciences implications and analyzes theories and research findings relevant to the influence disciplines of OPSEC, MISO and MILDEC. Designs and conducts research, and accomplishes analysis of human dynamics of foreign target audiences to support influence initiatives. Develops robust assessment plans and programs to evaluate the formation, performance, and effectiveness of influence activities. Performs as Service and Joint OPSEC, MISO, MILDEC, or Influence specialist, staff officer and manager in positions requiring behavioral scientist specialization. Develops concepts, methods, techniques and policy in the area of OPSEC, MILDEC, MISO, and other Information Operations (IO) related areas.
2.5. Manages scientific programs, projects, and activities. Coordinates research efforts with related and interested agencies. Plans, organizes, and directs laboratories, field units, and staff agencies. Provides staff supervision over activities and programs. Performs as staff officer and manager in positions requiring technical specialization.

★ 3. Specialty Qualifications:
3.1. Knowledge. Knowledge of Air Force operations, doctrine, requirements, acquisition and research policies, procedures, and management practices as they apply to the specialty overall or the specific scientific suffix is mandatory.
3.2. Education. For entry education requirements see Appendix A, Paragraph 19, 61B CIP Education Matrix.
3.3. Training. The following training is mandatory as indicated:
3.3.1. 61B3: For award of this AFSC, completion of the Acquisition Fundamentals Course (WFAM 103), or L30QR63A1, or Defense Acquisition University Fundamentals of Systems Acquisition Management (ACQ 101) is mandatory.
3.3.2. 61B1F: For award of this specialty, completion of: 1) the Psychological Operations Qualification Course (POQC) or other MISO qualification course as approved by the AF MISO Program Manager; 2) Signature Management Course (SMC) and Operational Military Deception (OMD); 3) SMC and AF OPSEC Program Managers Course (OPM); or 4) similar courses as approved by the Headquarters Air Force Information Operations Division Chief is mandatory.
3.4. Experience. The following are mandatory as indicated:
3.4.1. 61B3: For award of this AFSC, a minimum of 24 months of experience in a 61B3/4 position is mandatory. It is mandatory that experience includes assignments in such activities as research, development, design, and technical writing.
3.4.2. 61B3F: For award of this AFSC, a minimum of 24 months of experience in a 61B3F/4 position is mandatory. It is mandatory that experience includes assignments in activities such as OPSEC, MISO, MILDEC, and Influence Planning.

3.4.3. A master's degree in one of the specified disciplines in Appendix A, Paragraph 19, 61B CIP Education Matrix may be substituted for 12 of the required 24 months experience. A Doctor of Philosophy degree in one of the specified disciplines in Appendix A, Paragraph 19, 61B CIP Education Matrix fulfills the 24-month requirement.

3.5. Other.

3.5.1. The 61BXF specialty requires routine access to Top Secret material or similar environment. For award and retention of these AFSCs, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management, is required.

NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

CHEMIST/NUCLEAR CHEMIST
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Conducts or manages programs, projects, and activities to perform research/operational assessments, and to support highly technical operations and intelligence. Research includes defining a problem, selecting methods of approach, performing experiments, accumulating and interpreting data, and publishing results. Research management includes formulating, planning, fiscal programming, monitoring, evaluating, coordinating, and administering programs, projects, and activities. Officers with the “N” suffix conduct or manage programs, projects and activities in all parts of the nuclear enterprise to include nuclear hardness, nuclear treaty monitoring, nuclear forensics, consequence management, nuclear weapons employment planning, life-cycle management of strategic platforms and nuclear technology research. Related DoD Occupational Index: 250100.

2. Duties and Responsibilities:
2.1. Conducts and manages research. Plans research projects, determines theoretical aspects of problem, and selects methods of approach. Constructs experimental models, conducts experiments, and devises instrumentation and techniques to record and collect test results, correlates data compiled in research, analyzes and briefs results. Is cognizant of and applies interdisciplinary scientific knowledge to plan and conduct research programs.
2.2. Develops new concepts, methods, and techniques to solve scientific and operational problems. Analyzes theories and research findings to determine applications. Engages in continuous development and modification to improve performance and suitability of products and production processes. Employs mathematical techniques including probability and statistics, simulation, optimization theories, and computer systems to analyze, depict, and display data and analysis results. Develops design studies and monitors contracts.
2.3. Recommends research and development projects, and acceptance or non-acceptance of research products. Prepares technical reports, including recommendations for additional research and development projects. Maintains research records and development project records. Serves as technical consultant or representative on scientific and technical boards and committees. Maintains liaison with private sector research organizations, Air Force research and operational organizations, Army, Navy, and other government agencies.
2.4. Manages scientific programs, projects, and activities. Coordinates research efforts with related and interested agencies. Plans, organizes, and directs laboratories, field units, and staff agencies. Provides staff supervision over activities and programs. Performs as staff officer and manager in positions requiring technical specialization.
2.5. Supports highly technical operations and intelligence. Leads and manages highly technical programs supporting operations and intelligence. Develops concepts, methods, techniques, and policy in the area of chemistry, biochemistry, and weapons of mass destruction.

★ 3. Specialty Qualifications:
3.1. Knowledge. Knowledge of Air Force operations, doctrine, requirements, acquisition and research policies, procedures, and management practices as they apply to the specialty overall or the specific scientific suffix is mandatory.
3.2. Education. For entry education requirements see Appendix A, Paragraph 20, 61C CIP Education Matrix.
3.3. Training. The following training is mandatory as indicated:
3.3.1. 61C3: For award of this AFSC, completion of the Acquisition Fundamentals Course (WFAM 103), or L30QR63A1, or Defense Acquisition University Fundamentals of Systems Acquisition Management (ACQ 101) is mandatory.
3.3.2. 61C3N: For award of this AFSC, completion of the Acquisition Fundamentals Course (WFAM 103), or L30QR63A1, or Defense Acquisition University Fundamentals of Systems Acquisition Management (ACQ 101) is mandatory.
3.4. Experience. The following are mandatory as indicated:
3.4.1. 61C3: For award of this AFSC, a minimum of 24 months of experience in a 61C3/4 position is mandatory. It is mandatory that experience includes assignments in such activities as research, development, design, and technical writing. A master's degree in one of the specified disciplines in Appendix A, Paragraph 20, 61C CIP Education Matrix may be substituted for 12 of the required 24 months experience. A Doctor of Philosophy degree in one of the specified disciplines in Appendix A, Paragraph 20, 61C CIP Education Matrix fulfills the 24-month requirement.
3.4.2. 61C3N: For award of this AFSC, 24 months experience in a 61C3N/4N position within the nuclear enterprise is mandatory. A master’s degree in one of the specified disciplines in Appendix A, Paragraph 20, 61C CIP Education Matrix may be substituted for 12 of the required 24 months experience. A Doctor of Philosophy degree in one of the specified disciplines in Appendix A, Paragraph 20, 61C CIP Education Matrix fulfills the 24 month requirement.
3.5. Other.
3.5.1. The 61CXN specialty requires routine access to Top Secret material or similar environment. For award and retention of these AFSCs, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management, is required.

3.5.2. NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

PHYSICIST/NUCLEAR ENGINEER
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Conducts or manages programs, projects, and activities to perform research/operational assessments, and to support highly technical operations and intelligence. Research includes defining a problem, selecting methods of approach, performing experiments, accumulating and interpreting data, and publishing results. Research management includes formulating, planning, fiscal programming, monitoring, evaluating, coordinating, and administering programs, projects, and activities. 61D Physics officers concentrate efforts in areas to include but not limited to lasers, electro-optics, semiconductors, and materials science. Officers with the “N” suffix conduct or manage programs, projects, and activities in all parts of the nuclear enterprise to include nuclear hardening, nuclear treaty monitoring, nuclear forensics, consequence management, nuclear weapons employment planning, life-cycle management of strategic platforms and nuclear technology research. Related DoD Occupational Index: 25X series (See DoD Occupational Conversion Index, March 2001).

2. Duties and Responsibilities:

2.1. Conducts and manages research. Plans research projects, determines theoretical aspects of problems, and selects methods of approach. Constructs experimental models, conducts experiments, devises instrumentation and techniques to record and collect test results, correlates data compiled in research, analyzes and briefs results. Is cognizant of and applies interdisciplinary scientific knowledge to plan and conduct research programs.

2.2. Develops new concepts, methods, and techniques to solve scientific and operational problems. Analyzes theories and research findings to determine applications. Engages in continuous development and modification to improve performance and suitability of products and production processes. Employs mathematical techniques including probability and statistics, simulation, optimization theories, and computer systems to analyze, depict, and display data and analysis results. Develops design studies and monitors contracts.

2.3. Recommends research and development projects, and acceptance or non-acceptance of research products. Prepares technical reports, including recommendations for additional research and development projects. Maintains research records and development project records. Serves as technical consultant or representative on scientific and technical boards and committees. Maintains liaison with private sector research organizations, Air Force research and operational organizations, Army, Navy, and other government agencies.

2.4. Manages scientific programs, projects, and activities. Coordinates research efforts with related and interested agencies. Plans, organizes, and directs laboratories, field units, and staff agencies. Provides staff supervision over activities and programs. Performs as staff officer and manager in positions requiring technical specialization.

2.5. Supports highly technical operations and intelligence. Leads and manages highly technical programs supporting operations and intelligence. Develops concepts, methods, techniques, and policy in the area of physics, nuclear engineering, and weapons of mass destruction.

★ 3. Specialty Qualifications:

3.1. Knowledge: Knowledge of Air Force operations, doctrine, requirements, acquisition and research policies, procedures, and management practices as they apply to the specialty overall or the specific scientific suffix is mandatory.

3.2. Education. For entry education requirements see Appendix A, Paragraph 21, 61D CIP Education Matrix.

3.3. Training. The following training is mandatory as indicated:

3.3.1. 61D3: For award of this AFSC, completion of the Acquisition Fundamentals Course (WFAM 103), or L30QR63A1, or Defense Acquisition University Fundamentals of Systems Acquisition Management (ACQ 101) is mandatory.

3.3.2. 61D3N: For award of this AFSC, completion of the Acquisition Fundamentals Course (WFAM 103), or L30QR63A1, or Defense Acquisition University Fundamentals of Systems Acquisition Management (ACQ 101) is mandatory.

3.4. Experience. The following are mandatory as indicated:

3.4.1. 61D3: For award of this AFSC, a minimum of 24 months of experience in a 61D3/4 position is mandatory. It is mandatory that experience includes assignments in such activities as research, development, design, and technical writing. A master's degree in one of the specified disciplines in Appendix A, Paragraph 21, 61D CIP Education Matrix may be substituted for 12 of the required 24 months experience. A Doctor of Philosophy degree in one of the specified disciplines in Appendix A, Paragraph 21, 61D CIP Education Matrix fulfills the 24-month requirement.

3.4.2. 61D3N: For award of this AFSC, 24 months of experience in a 61D3N/4N position within the nuclear enterprise is mandatory. A master's degree in one of the specified disciplines in Appendix A, Paragraph 21, 61D CIP Education Matrix may be substituted for 12 of the required 24 months experience. A doctoral degree in one of the specified disciplines in Appendix A, Paragraph 21, 61D CIP Education Matrix fulfills the 24 month requirement.
3.5. Other. 61DXN specialty requires routine access to Top Secret material or similar environment. For award and retention of these AFSCs, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management, is required.

**NOTE:** Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501, Personnel Security Program Management.

DEVELOPMENTAL ENGINEERING UTILIZATION FIELD (62XX)

Introduction
(Changed 30 Apr 14, Effective 22 Nov 13)

The Developmental Engineering Utilization Field encompasses the design, development, installation, modification, testing, and analyses of materials, techniques, or processes. Each specialty includes responsibilities for management of programs, projects, and activities established to perform development engineering in that specialty.

AFSC 62E4, Staff Developmental Engineer identifies a planning and policy-making position above wing level that requires general or multilateral development engineering skills where technical management functions are of primary importance. Positions above wing level that require specialized engineering skills are coded 62E3X as follows.

AFSC 62E3E, Electrical/Electronic, AFSC 62E3H, Mechanical, AFSC 62E3B, Astronautical, and AFSC 62E3A, Aeronautical, are specialties in which developmental engineering management requires technical specialization and an academic degree in a particular specialty. AFSC 62E3G, Project, identifies project engineering or technical management functions that require an engineering degree but not in a particular specialty. AFSCs 62E3X are authorized for officer positions above wing level where specific technical expertise is required for that position.

AFSC 62S0, Materiel Leader, identifies officers serving in competitively selected Developmental Engineering leadership positions.

For specific information on educational requirements for entry into AFSCs 62XX, please review Appendix A, Classification of Instructional Programs (CIP) Matrices.
DEVELOPMENTAL ENGINEER  
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Plans, organizes, manages, and implements systems engineering processes to assure required capability delivery over the life cycle of Air Force systems. Included are accomplishing specialized engineering processes and sub-processes; formulating engineering policy and procedures; and coordinating and directing engineering and technical management activities and operations necessary for system conception, development, production, verification, deployment, sustainment, operations, support, training, and disposal. This includes technical management associated with the requirements definition, design, manufacturing and quality, test, support engineering and technologies, modifications, spares acquisition, technical orders, mission critical computer resources, support equipment, and specialized engineering. Related DoD Occupational Group: 240400. (See individual suffixes for specific engineering occupational codes.)

2. Duties and Responsibilities:
2.1. Accomplishes systems engineering processes and sub-processes. Performs systems planning activities associated with design, development, manufacturing, sustainment, and modification of systems to satisfy customer requirements. Identifies and transitions new technologies in systems and subsystems. Prepares, evaluates, and implements methods, processes, and techniques that support system design to improve performance, reliability, and maintainability for systems development and modification programs. Conducts design studies and manages studies contracted to industries. Participates in formulating program documentation and progress assessments for all phases of the acquisition process. Provides technical consultation.
2.2. Coordinates engineering and technical management activities. Advises management and staff on operations, current and revised policies and procedures, and new business practices. Coordinates with other functional activities to accomplish advance planning and to ensure process integration is accomplished, accurate, and understood. Maintains engineering and technical management liaison with contractors, Air Force field organizations, Army, Navy, Foreign Military Sales, and other governmental agencies.
2.3. Formulates engineering and technical management policies and procedures. Continuously analyzes technical policies and procedures, products, and services to improve customer support. Establishes policies and procedures based on improved processes, methods, and sound business practices.
2.4. Plans, organizes, and directs engineering and technical management operations. Plans, schedules, and allocates work. Maintains work flow data to meet deadlines and established priorities. Analyzes Air Force requirements to determine if existing technical related infrastructure is capable of meeting customer needs. Directs personnel performing development and sustainment functions.

★ 3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of the Air Force systems engineering process, including development, test, and engineering policies, procedures, and management practices.
3.2. Education. For entry education requirements see Appendix A, Paragraph 22, 62E CIP Education Matrix.
3.2.1. 62E4. Undergraduate academic specialization or advanced degree in engineering unless member possesses a fully qualified AFSC in a suffix of this specialty.
3.2.2. 62E1X. Undergraduate engineering degree in the specialization identified by the suffix except shredouts F, and G.
3.2.3. 62E1F. Undergraduate academic specialization in engineering, a physical science, or mathematics and completion of the Air Force Flight Test Engineer Course or comparable US Navy or foreign flight test engineer course.
3.2.4. 62E1G. Undergraduate academic specialization in engineering.
3.3. Training. The following training is mandatory for award of the AFSC indicated:
3.3.1. 62E3X. Completion of the Defense Acquisition University Fundamentals of Systems Acquisition Management (ACQ 101) course or Acquisition Fundamentals Course (L30QR63A1).
3.3.2. 62E3F. Completion of the Air Force Flight Test Engineer Course or comparable US Navy or foreign flight test engineer course.
3.4. Experience. The following experience is mandatory for award of the AFSC indicated:
3.4.1. 62E3F. A minimum of 6 months of experience as a flight test engineer.
3.4.2. 62E3X. A minimum of 24 months of experience is mandatory for upgrade to fully qualified in the specialty suffix. It is mandatory that experience include assignments in such activities as research, development, design, and technical writing in the suffix specialization. A master's degree in the specialization may be substituted for 12 of the required 24 months experience. A Doctor of Philosophy degree in the suffix specialization fulfills the 24 month requirement.

3.5. Other. Not used.

MATERIEL LEADER
(Established 01 Jun 10)

1. Specialty Summary. Directs test and evaluation activities for major system programs typically identified by one or more of the following: Air Force Executive Program; Defense Enterprise Program; DoDI 5000.02 Operation of the Defense Acquisition System; Secretary of the Air Force Program Assessment Review Program; a highly sensitive or highly visible program of significance to the Air Force; or Congressional Selected Acquisition Reporting Program. Alternatively, directs a portfolio of non-major system programs. Related DoD Occupational Group: 251200.

2. Duties and Responsibilities:
2.1. Directs test and evaluation activities for high precedence acquisition programs critical to fulfilling a priority DoD mission. Provides executive leadership and technical expertise through all phases of the acquisition life cycle for a major program because of its urgency of need, developmental risk, joint funding, congressional interest, and other similar factors. Delegates responsibility for preparing development, production, deployment, and system support plans. Responsible for personnel and financial resources allocated to program. Supervises program managers. Directs program activities pertaining to acquisition logistics, configuration and data management, contracting, engineering, manufacturing, program control, system safety, and test and evaluation. Assures development and delivery of program systems. Develops and motivates trained and experienced personnel for acquisition careers. Maintains relations with industry, educational institutions, professional organizations, and the civilian community.

2.2. Delivers operational systems to commands. Responsive to user environment, concerns, and requirements. Coordinates program requirements and actions with commands. Promotes technology, base enhancement, and technology transition into systems. Establishes and supervises boards, working groups, and panels to assure smooth transition of systems and equipment to commands. Trains operations and maintenance personnel in conjunction with the system contractors, training agencies, and testing and using activities.

2.3. Translates operational requirements into acquisition programs, evaluates contractor proposals, and recommends implementing actions. Establishes plans for system acquisition, including testing and evaluating programs progress. Ensures availability of operable and supportable systems and equipment on established schedules. Formulates policies and procedures for developing, procuring, and producing activities. Makes changes to the acquisition program to achieve desired outcomes.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: DoD and Air Force systems engineering procedures pertinent to development, procurement, production, and logistics support; operational environment; and techniques of employment for the system being acquired.

3.2. Education:
3.2.1. Undergraduate academic specialization in Engineering, or a related field, is mandatory for award of this AFSC.
3.2.2. A master's degree in a technical, scientific, or management field appropriate to systems engineering is desirable.

3.3. Training. Acquisition Professional Development Program (APDP) Certification Requirements. A Level II in Test and Evaluation (TST), and/or Systems Planning/Research/Development and Engineering (SPRDE) is mandatory for award of this AFSC.

3.4. Experience. Not used.

3.5. Other. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 62S0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management, is mandatory.
ACQUISITION UTILIZATION FIELD (63XX)

Introduction
(Changed 1 Jun 10)

The Acquisition Utilization Field encompasses staff and management functions peculiar to the Air Force acquisition life cycle. Air Force Supplement 1 to DoDI 5000.2, Defense Acquisition Management Policies and Procedures, provides basic and detailed guidance for acquisition programs.

Specific instructions on the utilization of the AFSCs follow:

It is desirable that entry into the career field be preceded by assignment in another utilization field whenever possible. Officers who enter the career field on their initial tour should seek a subsequent assignment in another utilization field followed by a return to the acquisition program management career field. This desired career broadening is to provide a better perspective and understanding of the interfaces between functions of acquisition management and related functions in the developing, operating, training, and support commands. Lateral inputs will include only those officers who have clearly demonstrated a potential for effective administration and program management beyond their basic specialty.

AFSC 63A4, Acquisition Manager, identifies positions with responsibilities for systems, major subsystems or equipment, or in the overall aspects of the program management effort.

AFSC 63A3, Acquisition Manager, identifies positions with the responsibilities for assisting in the planning and management of the system, subsystem, or equipment acquisition programs.

AFSC 63S0, Materiel Leader, and AFSC 63G0, Senior Materiel Leader, identifies officers serving in competitively selected Acquisition Management positions of high import.

The terms "program" and "program management" are concerned with the acquisition effort managed by the Air Force. In addition, the term "logistics" relates to the Integrated Logistics Support function performed by the program manager with the assistance of the Air Force Materiel Command.
ACQUISITION MANAGER
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Manages defense acquisition programs covering every aspect of the acquisition process, including integrating engineering, program control, test and deployment, configuration management, production and manufacturing, quality assurance, and logistics support. Performs functions essential to acquisition programs involving major defense acquisition programs and other than major systems or subsystems. Performs acquisition support roles. Related DoD Occupational Group: 280400.

2. Duties and Responsibilities:
2.1. Plans and organizes acquisition management activities. Plans, organizes, and develops program management techniques, and establishes internal controls to manage acquisition programs and support functions. Determines organizational structure, personnel, training needs, and security requirements. Establishes performance standards, work schedules, and priorities. Develops, reviews, coordinates, and executes acquisition management plans to support daily operations, contingencies, and war fighting capabilities.
2.2. Directs acquisition management activities. Supervises, manages, and administers all aspects of acquisition programs. Includes direction and participation to establish military, economic, and technical bases for acquisition programs in conceptual phases and throughout the validation, engineering and manufacturing, production, and deployment phases of an acquisition life cycle. Manages cost, schedules, performance, and supportability of acquisition programs, discrete portions of programs, or support activities.
2.3. Coordinates acquisition management activities. Advises commanders and staff on status and progress of acquisition programs. Coordinates with commander, staff, and units to develop and execute acquisition program plans and schedules. Serves as project manager having cost, schedule, logistics, and engineering responsibilities for a discrete portion of a program, either hardware or software. Manages systems integration activities, including identifying and resolving subsystem, hardware and software interface, or logistics problems to support optimum system design. Performs integrated logistics support engineering and planning tasks.
2.4. Performs program management functions. Manages tasks associated with engineering, program control, configuration management, test, manufacturing and quality assurance, and integrated logistics support. Responsive to user environment, concerns, and requirements. Coordinates with users to translate operational requirements and system design into definitive subsystem and equipment acquisition programs. Manages program progress to ensure availability of operable and supportable subsystems and equipment. Makes changes to acquisition program to achieve desired outcomes.

★ 3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: DoD and Air Force system, subsystem, and equipment acquisition program management philosophy, policies, and procedures applicable through several phases of an acquisition life cycle; and program management procedures pertinent to development, procurement, production, logistics support, and techniques of employment for the system being acquired.
3.2. Education. For entry education requirements see Appendix A, Paragraph 23, 63A CIP Education Matrix.
3.3. Training. For award of AFSC 63A3, completion of Air Force Institute of Technology School of Systems and Logistics Fundamentals of Acquisition Management (FAM 103) course, AETC Acquisition Fundamentals (L3OQR63A1) course, or Defense Acquisition University Fundamentals of Systems Acquisition Management (ACQ 101) course is mandatory.
3.4. Experience. For award of AFSC 63A3, 24 months of Acquisition Professional Development Program (APDP) coded experience in any acquisition functional category (i.e. Program Management; Systems Planning, Research, Development and Engineering; Test and Evaluation) is mandatory. Officer must be assigned to a 63A position.
3.5. Other. Not used.
SENIOR MATERIEL LEADER
(Established 1 Jun 10)

1. Specialty Summary. Directs major defense system acquisition programs typically identified by one or more of the following: Defense Enterprise Program; DoDI 5000.02 Operation of the Defense Acquisition System; a highly sensitive or highly visible program of significance to the Air Force; or Congressional Selected Acquisition Reporting Program. Alternatively, directs a portfolio of non-major system programs. Related DoD Occupational Group: 251200.

2. Duties and Responsibilities:
2.1. Directs high precedence acquisition programs critical to fulfilling a priority DoD mission. Provides executive leadership and management expertise through all phases of the acquisition life cycle for a major program because of its urgency of need, developmental risk, joint funding, congressional interest, and other similar factors. Delegates responsibility for preparing development, production, deployment, and system support plans. Responsible for personnel and financial resources allocated to program. Supervises program managers. Directs program activities pertaining to acquisition logistics, configuration and data management, contracting, engineering, manufacturing, program control, system safety, and test and evaluation. Assures development and delivery of system programs. Develops and motivates trained and experienced personnel for acquisition careers. Maintains relations with industry, educational institutions, professional organizations, and the civilian community.
2.2. Delivers operational systems to commands. Responsive to user environment, concerns, and requirements. Coordinates program requirements and actions with commands. Promotes technology, base enhancement, and technology transition into systems. Establishes and supervises boards, working groups, and panels to assure smooth transition of systems and equipment to commands. Trains operations and maintenance personnel in conjunction with the system contractors, training agencies, and testing and using activities.
2.3. Translates operational requirements into acquisition programs, evaluates contractor proposals, and recommends implementing actions. Establishes plans for system acquisition, including testing and evaluating programs progress. Ensures availability of operable and supportable systems and equipment on established schedules. Formulates policies and procedures for developing, procuring, and producing activities. Makes changes to the acquisition program to achieve desired outcomes.
2.4. Organizes and directs Systems Program Office. Develops organization and manning requirements. Schedules formal training, develops acquisition skills of Systems Program Office members, and implements lessons learned. Initiates plans, policies, and programs for managing engineering and other personnel. Interprets and directs execution of policies, procedures, regulations, and directives. Manages and directs collective actions of participating organizations. Ensures proposals and changes are sound in terms of operational, development, procurement, production, and support requirements. Ensures the Systems Program Office functions as the Air Force focal point for contractors supporting a program, and acts as the official source of information. Establishes a program baseline, and manages within it. Maintains an assessment of program progress and performance versus requirements, threat, schedule, and cost. Informs headquarters of recommended changes and potential and actual breaches of program thresholds. Ensures accomplishment of program budgeting, funding, and accounting functions. Manages program costs by forcing identification of life cycle costs, developing “design to” cost parameters, and weighing all program decisions and program cost thresholds.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: DoD and Air Force program management procedures pertinent to development, procurement, production, and logistics support; operational environment; and techniques of employment for the system being acquired.
3.2. Education:
3.2.1. Undergraduate academic specialization in a technical, scientific, or management field appropriate to program management is mandatory for award of this AFSC.
3.2.2. A master’s degree in a technical, scientific, or management field appropriate to program management is desirable.
3.3. Training. Acquisition Professional Development Program (APDP) Certification Requirements. Program Management Level III is mandatory for award of this AFSC.
3.4. Experience. Not used.
3.5. Other. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 63G0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management is mandatory.
1. **Specialty Summary.** Directs major system or subsystem programs typically identified by one or more of the following: Defense Enterprise Program; DoDI 5000.02 Operation of the Defense Acquisition System; a highly sensitive or highly visible program of significance to the Air Force; or Congressional Selected Acquisition Reporting Program. Alternatively, directs a portfolio of non-major system programs. Related DoD Occupational Group: 251200.

2. **Duties and Responsibilities:**

2.1. Directs high precedence acquisition programs critical to fulfilling a priority DoD mission. Provides executive leadership and management expertise through all phases of the acquisition life cycle for a major program because of its urgency of need, developmental risk, joint funding, congressional interest, and other similar factors. Delegates responsibility for preparing development, production, deployment, and system support plans. Responsible for personnel and financial resources allocated to program. Supervises program managers. Directs program activities pertaining to acquisition logistics, configuration and data management, contracting, engineering, manufacturing, program control, system safety, and test and evaluation. Assures development and delivery of program systems. Develops and motivates trained and experienced personnel for acquisition careers. Maintains relations with industry, educational institutions, professional organizations, and the civilian community.

2.2. Delivers operational systems to commands. Responsive to user environment, concerns, and requirements. Coordinates program requirements and actions with commands. Promotes technology, base enhancement, and technology transition into systems. Establishes and supervises boards, working groups, and panels to assure smooth transition of systems and equipment to commands. Trains operations and maintenance personnel in conjunction with the system contractors, training agencies, and testing and using activities.

2.3. Translates operational requirements into acquisition programs, evaluates contractor proposals, and recommends implementing actions. 3.2. Education:

3.2.1. Undergraduate academic specialization in a technical, scientific, or management field appropriate to program management is mandatory for award of this AFSC.

3.2.2. A master's degree in a technical, scientific, or management field appropriate to program management is desirable.

3.3. Training. Acquisition Professional Development Program (APDP) Certification requirements. Program Management Level II is mandatory for award of this AFSC.

3.4. Experience. Not used.

3.5. Other. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 63S0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management is mandatory.
CONTRACTING UTILIZATION FIELD (64PX)

Introduction

The Contracting Utilization Field encompasses the functions of contracting for systems supplies and services, assessing a contractor's ability to economically manufacture a product; and preparing, competing, negotiating, awarding, and administering contracts through both operational and central systems contracting programs.

To progress in this utilization field, officers should ensure a diversity of assignments in all aspects of the utilization field before becoming qualified for staff level assignments.
CONTRACTING
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Plans, organizes, manages, and accomplishes contracting functions to provide supplies and services essential to Air Force daily operations and war-fighting mission. Included are accomplishing contracting system processes, formulating contracting policy and procedures, coordinating contracting activities, and directing contracting operations. The contracting system includes effective acquisition planning, solicitation, cost or price analysis, evaluating offers, source selection, contract award, and contract administration. Related DoD Occupational Group: 280400.

2. Duties and Responsibilities:

2.1. Accomplishes contracting processes and functions. Performs acquisition planning to include analyzing purchase requests and technical documents for suitability and determining the proper contracting method and contract type. Prepares and distributes solicitations. Evaluates offers, including cost or price analysis, contractor responsibility and responsiveness to solicitation, and evaluating other selected factors (e.g., quality, contractor management and facilities, delivery, etc.). Selects contract source, assembles contracts, and makes awards. Administers contracts to ensure contract compliance. Negotiates modifications, and takes termination actions for convenience of the government or for default.

2.2. Coordinates contracting activities. Advises commander and staff on contracting operations, as well as impact of new directives and policy on the contracting system. Coordinates with other functional activities to accomplish advance planning and ensure adequacy and correctness of contracting approach, lead-time, purchase descriptions, specifications, funding, etc. Confers with other government agencies, military departments, and commercial concerns to explain mission requirements, contractual interpretations, and policy, program interpretation. Coordinates with staff agencies to accomplish overall mission.

2.3. Formulates contracting policies and procedures. Analyzes contracting system and establishes policies and procedures necessary to improve contracting process and its customer support. Establishes policies based on sound business practices and highest standards of ethical conduct and fiscal responsibility. Develops automated systems essential to enhancing contracting efficiency. Manages military and civilian career development programs to ensure individuals have the opportunity for training, education, and experience needed for mission success and personal advancement.

2.4. Plans, organizes, and directs contracting operations. Directs contracting functions and fosters environment where contracting activities and customers form teams dedicated to meeting Air Force requirements. Determines organizational structure, physical facilities, and personnel requirements for accomplishing contracting responsibilities. Directs accomplishment of contracting system functions, ensures contracting system is responsive to mission needs and requirements, and ensures compliance with statutory and regulatory requirements. Develops and implements internal systems and processes, manual and automated, required to accomplish and monitor the contracting mission.

★3. Specialty Qualifications:

3.1. Knowledge. Knowledge is mandatory of contracting process fundamentals, federal acquisition and contracting directives and publications, budgeting and funding procedures, and contract pricing.

3.2. Education. For entry education requirements see Appendix A, Paragraph 24, 64P CIP Education Matrix.

3.3. Training. For award of AFSC 64P3, it is mandatory to complete the Mission Ready Contracting Officer (MRCO) course, or SAF/AQC-approved equivalent.

3.4. Experience. For award of AFSC 64P3, a minimum of 12 months of experience in contracting assignments is mandatory. Also, experience in functions such as determining applicable methods of contracting; developing invitations for bids and requests for proposals; evaluating bids and proposals; and awarding, administering, and terminating contracts.

3.5. Not used.
FINANCE UTILIZATION FIELD (65XX)

Introduction
(★ Changed 31 Oct 15)

The Finance Utilization Field encompasses the functions of policy planning and assistance in programming formulation, direction, and inspection of fiscal management activities. Functions include analysis, evaluation, and presentation to commanders and staff information on all operations programs, and projected plans to support command objectives in the most efficient and economical manner within available resources. Involved are preparation and defense of the budget; disbursement, collection, and accounting for public funds; accounting for obligations and expenditures of appropriated and nonappropriated funds; maintenance of reports control system; collection, analysis, interpretation, and presentation of quantitative data pertaining to all Air Force operations.
FINANCIAL MANAGEMENT
(Changed 31 Oct 15, ★ Effective 26 Feb 15)

1. Specialty Summary. Leads, plans, organizes, manages, and accomplishes financial management activities in support of daily operations and war-fighting mission. Included in these activities are financial programs and operations; accounting liaison and pay services; budget preparation and execution; program, cost, and economic analysis; nonappropriated fund oversight; audit management; bank liaison; policy and procedures; fiscal law; internal controls; and quality assurance. Identifies management problems, develops special studies and analyses to develop alternatives and recommend solutions. Provides decision support serving as financial adviser to commander and staff. Related DoD Occupational Group: 270400.

2. Duties and Responsibilities:
2.1. Plans, organizes, develops techniques and establishes internal controls to manage financial services and analysis operations. Determines organizational structure, personnel, training needs, and security requirements for safeguarding entrusted assets. Establishes performance standards, work schedules, and priorities. Develops, reviews, coordinates, and executes financial management plans to support peacetime, exercise, contingency, and wartime operations. Establishes training program for functional professional development.

2.2. Directs financial management activities. Supervises, manages, and administers financial services and/or analysis activities. These include reviewing adequacy of internal controls and quality of services; providing assistance and performing cost estimates and economic analysis; and overseeing funds distribution and management. Establishes performance standards to evaluate cost and efficiency. Inspects, reviews, and evaluates effectiveness of work methods, procedures, and personnel. Provides customer service. Interacts and coordinates with organizations on financial matters. Interprets financial directives.

2.3. Coordinates financial management activities. Advises commander and staff on status and progress of command programs. Coordinates with commander, staff, and units in developing and executing financial plans, schedules, and programs. Advises, coordinates, and makes recommendations on validity and propriety of requirements, effective allocation and use of financial resources, and redistribution of resources within fund limitations. Verifies estimated costs are realistic and reasonable. Coordinates on deficiencies noted in reports from audits, and inspections. Maintains liaison with other agencies to develop standards for financial management policy and procedures.

2.5. Conducts financial management and information studies. Prepares studies evaluating the effects of changes in policies, procedures, and technology. Prepares findings and recommendations for presentation to commander and staff.

2.6. Maintains proficiency and trains others in financial management during contingency/war fighting operations.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: general accounting principles pertaining to governmental, commercial, managerial, and cost accounting; Air Force concepts and objectives and their relationship to effective, economical execution of the mission; fiscal laws, executive orders, Comptroller General decisions, instructions, and directives; Air Force budget structure and policy; fiscal procedures, including resource allocation and fund control procedures; cost estimating, economic analysis, and quantitative statistical analysis; and computer applications.

3.2. Education. For entry education requirements see Appendix A, Paragraph 25, 65F CIP Education Matrix.

3.3. Training. For award of AFSC 65F3, completion of the Basic Financial Management Officer course is mandatory.

3.4. Experience. For award of AFSC 65F3, a minimum of 18 months of experience is mandatory in financial management assignments.

3.5. Other. The following are mandatory for entry, award, and retention of this AFSC:
3.5.1 No record of conviction by a civilian court for offenses involving larceny, robbery, wrongful appropriation, burglary, or fraud.

3.5.2 Never received nonjudicial punishment under the Uniform Code of Military Justice (UCMJ) for offenses involving acts of larceny, wrongful appropriation, robbery, burglary or fraud as defined in UCMJ Articles 121, 122, 129, and 132 or never been convicted by military courts-martial for these same offenses.
COST ANALYSIS
(★ Changed 31 Oct 15)

1. **Specialty Summary.** Provide commanders/leadership with sound, technical and quantitative information as a basis for making financial and programmatic decisions. Leads and conducts analysis and studies to estimate cost and evaluate performance against standards, operational systems, acquisition programs, and support activities in support of daily operations and the war-fighting mission. Performs cost, economic, and business case analyses and conducts research essential to operational mission and involving major defense acquisition programs. Related DoD Occupational Group: 270400.

2. **Duties and Responsibilities:**

2.1. Advises commanders/leadership on financial and programmatic planning under the following conditions: uncertainty and risk arising from a lack of current experience and/or knowledge; conflicts in environmental, political and economic objectives; a variety of possible alternatives; the failure of current system to meet Joint and/or Air Force goals and priorities; the modification of current systems to meet Joint and/or Air Force missions, goals and priorities. Supports justification of budgets, cost estimates and advises on programmatic actions.

2.2. Develops cost estimates and performs cost assessments in support of daily operations and warfighting missions, system program offices, Service Cost positions, annual validations and the Air Force, Joint and DoD Corporate structure.

2.3. Leads, plans and organizes cost analysis activities. Plans, organizes, and supervises cost activities and programs. Establishes procedures and techniques for analyzing and evaluating performance against standards and developing and validating data sources. Develops, reviews, coordinates and administers research activities as well as education and training programs.

2.5. Supports acquisition milestones and source selections. Systematically examines alternative courses of action and performs trade off studies to define and clarify financial advantages and disadvantages.

2.6. Coordinates and provides cost analysis services. Provides technical assistance to other agencies on cost related issues. Develops solutions and implementation plans and presents findings to decision makers. Plans and conducts research projects leading to improved analytical concepts, methods, and techniques. Reviews and evaluates cost reports submitted by other agencies.

2.7. Performs cost and economic analyses. Performs studies to estimate cost, analyze risk, and evaluate effectiveness of force structures, weapon systems, information systems, research and technology programs, and support activities. Performs, reviews, and certifies adequacy of cost comparison and economic analyses. Serves on technical and financial boards and committees.

2.8. Maintains proficiency and trains others in financial management during contingency/war-fighting operations.

3. **Specialty Qualifications:**

3.1. Knowledge. Knowledge is mandatory of: cost, economic, and business case analysis, financial and economic problems and solutions, collecting data and normalizing, development of data analysis methods, risk assessment, collaboration in team environment, statistical and presentation techniques, resource allocation process, and basic computer applications.

3.2. Education. For entry education requirements see Appendix A, Paragraph 25, 65F CIP Education Matrix.

3.3. Training. For award of AFSC 65W3, completion of the Basic Financial Management Officer course is mandatory.

3.4. Experience. For award of AFSC 65W3, a minimum of 18 months of experience is mandatory in cost analysis assignments.

3.5. Other. The following are mandatory for entry, award, and retention of this AFSC:

3.5.1. No record of conviction by a civilian court for offenses involving larceny, robbery, wrongful appropriation, burglary, or fraud.
3.5.2. Never received nonjudicial punishment under the Uniform Code of Military Justice (UCMJ) for offenses involving acts of larceny, wrongful appropriation, robbery, burglary or fraud as defined in UCMJ Articles 121, 122, 129, and 132 or never been convicted by military courts-martial for these same offenses.
SPECIAL INVESTIGATIONS CAREER AREA (71SX)

Introduction

The Special Investigations Career Area encompasses the functions of program formulation and policy planning; control and direction of investigations involving possible acts of espionage, sabotage, treason, and other subversive acts; investigation of major violations of the Uniform Code of Military Justice and applicable federal statutes, and violations of public trust, such as fraud, bribery, and other criminal irregularities, with particular reference to the procurement or disposition of government property; conduct of background investigations of Department of Defense personnel in overseas areas at the request of the Defense Investigative Service; and conduct of special inquiries directed by competent authority.

Excluded from this career area are the investigative functions of administrative boards or persons appointed by the commander to investigate such matters as line-of-duty and aircraft accidents.
1. Specialty Summary. Manages and conducts special investigations, to include criminal, fraud, counterintelligence, internal security, and technical services investigations, and other related activities. Related DoD Occupational Group: 230300.

2. Duties and Responsibilities:
2.1. Formulates special investigations policy governing investigative and related programs in counterintelligence, cyber threats, counter threat, criminal, fraud, and technical services areas. Establishes investigative work loads based on complexity of cases and capability of units and assigned special agents. Determines requirements for facilities, material, and personnel, to include office space, communications, services, supplies, vehicles, budget requirements, and investigative equipment. Determines requirements for military and civilian agents and administrative support based on work load or unit investigative area. Establishes organization, location, and operational procedures, including budget, logistical, and technical support for Air Force Office of Special Investigations (AFOSI) units. Establishes procedures for operational control and dissemination of investigative reports and special studies. Develops standards to evaluate performance of investigative personnel and activities. Establishes training programs for AFOSI, DoD organizations, and foreign allied personnel.
2.2. Coordinates special investigation activities. Serves as representative on committees and boards. Conducts joint investigations and operations with agencies such as, protective services to the United States State Department and the Secret Service for the President, First Family, and other high-level United States and foreign dignitaries. Conducts operational coordination with counterintelligence, investigative, and law enforcement agencies. Provides information, formal studies, or reports to USAF commanders and Air Staff officials on trends and patterns of irregularities, weaknesses, and offenses in the counterintelligence, criminal, fraud, and technical services area.
2.3. Monitors and directs special investigations activities. Prepares instructions and procedures for use in investigations of complex or sensitive nature. Analyzes and disseminates information of counterintelligence, criminal, fraud, internal security, and technical services nature to USAF commanders and other federal, DoD, state, and local agencies. Provides counterintelligence support to Air Force participation in international arms control treaties. Manages counterintelligence, criminal, and fraud intelligence information collection systems. Prepares budget estimates based on workloads, special requirements for investigative functions, and forecasts of future needs. Inspects special investigative activities to determine management effectiveness and status of relations with USAF command officials and federal, DoD, state, and local agencies.

3. Specialty Qualifications:
3.1. Knowledge. Knowledge is mandatory of: special investigative policy, procedures, and techniques concerning criminal, fraud, counterintelligence, personnel background, and technical security services.
3.2. Education. For entry education requirements see Appendix A, Paragraph 26, 71S CIP Education Matrix.
3.3. Training. For award of AFSC 71S3, completion of the special investigators’ course at the Air Force Special Investigations Academy is mandatory.
3.4. Experience. For award of AFSC 71S3, experience is mandatory performing, supervising, or directing functions in criminal, fraud, counterintelligence, cyber investigations/forensics, technical services, policy formulation, or devising procedures to implement special investigations.
3.5. Other.
3.5.1. The following are mandatory for entry in these AFSCs:
3.5.1.1. Force officers (grades O-1 through O-3) with less than 12 years total active federal military service and no more than six years total commissioned service.
3.5.1.2. Favorable interview by an AFOSI detachment commander documented on an AFOSI IMT 151, Report of Interview for AFOSI Assignment.
3.5.2. The following are mandatory for entry, award, and retention of these AFSCs:
3.5.2.1. Certification by Commander of AFOSI.

3.5.2.3. Ability to speak and write English clearly and distinctly.

3.5.2.4. Must possess or be eligible for a valid state vehicle operator’s permit.

3.5.2.5. Normal color vision as defined in AFI 48-123, *Medical Examinations and Standards*.

3.5.2.6. No record of emotional instability.

3.5.3. The following are mandatory for award and retention of these AFSCs:

3.5.3.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of AFSCs 71SX, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, *Personnel Security Program Management*.

*NOTE:* Award of the entry level without a completed SSBI is authorized provided an interim Top Secret security clearance has been granted according to AFI 31-501.

3.5.3.2. Must maintain local network access IAW AFMANs 33-152, *User Responsibilities and Guidance for Information Systems* and 33-282, *Computer Security*. 
SPECIAL DUTY IDENTIFIERS (SDI)

Introduction

Special Duty Identifiers (SDI) identify authorizations for, and officers assigned to and performing an actual group of tasks on a semi-permanent or permanent duty basis. These duties are unrelated to any specific utilization field. No significance as to the interrelationship of these SDIs should be inferred from their grouping within this section.

2. Duties and Responsibilities:
2.1. Commands through unique role as principal advisor and role model to cadet chain of command. Responsible to help guide the cadet chain of command in maintaining high standards of discipline, developing unit spirit de corps and implementing training programs following operational USAF practices. Responsible for developing cadets into officers.
2.2. Coordinates training and instructional programs. Controls unit integration of instructional training, military training, drill and ceremonies, formal and informal social events, and a wide variety of extracurricular activities involving the Academy staff, faculty, and cadets. Monitors unit performance in all Academy athletic programs, including intramural, recreational sports and physical fitness programs.
2.3. Counsels cadets. Aids them through academic, conduct, aptitude, athletic or honor probation by establishing a formal rehabilitation program. Be knowledgeable of assistance agencies and provide information to assist cadets. Follow-up on problems as necessary.
2.4. Evaluate cadets. Maintains records and documentation to support evaluations and recommendations as it relates to their military performance, commissioning suitability, recommendations to review committee boards, leadership positions, and order of merit among peers. Assesses cadet aptitude for commissioned service. Advises other Academy agencies of the status and capabilities of each cadet.

3. Special Duty Qualifications:
3.1. Knowledge. Knowledge is mandatory of military customs and courtesies, command administration, personnel management, and personal affairs.
3.2. Education. For entry into this SDI, undergraduate academic specialization in engineering, arts, social sciences, physical science, business, or management is desirable.
3.3. Training. Not used.
3.4. Experience. Not used.
3.5. Other. Not used.
3.5.1. Completion of special localized training is mandatory prior to assuming duties. Completion of the AFIT Air Officer Commanding Master’s Degree program is mandatory to retain this SDI
3.5.2. Additional qualifications and application procedures for this SDI are in AFI 36-2110, Assignments.
1. **Special Duty Summary.** Commands, instructs, evaluates, counsels, and monitors all student training phases. Related DoD Occupational Group: 270200.

2. **Duties and Responsibilities:**
   2.1. Commands training squadrons and flights. Motivates students to become professional Air Force career officers. Develops training policies involving discipline, military training, administration, and academic progress. Conducts squadron and individual flight inspections, selects student staff and commanders, and monitors student welfare. Implements programs to resolve personal adjustment problems, provides student guidance, and implements higher headquarters' directives and policies.
   2.2. Determines aptitude for commissioned service. Evaluates individual potential, attitudes, training performance, and overall aptitude for commissioned service. Analyzes individual deficiencies, conducts remedial training, and directs faculty board action for students lacking aptitude for commissioned service.
   2.3. Directs and monitors training programs. Supervises commissioning training, and conducts professional instruction for academic, military, and physical training courses. Maintains a record of student progress and evaluates all phases of student mission accomplishment.

3. **Special Duty Qualifications:**
   3.1. Knowledge. Knowledge is mandatory of military customs and courtesies, command administration, and instructional techniques.
   3.2. Education. For entry into this SDI, undergraduate academic specialization in education or social science is desirable.
   3.3. Training. Not used.
   3.4. Experience. Not used.
   3.5. Other. Not used.

2. Duties and Responsibilities:
2.1. Organizes and prepares instructional materials. Studies objectives of formal training. Develops course syllabi, training project outlines, and daily and weekly lesson plans. Prepares assignments, laboratory exercises, demonstrations, training aids, and reference and related material required to parallel and supplement course outline. Organizes physical conditioning programs.
2.2. Instructs personnel. Determines methods of instruction, considering the size of the group and subject matter. Instructs students by lectures, discussions, demonstrations, group activities, and laboratory work. Demonstrates subject principles and application to students, using audiovisual aids such as mockups, graphs, training films, and film strips. Evaluates the progress of students, using such aids as achievement and aptitude tests and rating scales. Diagnoses individual learning difficulties and recommends courses of remedial instruction. Supplements texts with additional sources of information to clarify subject matter. Prepares classrooms for instruction, controlling factors such as temperature, ventilation, lighting, cleanliness, and arrangement of desks and equipment. Maintains attendance records and requisitions supplies. Briefs students on safety precautions associated with equipment and facilities used. Conducts instructor training programs by demonstrating effective teaching methods, reviewing lesson plans, and conducting professional instructor training seminars.
2.3. Coordinates training program. Confers with education and training staff officers on changes in texts, project training outlines, general progress of class, disciplinary problems, entrance requirements, examination procedures and tests, school records, and related subjects. Coordinates preparation of training manuals, test construction, and improvement of instructional material with maintenance shop to develop training aids. Advises education and training staff officers on matters such as the revision of course curricula.

3. Special Duty Qualifications:
3.1. Knowledge. Knowledge is mandatory of audiovisual presentation, educational tests and measurements, and instructing techniques.
3.2. Education. For entry into this SDI, undergraduate academic specialization in education or social and behavioral sciences is desirable.
3.3. Training. Not used.
3.4. Experience. Not used.
3.5. Other. Not used.
ACADEMIC PROGRAM MANAGER

2. Duties and Responsibilities:
2.2. Supervises instructor programs. Instructs faculty, staff, and students. Determines instruction methods considering group size and course content. Demonstrates subject principles and application using educational media. Evaluates faculty and student progress. Conducts instructor training programs. Demonstrates effective teaching methods, reviews lesson plans, and conducts professional instructor training seminars.
2.3. Manages educational programs and administrative functions. Supervises and coordinates text selection and changes, project outlines, examination and grading standards, test procedures, and other related subjects. Performs research and writes for publication. Administers activities involving scheduling, discipline, enrollment, budget, and personnel programs.

3. Special Duty Qualifications:
3.1. Knowledge. Knowledge is mandatory of educational media, instruction, and testing techniques, and course and curriculum development.
3.2. Education. For entry into this SDI, a master's degree is desirable.
3.3. Training. Not used.
3.4. Experience. For retention of this SDI, experience is mandatory in preparing lesson plans, developing training aids, instructing and diagnosing educational difficulties, developing educational materials, and constructing tests.
3.5. Other. Not used.
RECRUITING SERVICE

1. Special Duty Summary. Plans, directs, and monitors recruiting programs, personnel, training, and equipment to achieve an efficient and economical recruitment program that will meet the requirements of the United States Air Force. Provides planning and assistance for a continuous publicity and community relations program. Related DoD Occupational Group: 270300.

2. Duties and Responsibilities:

2.1. Performs operations duties. Monitors, analyzes, trains, and provides planning assistance to officer program teams. Works directly with squadron trainers to establish training programs; provides training at flight training meetings. Manages squadron self-inspection program and ensures follow-up actions are taken to correct deficiencies. Acts as squadron Military Entrance Processing Station (MEPS) quality control monitor. Tracks and analyzes recruiting operations; identifies adverse trends and causes and recommends corrective action. Tracks management of recruiting for selected Air Force Specialties, competitions and goal allocations, success of high school and Armed Services Vocational Aptitude Battery programs, and so forth. Acts as squadron focal point for US MEP Command and Joint Service activities. Coordinates mobile examination test site and student testing programs. Serves as member of the inter-service recruitment committee or mid-level recruitment committee to coordinate, staff, implement, and resolve issues affecting Joint service recruiting activities.

2.2. Acts as officer training school (OTS) procurement officer. Plans and conducts officer recruiting according to program goals and within constraints of OTS entry capability. Interviews and evaluates OTS applicants. Coordinates requests for waivers from existing directives on a case-by-case basis for potential officer candidates. Recommends policies and procedures to expedite applicant processing; ensures compliance with enlistment criteria and application procedures. Compiles officer accession data and operations reports. Prepares bulletins with administrative and production data and training program materials for use by the sales organization. Monitors college visitation programs; presents Air Force orientations and coordinates tours for faculties and student bodies. Controls distribution of printed advertising materials for officer recruiting, and evaluates their effectiveness. Maintains liaison with educators, business and industry officials, state and local officials, and other centers of influence to enhance the image of the Air Force officer corps. Continuously evaluates market data on objectives to identify resources necessary for mission accomplishment.

2.3. Plans and supervises development of advertising and promotion programs to support the mission. Develops, prepares, coordinates, and executes advertising and promotion. Allocates and controls advertising budgets. Initiates purchase of authorized advertising items. Prepares management fund summaries, and advises commander on advertising campaigns to accomplish goals. Controls distribution of printed advertising, and radio and television materials to the recruiting force. Monitors their use and rate of consumption to evaluate effectiveness. Participates in meetings and conferences and presents Air Force orientations to civic and educational organizations. Participates in community relations functions, such as special events, state and municipal fairs and ceremonies, parades, tours, and recruiting contests. Emphasizes effective public relations through training programs and staff assistance visits.

2.4. Manages recruiting resources. Controls real estate actions for recruiting offices, itinerary stops, and squadron headquarters. Monitors and coordinates their relocation, upgrading, opening, and closing. Maintains fiscal year facility programs, coordinating with the Corps of Engineers. Monitors Government Services Administration vehicle fleet; keeps mileage and cost figures. Orders, inventories, and accounts for furniture and equipment. Maintains balanced budget; coordinates spending authority with supporting finance offices and squadrons. Monitors and authorizes use of communication devices within the Group. Recommends approval or disapproval of government leased requests, and reviews housing surveys for new units or rental increases. Directs administrative support for personnel programs such as newcomers program, civilian personnel actions, weight control program, ancillary training, on-the-job training, and leave programs. Coordinates with the Group Commander, HQ USAF Recruiting Service, and Air Education and Training Command on personnel assignments and programs. Manages Group publications library, word processing support, distribution system, and duplication requirements, including printing and reproduction activities. Coordinates Group transportation requirements. Monitors squadron transportation request audits. Controls bulk purchases of transportation tickets and meal and lodging expenditures for applicants traveling to the MEPS. Schedules semiannual staff assistance visits. Coordinates and monitors host-tenant support agreements.

2.5. Manages Headquarters USAF Recruiting Service activities. Provides analytical support, market studies, and goal allocation systems. Provides specialized management, sales, and motivational training through workshops and a traveling training team. Coordinates with the Air Force Personnel Center, Air Education and Training Command Technical Training, Air Force Military Training Center, Officer Training School, and Air Staff agencies on procurement actions, policies, and programs which impact enlisted and officer recruiting requirements. Develops programs and policies to support assignment and manpower actions. Plans and manages advertising, publicity, and promotional and special events programs supporting military personnel procurement and retention objectives.
3. Special Duty Qualifications:
3.2. Education. Not used.
3.3. Training. Not used.
3.4. Experience. Not used.
3.5. Other. For entry into this SDI, qualification criteria listed in AFI 36-2110 are mandatory.
HISTORIAN
(Changed 30 Apr 09)

2. Duties and Responsibilities:
   2.1. Plans, directs, and conducts historical research projects. Develops procedures to prepare studies. Assures completeness and accuracy in research, and clarity and relevance in writing. Ensures satisfactory rates of progress toward completion. Ensures studies preserve focus in areas intended.
   2.2. Screens files and databases. Analyzes, selects, preserves, and organizes key documentation. Indexes material for retrieval and research.
   2.3. Performs historical research and writing. Gathers evidence through interviews and examination of materials in archives and files. Analyzes and evaluates data, and develops meaningful conclusions. Prepares narrative history or report. Assists in final editing and production before publication.
   2.4. Administers command or unit historical program. Serves as historical staff advisor to commander. Develops policies and plans for preparing periodic histories and other historical publications. Prepares periodic command or unit history. Details activities and problems in operations, logistics, management, and administration. Plans and operates historical reference collection, and organizes microfilm program for preserving documents. Guides historical activities of lower units, critiques their historical products, and makes staff assistance visits.
   2.5. Contributes to staff actions and studies. Prepares historical inputs for use by staff officers and study groups. Develops sources of historical information through contact with personnel active in primary research area.
   2.6. Provides historical information. Consults historical literature and records to provide information for officials and members of the general public.
   2.7. Directs and conducts oral history collection. Plans oral history program, and supervises scheduling, conducting, and preserving of recorded interviews of significant historical events. Prepares for and conducts interviews.
   2.8. Serves as historian with Air Force or Joint service task forces. Deploys to theaters of operation as member of Contemporary Historical Examination of Current Operations team or Joint service history team. Acquires documentation, interviews participants, writes eyewitness accounts, and prepares historical reports. Participates in planning and exercises to ensure readiness for team deployment.
   2.9. Reviews historical studies. Critically reviews and comments on historical manuscripts in preliminary draft stage.

3. Special Duty Qualifications:
   3.1. Knowledge. Knowledge is mandatory of: US Air Force organization, mission, history, and role in Joint Service operations; basic organization, roles, and missions of other services; unified command structure; and historical research methods and interviewing techniques.
   3.2. Education. For entry into this SDI, a bachelor’s degree, preferably in history or social sciences, is mandatory.
   3.3. Training. Not used.
   3.4. Experience. Not used.
   3.5. Other. The following are mandatory for award and retention of this SDI:
      3.5.1. Demonstrated ability to write competently, precisely, and descriptively.
      3.5.2. Specialty requires routine access to Top Secret material or similar environment. For award and retention of SDI 84H0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.
UNITED STATES AIR FORCE HONOR GUARD

(Changed 31 Oct 06)

1. Special Duty Summary. Manages and directs activities of the U.S. Air Force (USAF) honor guard including recruiting, training, and commanding troops for official ceremonies, parades, and other diverse ceremonial functions and military honors as directed. Ceremonies include Armed Forces full honor arrival ceremonies conducted at the White House for the President and foreign heads of state, Joint Service and Air Force ceremonies, USAF precision rifle drill team exhibitions, and Joint Service and Air Force funerals at Arlington National Cemetery and in the national capital region. Related DoD Occupational Group: 270800.

2. Duties and Responsibilities:

2.1. Plans and organizes USAF honor guard activities. Determines requirements for ceremonial participation within the Washington DC area. Plans and establishes training programs, including marching drills, manuals of arms training, individual and group instruction, and military training. Organizes and supervises training of the USAF precision rifle drill team and various specialty details, including color bearers, firing part members, and pallbearers. Determines personnel requirements for honor guard activities, including supply, orderly room, unit armory, dormitory management, and initial and continuation training. Responsible for planning for and acquiring equipment, supplies, space, and other facilities required for honor guard functions. Determines funds needed to support unit activities, and prepares budget justification. Develops, reviews, and improves work methods and procedures. Establishes performance standards and evaluates the initial and continuing qualification of honor guard personnel.

2.2. Directs USAF honor guard activities. Directs operation of the honor guard in military and quasi-military formations, including formal arrival ceremonies, military reviews, parades, memorial ceremonies, funerals, military and government functions, and military honors directed by Headquarters (HQ) USAF. Supervises training of honor guard personnel in technical aspects, functions, and movements of marching formations and specialized ceremonial details. Included are color teams; firing parties; pallbearers; manuals of arms; flag staff manuals; operation of orderly room, supply, dormitory, and weapons armory; and monitoring the status of equipment and weapons maintenance. Inspects honor guard activities to determine adequacy of training, technical performance, and operation of the orderly room, supply section, unit training, dormitory management, and weapons armory. Recommends action to correct deficiencies.

2.3. Coordinates USAF honor guard activities. Advises commander on the capabilities and use of the honor guard. Coordinates with staff offices such as the Military District of Washington for Air Force participation in Joint Service ceremonies; manpower; comptroller; public affairs; mortuary affairs to support funerals; and personnel to plan honor guard activities. Coordinates requests for honor guard support with interested agencies and higher authority to accomplish unit mission objectives.

2.4. Performs in USAF honor guard ceremonial functions. Functions as commander-of-troops, escort officer, Air Force member of Joint Service Honor Guard staffs, officer-in-charge of Air Force funerals and ceremonies, commander-of-troops for ceremonies at the Tomb of the Unknown Soldier, commander of Air Force military functions and formations involving the honor guard, and as directed by HQ USAF. Advises others as an authority on military ceremonies, functions, and policies in both Air Force and Joint Service ceremonies.

3. Special Duty Qualifications:

3.1. Knowledge. Knowledge is mandatory of: military customs and courtesies; unit administration; and organizations, mission, and functions of the USAF Honor Guard.

3.2. Education. Not used.

3.3. Training. Not used.

3.4. Experience. Not used.
3.5. Other. The following are mandatory for award and retention of this SDI:
3.5.1. Must present an impeccable appearance.
3.5.2. Minimum applicant height is 5’10” for males and 5’6” for females. Measurement for height must be accurate and verified by applicant’s Commander.
3.5.3. If glasses are required, must be able to wear contact lenses.
3.5.4. Erect in posture, and able to stand for long periods of time.
3.5.5. Qualification criteria according to DoD 5200.2-R/AFPD 31-5, *Investigations, Clearances, and Program Requirements*.
3.5.6. Specialty requires routine access to Top Secret material or similar environment. For award and retention of SDI 85G0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, *Personnel Security Program Management*.
OPERATIONS MANAGEMENT

1. Special Duty Summary. Conducts operations training and scheduling; develops operational plans and programs; manages tactical deception activities; and provides commanders and staff with assessment of operations effectiveness. Interprets and disseminates inspection results and recommends action to correct deficiencies and improve performance. Related DOD Occupational Group: 220700.

2. Duties and Responsibilities:
   2.1. Develops operational training plans and evaluates effectiveness of training programs. Supervises academic and military training of crew members to ensure certification, adequacy of instruction, proper briefing procedures, and adequacy of weather, navigation, and communications facilities. Coordinates training programs with staff agencies; conducts critiques on training programs; develops procedures for improving operations; and advises commander on status of operational training programs. Analyzes and evaluates training programs, reports, and status charts to determine effectiveness, and ensures compliance with governing directives.
   2.2. Develops operational plans and organizes operational programs. Interprets and translates policy from higher authority into specific guidance for operations. Develops operational concepts, translates support missions into force requirements, establishes procedures, and monitors plans and programs to implement Air Force, joint, and combined operations. Coordinates with other agencies to identify shortfalls and limiting factors affecting operational plans. Drafts exercise plans. Reviews and coordinates final exercise directives. Evaluates and analyzes operational exercise plans to determine unit operating effectiveness.
   2.3. Manages inspection programs and evaluates operations effectiveness. Serves as the inspector general point of contact and acts as command monitor for inspection reports and special interest items. Inspects units and activities for compliance with directives and standardization of operation. Manages the base exercise evaluation team program. Monitors readiness of communications, logistics, personnel, and other support functions directly affecting unit mission. Assists in planning, executing, evaluating, and critiquing base-wide emergency and contingency exercises. Develops exercise objectives and scenario events list. Debriefs exercise participants and publishes written reports.

3. Special Duty Qualifications:
   3.2. Education. For entry into this special duty, an undergraduate degree in business administration, personnel management, or aviation management is desirable.
   3.3. Training. Not used.
   3.4. Experience. Not used.
   3.5. Other. Not used.
COMMAND AND CONTROL

2. Duties and Responsibilities:
   2.1. Operates and monitors voice and electronic communication systems. Maintains, monitors, and ensures communications systems integrity and readiness status. Monitors installation upgrades and modifications of communication systems and facilities.
   2.2. Directs C2 activities. Briefs commander and staff, prepares situation updates, and develops graphic displays. Monitors special instruction issues and classified materials related to emergency action (EA) requirements. Receives, controls, uses, and destroys communication security materials. Prepares C2 records, reports, schedules, correspondence, and recurring training requirements. Observes and evaluates C2 programs and personnel.
   2.3. Initiates emergency staff actions. Ensures execution of operations plans and positive control of assigned weapon systems. Processes EA messages, extracts pertinent information from emergency war order, and transmits instructions to launch and execute forces. Initiates contingency and operations plans in response to emergency situations. Coordinates with other agencies to expedite traffic movement, airlift, and resource deployment. Reports on status of forces.
   2.4. Plans, organizes, and coordinates C2 activities. Translates directives into specific guidance for unit action. Coordinates with other agencies when planning, evaluating, and executing C2 orders and operations. Evaluates qualifications of C2 personnel. Reviews operational reports, interprets inspection results, and recommends corrective actions. Develops plans for emergency and contingency activities.
   2.5. Analyzes and monitors management data requirements. Controls work flow and checks methods used to process and audit data used in C2 reporting systems. Reviews data for accuracy and conformance with prescribed procedures. Analyzes management data needs and defines data requirements.

3. Special Duty Qualifications:
   3.2. Education. For entry into this special duty, an undergraduate degree in business, communications, or aviation is desirable.
   3.3. Training. Not used.
   3.4. Experience. Not used.
   3.5. Other.
   3.5.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of SDI 86P0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management is mandatory.
1. **Special Duty Summary.** Plans, directs, conducts, and manages all Wing Inspector General (IG) programs. Provides policy guidance, procedures, planning, oversight, and direction for implementing the Air Force Inspection System, Complaints Resolution Program, and Fraud, Waste, and Abuse (FWA) Program and the Commanders’ Inspection Programs (CCIP) at wing/wing equivalent level. Related DoD Occupational Group: 271200.

2. **Duties and Responsibilities:**
   2.1. Directs, conducts, and leads all Wing IG activities. Operates and manages the Wing Office of the Inspector General, responsible for overall operation, administration, and management of Wing IG inspections, Complaints Resolution, FWA Program, and Commanders’ Inspection Program (CCIP).
   2.2. Organizes IG activities. Develops, establishes, and controls methods and procedures to implement IG policies and programs. Provides oversight and policy guidance concerning IG programs, plans, requirements, management, education and awareness initiatives.
   2.3. Provides IG support. Maintains liaison with MAJCOM/IG and SAF/IG where appropriate to receive, process, refer, and manage Wing Inspection information, resources, assets, and activities to support operation and management of the Air Force’s Inspection and Complaints Resolution and FWA Programs. Certifies Wing IG personnel and evaluates IG programs and activities.

3. **Special Duty Qualifications:**
   3.2. Education. For entry into this SDI, a Master’s degree in management, industrial management, education, psychology, criminal justice, public administration, or business administration with a major in management is desirable.
   3.3. Training. For retention of this SDI, completion of the Air Force Basic Inspector and Installation Inspector General Training Course taught by SAF/IGQ is mandatory. Wing Inspectors General assigned to Nuclear Certified Units must also attend the Air Force Nuclear Inspectors Course.
   3.4. Experience. Previous IG and command experience at the unit, wing or MAJCOM is highly desired.
   3.5. Other. The following are mandatory as indicated:
      3.5.1. For entry into this specialty, recommendation by unit commander.
      3.5.2. For entry and retention of the SDI:
         3.5.2.1. Must meet requirements listed in Chapter 8 of AFI 90-201, *The Air Force Inspection System*.
         3.5.2.2. No Unfavorable Information File, civil convictions (other than minor traffic violations), or open IG investigations.
         3.5.2.3. Demonstrated ability to prepare written reports.
DIRECTOR, WING INSPECTIONS  
(Established 31 Oct 12)

1. Special Duty Summary. Implements, and directs wing Inspector General (IG) inspection activities in support of the Commander’s Inspection Program (CCIP). Provides policy guidance, procedures, planning, and direction for implementing the Air Force Inspection System at their respective FOA/DRU, wing or wing equivalent unit.

2. Duties and Responsibilities:
   2.1. Operates and manages the Wing Inspections Office. Plans, directs, conducts, and monitors Wing IG inspection activities in support of CCIP. Formulates plans and establishes guidance for wing IG inspections and self inspection/assessment programs in compliance with Title 10 USC Section 8583 (Requirement of exemplary conduct).
   2.2. Organizes IG inspection activities. Develops, establishes, and controls methods and procedures to implement Wing IG inspection programs. Provides direction and policy guidance concerning Wing IG inspection programs to subordinate units as well as education awareness and training initiatives for unit members as required.
   2.3. Provides IG inspection support. Maintains liaison with unit-level self assessment monitors and wing inspection team members as well as the MAJCOM/IG. Trains commanders and educates base personnel on IG inspection policies and procedures.
   2.4. Reviews and evaluates Wing inspection programs and activities. Reviews and analyzes methods, procedures, practices, processes, and systems used to accomplish Wing IG inspection activities and functions.
   2.5. Provides training and recommends certification of Wing IG personnel to the Wing Inspector General. Ensures unit members are familiar with the Management Internal Control Toolset (MICT) and the Commander’s Inspection Program (CCIP) as required.

3. Special Duty Qualifications:
   3.2. Education. For entry into this SDI, a Master’s degree in management, industrial management, education, psychology, criminal justice, public administration, or business administration with a major in management is desirable.
   3.3. Training. Completion of the Air Force Basic Inspector Course taught by the Air Force Inspection Agency (AFIA).
   3.4. Experience. Previous IG and command experience at the unit, wing or MAJCOM highly desired.
   3.5. Other. The following are mandatory as indicated:
      3.5.1. For entry into this specialty:
         3.5.1.1. Demonstrated ability to prepare written reports.
         3.5.1.2. Recommendation by unit commander.
         3.5.1.3. No Unfavorable Information File or open IG investigations.
         3.5.1.4. Must meet requirements listed in Chapter 8 of AFI 90-201, The Air Force Inspection System.
      3.5.2. For retention of this specialty, must maintain IG certification IAW AFI 90-201.
DIRECTOR, COMPLAINTS RESOLUTION  
(Established 31 Oct 12)

2. Duties and Responsibilities:

2.1. Plans, directs, conducts, and monitors IG complaints resolution activities. Operates and manages a complaints resolution directorate within the Office of the Inspector General. Responsible for overall operation, administration, and management of IG complaints resolution programs. Formulates plans and establishes guidance and direction for IG investigations; FWA; administration; operation; training; employment; maintenance; supply; resources; complaints processing; compliance with Title 10 USC Section 1034 (Protected communications; prohibition of retaliatory personnel actions); use, denial, and release of IG records; and safeguarding of IG information and materials.

2.2. Organizes IG activities. Develops, establishes, and controls methods and procedures to implement IG complaints resolution policies and programs. Provides direction and policy guidance concerning IG complaints resolution programs, plans, requirements, management, complaint processing, FWA, Whistle Blower protection, records release, congressional inquiries, education and awareness initiatives.

2.3. Provides IG support. Maintains liaison with complainants and those seeking information. Establishes procedures to receive, process, refer, and manage information, resources, assets, and activities to support operation and management of the Air Force’s Complaints and FWA Programs. Advises personnel on IG responsibilities, policies, services, and programs. Conducts and monitors IG activities including complaints processing, FWA, reprisal and military Whistle Blower protection, administrative investigations, improper Mental Health evaluations; restriction; release of IG records and information, and referral services to ensure mission accomplishment. Trains commanders and educates base personnel on IG complaints resolution issues and procedures. Provides assistance and referral services.

2.4. Reviews and evaluates IG complaints resolution programs and activities. Reviews and analyzes methods, procedures, processes, and systems used to accomplish IG activities and functions. Evaluates effectiveness of IG support and office management.

3. Special Duty Qualifications:

3.2. Education. For entry into this SDI, a Master’s degree in management, industrial management, education, psychology, criminal justice, public administration, or business administration with a major in management is desirable.

3.3. Training. Completion of the Air Force Installation Inspector General Training Course taught by SAF/IGQ is mandatory.

3.4. Experience. Previous IG and command experience at the unit, wing or MAJCOM highly desired.

3.5. Other. The following are mandatory as indicated:

3.5.1. For entry into this specialty:

3.5.1.1. Demonstrated ability to prepare written reports.

3.5.1.2. Recommendation by unit commander.

3.5.1.3. No Unfavorable Information File or open IG investigations.

3.5.1.4. Must meet requirements listed in Chapter 1 of AFI 90-301, Inspector General Complaints Resolution.

3.5.2. For retention of this specialty, must maintain IG certification IAW AFI 90-201, The Air Force Inspection System.
AIDE-DE-CAMP

1. Special Duty Summary. Performs primary duty as an aide-de-camp for the Secretary of the Air Force, Chief of Staff of the Air Force, Vice Chief of Staff of the Air Force, Commanders O-8 through O-10, Deputy or Vice Commanders O-8 through O-10 serving at an installation different than the Commander, or General Officers O-8 through O-10 serving outside the Air Force on a case-by-case basis. Related DoD Occupational Group: 270100.

2. Duties and Responsibilities:
2.1. Travels with the Secretary of the Air Force or a general officer authorized an aide-de-camp.
2.2. Performs duties as assigned.

3. Special Duty Qualifications:
3.1. Knowledge. For retention of this SDI, current knowledge of military customs and courtesies, USAF organization, missions, history, and policies is mandatory.
3.2. Education. For entry into this SDI, no specific undergraduate degree is required.
3.3. Training. Not used.
3.4. Experience. Not used.
3.5. Other. The following are mandatory for entry, award, and retention of this SDI:
3.5.1. Impeccable military bearing and appearance.
3.5.2. Demonstrated ability to organize complex projects attested to in performance reports or commander’s recommendation, or both.
3.5.3. Capability and willingness for extensive travel.
3.5.4. Additional qualification criteria for aide-de-camp positions may be found in the electronic bulletin board announcements for aide-de-camp officer assignments.
3.5.5. Specialty requires routine access to Top Secret material or similar environment. For award and retention of SDI 88A0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management.
REPORTING IDENTIFIERS (RI)  
(★ Changed 31 Oct 15) 

Reporting identifiers identify authorizations and individual officers not otherwise identifiable in the classification structure. They do not have specialty descriptions.

1. **90G0 General Officer.** Use this identifier to report the duty and primary AFSC of all officers in the grade of brigadier general or higher, regardless of duty assignment. It is also used to report the duty AFSC of colonels serving in authorized general officer positions. Make retroactive changes in qualifications' records. Related DoD Occupational Group: 210100.

1.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of RI 90G0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management, is mandatory.

2. **91C0 Commander.** Use this identifier to report the duty and primary AFSC of officers serving in Commander positions where use of prefix “C” with a specific functional AFSC (CXXXX), a group commander AFSC (X0C0) or the wing commander (91W0) identifiers is not appropriate. Related DoD Occupational Group: 210200.

3. **91W0 Wing Commander.** Use this identifier to report the duty and primary AFSC of officers serving in Wing Commander positions not authorized a general officer grade. Related DoD Occupational Group: 210200.

3.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of RI 91W0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management, is mandatory.

4. **92J0 Nondesignated Lawyer.** Use this identifier to report the primary and duty AFSC of legal officers serving in staff positions but not designated as Judge Advocates. Related DoD Occupational Group: 250600.

5. **92J1 AFROTC Educational Delay Law Student.** Use this identifier to report the primary and duty AFSC of non-extended active duty Reserve officers who have been commissioned under the AFROTC program and have been granted an educational delay to attend law school before reporting for active duty. Related DoD Occupational Group: 290200.

6. **92J2 Funded Legal Education Program Law Student.** Use this identifier to report the primary and duty AFSC of officers participating in the Funded Legal Education Program. Retain RI 92J2 as 2AFSC or 3AFSC on completion of law school. Related DoD Occupational Group: 290200.

7. **92J3 Excess Leave Law Student.** Use this identifier to report the primary and duty AFSC of law students in excess leave status. Retain RI 92J3 as 2AFSC or 3AFSC on completion of law school. Related DoD Occupational Group: 290200.

8. **92M0 Health Professions Scholarship Program (HPSP) Medical Student.** Use this identifier to report the primary and duty AFSC of a newly commissioned officer in training as a medical student under the Air Force HPSP (AFI 41-110, Applying for Medical School and Medical Programs). Related DoD Occupational Group: 290200.

9. **92M1 Uniformed Services University of Health Sciences (USUHS) Student.** Use this identifier to report the duty and primary AFSC of commissioned officers in training under the School of Medicine Uniformed Services of Health Sciences Program (AFI 41-110). Related DoD Occupational Group: 290200.

10. **92M2 HPSP Biomedical Science Student.** Use this identifier to report the primary and duty AFSC of a newly commissioned officer in training as a biomedical science student under the Air Force Health Professions Scholarship Program (HPSP) (AFI 41-110). Related DoD Occupational Group: 290200.

11. **92R0 Chaplain Candidate.** Use this identifier to report the primary and duty AFSC of all Reserve Chaplain candidates who possess an accredited bachelor's degree and are enrolled as full-time seminarians, or who have completed seminary training and are awaiting ecclesiastical endorsement. Related DoD Occupational Group: 290200.

12. **92S0 Student Officer Authorization.** Use this identifier to identify student authorizations and to report the duty AFSC of an officer attending an Air Force-wide training course conducted by Air University or Air Education and Training Command. Related DoD Occupational Group: 290500.
13. **92T0 Pilot Trainee.** Use this identifier to report the primary and duty AFSC of newly commissioned officers selected for pilot training, and to report the duty AFSC of officers entering Primary-Basic Pilot Training. Related DoD Occupational Group: 290200.

13.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of RI 92T0, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, *Personnel Security Program Management*, is mandatory. **NOTE:** Award without a completed SSBI is authorized provided initial SSBI paperwork has been submitted according to AF 31-501.

**92T1 Combat Systems Officer Trainee.** Use this identifier to report the primary and duty AFSC of newly commissioned officers selected for Combat Systems Officer (CSO) training, and to report the Duty AFSC of officers entering Specialized Undergraduate CSO Training. Related DoD Occupational Group: 290200.

14.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of RI 92T1, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, *Personnel Security Program Management*, is mandatory. **NOTE:** Award without a completed SSBI is authorized provided initial SSBI paperwork has been submitted according to AF 31-501.

15. **92T2 Air Battle Manager Trainee.** Use this identifier to report the primary and duty AFSC of newly commissioned officers selected for Air Battle Manager (ABM) training, and to report the duty AFSC of officers entering Undergraduate ABM Training. Related DoD Occupational Group: 220700.

15.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of RI 92T2, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, *Personnel Security Program Management*, is mandatory. **NOTE:** Award without a completed SSBI is authorized provided initial SSBI paperwork has been submitted according to AF 31-501.

16. **92T3 Remotely Piloted Aircraft Pilot Trainee.** Use this identifier to report the primary and duty AFSC of newly commissioned officers selected for Remotely Piloted Aircraft Pilot (RPA Pilot) training, and to report the duty AFSC of officers entering Undergraduate RPA Pilot Training. Related DoD Occupational Group: 220700.

16.1. Specialty requires routine access to Top Secret material or similar environment. For award and retention of RI 92T3, completion of a current Single Scope Background Investigation (SSBI) according to AFI 31-501, *Personnel Security Program Management*, is mandatory. **NOTE:** Award without a completed SSBI is authorized provided initial SSBI paperwork has been submitted according to AF 31-501.

**17A. 92W0 Combat Wounded Warrior.** *(Change to specialty description only effective 11 May 15).* Air Force Wounded Warrior (as defined in AFI 34-1101, *Air Force Warrior and Survivor Care*) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

**17B. 92W1 Reserved for Future Use.** *(Change effective 11 May 15).* Air Force Wounded Warrior (as defined in AFI 34-1101, *Air Force Warrior and Survivor Care*) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

**17C. 92W2 Combat Wounded Warrior with Exemptions.** *(Change to specialty description only effective 11 May 15).* Air Force Wounded Warrior (as defined in AFI 34-1101, *Air Force Warrior and Survivor Care*) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

**17D. 92W3 Non-Combat Wounded Warrior.** *(Change to specialty description only effective 11 May 15).* Air Force Wounded Warrior (as defined in AFI 34-1101, *Air Force Warrior and Survivor Care*) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.
17E. 92W4 Wounded Warrior – Limited Assignment Status (LAS). (Change effective 11 May 15). Air Force Wounded Warrior (as defined in AFI 34-1101, Air Force Warrior and Survivor Care) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

17F. 92W5 Wounded Warrior - Retired/Discharged. (Change effective 11 May 15). Air Force Wounded Warrior (as defined in AFI 34-1101, Air Force Warrior and Survivor Care) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

17G. 92W6 Reserved for Future Use. (Change effective 11 May 15). Air Force Wounded Warrior (as defined in AFI 34-1101, Air Force Warrior and Survivor Care) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

17H. 92W7 Reserved for Future Use. (Change effective 11 May 15). Air Force Wounded Warrior (as defined in AFI 34-1101, Air Force Warrior and Survivor Care) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

17I. 92W8 Reserved for Future Use. (Change effective 11 May 15). Air Force Wounded Warrior (as defined in AFI 34-1101, Air Force Warrior and Survivor Care) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

17J. 92W9 Reserved for Future Use. (Change effective 11 May 15). Air Force Wounded Warrior (as defined in AFI 34-1101, Air Force Warrior and Survivor Care) for tracking purposes. Update to 2AFSC/3AFSC only. Wounded warrior RIs are not authorized for use as the PAFSC and/or DAFSC for any reason. If the wounded warrior is disqualified from all awarded AFSCs through the AFSC Disqualification process (AFI 36-2101, Chapter 4) the PAFSC will be the appropriate disqualified airman RI (96X0) following disqualification approval by AFPC/DPSIC. Related DoD Occupational Group: 290500.

18. 93P0 Patient. Use this identifier to report the duty AFSC of officers in patient status. Related DoD Occupational Group: 290100.

19. 94N0 Nuclear Weapons Custodian. Use this identifier to report the duty AFSC of a nuclear weapons custodian. Officer provides a capability to supervise custody of nuclear munitions, when required, to ensure compliance with security and safety standards, and to monitor specific functions of munitions loading operations. Officer may serve as a member of a Permissive Action Link Surveillance Team, if required, in which case officer administers a positive control over equipment, assists in weapons checking during Permissive Action Link modification, provides proper security, storage, and maintenance of Permissive Action Link technical equipment as well as performing pertinent inspections. Officer must meet Personnel Reliability Program requirements for a critical position, as outlined in AFI 36-2104, Nuclear Weapons Personnel Reliability Program. Related DoD Occupational Group: 240500.

20. 95A0 Non-EAD USAFR Academy or Civil Air Patrol Liaison. Use this identifier to report the duty AFSC of non-extended active duty Reserve officers who are participating in the Academy and Civil Air Patrol Liaison Programs. Related DoD Occupational Group: 290500.
21. **96A0 Disqualified Officer, Reasons Beyond Their Control.** Use this identifier to report the duty and primary AFSCs of an officer who has lost qualification in a specialty for reasons over which the officer had no control and who possesses no other awarded AFSC. Do not use this RI to identify position authorizations on manpower documents. Related DoD Occupational Group: 290500.

22. **96B0 Disqualified Officer, Reasons Within Their Control.** Use this identifier to report the duty and primary AFSCs of an officer who has lost qualification in a specialty for reasons over which the officer had control and who possesses no other awarded AFSC. Do not use this RI to identify position authorizations on manpower documents. Related DoD Occupational Group: 290500.

23. **96D0 Officer Not Available for Use in Awarded AFSC for Cause.** Use this RI to report the duty AFSC of officers not available to perform duty in an awarded AFSC because of duty status change. Restrict use of this RI to duty status codes 05 (civil confinement more than 30 days), 06 (deserter), 17 (military confinement more than 30 days), or 52 (leave-appellate review). Do not use this RI to identify position authorizations on manpower documents. Related DoD Occupational Group: 290500.

24. **96U0 Unclassified Officer.** Use this identifier to report the duty and primary AFSCs of all officers who have lost qualification in their specialty and possess no other awarded AFSC. This RI does not apply to people eliminated from flying training, technical training, or other formal schools unless those eliminated are placed on medical or legal hold. Placing officers into RI 96U0 does not relieve military personnel flights from message reporting of unprogrammed available officers according to AFI 36-2110, Assignments. Do not use this RI to identify position authorizations on manpower documents. Related DoD Occupational Group: 290500.

25. **96V0 Unallotted.** Use this identifier to report those authorizations within bulk allotments of officer personnel that are not specifically allocated by AFS. Do not use this RI to identify personnel. Related DoD Occupational Group: 290500.

26. **97E0 Executive Officer.** Use this identifier to report the primary and duty AFSCs of officers serving in Executive Officer positions. Officer oversees information management activities for the commander and deputy commander; handles protocol duties as required; implements, directs, and coordinates executive functions, services, and activities; represents the commander in interaction with other agencies of all levels; and is responsible for unit programs and special projects as directed by the commander. 97E0 positions above wing level will be filled by AFPC using a nominative process while 97E0 positions at wing level and below will be filled internally to the wing. Related DoD Occupational Group: 270100.

27. **99A0 Unspecified AFSC.** (Effective 20 Apr 15) This reporting identifier will be used to identify officer Air Expeditionary Force/Temporary Duty (AEF/TDY) requirements in JOPES and DCAPES that do not require a specific AFSC, however will not to be used to identify any 365-day Extended Deployment requirements. In addition, this RI is not authorized for use as an authorized AFSC on a unit manpower document position. This RI is not eligible for award as P/2/3 AFSC or DAFSC under any circumstance. Related DoD Occupational Group: 290500.

28. **99G0 Gold Bar Diversity Recruiter.** (Effective 5 June 2013) Use this identifier to report the duty and secondary or tertiary AFSC of officers participating in recruiting duties as assigned through the Air Force Reserve Officer Training Corps Gold Bar and United States Air Force Academy Diversity Recruiter programs. These officers are serving on active duty to enhance the commissioning opportunities for minority students. This reporting identifier is not authorized for use on UMD manpower positions. Related DoD Occupational Group: 270300.
Appendix A

CIP Education Matrices
(Changed 31 Oct 15, ★ Effective 26 Feb 15, ★ ★ Effective 5 Mar 15)

1. Description of CIP Education Matrix:
1.1. The Classification of Instructional Programs (CIP) provides a taxonomic scheme providing accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000. For more information on CIP codes and descriptions, visit http://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55. By using CIP codes, each AFS can define, specifically, entry education requirements for the career field. CIP codes and associated descriptions are based on a tiered structure. An officer’s education must be mapped to a CIP code and then used for accession into an AFS.

1.2. CIP Education Matrix Rule set.
1.2.1. For entry into the AFS, it is mandatory that an officer accession meet at least one of the tiers listed in the CIP matrix for the AFS in which they are to be accessed. Each AFS has a different set of requirements and tier structure. If an officer doesn’t meet any of the tier requirements in the matrix, they are not qualified to enter the AFS. Each tier in the matrix contains definitions for the following: target accession rates, CIP codes and associated descriptions of the CIP codes, and requirement type for entry in the AFS tier.

1.2.2. Target Accession Rates are defined in each AFS’s CIP Education Matrix. Tier 1 target accession rates are generally the largest because the desired population for each AFS should be a tier 1 officer. Tier 2 and tier 3 target accession rates follow suit. There are some AFSs which have only one tier due to the strict educational entry requirements. 61CXN and 61DXN have only one tier defined with target accession rates for these AFSCs being 100%. When distributing officer accessions across the education needs of all AFSs, tier 1 requirements are considered first until the pool of available accessions with matching education has been exhausted. Tier 2 accessions will then be considered, then tier 3, and so on. When the remaining accessions do not match tier requirements for a specific AFS, the career field will stop accessing new officers for the year and the remaining accessions will enter other AFSs with more compatible education requirements.

Note: The primary feeder degree for 61A Career Field is Operations Research. Ideally, a significant majority of 61As would access with this degree. The degrees in Tier 2 are close affiliates to the Operations Research degree and some 61A positions have Advanced Academic Degree requirements in these specialties (especially Mathematics and Statistics). Tier 3 “Permitted” degrees have a limited affiliation with Operations Research, but have a desired technical aptitude or complimentary skill set.

Section III
OFFICER SPECIAL EXPERIENCE IDENTIFIERS

Introduction
(Changed 31 Oct 15)

1. Special Experience Identifiers (SEI). SEIs complement other classification tools to provide the means to record and retrieve specific experience and training to satisfy management needs. Requests to establish, delete, or revise SEIs are according to the Air Force Career Field Managers’ Guide available at the AF Personnel Services web site.

2. The Alphanumeric Structure. The officer SEI is a three-character alphanumeric code, consisting of an activity code (first character) and an experience set (last two characters). The activity code identifies possible activities performed in a variety of utilization fields. Section III-A lists activity codes and definitions. An experience set identifies a particular system, level of experience, or the type of experience. Section III-B contains authorized experience sets. Activity codes may be used with any experience set to form a SEI.

3. Use of SEIs. SEIs provide a method to quickly screen the officer database for specific experience, and SEIs may be used in the officer assignment process. Interaction of activity codes with experience sets and the broad application guidelines relating to AFSC-SEI relationship (no AFSC constraints) provide assignment officers the capability for finite identification of experience, training, and qualifications to use in meeting management needs.

4. Functional Users and Manpower Responsibilities. Over 46,000 separate SEI codes are possible in the officer SEI program when combining the Activity Code and Experience Set. The size of such a system, coupled with no MilPDS edits on officer SEIs to any particular AFSC, limits ability of any single agency to control placement of SEIs on unit manpower documents. Functional users are the most important link in the success of the officer SEI program, and benefit most by the SEI program. Functional users must frequently review each position under their areas of responsibility to determine appropriateness of identifying positions by SEI. Using the following criteria may be helpful: Is the officer filling the position gaining special experience identified by a current SEI in this instruction? Does the position require special experience identified by a current SEI? If the answer to either of these questions is yes, then coding the position with the SEI is appropriate.

5. Award and Withdrawal of Officer SEIs. Unit commanders award SEIs and the servicing MPS updates MilPDS. SEIs are awarded when an officer has completed the qualification criteria listed in this attachment for a particular experience set. The process for awarding and requesting withdrawal of an SEI is contained in the Personnel Services Delivery (PSD) Guide—SEI Process. An SEI may be withdrawn because of loss of qualification for award (loss of security clearance, medical disqualification, and so forth). An SEI is automatically withdrawn during the AFSC Conversion cycle when its component activity code or experience set is removed from the inventory of available SEIs.

LIST OF OFFICER AFSCs AUTHORIZED FOR USE WITHOUT SHREDOUTS
(Changed 31 October 2013)

The following officer AFSCs may be used without shredouts when required to reflect manpower authorizations and to identify and report officers qualified in basic AFSCs. All other AFSCs for which shredouts have been established will not be used without shredout unless specifically authorized by HQ AFPC/DPSIC.
